GENERAL NOTICE No 815

EAST AFRICAN RAILWAYS AND HARBOURS

IMPORTS INTO MOMBASA

IN ORDER to reduce and ultimately to eliminate congestion at the port of Mombasa, a scheme has been introduced with the co-operation of all shipping lines normally using the port for more closely relating the tonnage of imports to the capacity of the port. To operate this scheme an Import Cargo Phasing Committee has been appointed, on which all shipping lines normally using the port, and the port and railway authorities, are represented. This Committee will be provided with full information on the capacity of the port to handle imports month by month and will then decide what tonnages of imports can be accepted each month.

The success of the scheme will depend on strict adherence by all shipping lines to the agreed tonnages which can be accepted. The Administration therefore wishes to advise the public that ships chartered independently to bring in imports outside the agreed tonnages will be subject to grave delay awaiting discharge. The Administration feels sure that it can rely on the shipping lines and importers to co-operate to the fullest extent in the scheme.
