THE ANTI-CORRUPTION AND ECONOMIC CRIMES ACT
(No. 3 of 2003)

REPORT OF ACTIVITIES AND FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR 2008/2009

1. BACKGROUND

1.1 INTRODUCTION

The Kenya Anti-Corruption Commission (KACC) was established under the Anti-Corruption and Economic Crimes Act, 2003 (ACECA) with a mandate to spearhead the fight against corruption through law enforcement, prevention and public education.

The Annual Report outlines and documents the Commission's achievements in implementing its mandate in the 2008/2009 period in line with its Strategic Plan (2006-2009). The Report also highlights the setbacks and challenges faced during the period under review. By providing detailed information on aspects of the Commission's operations, the Report gives an opportunity for the Commission and its stakeholders to reflect upon and analyze these achievements, setbacks and challenges with a view to forging a common and shared understanding and direction in moving the anti-corruption, integrity and ethics agenda forward.

1.2 MANDATE, FUNCTIONS AND STRUCTURE OF THE COMMISSION

1.2.1 Mandate

The mandate of the Commission is to combat corruption and economic crime in Kenya through law enforcement, prevention and public education as stipulated in The Anti-Corruption and Economic Crimes Act, 2003

1.2.2 Functions

The functions of the Commission are specified in Section 7 of the Act as follows:

- (a) to investigate any matter that, in the Commission's opinion, raises suspicion that any of the following have occurred or are about to occur-
 - (i) conduct constituting corruption or economic crime;
 - (ii) conduct liable to allow, encourage or cause conduct constituting corruption or economic crime;
- (b) to investigate the conduct of any person that, in the opinion of the Commission, is conducive to corruption or economic crime;
- (c) to assist any law enforcement agency of Kenya in the investigation of corruption or economic crime;
- (d) at the request of any person, to advise and assist the person on ways in which the person may eliminate corrupt practices;
- (e) to examine the practices and procedures of public bodies in order to facilitate the discovery of corrupt practices and to secure the revision of methods of work or procedures that, in the opinion of the Commission, may be conducive to corrupt practices;
- (f) to advise heads of public bodies of changes in practices or procedures compatible with the effective discharge of the duties of such bodies that the Commission thinks necessary to reduce the likelihood of the occurrence of corrupt practices;
- (g) to educate the public on the dangers of corruption and economic crime and to enlist and foster public support in combating corruption and economic crime;
- (h) to investigate the extent of liability for the loss of or damage to any public property and -
 - (i) to institute civil proceedings against any person for the recovery of such property or for compensation; and
 - (ii) to recover such property or enforce an order for compensation even if the property is outside Kenya or the assets that could be used to satisfy the order are outside Kenya; and
- (i) to carry out any other functions conferred on the Commission by or under this Act or any other law.

1.2.3 Structure

The mandate and functions of commission are executed through the following structures:

(i) The Kenya Anti-Corruption Advisory Board

The Kenya Anti-Corruption Advisory Board (KACAB) is established as an unincorporated body under Section 16 of ACECA. The Board is an independent body answerable only to Parliament. It consists of twelve members nominated by various sectors and interests through civic, religious, professional and business organizations/associations and the Director of the Commission. The Director is also the Secretary of the Board.

The Board's functions are to:

- (a) Advise the Commission generally on the exercise of its powers and the performance of its functions under the Act;
 - (b) Recommend to Parliament persons to be appointed as Director or Assistant Directors of the Commission;
 - (c) Initiate the process of removal from office of the Director or Assistant Directors for specified reasons; and
 - (d) Approve grants and donations to the Commission.
- (ii) The Commission

The Kenya Anti-Corruption Commission is established under Section 6 of the ACECA as a body corporate. It comprises of the Director, Assistant Directors and staff. The Commission has organized its functions into four directorates based on its mandate as follows:

- Investigation and Asset Tracing;
- Legal Services and Asset Recovery;
- Preventive Services; and
- Finance and Administration.

2. INVESTIGATION AND ASSET TRACING

2.1 INTRODUCTION

This section of the Report details the achievements of the Commission on investigation and asset tracing during the period under review. It covers corruption reports received, investigations conducted and assets traced.

2.2 CORRUPTION REPORTING

2.2.1 Corruption Reports

The Commission received 4,335 corruption reports in the FY 2008/09 compared to the 4,485 reports received in 2007/2008. This represents a decline of 3.3 percent. In the period 2006/2007 and 2005/2006 a total of 8,188 and 7,888 reports were received and processed respectively.

The decline in the number of reports may be attributed to the establishment of the Public Complaints Standing Committee (PCSC) which is dealing with issues of maladministration in the public service and the spillover effects of the post December 2007 elections skirmishes.

Out of the reports received in the year under review, 1,270 were within the Commission's mandate and were taken up for action. The rest (3,065 reports) were outside the Commission's mandate and hence were referred to relevant organizations and agencies for appropriate action.

Despite the declining trend of reporting over the last two years, there has been a steady increase of reports within the Commission's mandate. Out of the 4,335 reports that were processed during the period under review, 29 percent were within the Commission's mandate as compared to 25 percent in 2007/2008. In 2006/2007 only 20 percent of the reports contained corruption and economic crimes, while in 2005/2006 those within the Commission's mandate accounted for 15 percent of the 7,888 cases reported.

2.2.2 Nature of Reports

The majority of complaints received during the year were administrative in nature accounting for 28 percent of the total. Other reports comprised: Bribery Cases (16%), Civil Issues (15%), Labour-related (6%), Embezzlement of Public Funds (8%), Abuse of Office (7%) and Others (20%).

2.2.3 Corruption Reports on Individuals and Institutions

Further disaggregation of the reports received by the Commission indicates that 802 were against private individuals while 3,533 were on institutions and persons working within the institutions.

2.3 INVESTIGATIONS

2.3.1 Reports Taken up for Investigations

As a result of the completed investigations during the period under review, a total of 101 suspects were arrested and charged.

2.3.2 Highlights on Investigations

Some of the notable cases investigated by the Commission in the year under review include 13 case files taken to various courts, 7 investigation files completed and forwarded to the Attorney General for direction and 16 reports still under investigation.

It is worth noting that while certain aspects of investigations were completed, there are other aspects of the same investigations that are still ongoing.

2.4 ILLEGALLY ACQUIRED AND UNEXPLAINED ASSETS TRACED

During the period under review the Commission traced illegally acquired assets of an estimated value of KShs.5.61 billion compared to KShs.2.54 billion in the 2007/08 financial year.

2.5 PROACTIVE INVESTIGATION

2.5.1 Disruption of Corruption Networks

The Commission continued to apply a proactive strategy in the detection of unreported corruption and the identification of potential areas for corrupt practices. This approach demonstrates the determination of the Commission to seek out and combat corruption wherever it may be. This strategy has proved effective in uncovering many serious cases of corruption, in both the public and private sectors, which might otherwise have remained unreported.

3. STATUTORY REPORTS TO THE ATTORNEY GENERAL

3.1 INTRODUCTION

Pursuant to the provisions of Section 15 (4)(a) of ACECA, this part of the Report presents information set out in the Quarterly Reports as required under Section 36 of ACECA for the year under review.

Under Section 35 of the ACECA, the Commission is required to report to the Attorney General on the results of investigations. Section 36 on the other hand requires the Commission to prepare Quarterly Reports setting out the number of reports made to the Attorney General and such other statistical information relating to those reports as the Commission considers appropriate.

3.2 QUARTERLY REPORTS

During the period under review, the Commission prepared and published in the Kenya Gazette four Quarterly Reports as required by law. A total of 122 reports on concluded investigations were made to the Attorney General, representing an increase of 9.9 percent over last year's total of 111 reports. Out of these reports, 94 of them, representing 77 percent recommended prosecution of named suspects, 19 of them, representing 15.6 percent recommended closure of the files and 9 representing 7.4 percent recommended administrative action.

3.3 CRIMINAL CASES PRESENTED BEFORE COURT

During the period under review, a total of 76 criminal cases were presented before court.

3.3.1 Investigatory Applications

During the period under review, the Commission filed 173 applications and obtained warrants to investigate bank accounts (133) and search premises of persons or associates of persons suspected of engaging in corruption, economic crime or related offences (40).

4. LITIGATION AND RECOVERY OF ILLEGALLY ACQUIRED PUBLIC AND UNEXPLAINED ASSETS

4.1 INTRODUCTION

This section covers a summary of steps taken during the year in civil proceedings instituted by the Commission for recovery of illegally acquired and unexplained assets as required by Section 15 of ACECA. The Commission in the execution of this function filed suits, preservation and forfeiture applications. The Commission also entered into Out-of-Court settlements and recovered illegally acquired assets.

4.2 RECOVERED PUBLIC ASSETS

The Commission recovered corruptly acquired public assets valued at KShs. 148.31 million through civil court proceedings and Out-of-Court settlements. The properties recovered are located in Nairobi, Nakuru, Tigoni and Kisii. Most of the assets recovered belong to Kenya Agricultural Research Institute (KARI) and the City Council of Nairobi.

4.2.1 On-going Cases for Recovery

During the year, the Commission filed 148 civil cases for recovery of public assets acquired through corruption and economic crime.

4.2.2 Preservation of Suspect Assets

Since inception, the Commission has preserved suspect property by making applications for preservation orders under section 56 of ACECA. However, the Court of Appeal in the case of *Dakane Ali v. 8 CHALLENGES AND WAY FORWARD

8.1 INTRODUCTION

During the period under review, the Commission faced numerous challenges, mainly at the policy, legal and institutional levels. The Commission continued to operate in the absence of a national anti-corruption policy which is necessary in spelling out the broad national direction and focus in the war against corruption and economic crime. The legal framework remained weak in certain aspects, particularly in light of the lack of prosecutorial

powers for the Commission, the numerous constitutional references that have stifled progress in the finalization of cases before court and inability of the Commission to access wealth declarations of key public officials. The main challenges are presented below.

8.2 CHALLENGES

8.2.1 Policy and Legal Framework

The Kenya Vision 2030 and its first Medium Term Plan (2008-2012) recognise the need to have a national anti-corruption policy to provide strategic direction on the fight against corruption and economic crime. The absence of a national strategic direction and focus in the war against corruption has greatly affected coordination and commitment of various public institutions and other stakeholders towards this end.

Furthermore, the lack of a legal framework for Mutual Legal Assistance (MLA), Whistleblower Protection, Anti-money Laundering, Freedom of Information among others has constrained the Commission's work in prevention, investigation and asset recovery.

8.2.2 Judicial Process

The process of adjudication of corruption and civil recovery cases has been slow thus affecting the Commission's performance in the fight against corruption. In addition, frequent transfers of Special Magistrates who preside over Anti-Corruption Courts have further exacerbated the problem.

8.2.3 Adverse Court Decisions

Court decisions in declaring certain provisions of ACECA unconstitutional and stopping some investigations by the Commission have adversely affected the operations of the Commission.

8.2.4 Enforcement of Corruption Prevention Recommendations

The lack of adequate legal powers by the Commission to enforce its corruption prevention recommendations has hampered progress and commitment in securing review of work methods and sealing corruption loopholes in public bodies whose policies, systems, procedures and practices of work have been examined by the Commission and found to be prone to corruption.

8.2.5 Regional Presence

There has been increased public pressure for the Commission to extend its services to the people at the community level. However, the Commission has not been able to meet this need due to inadequate resources.

8.3 WAY FORWARD

8.3.1 KACC Strategic Plan 2009-2012

The year under review marked the end of the Commission's first Strategic Plan (2006-2009). Consequently the Commission embarked on the end-term review of the Strategic Plan and preparation of the second Strategic Plan (2009-2012) in line with the Vision 2030 and its first Medium Term Plan (2008-2012).

8.3.2 Construction of KACC Headquarters

During the period under review, the Commission commenced the process of constructing its headquarters. Once completed, the headquarters will provide adequate office space for the Commission's staff and operations.

8.3.3 Commission Outreach

The Commission will enhance its regional presence through community outreach programmes. These programmes will involve corruption reporting, provision of advisory services, awareness creation and enlisting public support at the grassroots level.

8.3.4 Commission Service Charter

In the year under review, the Commission developed and operationalized its Service Charter which sets quality service levels and commitment on the part of the Commission to meet the expectations of its customers. The Commission will use the Service Charter to enhance engagement with and receive feedback from its customers in relation to service delivery.

8.3.5 Enhancing Commission's Effectiveness

The Commission will lobby the relevant institutions to seek to enhance the Anti-Corruption Legal Framework with a view to:

- (i) Anchor the Commission in the Constitution with necessary independence and powers.
- (ii) Provide in the Constitution that fundamental rights and freedoms of the individual are subject to the public interest of detecting and investigating crime.
- (iii) Grant the Commission powers to charge and prosecute persons suspected of corruption and economic crime offences.
- (iv) Restore the special powers of investigation the Commission exercised prior to the legislative amendments of 2007 to the ACECA which considerably watered down its powers.

9.9 NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended 30th June 2009

I. Summary of Significant Accounting Policies

The principal accounting policies adopted in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented.

(i) Basis of preparation and form of presentation

The financial statements are prepared in compliance with International Financial Reporting Standards (IFRSs). The financial statements are presented in functional currency, Kenya shillings (KShs.), which is the prevailing currency within the primary economic environment, and prepared in accordance with the measurement bases prescribed by IFRSs.

The preparation financial statement in conformity with IFRS requires the use of estimates and assumptions. It also requires management to exercise its judgment in the process of applying the Commission's policies.

The financial statements are prepared in accordance with and comply with International Financial Reporting Standards (IFRS).

(ii) Revenue Recognition

Income is recognized in the period in which it is received. Government and donor funding is only recognized on receipt. Income is not accrued if its recoverability is considered doubtful.

Interest income is recognized on a time proportion basis using the effective interest rate method.

(iii) Revenue

The revenue constitutes all funds accruing to the Commission in the form of exchequer allocations, funds from development partners and other income arising from investment and sale of tenders including proceeds of disposal of assets.

(iv) Grants

Grants related to assets, including non monetary grants at fair value, are recognized when there is reasonable assurance that the grant will be received and the Commission will comply with the conditions attaching to them.

(v) Property, Plant and Equipment

All categories of property, plant and equipment are initially recorded at cost.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Commission and the cost can be measured reliably. All other repairs and maintenance are charged to the profit and loss account during the financial period in which they are incurred.

Increases in the carrying amount arising on revaluation are credited to a revaluation surplus reserve in accumulated funds. Decreases that offset previous increases of the same asset are charged against the revaluation surplus; all other decreases are charged to the profit and loss account. Each year the difference between depreciation charged based on the revalued carrying amount of the asset (the depreciation charged to the profit and loss account) and depreciation based on the asset's original cost is transferred from the revaluation surplus to retained earnings. Leasehold land is not depreciated.

Depreciation is calculated on a reducing balance basis at rates designed to write down the assets to their estimated residual values over their estimated useful lives using the following annual rates:

Rate per annum (%)

Computers & Software	33.33
Motor vehicles	25.00
Plant and equipment	12.50
Surveillance Equipment	12.50
Furniture, Fixtures & Fittings	12.50

Property, plant and equipment are periodically reviewed for impairment. Where the carrying amount of an asset is greater than its estimated recoverable amount, it is written down immediately to its recoverable amount. An impairment loss is recognized in the income statement, whenever the carrying amount of an asset exceeds its recoverable amount. Gains and losses on disposal of property, plant and equipment are determined by comparing the proceeds with the carrying amount and taken into account when determining the surplus of the year.

(vi) Inventories

Inventories are valued at the lower of cost and net realizable value. Cost is determined on a first-in-first-out basis.

(vii) Trade and other receivables

Trade receivables are recognized and carried at original invoice amount less an allowance for any uncollectible amounts. An estimate for doubtful debts is made when collection of the full amount is no longer probable. Bad debts are written off as incurred.

(viii) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand; bank balances demand deposits and short-term, highly liquid investments readily convertible to known amounts of cash and subject to insignificant risk of changes in value. Cash and cash equivalents that are not readily accessible are classified under deferred assets. For the purposes of the cash flow statement, cash and cash equivalents consist of cash on hand and deposits in banks, and short term highly liquid investments.

(ix) Trade and other payables

Liabilities for trade and other amounts payable are carried at cost which is the fair value of the consideration to be paid in the future for goods and services received, whether or not billed to the Commission.

(x) Provisions and accruals

Provisions are recognized when the Commission has a present obligation (legal or constructive) as a result of a past event, and it is probable that an outflow of resources embodying economic benefits.

(xi) Employee benefits

The Commission sets aside on monthly basis the gratuity for its employees. This is managed separately as sinking fund in accordance with Section 13(4) of the Anti-Corruption and Economic Crimes Act, 2003.

The Commission also contributes to a statutory defined contribution pension scheme, the National Social Security Fund (NSSF). Contributions are determined by local statute. Any contributions made to the NSSF in respect of current service are charged against income in the year of contribution.

(xii) Income taxes

The Commission being a non trading entity is not subject to taxation. No tax is therefore provided in these accounts.
