Provided, fourthly, that where the decree in execution of which a judgment-debtor is arrested is a decree for the payment of money and the judgment-debtor pays the amount of the decree and the costs of the arrest to the officer arresting him, such officer shall at once release him.

(2) The Governor in Council may, by notification in the Gazette, declare that any person or class of persons whose arrest might be attended with danger or inconvenience to the public shall not be liable to arrest in execution of a decree otherwise than in accordance with such procedure as he may direct.

(3) Where a judgment-debtor is arrested in execution of a decree for the payment of money and brought before the Court, the Court shall inform him that he may apply to be declared an insolvent, and that he will be discharged if he has not committed any act of bad faith regarding the subject of the application and if he complies with the provisions of the law of insolvency for the time being in force.

(2) The subordinate Court receiving such warrant or order shall cause the arrest or attachment to be made, and shall inform the Court which issued or made such warrant or order of the arrest or attachment.

4. Section 87 of the Principal Ordinance is hereby repealed and the following section is substituted therefor :—

5 (2) On the issue of such warrant or order the magistrate of the subordinate Court within whose jurisdiction the person to be arrested resides or is found or the property to be attached is situate, as the case may be, shall have power—

20 (a) to endorse and execute such warrant or order ; or

(b) to issue, before such endorsement, a provisional warrant or order for the arrest of the defendant or the attachment of the property upon receipt of such telegraphic or other information as may satisfy him that a warrant or order has been issued :

(4) Where an application is made to a judge of the Supreme Court that any person shall be arrested or that any property shall be attached under any provision of this Ordinance, and where owing to distance or for other sufficient cause the warrant or order cannot be immediately executed, it shall be competent for another judge of the Supreme Court to issue a provisional warrant or order for the arrest of the defendant or the attachment of the property upon receipt of such telegraphic or other information as may satisfy him that a warrant or order has been issued: Provided that a person arrested or property attached under such provisional warrant or order shall be discharged or released from attachment unless the original warrant or order is produced within such time as may seem reasonable.

(5) The judge issuing a provisional warrant under sub-section (4) shall send the person arrested to such place as may be specified in the original warrant unless such person shows cause why he should not be so sent, or unless he furnishes sufficient security for his appearance at such place as aforesaid or for satisfying any decree that may be or may have been passed against him, in either of which cases the judge ordering the arrest shall release him and shall inform the judge by whom the original warrant was issued accordingly."

OBJECTS AND REASONS.

It is considered desirable to amend certain provisions of the Civil Procedure Ordinance, 1924, as follows:—

Clause 2.—It is proposed to extend the scope of section 25 of the Ordinance so as to render it unnecessary for a Court to hear evidence in the cases mentioned before pronouncing judgment.

Clause 3.—Under section 40 (3) of the Ordinance it is obligatory on a Court to inform a judgment-debtor who has been arrested in execution of a decree that he may apply to be declared insolvent, in which case he is entitled to be released from arrest. Under the amendment now proposed the Court will have a discretion in each case as to whether it should so inform the debtor.

Clause 4.—The object of this clause is to facilitate the execution of warrants of arrest and attachment orders.

GENERAL NOTICE No. 784.

DEPARTMENT OF AGRICULTURE.

LOCUST REPORT TO 19TH JUNE, 1929.

Flying Swarms.—Remnants of swarms rapidly dying mainly parasitised may be observed. One small mixed swarm of new pink and old yellow fliers has been recorded. In Tanganyika, one new pink swarm was observed flying in a south-westerly direction. If the behaviour of the flying swarms is similar to that of this time last year moderate flying swarms may be expected from the south within 20 days. Swarms of any dimensions cannot be expected before the end of July.

HOPPER AREAS.

Masai Reserve.—The main infested area is about the Magadi Railway line on which a locust train is now operating. Night operations with the train will be facilitated by the provision of small searchlights.

No new laying areas have been found, and hatching is presumed to be complete.

The area between Lake Ambosili and Lake Magadi is now cleared of hoppers, and the area has been rescouted with negative results. Likewise the area south of Magadi to the border.

The infestation in the Kedong Valley is now under control, one-half of the swarms having been destroyed to date. An extensive sweep is now being organised in the Suswa area to proceed as far to the south as possible. The bait method will have to be used exclusively during this operation.

Generally speaking, although the hopper infestation is still severe in parts, the situation in the Masai Reserve is well in hand. Fourteen officers with 250 natives are operating.

Gilgil-Naivasha.—No report of operations to hand. Hatching should now be complete; every effort will be made to clear up the infestation rapidly, so that staff and equipment may be moved elsewhere. Seven officers with 80 natives are in the area.

Ukamba Reserve.—Operations in the Voi District have been extended, additional staff and equipment having been drafted in. Work which now is mainly along the Athi River, should cease at the end of this month. Five officers employed with a large number of natives.

KERIO PROVINCE.

Baringo.—A number of additional officers have been enrolled in Nakuru for work in the Kamasia-Njemps area to reinforce the work of the eight officers there. Several officers have reported their areas as practically clear.

Elgeyo and Maraquet.—Very good work has been done here, the main infestations having been destroyed. The District Commissioner reports that it is a relief to leave for the hills as the aroma of dead hoppers pervades the whole valley. Staff of five officers is moving towards the infestation on the left bank of the Kerio River.

Suk.—Twenty-two officers with 2,000 natives should have a relatively simple task to clear up the infestation. Work is going on well, hoppers are mainly in the very young stages, and it is estimated the whole district will be cleared in about a month.

The infestation in Karamoja is severe, it is hoped that in the course of events co-operative effort between the administrations in Karamoja and in Suk will enable a proportion of the hoppers to be destroyed.

N. Turkana.—No report received, and communications are slow. Nine officers are there.

S. Turkana.—Hoppers all over the district in bands of quarter of an acre up to 100 acres in extent. A survey of Kapeddo has been arranged from Baringo. Eight officers employed, and destruction proceeding rapidly.

Laikipia.—One officer sent up with truck and equipment. No information to hand from this district, except regarding other areas.

Northern Frontier.—One officer with boys working near Lake Rudolph. It is not intended to place any more staff in this district as the effort there required is out of proportion to the results achieved. The infestation in this area is not so heavy as formerly.

KIKUYU PROVINCE.

Infestation considerably reduced, and operations will cease at the end of this week.

The main layings are in the Rift Valley from Lake Magadi to Lake Rudolph. It is in these areas that the staff is concentrated.
