TENDERS ARE INVITED for the provision of Aircraft and equipment for the aerial application of insecticide for a two year programme aimed at eradication of Tsetse fly from Northern Botswana during the period 1981/82.

THE CONTRACT will in the first year (1981) be for coverage of an area of approximately 7,200 sq. km of the Kwando/Linyanti river complex, the area to be sprayed five times at intervals of 12 – 18 days, intervals depending on temperature and determined by the Chief Tsetse Officer.

Spraying will commence at the end of July and must be completed by mid – October.

THE SECOND YEAR will cover an area of approximately 28,000 sq km of the Okavango Delta. The area must be covered five times in the same period and using the same intervals as the previous year. The operation should be completed in approximately 2000 flying hours and will require a minimum of four aircraft with full back up.
