THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED KENYATTA UNIVERSITY TEACHING
AND REFERRAL HOSPITAL

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed Kenyatta University Teaching and Referral Hospital.

The proposed project entails development of a teaching, research and referral hospital.

The project is located within the Kenyatta University Campus on land parcel L.R. No. 33404, Kasarani Division.

The following are the anticipated impacts and mitigation measures:

Possible Impact	Mitigation
Air Emissions	<ul style="list-style-type: none"> • Compaction of soil during various construction activities • Ambient air quality within the premises of the proposed project to be monitored • Stack emissions from DG sets to be optimally monitored • Maintenance of internal roads to avoid dust generation • Incinerator equipped with rigorous pollution control technologies • Air quality monitoring
Noise	<ul style="list-style-type: none"> • List of all noise generating machinery on site along with the age to be prepared • Night working to be monitored • Silencers and mufflers to be affixed to the exhaust systems of all mechanical equipment • Personal Protective Equipment (PPE) • Constant machinery maintenance to reduce noise from friction, loose parts etc • Noise to be monitored in ambient air within the plant premises • The noise level will not exceed the permissible limit both during day and night times • Noise generated from operation of DG sets to be optimized and monitored. DG sets to generate less than 75 dBA at 100 m from the source. DG sets are to be provided with acoustic enclosures with height of chimney above roof level

Possible Impact Mitigation

Water Management	<ul style="list-style-type: none"> • Control of runoff from site • Use of sediment and grease traps to intercept runoff from drainage areas • Provision of suitable drainage system • Rainwater harvesting
Wastewater Discharge	<ul style="list-style-type: none"> • No untreated discharge to be leaked to surface water, groundwater or soil • The discharge point will be properly selected and sampling and analysis should be undertaken prior to discharge • Care taken in disposing wastewater generated such that soil and groundwater resources are protected
Drainage and Effluent Management	<ul style="list-style-type: none"> • Ensure drainage system and specific design measures are working effectively. The design will incorporate existing drainage pattern and avoid disturbance of the same
Non-routine Events and Accidental Releases	<ul style="list-style-type: none"> • Plan to be drawn up considering likely emergencies and steps required to limit consequences
Waste Management	<ul style="list-style-type: none"> • All solid waste to be appropriately disposed of in drums or dumpsters • Adequate number of collection bins to be provided separately for biodegradable and non-biodegradable waste • Landscape waste managed to prevent surface runoff • Potentially infectious waste treated prior to disposal • Implement waste management plan that identifies and characterizes every waste product associated with proposed activities and that identifies the procedures for collection, handling and disposal of each type of waste
Biomedical Waste	<ul style="list-style-type: none"> • Distinctive protocols for the classification and segregation of waste to be in place
Drainage and Effluent Management	<ul style="list-style-type: none"> • Ensure specific design system and design measures are working effectively. The design to incorporate existing drainage pattern and avoid disturbance of same
Indoor Air Contamination	<ul style="list-style-type: none"> • Contaminants such as CO, CO₂, and VOCs to be reduced by providing adequate ventilation
Energy Use	<ul style="list-style-type: none"> • Energy usage for air-conditioning and other activities to be minimized. • Conduct annual energy audit for the buildings
Emergency Preparedness, such as fire fighting	<ul style="list-style-type: none"> • Fire protection and safety measures to take care of fire and exposure hazards, to be assessed and steps taken for their prevention

The full report of the proposed project is available for inspection during working hours at:

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED GREENLAND SERVICE STATION ON
L.R. NO. KERICHO/CHEMOIBEN/12, LITEIN TOWN

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed development of a medium sized petrol station.

The Proposed project will hold a prefabricated office building, service bay, toilets, car wash section, water/oil separator, four underground storage tanks and five fuel pumps.

The proposed 50 x 100fts site is located along Kericho-Sotik-Kisii Road, within the neighbourhood of Litein Market to the North and Litein Mission Hospital to the East.

The project anticipates the following impacts and mitigation measures:

Possible Impact	Mitigation Measures
Soil Erosion	<ul style="list-style-type: none"> Ensure that land is leveled and practice soil trapping Filling up holes with earth and plant grass on any exposed surfaces left (re-vegetation).
Air Pollution	<ul style="list-style-type: none"> Modification/replacement of worn out process equipment. Wet-sweep the offices and company compound Only use recommended types of fire extinguishers Avoid combustion of materials Sprinkling of water on soil surface to minimize dust
Waste Management	<ul style="list-style-type: none"> Hiring of disposal services and recycling of wastes. Install garbage bins Construction of oil interceptors to prevent water and soil contamination Regular liquid waste analysis before release to environment Install screens to filter out particulates from liquids entering the oil interceptor Confinement of oily wastes in oil interceptor.
Fire Outbreaks	<ul style="list-style-type: none"> Put up a no smoking sign at a strategic place Ensure periodic servicing of fire extinguishers, and prompt refilling whenever one is used Training of staff on fire safety and first aid. Develop an elaborate fire policy
Water Misuse	<ul style="list-style-type: none"> Installation of storage tanks Encourage roof harvesting of water

Possible Impact

Mitigation Measures

Occupational Health and Safety	<ul style="list-style-type: none"> Ensure adherence to provisions of the Occupation Health & Safety Act of 2007 Have well-trained personnel handle the fuels Provision of Material Safety and Data Sheets (MSDS) Training of staff on First Aid techniques Training of staff on proactive safety attitudes
Energy Use	<ul style="list-style-type: none"> Ensure/maintain regular electrical appliances check-ups Install energy saving appliances

The full report of the proposed project is available for inspection during working hours at:

- Director-General, the National Environment Management Authority (NEMA), Kapiti Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED POWER ALCOHOL PLANT AT MUMIAS
SUGAR COMPANY LIMITED

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed power alcohol plant.

The proposed project involves installation of an 80,000 litre per day (24 million litres per year) multi-product distillery for effective utilisation and value addition of the cane molasses produced as a by-product of the sugar production process. The company also plans to include a vinasse concentration and incineration facility which will produce an additional 2 MW of electricity. The project aims to produce at least 65,000 litres per day of any or a combination of the following products:

- Rectified spirit; Extra neutral spirit; Absolute alcohol.

The project is to be located on about 5 acres of land located on the north western side of the sugar mill, on the area with the meanders. The distillery will be owned and run by MSCL (Mumias Sugar Company Ltd.) as part of the existing factory where it will also be located.

Possible Impact

Mitigation Measures

Community engagement	<ul style="list-style-type: none"> Develop a grievance mechanism which shall outline how MSCL addresses any complaints or grievances raised by the neighbours or by their employees.
----------------------	---

<i>Possible Impact</i>	<i>Mitigation Measures</i>
	<ul style="list-style-type: none"> All communication with the community shall be documented Try as much as possible to complete the project within the stipulated time to reduce nuisance to the neighbourhood
Water quantity and quality	<ul style="list-style-type: none"> The contractor shall put measures in place to ensure water conservation during construction and operation activities
Noise	<ul style="list-style-type: none"> Ensure regular maintenance of construction equipment, and where necessary the use of silencing equipment
Sanitation and Hygiene	<ul style="list-style-type: none"> The contractors work camp must have sanitation facilities installed to include a minimum of one latrine and washing area The septic tank for management of foul drainage shall be well maintained
Noise Pollution	<ul style="list-style-type: none"> Sensitize construction vehicle drivers and machinery operators to switch off engines of vehicles or machinery not being used. Ensure that construction machinery are kept in good condition to reduce noise generation
Fire Risk, Emergency Response and Preparedness	<ul style="list-style-type: none"> Firefighting equipment must be installed at the site in accessible locations All site staff must be trained on fire safety procedures Buildings shall have doors that open outwards for easy exit during emergencies First Aid training shall be provided to key members of staff.
Air Pollution	<ul style="list-style-type: none"> Provide dust masks to construction staff working in dust generating areas During construction, stock piles of earth shall be enclosed/watered during windy conditions to reduce dust emissions to neighbouring areas Workers shall be sensitized on the importance of using protective wear The air shall be monitored regularly to ensure no hazardous gases escape to the air
HIV/AIDS	<ul style="list-style-type: none"> Develop and communicate the company policy for HIV/AIDS in line with government policy guidelines Display communicative posters within company premises on HIV/AIDS related messages Avail literature on HIV/AIDS awareness to staff
Soil Erosion	<ul style="list-style-type: none"> Ensure that exposed areas of ground are re-vegetated/ Landscaped so as to mitigate soil erosion by agents such as wind and storm water Maintain one vehicle route to minimize ground compaction
Increased Water Demand	<ul style="list-style-type: none"> Provision of adequate water storage facilities Re-use of water where possible, mainly at construction phase Installation of water harvesting facilities Sensitize staff on water conservation measures Install water saving taps and constantly check pipes to minimize leakages
<i>Possible Impact</i>	<i>Mitigation Measures</i>

Socio-Economic/cultural Impact	<ul style="list-style-type: none"> Provide priority in employment opportunities to people from the neighbouring community Security to be provided on site at all times. Provide training on awareness on HIV/AIDS at the workplace Put up a fence around the site to minimise intrusion and promote good neighbourliness
Soil and ground water pollution	<ul style="list-style-type: none"> Ensure no spillage of the vinase on the ground since its highly acidic and can be washed into water ways Ensure the ash does not mix with the water Monitor water being discharged into the river to ensure it meets the required standards

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, the National Environment Management Authority (NEMA), Kapiti Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY
ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED EXPANSION OF THE AHERO AND WEST
KANO IRRIGATION SCHEME
INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed Expansion of the Ahero and West Kano Irrigation Scheme.

The Government of Kenya (GOK) through National Irrigation Board (NIB) intends to expand the Ahero and West Kano irrigation scheme to bring more land under irrigated agriculture for purposes of

enhancing food security and income generation in both Kadibo and Miwani divisions of Kisumu East and Muhoroni Districts.

The main project activities will include:

- (a) Construction of an intake works upstream of the existing Ahero Pumping Station at Nyasuna/Ogilo Bridge on Nyando River;
- (b) Construction of a main canal and distribution canals to deliver water to both existing Ahero and West Kano irrigation schemes and the extension areas which will include embankment to control floods;
- (c) Development of laterals canal to deliver water on to the farms;
- (d) Development of a drainage network to remove excess flow from farms which should include embankment to reduce flooding of farms and homesteads, and;
- (e) Development of a network of farm access roads to serve the irrigated areas.

The project anticipates the following impacts and mitigation measures:

<i>Possible Impacts</i>	<i>Mitigation Measures</i>
Involuntary Resettlement	<ul style="list-style-type: none"> • Prepare Resettlement Action Plan (RAP) including appropriate compensation and an alternative resettlement location; • Involve the affected persons on all stages of the RAP and its implementation; • Due to the flexibility of the canal and road alignment, the alignment of the canals and roads are suggested to be fine-tuned to minimise the resettlers in the future Review Detailed Design.
Water Usage or Water Rights and Rights of Common	<ul style="list-style-type: none"> • Provide convenient alternative access to water during construction and operation; • During operation, initiate water flows monitoring for Nyando River on the long term as a water balance management; • Institute a liaison committee to provide a communication channel between the community and NIB/Government on water resource management
Hazards, Risks and Infectious Diseases	<ul style="list-style-type: none"> • Ensure compliance with occupational health and safety regulations during construction; • Provide safety gear to the construction workers and ensure application at all times; • Isolate safety risk areas and work camps from the public; • Collaborate with other players in community training and sensitization on disease control during construction; • Provide necessary awareness and information to the communities on intake/canal safety aspects; • Collaborate with a local self help organization's current activity of introduction of catfish and gambia for the planned reservoirs/canals in the dam site to prevent bilharzias in consultation with the district health officer.
Soil Erosion	<ul style="list-style-type: none"> • Minimise clearing vegetations during construction; • De-silted soils from the canal will be applied in filling up eroded section of the river banks downstream of Nyando River. • Construction to be confined during the dry season;
<i>Possible Impacts</i>	<i>Mitigation Measures</i>
	<ul style="list-style-type: none"> • Encourage vegetation along the main canal to intercept additional silt (if any) during construction and operation; • Encourage vegetation around the riparian zones and link canals to control

		soil loss;
Air Pollution		<ul style="list-style-type: none"> • Encourage appropriate and guided use of the silt by the farmers in reconditioning their farms; • Provide Personal Protective Equipment and clothing (PPE & C) to workers; • Ensure regular check-up and prompt maintenance of machinery and equipment; • Conduct regular water palliation during the dry season; • Reduce works generating excessive dust when windy or enclose such activities; • Regular air monitoring and tests to analyse the quality of air; • Inform communities on anticipated emission for preparedness.
Waste and Management	sewage	<ul style="list-style-type: none"> • Work hand in hand with private refuse handlers and the Local Council's to facilitate sound waste management; • Provide adequate waste management mechanism to construction sites and worker's camps; • Categorise wastes into inert materials and others for safe disposal; • Encourage waste reduction, reuse and recycling; • Provide sanitary facilities to its workers and should be kept clean always; • Provide adequate water to the workers to enhance sanitation.
Health and measures	Safety	<ul style="list-style-type: none"> • Develop Environmental Health and safety (EHS) programs; • Provide workers with (PPE&C); • Complying with work place legal requirements; • Employ competent work force; • Institute safety drills, disaster preparedness and management programs; • Create awareness among community members on drinking water treatment methods; • Health facilities provided to workers should develop plans to attend to community members too.
Hydrological Situation		<ul style="list-style-type: none"> • Monitoring the flow trends of Nyando River and the main canal over time; • Ensure that minimum flows in Nyando River are maintained at all times in accordance with Water Resources Management Rules.
Water Pollution		<ul style="list-style-type: none"> • Ensure appropriate waste water discharge from construction site and worker's camps; • Remove logs and plants before operation; • Initiate water quality monitoring on the basic ambient water quality parameters in the river to meet the applicable parameters of water quality standards; • Enhance guided application of agrochemicals such as Integrated Pest Management (IPM) in the irrigation areas in the (rice paddies) by providing training and seminars for famers.
Possible Impacts		<i>Mitigation Measures</i>
Soil Contamination		<ul style="list-style-type: none"> • Continuous monitoring and maintenance of machines and equipments to reduce chances of leaks or spillages; • Undertake activities that are likely to lead to leakage in a designated area

		(protected service bays) which should incorporate components such as oil/water separators, bunded floors, oil collection container etc;
Noise and Vibration		<ul style="list-style-type: none"> • Ensure oil products and materials are stored in site stores and handled properly; • Enhanced collaboration with other players on public education and awareness raising on application of agrochemicals such as Integrated Pest Management (IPM); • Promote the examination of soil quality in the irrigation areas.
		<ul style="list-style-type: none"> • Construction need to be limited during the day time only; • Notify residents on unusual noise and vibration level during construction; • Maintain vehicles and equipments to avoid unnecessary noise and vibration; • Compliance to the Environmental Management and Coordination Act (EMCA), Occupational Safety and Health Act Cap. 514, its Subsidiary Legislations and the Building by-laws of Kenya.

The full report of the proposed project is available for inspection during working hours at:

- Director-General, the National Environment Management Authority (NEMA), Kapiti Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED PETROL SERVICE STATION ON L.R. NO.
13544/20 AT THE JUNCTION OF KAREN ROAD AND KAREN
PLAINS ROAD IN KAREN AREA, NAIROBI

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed petrol service station.

The proposed project involves installation of underground storage tanks and piping, development of the canopy over pumps, a mini supermarket, service bay, car wash, ATM lobby, wheel balancing/tyre changer, gas store, offices, stores, generator/compressor room, cafeteria and washrooms.

The project area is situated along Karen Road within Karen. The proposed project site is a corner plot at the junction of Karen Road and Karen Plains Road, directly opposite plains house. The site is on L.R. No. 13544/20.

The following are the anticipated impacts and proposed mitigation measures:

<i>Possible Impact</i>	<ul style="list-style-type: none"> • <i>Mitigation Measures</i>
Changes in hydrology/impended drainage	<ul style="list-style-type: none"> • Proper Installation of drainage structures. The CCN in liason with all stakeholders should construct a drainage system for the entire area. • Ensure efficiency of drainage structures through proper design and maintenance & regular cleanup.
Soil erosion	<ul style="list-style-type: none"> • Control earthworks; rehabilitate degraded areas and compact loose soils. • Provide soil erosion control and conservation structures where necessary and Landscaping. • Proper disposal of excavated loose soil.
Air pollution through dust and gaseous emissions	<ul style="list-style-type: none"> • Control speed and operation of construction vehicles. • Prohibit idling of vehicles. • Water shall be sprayed on dust generating areas/activities. • Regular maintenance of construction plant and equipment. • Proper use of PPEs.
Noise pollution	<ul style="list-style-type: none"> • Maintain plant equipment (if present/used). • Construction activities to be restricted to daytime. • Provision of appropriate PPEs. • Appropriate selection of machinery.
Pollution from oil and petroleum products	<ul style="list-style-type: none"> • Proper storage, handling and disposal of new oil and used oil, petroleum products and related wastes. • Concrete handstand floors for all areas handling oil/grease/petroleum products • Maintain plant and equipment to avoid leaks. • Provide oil interceptors along the drains leading from car wash, service bays, oil storage areas and dispensing pump islands. • Regular skimming of the interceptor and regular tests on wastewater leaving the interceptor to ensure compliance with set standards. • Monitoring for leakages and spills.
Water resources	<ul style="list-style-type: none"> • Management of water usage. • Avoid unnecessary wastage especially at the car washing bay and installation of water conserving taps. • Rainwater harvesting. • Recycling of water where possible.
Road safety	<ul style="list-style-type: none"> • Enforce speed limits. • Provide bill boards at the site/entrance to notify motorists about the development. • Provide clear views to acceleration and deceleration as approved by the City engineer.
Public health and occupational safety	<ul style="list-style-type: none"> • Sound solid and liquid waste management. • Design of sewerage system shall be adequate and conservancy & septic tanks constructed.
<i>Possible Impact</i>	<ul style="list-style-type: none"> • <i>Mitigation Measures</i> • Provide First Aid kits on the site. • Training on occupational health and safety and first Aid administration. • Train staff on petroleum product handling. • Sensitize workers on HIV and AIDS.

Fire safety training/emergency response procedures (ERPs)	<ul style="list-style-type: none"> • Training in fire fighting and regular drills. • Install fire-fighting equipment and ensure fire equipment is in good working condition. • Emergency response plan including contacts and simple instructions on how to handle fires, product spills, LPG incidents, and product contaminations. • Keep gas cylinders in a well ventilated section outside building.
Water quality and waste management	<ul style="list-style-type: none"> • Construct oil interceptors and monitor daily. • Strict adherence to the provisions of Waste Management and Water Quality Regulations. • Construct adequate and standard conservancy tanks and/or septic tanks as advised by the engineer. • Reduce waste at source, recycling and disposal of unrecyclable waste in approved dump sites. The proponent to contractor registered waste handler.

FOR THE PROPOSED LOW INCOME RESIDENTIAL
DEVELOPMENT ON PLOT NO. 12867/21 IN MAVOKO
MUNICIPALITY, ATHI RIVER
INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed low income residential development.

The proposed project involves the development 2152 residential units. The units are grouped into 3 blocks named Block A, Block B and Block C on a parcel of land L. R No. 12867/21 and are divided into three partitions separated by driveways of 5.5m wide.

The project site is in Mavoko Municipality in Athi River Division in Eastern Province.

The project anticipates the following impacts and mitigation measures:

<i>Possible Impacts</i>	<i>Mitigation Measures</i>
Sound pollution from construction machinery and vehicle movements	<ul style="list-style-type: none"> • Workers are encouraged to behave in an orderly manner; • Vehicles to move at low speeds; • Exposed workers will be provided with

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED RELOCATION OF ALBENTCO SERVICE
STATION TO PLOT L.R. NO. LARI/MAGINA/1054 ALONG
NAKURU-NAIROBI HIGHWAY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed Albentco Service Station.

The proposed project comprises:

- A cabro work finish of 75mm thick, a blinding layer and handpicked hardcore well compacted surface;
- Tank cladding of 150mm thick precast concrete slab to avoid floatation;
- A u-shaped drainage tunnel with a steel grill top;
- Four underground fuel tanks;
- A Heavy duty covered man hole for each of the underground tanks;
- Sanitary facilities;
- A generator room;
- An office section;
- Oil water interceptor tank/stabilizing tank;
- Two pump isles;
- A kerosene shade;
- Air pump section;
- A canopy;
- Four fuel dispensers pumps;
- Associated piping work

The project site involves the relocation of Albentco Service Station from Kimende, off Nairobi-Nakuru highway to plot L.R. No Lari/Magina/1054 of approximate area of 0.02Ha along the Nairobi-Nakuru highway at Kimende Shopping Centre in Kiambu district.

The project anticipates the following impacts and mitigation measures:

<i>Possible Impacts</i>	<i>Mitigation Measures</i>
Increased noise and vibration levels	<ul style="list-style-type: none"> Barricading the area (erecting a boundary wall). Construction activities to be conducted during the day. Provision of Personal Protective equipment to protect workers from occupational noise Regular maintenance of plants and equipment Shutting down of engine vehicles to reduce on noise levels Conducting of noise measurements from different positions within and outside the workplace to establish prevailing noise levels and recommending appropriate mitigation measures.
Increased air pollution as a result of dust particles emanating from earth works and construction activities	<ul style="list-style-type: none"> Use of dump method to mitigate on dust by sprinkling water on areas to be excavated. Soil compaction
Pressure on existing infrastructure i.e. roads, power, water among others	<ul style="list-style-type: none"> Erection of warning and informative signs. i.e. notices, bill boards at the site during the construction phase and traffic control along the connecting road.
Increased waste materials(both solid and liquid)	<ul style="list-style-type: none"> Proper designing of drainage channels and regular maintenance of the same.
Contamination of the ground with oil and grease substances	<ul style="list-style-type: none"> Maintenance should be carried out at designated service bays to avoid contamination of environment by

- Oil leaks and spills
- resultant oil and greases.
 - Regular inspection of underground tanks for leakages
 - Construction of a three pit oil interceptor tanks to separate oil from sludge
 - Double walling of underground tanks to guard against leaks
 - Protecting the underground tanks with corrosion prevention materials
 - Prioritizing the upgrade of equipment and installation of existing facilities of a network after a defined age.
 - Careful siting of the project to ensure that it lies in an environment that is far from environmental receptors including sewers, tunnels, vaults, surface water reservoirs etc.

The full report of the proposed project is available for inspection during working hours at:

- Director-General, the National Environment Management Authority (NEMA), Kapiti Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed low income residential development.

The proposed residential development entails construction of 280 units on plot L.R No. 337/860 at Mavoko Municipality in Athi River District.

The units are grouped into 3 blocks named Block A, Block B and Block C.

- Block A type of units, are 160 in total.
- Block B type of units, are 40 in total.
- Block C type of units, are 80 in total.

Possible Impact *Mitigation Measures*

- Impacts on Water Resource
- Spill prevention procedures & response plan.

Possible Impacts *Mitigation Measures*

- Off-site maintenance of fuel powered equipment and vehicles
- Spill control kit is available on site.
- Training of staff on spill response plan and procedure
- Sewage & waste water to be discharged

into sewer line

- Blockage incidences to be reported to NWSC
- Provide suitable solid waste containers
- Temporary storage at the solid waste cubicles
- Contract a licensed solid waste transporter

Dust

- Water the ground before excavation
- Provide dust nets at high levels
- Avoid exaction during windy times.

Noise

- Use of ear protectors by workers
- Recondition engine exhaust systems
- Engine tune-up
- Establish inspection program for equipment.

Soil contamination

- Establish site Spill control procedures
- Training of workers on spill control procedures/ preparedness
- Off-site maintenance operations
- Spill control kit be availed at the site
- Sewage & waste water to be discharged into the Municipal sewer line
- Blockage incidences to be reported to NWSC

- Provide suitable solid waste containers
- Contract a licensed solid waste transporter

Impacts on Transportation

- All vehicles delivering bulk materials to the site to avoid overloading and comply with traffic rules
- Use of appropriate signage

Impact on Land use

- Comply with regulatory and legal requirements

Fire hazards

- Ensure fire extinguishers are stationed in visible places.
- Security personnel and occupants to be trained in fire fighting skills.
- Drilling exercise to be conducted regularly.

IMPORTANT NOTICE TO SUBSCRIBERS TO THE KENYA GAZETTE

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Dates must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
