DEPARTMENT OF AGRICULTURE.

LOCUST REPORT FOR TWO WEEKS ENDING 14-5-30.

No information has been received during the last two weeks as to the presence of locusts in the settled areas; Turkana, Baringo and parts of the Northern Frontier Province are, however, infested with gravid swarms and bands of hoppers, which, although not very extensive, may form the nucleus of future locust inroads.

HOPPERS.

Baringo.—One officer is operating in this district with bran bait. Hopper bands are very scattered.

S. Turkana.—Hoppers are reported to be in considerable numbers in the vicinity of the Suguta River. Natives are destroying the hoppers, but reports indicate that the situation is becoming beyond their control, and that European supervision is necessary.

N. Turkana.—Hoppers will hatch out during the next week in the area between Lake Rudolf and the Kuch mountains.

Northern Frontier Province.—A report from Marsabit states that the administrative headquarters is inundated with hoppers. The District Commissioner is dealing with the situation, and a supply of poison has been despatched from Nairobi.

Masai Reserve.—Owing to lack of communications and unpassable roads no report has been received from the officer operating in this Province.
