DEPARTMENT OF AGRICULTURE.

LOCUST REPORT FOR TWO WEEKS ENDING 27-5-30.

No reports have been received indicating the presence of locusts in any of the settled areas of the Colony, although some damage to native crops by hoppers is reported from the Baringo District. Locust breeding is taking place on a small scale in Turkana and the Northern Frontier Province.

Baringo.—One officer is still operating in this district, and has so far destroyed between 20 and 30 bands of hoppers. The hoppers, although in small bands, are very healthy and quite unaffected by the weather conditions. Owing to the high spate of the Pekera River at Marigat, great difficulties are being encountered in maintaining supplies.

Turkana.—No further information has been received from this Province.

Northern Frontier Province.—A reliable report has been received from a former locust officer as to the presence of two very large bands of hoppers between Merile and Archer's Post on the Marsabit road. He also states that the whole country from Lasamis, and Lake Koroli to Lake Rudolf is infested with flying locusts and hoppers in every instar.

Masai Reserve.—No hoppers or laying areas have been discovered in the southern parts of this Reserve. The locust officer has been recalled.

GENERAL NOTICE NO. 691.

THE CROWN LANDS ORDINANCE.

(Chapter 140 of the Revised Edition)

TENDERS FOR MOMBASA HOTEL PLOT.

TENDERS are invited under the following conditions for the purchase of the grant of an area of 10.5 acres or thereabouts situate on Mombasa Island for the purpose of the erection of an hotel:—

(1) The grant will be issued under the Registration of Titles Ordinance (Chapter 142), and will be for a term of 99 years from the 1st day of October, 1930, and the rent shall be payable from that date.

(2) The rent will be at the rate of £48 per acre per annum.

(3) The premises shall be used for an hotel and ancillary purposes only.

(4) The grantee will be required to have the plot surveyed at his own charge within 6 months of the date of acceptance of his tender.

(5) The grantee will be required to erect an hotel building of stone, burnt brick or concrete within 3 years of the commencement of the term; the sum of not less than £75,000 to be expended upon the main building of the hotel.

(6) No building shall be erected on the plot unless plans, drawings, elevations and specifications thereof shall have been previously submitted to and approved by the Commissioner of Lands or such other persons as he may appoint.

(7) The grantee shall further submit a block plan of the plot with the position of the buildings clearly defined and showing a system of drainage of the surface water on the plot which shall satisfy the Mombasa Municipal Board, and before any building may be occupied the grantee shall satisfy the Board that such system of drainage has been properly constructed.

(8) The grantee shall suitably connect his premises with any town drainage system when, in the opinion of the Mombasa Municipal Board, such drainage scheme is so far completed as to enable the grantee reasonably so to connect.

(9) No subdivision of the plot will at any time be allowed.

(10) The grantee shall within 3 years of the commencement of the term completely enclose the plot with a fence or wall of approved design.

(11) All outbuildings, offices, etc., shall be properly screened from view to the satisfaction of the Commissioner of Lands or such other person as he may appoint, and shall be kept so screened during the term of the lease.

(12) No building may approach within a less distance than 10 feet of the boundary of the plot, and at least one-half of the plot must remain unbuilt upon.

(13) The Director of Public Works or such person as may be appointed for the purpose shall have the right to enter upon the plot and lay and have access to water mains and service pipes,

telegraph or telephone wires and electric mains of all descriptions whether overhead or underground, and the grantee shall not erect any building in such a way as to cover or interfere with any existing routes, main or service pipes or the telegraph or telephone wires and electric mains aforesaid.

(14) The grantee will be allowed to construct at his own expense a sub-way under Links Road to High Water Mark on an alignment to be approved by the Commissioner of Lands.

(15) Reasonable proposals for the construction of bathing pools or other facilities in the vicinity of the plot will be considered by Government.

(16) The grantee will be required to construct at his own expense the road shown on the plan bordering the plot on the north side so as to connect with existing constructed roads.

(17) No tender of less than £1,500 as Stand Premium will be accepted. The amount tendered will be payable in 5 equal annual instalments, the first instalment to be paid within 7 days of the acceptance of the tender, and further instalments to be paid on the 1st January in each succeeding year.

(18) The grantee shall provide guarantees for the due fulfilment of the above conditions.

The highest or any tender will not necessarily be accepted. Tenderers must furnish evidence of financial competency and full information in regard to their proposals for the development of the plot.

2. A plan of the plot may be seen at the office of the District Surveyor, Mombasa, or at the Public Map Office attached to the Survey and Registration Department, Nairobi, or may be obtained on application to either of these offices at the cost of Shs. 3, post free.

If desired a Temporary Occupation Licence will be issued to the grantee over the area A—B shown on the plan, but no buildings will be permitted on this area.

Access to the plot from Golf Course Road across this area A—B will be given, and the grantee will be entitled to construct at his own expense a road connecting the plot with Golf Course Road on an alignment approved by the Mombasa Municipal Board; and such road may be taken over by the Mombasa Municipal Board as a public thoroughfare at any time at the Board's option.

3. Tenders should be submitted in sealed envelopes marked on the outside "Tender for Mombasa Hotel Site" to the District Commissioner, Mombasa, on or before the 21st August, 1930.

Nairobi,
9th May, 1930.

GENERAL NOTICE NO. 458.

FOREST DEPARTMENT.

TENDERS FOR BAMBOO CUTTING RIGHTS FOR THE
MANUFACTURE OF PAPER-PULP.

TENDERS are invited for the exclusive right to cut bamboo for the manufacture of paper-pulp over an area of not less than 50,000 acres in the Kikuyu Escarpment Forest Reserve situated between the edge of the Escarpment above the Uganda Railway from Escarpment to Kijabe, and the Southern Chania River on the following main conditions:—

1. The licence shall be for a period of 20 years, but may be renewed for a further period of 20 years on terms to be agreed between the Conservator of Forests and the licensee.

2. The basis of tender shall be a royalty payment per ton of air-dry unbleached pulp, and no tender of less than two shillings per ton will be accepted, provided that for the first 5 years of the licence no royalty on pulp will be charged.

3. An annual licence fee of £100 in respect of the area shall be paid for the first 5 years, the first payment to be made on the issue of the licence; and thereafter for such succeeding year in advance on the corresponding date, and thereafter a licence fee of £500 to be paid as aforesaid in respect of the sixth and seventh years; £1,000 to be paid as aforesaid in respect of the eighth and ninth years, and £2,000 to be paid as aforesaid for each succeeding year, provided that the licensee shall be entitled to set off against the licence fee paid in any one year the royalties payable for the same year, but in no case shall a less sum than the licence fee be paid to the Conservator of Forests.

4. The licensee shall within the area of the licence or within the adjacent Forest Reserve as may be arranged with the Conservator of Forests, erect and complete a factory and subsidiary buildings for the manufacture of paper-pulp within two years from the date of the licence, and such factory shall thereafter be worked for not less than 120 days in each year in the manufacture of paper-pulp. From and after the expiration of five years from the date of the licence the licensee shall produce an annual out-turn from the said factory of at least 10,000 tons of paper-pulp, and from and after the expiration of ten years from the same date an annual out-turn of at least 20,000 tons of paper-pulp.

5. The Conservator of Forests will reserve for the use of the licensee, areas of forest and plantations as conveniently accessible to the site of the factory as possible, sufficient to supply such reasonable quantity of wood fuel as may be required for the factory. Royalty will be payable on all fuel at the rate of two shillings per 100 stacked cubic feet for rough forest fuel, and four shillings per 100 stacked cubic feet for plantation fuel during the currency of the licence: in the event of the licence being renewed for a further period the royalty on fuel will be based on the market rates current at the time of such renewal.

6. The bamboo forest comprising the licence area will be divided by the Conservator of Forests into compartments arranged in cutting series and the licensee shall completely cut out a compartment before entering the next compartment of the same cutting series.

The order in which the said compartments shall be worked will be laid down by the Conservator of

Forests in consultation with the licensee in a plan of operations so that the whole area may be worked over systematically. The plan of operations will be based on a 15 years' rotation period unless the Conservator of Forests decides after further experience that a reduction of this period is justified. The licensee shall not be at liberty to deviate from the plan of operations so laid down without the previous sanction of the Conservator of Forests.

At the end of each year the licensee shall supply to the Conservator of Forests maps showing the area cut over during the year.

7. The licensee shall keep full and true accounts showing the quantity of bamboos brought into the factory, the quantity of paper-pulp manufactured and in process of manufacture and exported, and shall on the fifteenth day of each month send to the Conservator of Forests in such a form as he may prescribe a true analysis thereof for the month immediately preceding.

The royalty appearing by such statement to be due in respect of the paper-pulp manufactured shall be due and payable on or before the last day of the next succeeding month.

All books of account shall be open to inspection by Government officers who shall be allowed every facility for checking the same.

8. If the licensee shall fail to commence and effect substantial operations in the terms of the licence within a period of 18 months from the date thereof, the licence shall become void.

9. The licence will contain the usual clauses reserving all minerals, prohibiting the use of the land for any purposes other than those of the licence, prohibiting transfer or subletting without prior consent of Government, providing for the due observance of the terms of the Forest Ordinance and all other laws of the Colony, and for cancellation in the event of bankruptcy of the licensee or in the event of breaches of the conditions of the licence if such breaches are not remedied promptly after due notice, protecting water courses from damage or undue interference, etc.

Tenders must be forwarded to the Conservator of Forests, P.O. Box No. 337, Nairobi, Kenya Colony, on or before the 1st January, 1931, and should be marked on the outside of the envelope "Tender for Bamboo." They should be accompanied by evidence of financial resources, adequate for the carrying out of the terms of the licence.

The highest or any tender will not necessarily be accepted.

Tenders from Companies must be accompanied by full information as to their constitution and directorate.

In the event of successful tenderer not taking up his licence within 9 months from the date of notice of acceptance all claims to or in respect thereof shall be deemed to have lapsed absolutely.

Nairobi,
27th March, 1930.

H. M. GARDNER,
Conservator of Forests.

NOTES.

The bamboo forest occupies a comparatively level area between 8,000 and 9,000 feet altitude, the nearest point being about 3 miles from the

Railway down the Escarpment, but 8 miles from the most accessible Railway Station (Uplands), and the farthest point of the area is about 12 miles further. The climate is cold and well suited to Europeans. Uplands Station is 32 miles from Nairobi, and 361 miles from Mombasa.

It is estimated that there is an average of not less than 40 tons of air-dry bamboo per acre, and that the area will give a continuous annual yield of not less than 40,000 tons of dry unbleached pulp.

There is no large river, but numerous small streams intersect the area.

Supplies of limestone in the Colony are rather scattered, the nearest being about 35 miles by rail. The quality varies considerably.

The Railway freight on bamboo pulp to Kilindini Pier in 10-ton lots and over, pressed to 25 lb. or over per cubic foot, loading by sender, is £1-2-9 per ton.

As the result of trials, the Imperial Institute, London, reported that the Kenya bamboo yielded a pulp of good felting properties, which could be readily bleached, and yielded a white paper of good quality. Specimens of the pulp and paper can be seen at the Imperial Institute, S. Kensington, or at the Forest Office, Nairobi.

No tender will be considered unless the prospective tenderer or his representative has investigated the proposition on the spot together with such matters as factory site, transport, water, lime and fuel supply, etc.
