9 Each grantee shall within two years of the commencement of his grant erect buildings which shall conform in architectural design to the amenities of the neighbourhood. The buildings shall be of stone, burnt brick or concrete, on proper foundations, and must be of not less than two stories in height, and of a value of not less than cents 70 per cubic foot of building content.

10 Within twelve months of the commencement of his grant, the grantee shall submit to the Town Clerk, Nairobi, a plan of the building it is proposed to erect, and shall state in writing the period within which the proposed building shall be completely erected, such period to be within a maximum of two years from the commencement of the grant.

11 The Commissioner of Lands, or such other person as he may appoint for the purpose, shall within one month of the approval of the plan by the Nairobi Municipal Council, notify the grantee of his approval or otherwise of the plans, and shall also notify the date by which such buildings shall be erected.

If the erection of the buildings in accordance with the approved plans and specifications be not completed by the prescribed date, the said Commissioner may, on good and reasonable cause being shown, grant such extension as he may deem sufficient, subject to such conditions as he may prescribe.

Provided that if the grantee shall receive no intimation from the Commissioner within one month of the date on which the plans have been approved by the Nairobi Municipal Council, he may proceed with the erection of the building in accordance with the plans submitted, and the Commissioner shall not have the power to cause to be made any alteration or variation in the plan or the date.

12 Subject to the proviso contained in clause 11 hereof, no building shall be erected on the plot unless plans (including a block plan showing the position of the buildings), drawings, elevations and specifications thereof shall have been previously approved by the Commissioner of Lands or such other person as he may appoint. Such plans, etc., shall be submitted in triplicate to the Town Clerk, Nairobi, for necessary action.

13 The grantee may at any time during the currency of the grant redeem up to one half of the rent of the plot on the basis of twenty years purchase.

14 The grantee shall not at any time subdivide the plot or assign any such subdivision without the consent in writing of the Governor

15 At no time during the term of the grant shall the plot or any portion thereof or any building erected on the plot be used for the purpose of carrying on any trade or business which has been or may be declared to be dangerous or offensive by notice in the Official Gazette

16 Verandas may be erected within a road reserve with the previous consent of the Municipal Council and must conform to a building line decided upon by the said Council

17 Under the provisions of section 60 (b) of the Crown Lands Ordinance, the grantee will be re-

quired to pay Municipal rates upon the whole of the rateable interest and Government's contribution in lieu of rates assessed on the plot A clause will therefore be embodied in the grant providing for the necessary adjustment between the grantee and Government

18 The cost of the construction of tar grouted macadam roads, appurtenant drains, murrum sidewalks, and main sewers to the Municipal Council's specification is included in the upset prices of those plots that are not served by constructed roads, and these will be constructed without additional charge to the grantees, when in the opinion of the Municipal Council necessity exists Upon completion of construction maintenance will be undertaken by the Municipal Council
