KENYA NATIONAL AUDIT OFFICE

REPORT OF THE AUDITOR-GENERAL ON THE FINANCIAL STATEMENTS OF KENYA REVENUE AUTHORITY FOR THE YEAR ENDED 30TH JUNE, 2010

I have audited the financial statements of Kenya Revenue Authority (KRA) set out below which comprise the Balance Sheet as at 30 June 2010, the Income Statement, the Statement of Changes in Equity and Cash Flow Statement for the year then ended, together with a summary of significant accounting policies and other explanatory notes in accordance with the provisions of Section 20 of the Public Audit Act, 2003 and Section 18 of the Kenya Revenue Authority Act, Cap 469. I have obtained all the information and explanations which to the best of my knowledge and belief were necessary for the purpose of the audit.

Management's Responsibility for the Financial Statements

The management of the Kenya Revenue Authority is responsible for the preparation and fair representation of the financial statements which give a true and fair view of the Authority's state of affairs, and its operating results in accordance with International Financial Reporting Standards. This responsibility includes: designing, implementing and maintaining internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error, selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Responsibility of the Auditor General

My responsibility is to express an independent opinion on the financial statements based on the audit. The audit was conducted in accordance with the International Standards on Auditing. Those standards require compliance with ethical requirements and that the audit be planned and performed with a view to obtaining reasonable assurance that the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statement, whether due to fraud or error. In making those risk assessments, the auditor considers internal controls relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Management, as well as evaluating the overall presentation of the financial statements.

I believe the audit evidence obtained is sufficient and appropriate to provide a basis for my opinion.

Property, Plant and Equipment

- (i) As disclosed under note 8 to the financial statements, the balance of Kshs 4,581,659,000.00 in respect of the land & buildings as at 30 June 2010 does not include the value of various parcels of leasehold land spread across the country. According to information available, the value of the leasehold land has not been recognised as an operating lease in the financial statements because the land in question was transferred to KRA by the Government at no consideration and with no title documents.
- (ii) The Authority has not obtained ownership documents for 11 other parcels of leasehold land with carrying value of Kshs 710, 759,591.00.

Opinion

In my opinion, except for the effect on the financial statements if any, of the matters referred to in the preceding paragraphs, the financial statements give a true and fair view of the state of affairs of the Authority as at 30 June 2010 and of its deficit and cash flows for the year then ended, in accordance with the International Financial Reporting Standards and comply with the Kenya Revenue Authority Act, Cap 469 of the Laws of Kenya.

A.S.M. GATUMBU
Auditor-General

Nairobi
31 December, 2010

MANAGEMENT'S RESPONSIBILITY STATEMENT

The Kenya Revenue Authority Act requires Management to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the Authority and its operating results for that year. It also requires Management to ensure that the Authority keeps proper accounting records which disclose, with reasonable accuracy, the financial position of the Authority. Management is also responsible for safeguarding the assets of the Authority and maintenance of adequate system of internal financial control.

Management accepts the responsibility for the annual financial statements, which have been prepared using appropriate accounting policies supported by reasonable and prudent judgements and estimates, in accordance with International Financial Reporting Standards and the requirements of the

Kenya Revenue Authority Act. Management is of the opinion that the financial statements give a true and fair view of the state of the financial affairs of the Authority and of its operating results.

Nothing has come to the attention of Management to indicate that the Authority will not remain a going concern for at least the next twelve months from the date of this statement.

NOTES TO THE FINANCIAL STATEMENTS

1. ESTABLISHMENT

Kenya Revenue Authority was established by an Act of Parliament, The Kenya Revenue Authority Act, and CAP 469. The Authority's objectives are the assessment and collection of revenue, administration, enforcement of laws relating to and accounting for revenue collected under the Act.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Preparation

The financial statements are prepared under the historical cost basis of accounting as modified by the revaluation of certain items of property, plant and equipment and fair value adjustments to investments. They are presented in Kenya Shillings (Kshs.) rounded to the nearest thousand shillings and comply with the International Financial Reporting Standards (IFRS).

(b) Income Recognition

i) Agency Income

In accordance with the Kenya Revenue Authority Act CAP 469, income to the Authority is "such amounts not exceeding 2% as may be determined by the Minister each financial year" of the total estimated revenue to be collected by the Authority on behalf of the Exchequer. In addition, the Authority is entitled to a Bonus of 3% of the surplus revenue collected above the estimates and also earns income from other activities.

ii) Other Income

Interest Income is recognised on a time basis at the effective interest rate applied on the principal amounts outstanding

Rental income is recognised on accrual basis

Other incomes are recognised when earned.

(c) Development funding and asset Contributions by the Treasury

Contributions by the Treasury in form of assets or funding for acquisition of major assets or development projects are recognized as a financing reserve when received. No repayment of the financing is expected by the Authority.

(d) Property, Plant and Equipment

The value of land is not reflected as prepaid lease rentals as the land was allocated to the Authority at no purchase consideration.

All categories of property, plant and equipment are stated at cost or valuation less accumulated depreciation and annual impairment losses. No depreciation is provided on freehold land. Depreciation is calculated to write off the cost or valuation of each asset to its residual value where applicable, over the expected useful life of the asset in equal instalments. A full year's depreciation is charged in the year of purchase but no charge is made in the year of disposal.

The estimated useful life is as follows: -

Plant & Machinery	8 years
Equipment/Furniture/Fittings	8 years
Boats	8 years
Motor Vehicles	5 years (with a 10% residual value)
Computers	3 years
Computer Software	3 Years
Buildings	40 years

Gains or losses on property, plant and equipment are determined by reference to their carrying value and are taken into account in determining the surplus / (deficit) for the year.

(e) Intangible Assets

Intangible assets consist of various computer software systems purchased for use by the Authority. The Authority recognises Intangible Assets acquired separately at cost less accumulated amortisation. Amortisation is charged on a straight-line basis over their useful lives as estimated by management from time to time.

(f) Translation of foreign currencies

Transactions in foreign currencies during the year are converted into Kenya Shillings at rates ruling at the transaction dates. Assets and liabilities at the balance sheet date, which are expressed in foreign currencies, are translated into Kenya Shillings at the rate ruling on that date. The resulting foreign exchange gains and losses are recognized on a net basis, differences are dealt with in the income and expenditure statement in the financial year in which they arise.

(g) Retirement Benefits Obligations

The Authority operates a hybrid pension scheme with a defined benefit section and a defined contribution section for the permanent and pensionable employees. The pension costs relating to this scheme are assessed in accordance with the advice of a qualified actuary. The assets of the scheme are held in a separate trustee-administered fund. The cost of providing pension and other post-retirement benefits for employees is charged to the income and expenditure account.

(h) Cash and Cash equivalents

For purposes of the cash flow statement, cash and cash equivalents comprise cash in hand and short-term deposits held with banks.

(i) Accrued Leave Days Provision

Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by the employees up to the balance sheet date.

(j) Taxation

The Authority is exempt from taxation on investment income.

(k) Inventories

All consumable stocks held for use in operations are expensed on purchase

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED KENYA MEDICAL ASSOCIATION ESTATE ON L.R. NOS. 28183, 28184 AND 28185, MLOLONGO AREA—OFF MOMBASA ROAD, MACHAKOS DISTRICT

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed Kenya Medical Association housing estate.

The proposed development is a residential estate consisting of 154 housing units, a commercial centre, a health club and a nursery school.

The proposed project site is located on L.R. Nos. 28183, 28184 and 28185 in Mavoko, off Mombasa Road. The property (plots) covers approximately 11.188 Hectares (28 Acres). The plots are generally rectangular in shape. Each housing unit will occupy approximately 400 – 1000m².

The following are the anticipated impacts and proposed mitigation measures:

Environmental Impacts Suggested Mitigation Measures

Changes in land use- extent	<ul style="list-style-type: none"> • Ensure compliance with existing planning policy landscaping and introduction of vegetation. • Maintenance of landscaped gardens, conservation and management of vegetation and gardens.
Changes in hydrology/ impended drainage	<ul style="list-style-type: none"> • Proper Installation of drainage structures. • Install cascades to break the impact of water flowing in the drains.

Environmental Impacts Suggested Mitigation Measures

Soil disturbance	<ul style="list-style-type: none"> • Ensure efficiency of drainage structures through proper design. • Provide gratings to the drainage channels. • Ensure efficiency through sound maintenance and cleaning. • Control earthworks. • Install drainage structures properly. • Compact loose soils. • Landscaping. • Ensure management of excavation activities. • Control activities especially during rainy conditions. • Provide soil erosion control structures on the steep side during construction phase. • Ensure maintenance and efficiency of erosion control measures.
Air pollution	<ul style="list-style-type: none"> • Enclose the site with dust-proof net. • Control speed and operation of construction vehicles. • Discourage idling of vehicles. • Spray to dry soils in excavated areas to suppress dust. • Regular maintenance of construction plant and equipment. • Engage sensitive construction workers. • Use of clean fuels. • Provide barriers such as walls and trees around site boundaries to provide some buffer against dust propagation. • Encourage use of clean fuels.
Noise pollution	<ul style="list-style-type: none"> • Sensitize drivers of machinery on effects of noise. • Maintain plant equipment. • Construction activities to be restricted to daytime. • Workers in the vicinity of high-level noise to wear safety & protective gear. • Organize social activities in a way not to cause nuisance to both internal and bordering residents. • Install silencers in standby generators. • Control events, points or sources of noise.
Oil pollution	<ul style="list-style-type: none"> • Proper storage, handling and disposal of oil and oil wastes. • Maintain plant and equipment to avoid leaks. • Maintenance of construction vehicles should be carried out in the contractors yard off the site. • Ensure sound working of oil interceptors along the drains leading from car wash and parking bays.
Public health and occupational safety	<ul style="list-style-type: none"> • Train staff/workers on occupational health and safety. • Provide full protective gear & workmen's compensation cover in addition to the right tools and operational instructions & manuals. • Adopt sound waste management system to ensure proper solid waste disposal and collection facilities. • Adopt sound housekeeping practices. • Engage the services of qualified personnel and/or ensure training.
Environmental Impacts	Suggested Mitigation Measures

Waste management

- Ensure use of standard construction materials and to the specifications. Avoid undesirable, substandard, hazardous or unauthorized materials during construction and maintenance.
- Sensitized staff on social/health issues such as drugs.
- Ensure machinery and equipment servicing and maintenance as per schedules & legal requirements.
- Post strategically the Factories and Other Places of Work Act Abstract and provide material safety data sheets.
- Post clear warning signs e.g. 'No unauthorized use of machines', ensure there are guards on moving parts etc.
- Provide fully equipped First Aid kits & train staff on its use.
- Ensure adherence with the legal requirements- Factories Act.
- Sensitize residents on environmental management.
- Ensure MCM certifies and issues occupation certificates.
- Sensitize residents on environmental management.
- Strictly abide by the provisions of the Water Act and the Environmental Management (Water Quality) Regulations; and Waste Management Regulations.
- Follow the prevailing NEMA regulations on waste collection, storage, transportation and disposal.
- Construct adequate and standard Biobox Enpura sewerage system. It must be monitored for timely exhaustion.
- Waste management installations (e.g. Biobox Enpura) be isolated from public water pipes to avoid contamination of the later.
- Incorporate suitable facilities for collection, segregation and safe disposal of solid wastes. Provide a waste collection centre and appropriately labelled bins preferably colour code for various categories of waste into organic (biodegradable), food remains, plastics and polythene, glass, paper, metal, wood etc. Organic wastes should be composted for use in the gardens while all other categories should be sold or given out to various respective approved recyclers. Wastes should be reduced and segregated at source and suitable bins properly labelled to facilitate recycle and/or sound disposal. Biodegradable materials shall be composted for use in the gardens while debris should be used in backfilling & the rest should be sold or given out for recycle or appropriate disposal.
- Dustbin cubicles must be protected from animals and rain.
- Bins should be regularly cleaned and disinfected.
- Provide possibilities for waste recycling options - in-house and off-site.
- Identify suitable solid waste disposal arrangements.
- Ensure a continuous review of waste management procedures with changing technology and regulatory changes.

The full report of the proposed project is available for inspection during working hours at:

- (a) Director-General, the National Environment Management Authority (NEMA), Kapiti Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- (b) Permanent Secretary, Ministry of Environment and Mineral Resources, N.H.I.F. Community, P.O. Box 30521, Nairobi.
- (c) Provincial Director of Environment, Eastern Province.
- (d) District Environment Officer, Machakos District.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the approval process of the project.

FOR THE PROPOSED TULAGA FILLING STATION ON L.R. NO.
NYANDARUA/KITIRI/1347, NYANDARUA
INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed Tulaga filling station.

The proposed filling station will consist of:

- Structural steel canopy.
- Concrete driveway to provide access into and from the petrol station.
- A service bay, service yard and a tire centre for vehicles' maintenance
- 4 no. of toilet-rooms for men and ladies.
- A parking for six vehicles.
- Store.
- Septic tank.
- An interceptor tank.
- Underground storage tanks as follows: for Diesel-30,000 litres, Super Petrol-20,000 litres and Kerosine-10,000 litres.
- 4 no. of fuel-dispensing pumps.

The proposed Tulaga Oil Service Station will be located at Engineer Shopping Centre, along Njabini-Ol Kalou road and about 100 Km from Nairobi. It will be located on plot number Nyandarua/Kitiri/1347, measuring 1.02 ha.

The following are the anticipated impacts and proposed mitigation measures:

<i>Environmental Impacts</i>	<i>Suggested Mitigation Measures</i>
Changes in hydrology/ impeded drainage	<ul style="list-style-type: none"> • Proper Installation of drainage structures. • Install cascades to break the impact of water flowing in the drains. • Ensure efficiency of drainage structures through proper design and maintenance. • Provide gratings to the drainage channels. • Regular checks on any sludge along drainage channels. • Visual checks of oil interceptors and drainage channels for any leaks.
Soil erosion	<ul style="list-style-type: none"> • Control earthworks; rehabilitate degraded areas and compact loose soils.

<i>Environmental Impacts</i>	<i>Suggested Mitigation Measures</i>
Air pollution through dust and gaseous emissions	<ul style="list-style-type: none"> • Provide soil erosion control and conservation structures where necessary and landscaping. • Proper disposal of excavated loose soil.
	<ul style="list-style-type: none"> • Control speed and operation of construction vehicles. • Prohibit idling of vehicles. • Water should be sprayed and dust generating areas/ activities. • Regular maintenance of construction plant and equipment. • Proper use of PPEs.
Noise pollution	<ul style="list-style-type: none"> • Maintain plant equipment (if present/ used). • Construction activities to be restricted to day time. • Provision of appropriate PPEs. • Appropriate selection of machinery.
Pollution from oil and petroleum products	<ul style="list-style-type: none"> • Proper storage, handling and disposal of new oil and used oil, petroleum products and related wastes. • Concrete handstand floors for all areas handling oil/ grease/ petroleum products • Maintain plant and equipment to avoid leaks. • Provide oil interceptors along the drain leading from car wash, service bays, oil storage areas and dispensing pump islands. • Regular scheming of the interceptor and regular tests on waste water leaving the interceptor to ensure compliance with set standards. • Monitoring of leakages and spills.
Water resource	<ul style="list-style-type: none"> • Management of water usage. Avoid unnecessary wastage especially at the car washing bay and installation of conserving taps. • Rain water harvesting. • Recycling of water where possible.
Road safety	<ul style="list-style-type: none"> • Enforce speed limit. • Provide bill boards at the sites/ entrance to notify motorists about the development. • Provide clear views of acceleration and deceleration as approved by the town engineer.
Public health and occupational safety	<ul style="list-style-type: none"> • Sound solid and liquid waste management. • Design of sewerage system should be adequate and conservancy and septic tanks constructed. • Provide first aid kits on the site. • Training on occupational health and safety and first aid administration. • Train staff on petroleum products handling. • Sensitize workers on HIV and AIDS.

<i>Environmental Impacts</i>	<i>Suggested Mitigation Measures</i>
Fire safety training/ Emergency response procedures (ERPs)	<ul style="list-style-type: none"> • Training in fire fighting and regular drills. • Install firefighting equipment and ensure fire equipment is in good working condition. • Emergency response plan including contacts and simple instructions on how to handle fires, products spills, LPG incidents and product contaminations. • Keep gas cylinders in a well ventilated section outside building.
Water Quality/Waste Management	<ul style="list-style-type: none"> • Construct oil interceptors and monitor daily • Strict adherence to the provisions of waste management and water quality regulations • Construct adequate and standard conservancy tanks and/ or septic tanks as advised by the engineer • Reduce wastes at source, recycling and disposal of unrecyclable wastes in approved dump sites. • The proponent contract a registered waste handler.

The full report of the proposed project is available for inspection during working hours at:

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED STANDARD PETROL STATION FOR
NATIONAL OIL CORPORATION OF KENYA ON PLOT NO.
209/12298 ALONG NANYUKI ROAD, INDUSTRIAL AREA,
NAIROBI

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed standard petrol station.

The project will comprise a service station, restaurant, mini-mart, station office, lubricants/spare parts shop, store and a service pit. In addition, such facilities will go along with waste water system- septic, soak pit, and storm water drain. There shall be three pumps, two for diesel and one for petrol.

The proposed Petrol Station will be located in Industrial area along Nanyuki Road-Tanga road junctions in Nairobi on plot No. 209/12298.

The following are the anticipated impacts and proposed mitigation measures.

<i>Possible Impacts</i>	<i>Mitigation Measures</i>
Soil	<ul style="list-style-type: none"> Site excavation works to be planned such that a section is completed and rehabilitated while another section begins. Apply soil erosion control measures such as leveling of the project site to reduce run-off velocity and increase infiltration of storm water into the soil.
Noise	<ul style="list-style-type: none"> The noisy construction works will entirely be planned to be during day time when most of the neighbours will be at work.
Excavation soil	<ul style="list-style-type: none"> Excavation material will be loaded into trucks and be transported to designated disposal sites. Design and implement an appropriate landscaping programme to help in rehabilitating of part of the project area after construction. Reuse of the top soil in landscaping.
Construction waste management	<ul style="list-style-type: none"> Ensure that construction materials left over at the end of construction will be used in other projects rather than being disposed of. Provide facilities for proper handling and storage of construction materials to reduce the amount of waste caused by damage or exposure to the elements Minimize waste through accurate estimation of the sizes and quantities of materials required, order materials in the sizes and quantities they will be needed, rather than cutting them to size, or having large quantities of residual materials.
Air /dust pollution	<ul style="list-style-type: none"> Ensure strict enforcement of on-site speed limit regulations. Avoid excavation works in extremely dry weathers. Sprinkle water on graded access routes each day to reduce dust generation by construction vehicles. Erect dust screen round the site.
Storm- water	<ul style="list-style-type: none"> Open drains connection will be provided on site. Constructions of water storage tanks/ buy some to collect storm water.
Security	<ul style="list-style-type: none"> Ensure the general safety and security at all times by providing day and night security guards and adequate lighting within and around the premises.

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED FILLING STATION ON RUIRU EAST BLOCK 1/T. 866 AND 867

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed filling station.

The proposed development involves construction of a filling station comprising of:

- 5 dispensing pumps (2 for petrol, 2 for diesel and 1 for kerosene).
- 3 underground storage tanks; a canopy; tire centre.
- Office block (lubricants shop, reception, office, and toilets).

The proposed project site will be on plots no. Ruiru East Block 1/T.866 and T.867 measuring 0.5 Ha and .0.0640 ha respectively and located along Thika- Nairobi Highway about 2 kilometers from Ruiru town at a place called Kihunguro.

The following are the anticipated impacts and proposed mitigation measures

Possible Environmental Impacts	Suggested Mitigation Measures
Blockage of storm drainage system	<ul style="list-style-type: none"> • Ensure that storm drainage system remains clear during construction. • Soil from the site which is not in use should be properly disposed.

Possible Environmental Impacts	Suggested Mitigation Measures
Air pollution	<ul style="list-style-type: none"> • Sprinkle water on dusty surfaces. • Place the concrete mixer in well ventilated area. • Ensure the workers wear proper PPEs (including dust masks).
Noise and vibrations	<ul style="list-style-type: none"> • Construction activities must be carried between 0800hrs and 1700hrs. • Use light vibrators. • Regular servicing of machines and equipment. • Lubrication of machines. • Compliance with Noise and Vibration regulations.
Occupation health and safety	<ul style="list-style-type: none"> • Provision of PPE/C to worker during construction time. The PPE should include Overalls/Aprons, helmet, dust masks, welding shield/goggles, ear muffs or plugs (where necessary), and appropriate footwear. • Provide first Aid facilities emergency plan at the site. • Fencing off the developing project to avoid risks to the general public. • Supervision of the project should be done throughout the project implementation period.
Waste Management	<ul style="list-style-type: none"> • Waste should be disposed at the designated municipal site. • Contract a licenced waste collector. • Provision of rubbish bins. • Segregation of wastes at the source. • Solid waste should be managed according to the waste management regulations.
Fire risks	<ul style="list-style-type: none"> • Install fire extinguishers at the filling station. • Clearly mark fire exit points and the fire assembly area. • Provide sand buckets at strategic locations. • Workers should be trained on fire fighting skills by a qualified trainer. • Fire drills should be conducted at least once a year. • A fire fighting team should be established. • Warning and informational signs be displayed appropriately. • Conduct fire audit once a year. • Formulate and bring to the notice of all workers and clients fire safety policy and rules. • Regular testing and servicing of fire-fighting equipment and appliances. • Full compliance with the Fire Risk reduction Rules, 2007.

Possible Environmental Impacts *Suggested Mitigation Measures*

- Oil spills**
- Pumps should be inspected regularly.
 - Pump valves should be well fitted.
 - Dispenser pipes and underground tanks should be of approved quality standard.
 - Regular monitoring to detect leakages from tanks and pipes.
 - Install an oil interceptor in the drainage system.
 - Recovery of waste oil for proper disposal by authorized agent.
 - Use oil absorbent material to clean oil spills especially at the service bay.
 - Regular checking/monitoring of the drainage lines, interceptor and the water sump to ensure that are working effectively without any overflow or failures.
 - Ensure that the underground tanks are compliant with Kenya standards (KS 200:2002).
 - Conduct pressure tests before commissioning of the station to ensure that the product lines (pipe works) comply with KS 1969:2006, KS 1967: 2006 and 1968: 2006.

The full report of the proposed project is available for inspection during working hours at:

IMPORTANT NOTICE TO SUBSCRIBERS TO THE KENYA GAZETTE

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette*, *Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Dates must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
