GENERAL NOTICE No. 27.

DEPARTMENT OF AGRICULTURE.

LOCUST REPORT—3RD JANUARY, 1929.

Suk-Turkana.—Destruction continuing; large areas of hoppers cleaned up. Aberitt clear, Chepropo clear; Kateruk huge patches destroyed, eggs being dug up; hoppers in third moult. Two swarms flew over Kateruk last week, heading north-west. Staff in this area has been doubled.

Kerio.—Large swarms in Njemps Kidogo, also near Lake Hannington and near Pakka. Mature flying locusts have been observed east of Lake Hannington near Pakka, below Kabarnet, and near Marrigat. Operation report not yet to hand.

Northern Frontier.—Hoppers in all stages are in the area between Lake Rudolph and Marsabit Mountain. Action has been taken, but the area is 25,000 square miles in extent, and thinly populated.

Kitui.—Work is proceeding rapidly, but the infestation is most severe. The enthusiasm of the natives remains unabated.

Voi.—A personal visit was paid to this area, and effective action is being taken at all points. Another very large hopper swarm has been located.

Coast.—Work continuing on organised lines.

Masai.—No hoppers as yet.

There are seventy Locust Officers in the field. In the past two months over 1,500 locust pumps, 32 tons of arsenic, 24 lorries (20 of these tank and pump equipped), over 1,000 buckets, several hundred water and poison drums, together with much other equipment has been distributed throughout the native areas of the Colony.

From South Africa one more consignment of 500 pumps and ten tons of arsenic is expected. We have ample stocks of arsenic in hand.

A tour has now been commenced to cover the settled areas, and to set up such organisation in the various districts as is best suited to their needs. This entails an absence of fourteen days from headquarters.

A consignment of flame-throwers from England, and benzine for charges, is expected this month. This apparatus is for use against young flying locusts.

In view of enquiries as to the soundness of extensive planting in settled areas in 1929, farmers are advised not to allow the possibility of a locust invasion to affect their planting programmes for the season.

Deputy Director of Agriculture.
