st not to be
red in register.

5. The register kept under this Ordinance shall at all convenient times be open to the inspection of the public, subject to the provisions of this Ordinance or to such regulations as may be prescribed; and certified copies of any entry in any such register shall be given to any person requiring the same on payment of the prescribed fee.

Registrable Trade Mark

6. A Trade Mark must be registered in respect of particular goods or classes of goods.

The applicant shall, in his application, state goods included in one class only. If the applicant desires to register the same mark for goods falling in more than one class, he shall make a separate application in respect of each class and each of such applications shall be treated for all purposes as a separate and distinct application and the entries on the register in pursuance of such applications shall for all purposes, be deemed to relate to separate and distinct trade marks.

7. A registrable trade mark must contain or consist of at least one of the following essential particulars.—

- (1) The name of a company, individual, or firm represented in a special or particular manner;
- (2) The signature of the applicant for registration or some predecessor in his business;
- (3) An invented word or invented words,
- (4) A word or words having no direct reference to the character or quality of the goods, and not being according to its ordinary signification a geographical name or a surname,
- (5) Any other distinctive mark, but a name, signature or word or words, other than such as fall within the descriptions in the above paragraphs (1), (2), (3), and (4), shall not, except by order of the Court, be deemed a distinctive mark:

For the purposes of this Section "distinctive" shall mean adapted to distinguish the goods of the proprietor of the trade mark from those of other persons.

In determining whether a trade mark is so adapted the Court may, in the case of a trade mark in actual use, take into consideration the extent to which such user has rendered such trade mark in fact distinctive for the goods with respect to which it is registered or proposed to be registered.

Provided always that any mark which has been registered as a distinctive mark in the United Kingdom under the Trade Marks Act 1905, shall be deemed to be a distinctive mark for the purpose of this Ordinance.

8. A trade mark may be limited in whole or in part to one or more specified colours, and in such case the fact that it is so limited shall be taken into consideration by any Tribunal having to decide on the distinctive character of such trade mark. If and so far as a trade mark is registered without limitation of colour it shall be deemed to be registered for all colours.

9. (1) It shall not be lawful to register as a trade mark or part of a trade mark any matter, the use of which would by reason of its being calculated to deceive or otherwise be disentitled to protection in a Court of Justice, or would be contrary to law or morality, or any scandalous design.
- (2) No trade mark shall be registered for any goods set forth and included in classes 23, 24, and 25 of the third part of the Schedule hereto unless such trade mark has been and is registered in the United Kingdom in respect of such goods.

Registration of Trade Marks

10. (1) Any person claiming to be the proprietor of a trade mark may by himself or his agent apply to the Registrar for the registration thereof.
- (2) The application must be made in the prescribed form, and must be accompanied by not less than three representations of the trade mark and by a stereotype block of such representation.
- (3) The applicant must state the particular goods or classes of goods in connection with which he desires his trade mark to be registered.
- (4) The application must be left with or sent by post to the Registrar.
- (5) The date of the delivery or receipt of the application shall be endorsed thereon and recorded in the Registrar's Office.
- (6) When an applicant for the registration of a trade mark or an agent does not reside or carry on business in the Protectorate he shall give the Registrar an address for service in the Protectorate and if he fails to do so the Registrar may refuse to proceed with the application until the address has been given.

ction in regard
application

11. (1) Subject to the provisions of this Ordinance the Registrar may refuse such application as aforesaid, or may accept it absolutely or subject to conditions, amendments or modifications.
- (2) In case of any such refusal or conditional acceptance the Registrar shall, if required by the applicant, state in writing the grounds of his decision and the materials used by him in arriving at the same, and such decision shall be subject to appeal to the Court.
- (3) An appeal under this section shall be made in the prescribed manner, and on such appeal the Court shall, if required, hear the applicant and the Registrar, and shall make an order determining whether, and subject to what conditions, amendments, or modifications, if any, the application is to be accepted.

Advertisement of
application

12. When an application for registration of a trade mark has been accepted, whether absolutely or subject to conditions, the Registrar shall, as soon as may be after such acceptance, cause the application as accepted to be advertised in the "Official Gazette." Such advertisement shall set forth all conditions subject to which the application has been accepted

Opposition of regis-
tration

13. (1) Any person may, within three months, or such further time, not exceeding nine months in all as the Registrar shall allow from the date of the advertisement of an application for the registration of a trade mark, give notice to the Registrar of opposition to such registration.

Notice

- (2) Such notice shall be given in writing in the prescribed manner, and shall include a statement of the grounds of opposition.

Counter-statement,

- (3) The Registrar shall send a copy of such notice to the applicant, and within one month after the receipt of such notice, or such further time, not exceeding three months in all, as the Registrar may allow, the applicant shall send to the Registrar, in the prescribed manner, a counter-statement of the grounds on which he relies for his application, and, if he does not do so, he shall be deemed to have abandoned his application.

Copy of counter-
statement to party
opposing

- (4) If the applicant send such counter-statement, the Registrar shall furnish a copy thereof to any person giving notice of opposition, and shall require him to give security in such manner and to such amount as the Registrar may require for such costs as may be awarded in respect of such opposition, and if such security is not given within fourteen days after such requirement was made or such further time as the Registrar may allow, the opposition shall be deemed to be withdrawn.
- (5) If the person who gave notice of opposition duly gives such security as aforesaid, the Registrar shall inform the applicant thereof in writing, and thereafter the case shall be deemed to stand for the determination of the Court.
- (6) Where the opponent is out of the Protectorate he shall, with notice of opposition to registration, give the Registrar an address for service in the Protectorate.

Cases how brought
before the Court,

14. (1) When a case stands for the determination of the Court under the provisions of the last preceding Section, the Registrar shall require the applicant to make a written application to the Court for an order that, notwithstanding the opposition of which notice has been given, the registration of the trade mark be proceeded with by the Registrar, or to take such other proceedings as may be proper and necessary for the determination of the case by the Court.
- (2) The applicant shall thereupon make his application or take such other proceedings as aforesaid, within the period of one month or such further time as the Registrar may allow, and shall also within the like period give notice thereof to the Registrar
- (3) If the applicant shall fail to make such application or to take such other proceedings of which failure the non-receipt by the Registrar of the said notice shall be sufficient proof, the applicant shall be deemed to have abandoned his application.

Powers of the Court

15. (1) The Court shall have power in proceedings under the last two preceding Sections to award to any party such costs as it may consider reasonable and to direct how and by what parties they are to be paid.

- (2) The Court shall, if required, hear the parties and the Registrar, and shall make an order determining whether, and subject to what conditions, if any, registration is to be permitted
- (3) The Court may permit the trade mark proposed to be registered to be modified in any manner not substantially effecting the identity of such trade mark, but in such case the trade mark as so modified shall be advertised in the "Official Gazette" before being registered

16 If a trade mark contains parts not separately registered by the proprietor as trade marks, or if it contains matter common to the trade or otherwise of a non-distinctive character, the Registrar or the Court, in deciding whether such trade mark shall be entered or shall remain upon the register, may require, as a condition of its being upon the register, that the proprietor shall disclaim any right to the exclusive use of any part or parts of such trade mark, or of all or any portion of such matter, to the exclusive use of which they hold him not to be entitled, or that he shall make such other disclaimer as they may consider needful for the purpose of defining his rights under such registration. Provided always that no disclaimer upon the register shall affect any rights of the proprietor of a trade mark except such as arise out of the registration of the trade mark in respect of which the disclaimer is made.

17 When an application for registration of a trade mark has been accepted and has not been opposed, and the time for notice of opposition has expired, or having been opposed, the opposition has been decided in favour of the applicant, the Registrar shall, unless the Court otherwise direct, register the said trade mark, and the trade mark, when registered, shall be registered as of the date of the application for registration, and such date shall be deemed for the purposes of this ordinance to be the date of registration.

18 The Registrar shall have a seal and on the registration of a trade mark he shall issue to the applicant a certificate in the prescribed form of the registration of such trade mark under the hand and seal of the Registrar.

19 Where registration of a trade mark is not completed within twelve months from the date of the application by reason of default on the part of the applicant, the Registrar may, after giving notice in writing of the non-completion to the applicant or to his agent (if any), treat the application as abandoned unless it is completed within the time specified in that behalf in such notice.

Identical Trade Marks

20 Except by order of the Court or in the case of trade marks in use before the coming into operation of this Ordinance, no trade mark shall be registered in respect of any goods or description of goods which is identical with one belonging to a different proprietor which is already on the register with respect to such goods or description of goods, or so nearly resembling such a trade mark as to be calculated to deceive.

21 Where each of several persons claims to be proprietor of the same trade mark or of nearly identical trade marks, in respect of the same goods or description of goods, and to be registered as such proprietor, the Registrar may refuse to register any of them until their rights have been determined by the Court, or have been settled by agreement in a manner approved by him.

22 In case of honest concurrent user or of other special circumstances which, in the opinion of the Court, make it proper to do so, the Court may permit the registration of the same trade mark, or of nearly identical trade marks, for the same goods or description of goods by more than one proprietor subject to such conditions and limitations, if any, as to mode or place of user or otherwise as it may think it right to impose.

Assignment.

23 A trade mark when registered shall be assigned and transmitted only in connection with the goodwill of the business concerned in the goods for which it has been registered and shall be determinable with that goodwill.

24 In any case where from any cause, whether by reason of dissolution of partnership or otherwise, a person ceases to carry on business, and the goodwill of such person does not pass to one successor but is divided, the Registrar may (subject to the provisions of this Ordinance as to associated trade marks,) on the application of the parties interested, permit an apportionment of the registered trade marks of the person among the persons in fact continuing the business, subject to such conditions and modifications, if any, as he may think necessary in the public interest. Any decision of the Registrar under this Section shall be subject to appeal to the Court.

Associated Trade Mark

Associated trade marks

25 If application be made for the registration of a trade mark so closely resembling a trade mark of the applicant already on the register for the same goods or description of goods as to be calculated to deceive or cause confusion if used by a person other than the applicant, the tribunal hearing the application may require as a condition of registration that such trade marks shall be entered on the register as associated trade marks

Combined trade marks

26 If the proprietor of a trade mark claims to be entitled to the exclusive use of any portion of such trade mark separately he may apply to register the same as separate trade marks. Each such separate trade mark must satisfy all the conditions and shall have all the incidents of an independent trade mark, except that when registered it and the trade mark of which it forms a part shall be deemed to be associated trade marks and shall be entered on the register as such, but the user of the whole trade mark shall for the purposes of this Ordinance be deemed to be also a user of such registered trade marks belonging to the same proprietor as it contains

Series of trade marks

27 When a person claiming to be the proprietor of several trade marks for the same description of goods which, while resembling each other in the material particulars thereof, yet differ in respect of —

- (a) Statements of the goods for which they are respectively used or proposed to be used, or
- (b) Statements of number, price quality, or names of places, or
- (c) Other matter of a non-distinctive character which does not substantially affect the identity of the trade mark, or
- (d) Colour,

seeks to register such trade marks, they may be registered as a series in one registration. All the trade marks in a series of trade marks so registered shall be deemed to be, and shall be registered as, associated trade marks

Assignment and user of associated trade marks

28 Associated trade marks shall be assignable or transmissible only as a whole and not separately, but they shall for all other purposes be deemed to have been registered as separate trade marks. Provided that where under the provisions of this Ordinance user of a registered trade mark is required to be proved for any purpose, the tribunal may, if and so far as it shall think right, accept user of an associated registered trade mark, or of the trade mark with additions or alterations not substantially affecting its identity as an equivalent for such user

29 The registration of a trade mark shall be for a period of fourteen years, but may be renewed from time to time in accordance with the provisions of this Ordinance

Renewal of registration

30 The Registrar shall on application made by the registered proprietor of a trade mark in the prescribed manner and within the prescribed period, renew the registration of such trade mark for a period of fourteen years from the expiration of the original registration or of the last renewal of registration, as the case may be, which date is herein termed, 'the expiration of the last registration'
