## THE WATER ACT (2002)

(No. 8 of 2002)

APPROVED TARIFF STRUCTURE FOR THE PERIOD 1ST  
JANUARY, 2011 TO 30TH JUNE, 2013.

Water Services Regulatory Board has approved newly proposed Water and Sewerage tariffs for implementation by Kibwezi Mito Andei Water and Sewerage Company in line with sections 73(5) of the Water Act, 2002.

By extension therefore, Tanathi Water Services Board (TAWSB) gives a two month notice to all existing and potential Water and Sewerage customers of by Kibwezi Mito Andei Water and Sewerage Company (KIMAWASCO) and its environs that the tariff has been increased.

As per the Service Provision Agreement (SPA) between TAWSB and KIMAWASCO which is approved by the Water Services Regulatory Board the areas of Kibwezi, Mbuinza, Kibarani, Sekeleni, Kangesu, Kavete, Muthaika, Kikoo, Ngumbe, Kalamba, Kikumbolyo, Msongaleni, Ngwata, Kathekani, Nguumo, Mito Andei and the environs or any other beneficiaries of the water supply and Sewerage Services not mentioned, shall pay the approved Water and Sewerage tariff with effect from the date of this notice.

The RTA would be from the date of the Gazette Notice until 30th June 2013. Please note that from the date the RTA gazetted, it will automatically revoke the earlier Gazette Notice No. 14524 dated 26th November, 2010, on the Extra Ordinary Adjustment (ETA) extension.

The approved tariff structure shall be as follows:

### THE WATER ACT (2002)

(No. 8 of 2002)

#### APPROVED TARIFF STRUCTURE FOR THE PERIOD 1ST JANUARY, 2011 TO 30TH JUNE, 2013

Water Services Regulatory Board has approved newly proposed Water and Sewerage tariffs for implementation by Makindu Water and Sewerage Company in line with sections 73(5) of the Water Act, 2002.

By extension therefore, Tanathi Water Services Board (TAWSB) gives a two month notice to all existing and potential Water and Sewerage customers of Makindu Water and Sewerage Company (MAWASCO LTD) and its environs that the tariff has been increased.

As per the Service Provision Agreement (SPA) between TAWSB and MAWASCO LTD which is approved by the Water Services Regulatory Board the areas of Makindu, Nguumo, Kiboko, Twaandu Locations and the environs or any other beneficiaries of the water supply and Sewerage Services not mentioned, shall pay the approved Water and Sewerage tariff with effect from the date of this notice.

The RTA would be from the date of the Gazette Notice until 30th June, 2013. Please note that from the date the RTA gazetted, it will automatically revoke the earlier Gazette notice No. 14524 dated 26th November, 2010, on the Extra Ordinary Adjustment (ETA) extension.

The approved tariff structure shall be as follows:

THE ENVIRONMENTAL MANAGEMENT AND  
CO-ORDINATION ACT

(No. 8 of 1999)

## THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

NOTICE TO THE PUBLIC TO SUBMIT COMMENTS ON AN  
ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT  
FOR THE PROPOSED VALLEY VIEW APARTMENTS ON PLOT  
L.R. No.337/1002 MLOLONGO, MAVOKO MUNICIPALITY

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed valley view apartments

The proposed project involves establishment of residential two bed-room apartments flats with four floors namely ground, first, second and third floors. There will be five apartment flats namely Block A, B, C, D, and E. In total the proposed project shall have 120 household units after completion of the project. Each household unit (apartment) has a plinth area of 680 sq.ft comprises of 2 bedrooms, a kitchen, lounge, dining area, shower room, sanitary facilities, rear balcony, dhobi and a spacious corridor. Every unit has an overhead water tank and a common underground tank with individual water pump. Most of the floor for the rooms shall be of PVC tiles except for the kitchen which shall have ceramic tiles.

The proposed project is situated on plot L.R. No. 337/1002 about 100 metres from Mlolongo Trading Centre, in Mavoko

Municipality in Athi River Division of Machakos District. It's neighboring an already occupied residential estate which was part of the Phase I of housing development by Harp Housing Limited.

The following are the anticipated impacts and proposed mitigation measures:

<i>Possible Impact</i>	<i>Mitigation measures</i>
Noise and vibration	<ul style="list-style-type: none"> <li>Construction works should be carried out only during the specified time i.e. from 0800 hrs to 1700 hrs and should avoid working on Sundays when many residents are expected to be within the environs.</li> <li>Provide buffers especially during the demolition of escarpment. A wall should be established to separate the two estates.</li> <li>Use machine cut stone that requires no chisel dressing which can be a major source of noise</li> <li>Sensitize construction vehicles' drivers and machinery operators to switch off engines of vehicles or machinery when not in use</li> <li>Machineries should be maintained regularly to reduce noise resulting from friction.</li> <li>The generators and other heavy duty equipment (if present) should be insulated or placed in enclosures to minimize ambient noise levels</li> <li>There should be no unnecessary honking of the involved machinery and vehicles.</li> <li>Provision of bill boards at the construction site gates notifying of the construction activity and timings.</li> <li>Workers should be provided with relevant personal protective equipment (PPE)/ materials.</li> </ul>
Surface drainage	<ul style="list-style-type: none"> <li>The designs should ensure that surface flow is drained suitably into the drains effectively.</li> <li>The internal channels should be designed with regard to the peak volumes and must ensure the safe final disposal of run-off /surface water and must be self-cleaning.</li> <li>Drainage channels should be installed in all areas that generate or receive surface water.</li> <li>The channels should be covered with gratings or other suitable and approved materials to prevent occurrence of accidents and dirt entry that may compromise flow of run-off.</li> <li>Storm water generated from roof catchments should be harvested, stored and made use in various household activities i.e. general cleaning and garden watering.</li> <li>Paving of the side walkways, driveway, parking and other open areas should be done using pervious materials i.e. concrete blocks to encourage water percolation; reducing run-off volume</li> <li>Ensure suitable storm water drainage channels to effectively discharge water safe to drainage channels. Such channels need to be regularly maintained and repaired to avoid point discharges (have pronounced effect to soil erosion) in case of breakages or blockages.</li> </ul>
Soil disturbance	<ul style="list-style-type: none"> <li>Avoid unnecessary movement of soil materials from the site and provide soil</li> </ul>

	<p>conservation structures on the areas prone to soil erosion mostly to reduce impact by the run-off. Depending on the period, monitor construction activities for appropriate and effective control measures of erosion e.g. during rainy / wet conditions, ensure suitable barriers on potential water erosion paths while avoiding wind erosion during dry conditions.</p> <ul style="list-style-type: none"> <li>• Conduct standard landscaping after project completion i.e. resurface (pave) open areas after the completion of the project and introduce suitable and well-managed vegetation to generate surface covers on the open areas; to control soil movement by erosion agents i.e. water, animals and wind. It is recommended that landscaping be done on completion of proposed works and introduce appropriate vegetation in open surfaces</li> </ul>	
Increased Energy Demand	<ul style="list-style-type: none"> <li>• Energy conservation involves optimum use of petroleum products (diesel and gasoline), electrical appliances (equipment), lighting systems and other electric machinery as used for different purposes. It also includes use of renewable energy sources.</li> <li>• Switch electrical appliances when not in use and optimize operations of electrical equipment or energized machinery to enhance energy conservation.</li> <li>• Install or Use energy conserving electric lamps for general lighting Put off all lights immediately when not in use or are not needed.</li> <li>• Make use or install alternative source of energy such as solar power, which is renewable.</li> <li>• The proponent should include solar power systems, which can be used for lighting purposes.</li> </ul>	
Sewage and effluent	<ul style="list-style-type: none"> <li>• The internal and external sewerage system should be made of hard, strong, durable, smooth, impervious, and non-corrodible materials.</li> <li>• All drain pipes passing under building; driveway or parking should be of heavy duty UPVC pipe tube encased in concrete surround. All manholes on drive ways and parking areas must have heavy-duty covers set and double sealed airtight; as approved by specialists. All waste and soil pipes must be in ducts and bends must have cleaning eyes which must be accessible externally</li> <li>• Sanitary facilities must be kept clean always, through regular washing and disinfecting.</li> <li>• The design of the sewerage system should consider the estimate discharges from individual sources and the cumulative discharge of the entire project even during peak volumes.</li> <li>• The gradient should be sufficient to ensure and maintain maximum depth of flow. Branches should be streamlined in the direction of flow. (these measurements have been put into consideration in the architectural drawings for the sewage treatment plant.</li> </ul>	
Air Quality	<ul style="list-style-type: none"> <li>• Provide personal protective equipment (PPE) / full protective gear to workers. They should also be trained on occupational health and safety and should be encouraged to go</li> </ul>	<p>for regular health check-ups.</p> <ul style="list-style-type: none"> <li>• Regular and prompt maintenance of construction machinery and equipment. This will minimize generation of noxious gases and other suspended particulate matter.</li> <li>• Control over areas generating dust particles through regular cleaning or sprinkling of water to reduce dust. The areas can be enclosed to mitigate effects of wind on them.</li> <li>• Regular air monitoring and tests to analyze the quality of air.</li> </ul>
		Solid Waste
		<ul style="list-style-type: none"> <li>• The contractor or proponent should work hand in hand with private refuse handlers, NEMA and the Local Council to facilitate sound waste management as per the prevailing regulatory provisions.</li> <li>• The wastes should be properly segregated to encourage recycling of some useful waste materials. This calls for source reduction, recycling, composting and reuse. There should preferably be two bins maintained by every unit, one for organic matter and the other for mineral matter. The receptacles (bins) must be kept in a good condition, and frequently washed and disinfected.</li> <li>• The collection of waste materials should be made at least once in 24 hours, and it should be done in such a way to minimize nuisance of smell and dust during filling into carts or vans.</li> <li>• Train or educate the involved stakeholders/tenants on the importance and means of waste (garbage) management and handling especially during occupation phase.</li> </ul>
		Flora
		<ul style="list-style-type: none"> <li>• Avoid unnecessary clearing of vegetation by conserving vegetation in the section being built up</li> <li>• Landscape and plant vegetation in all open areas after the completion of the project and manage the introduced vegetation on completion of the development to restore or improve the site.</li> </ul>
		Visual Intrusion
		<ul style="list-style-type: none"> <li>• Ensure no destruction of the existing vegetation not in the direct working areas and shield off the particular areas of construction with suitable materials.</li> <li>• On completing the earthworks, the worked area should be restored through backfilling, leveling and planting of more vegetation so as to blend in a way to merge with existing environment.</li> <li>• The building and the choice of colours should be attractive to match the general environment.</li> <li>• All solid waste and debris from construction site must be cleared on completion.</li> </ul>
		Occupational Health and Safety (OHS) and traffic
		<ul style="list-style-type: none"> <li>• All workers should be provided with full protective gear. These include working boots, overalls, helmets, goggles, earmuffs, masks, and gloves among others. Factories Act abstract should be posted at a strategic point on site. The requirements of the</li> <li>• Occupational Safety and Health Act, 2007 should be strictly adhered to, the Building Code and other relevant regulations. Only</li> </ul>

specialised machine operators should operate machinery and specialised equipment and all moving parts should be provided with appropriate guards.

- Properly design to allow for deceleration and acceleration to the site. Clearly indicate direction of traffic especially during construction
- A first aid kit(s) should be provided within the site. This should be fully equipped at all times and should be managed by a trained person.
- The contractor should not expose workers to stress inducing factors.
- The contractor should have workmen's compensation cover. It should comply with workmen's compensation Act, as well as other ordinances, Regulations and union Agreements.
- Sanitary facilities should be provided and standard cleanliness of the facilities maintained.
- Individuals preparing food for the workers at the site should be controlled and monitored to ensure that food is hygienically prepared.
- Workers should always be sensitised on social issues such as drugs, alcohol, diseases particularly HIV/AIDs etc. There should be a training program to facilitate this by the contractor.
- Billboards should be suitably elected on the onset of the project. The signs should indicate and inform the public e.g. 'DANGER! HEAVY VEHICLES TURNING'. The traffic along the connecting road should be controlled especially during construction phase.

#### Fire Preparedness

- Install an automatic fire alarm system for the entire project mostly on occupation, provide 3No. 30m hose reel for each of the blocks and provide for adequate fire reserve water storage tanks with an automatic booster pump for hose reel and 6No. 9kgs water fire extinguisher. Provide 6No. powder or carbon dioxide extinguishers on the ground floor (for the parking)
- Provide appropriate Fire Hydrant Ring main with suitable outlet points.
- All installation to follow Municipal's Fire Masters requirements approval.
- Conduct regular fire fighting drills/simulations to sensitize workers/residents and adapt an emergency response plan for the entire project during occupational phase.
- Ensure that all firefighting equipment are strategically positioned, regularly maintained and serviced.
- Provide fire hazard signs such as 'No Smoking' signs, Direction to exit incase of any fire incidence and emergency contact numbers should be provided as well as the assembly points.

#### ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED HOUSING DEVELOPMENT ON L.R. NO. MACHAKOS TOWN/BLOCK II/280, MACHAKOS DISTRICT

Pursuant to regulation 21 of Environmental (Impact Assessment and Audit) regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed upgrade of a petrol station

The proposed project entails upgrading the canopy over the pumps, upgrading the sales office, rehabilitating the drainage system, replacing the underground fuel tanks, repairing the drive ways, walkways, acceleration and deceleration lanes, installing the Interceptor Tank and upgrading the washrooms.

The project is located at Machakos town, a few metres from the junction of Machakos turn off and Ngei road directly opposite the newly opened Naivas supermarket. The plot measures approximately 0.1189 Ha. The Land reference number is L.R No Machakos Town/Block 11/280.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Air pollution	<ul style="list-style-type: none"> <li>• Control speed and operation of construction vehicles.</li> <li>• Prohibit idling of vehicles.</li> <li>• Spray water on excavated areas.</li> <li>• Maintenance of construction plant and equipment.</li> <li>• Sensitize construction workers.</li> <li>• All bare areas should be landscaped after construction.</li> <li>• Workers should be provided with dust masks if working in sensitive areas</li> </ul>
Noise pollution	<ul style="list-style-type: none"> <li>• Maintain plant equipment.</li> <li>• Construction should be carried out only during daytime i.e 0800 – 1700 HRS.</li> <li>• Workers to wear ear muffs if working in noisy section.</li> <li>• Management to ensure that noise from the station is kept within reasonable levels.</li> </ul>

Traffic density	<ul style="list-style-type: none"> <li>• Proper signage put in place to notify neighbours of the activity and presence of heavy vehicles and to direct traffic.</li> <li>• Presence of boards directing patrons to the site.</li> <li>• Strict adherence to traffic rules.</li> </ul>
Soil erosion & compaction	<ul style="list-style-type: none"> <li>• Provide soils conservation structures on the areas prone to soil erosion to reduce impact of erosion.</li> <li>• There should be designated pathways and driveways for movement to avoid unnecessary compaction.</li> <li>• All bare areas should be well landscaped after completion.</li> </ul>
Solid waste	<ul style="list-style-type: none"> <li>• Construction debris should be collected by a licensed private contracted waste collection company.</li> <li>• Excavation waste should be re-used or backfilled.</li> <li>• Waste generated should be collected by a privately contracted waste collection company and the contractor should ensure the construction of a central waste collection point with bulk storage facilities.</li> <li>• The site should have waste receptacles with bulk storage facilities at convenient points to prevent littering during occupation.</li> </ul>
Oil leaks and spills	<ul style="list-style-type: none"> <li>• Machinery should be well maintained to prevent oil leaks.</li> <li>• Contractor should have a designated area where maintenance is carried out and that is protected from rain water.</li> <li>• All oil products should be stored in a site store and handled carefully.</li> </ul>
Loss of vegetation	<ul style="list-style-type: none"> <li>• Designate access pedestrian routes and parking zones that are cabro paved.</li> <li>• Provide signs marked do not Walk/ Park on the grass.</li> <li>• The flora and fauna should be restored after construction by landscaping and maintaining the introduced plants.</li> </ul>
Occupational Health and Safety	<ul style="list-style-type: none"> <li>• Provide Personal Protective Equipment.</li> <li>• Train workers on personal safety and how to handle equipments and machines.</li> <li>• Report any accidents / incidences and treat and compensate affected workers.</li> <li>• Provide sufficient and suitable sanitary conveniences which should be kept clean.</li> <li>• The site will be fenced off using iron sheets during renovation.</li> </ul>
Security	<ul style="list-style-type: none"> <li>• The site will be fenced off using iron sheets during renovation.</li> <li>• Demolish all temporary kiosks on site.</li> <li>• Round the clock security for the facility.</li> <li>• Adequate lighting and an alarm system installed at strategic points.</li> </ul>
Oil leaks and spills	<ul style="list-style-type: none"> <li>• Machinery should be well maintained to prevent oil leaks.</li> <li>• Contractor should have a designated area where maintenance is carried out and that is protected from rain water.</li> </ul>

#### ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED ONE STOP BORDER POST (OSBP) AT NAMANGA IN KENYA AND TANZANIA

Pursuant to regulation 21 of Environmental (Impact Assessment and Audit) regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed one stop border stop (OSBP).

The proposed project involves the following

- Cordoning and fencing an area, approximately 6.5 hectares, which will be designated as the border control zone (BCZ), within which access, will be to those persons crossing the border or offering services;
- Construction of roads to bypass the BCZ, approximately 1.5km long;
- Construction of parking areas for trucks crossing the border within the BCZ;
- Construction of an office complex, verification sheds and warehouses;
- Construction and installation of an incinerator for disposal of impounded goods and animals and also solid waste;
- Installation of support mechanical, electrical and security devices and services;

- Construction of civil engineering services including water supply and waste treatment plants;
- Construction of other minor buildings and infrastructure to support the operation of the border post.

The project is situated at Namanga border between Kenya and Tanzania, a distance of approximately 136km on the Kenyan side. On the Tanzanian side, the border is approximately 106km from Arusha. The proposed project is located in Namanga town, Namanga division of Kajiado district.

The following are the anticipated impacts and proposed mitigation measures;

*Possible impacts*

*Mitigation measures*

Land Acquisition and Resettlement

- The Full Report of land acquisition and resettlement and related socio-cultural impacts and mitigation measures to the community has been presented in Resettlement Action Plan (RAP) Report.
- Land acquisition and resettlement will be carried out in accordance with Kenya's, AfDB and JICA Resettlement laws. The compensation and resettlement will be guided by the principle objectives that the Project Affected Persons (PAPs) will have their former living standards and income-earning capacity improved or at least restored. The PAPs must be provided with adequate support during the transition period.

Spread of Communicable Diseases

- The contractor shall abide by the waste management regulations and rules described in Legal Notice No. 121 of the Kenya Gazette Supplement No. 69 of September 2006;
- Treating affected local and migrant populations shall also be used in controlling the movement of disease vectors (through contaminated water and between people);
- Accomplished through a comprehensive health awareness campaign will include preventive measures such as immunizing the vulnerable population, and educating people about diseases and how they are contracted, and how to avoid them by using treated water and keeping living areas cleaner.
- Deposit of segregated refuse in pits should be accompanied by daily covering with a firm layer of earth. These sites should be out of site, downwind and in a dry and properly drained site;
- Provision of personal hygiene facilities in good condition with adequate water supply;
- Awareness raising on proper sanitation and personal hygiene to promote proper health;

Sexually Transmitted Infections and HIV / AIDS

- The Resident Engineer should ensure that management of STIs occurrences due to social interaction between immigrant workers and local populations is conducted through:
- Selecting appropriate locations for construction camps;
- Education and sensitization of workers and the local communities on STIs including provision of condoms to the project team and the public;
- Formation of peer groups from among the

project staff to ensure continuity in training and awareness raising;

- The contractor has to institute HIV/AIDS awareness and prevention campaign amongst workers for the duration of the contract e.g. erect and maintain HIV/AIDS information posters at prominent locations as specified by the Resident Engineer;
- The contractor has to ensure that staff are made aware of the risks of contracting or spreading sexually transmitted diseases;
- The contractor shall ensure that the project workers are sensitized on the local culture;
- The contractor shall ensure the mobilization and sensitization of the general population on reproductive health and STIs;
- During the operation period KRA and Ministry of Immigration should work closely with various HIV/AIDS organizations working in the project zone of influence in order to achieve the best results. The following should also be done:
- Establishment of training and awareness campaigns at the project site;
- Establishment and maintenance of peer counseling groups to ensure constant awareness and support groups among the staff both during the operation period.
- Where possible conduct regular sensitization campaigns and monitoring and evaluation of the modes used during the two year course of the project;
- Formation of peer groups from among the project staff to ensure continuity in training and awareness raising;
- Establishment of training and awareness campaigns at the project site;
- Establishment and maintenance of peer counseling groups to ensure constant awareness and support groups among the staff both during the operation period.
- Compensation for landowners should be done according to the RAP Report.
- Contractor shall consult with Olkejuado County Council on suitable location for disposal of waste that can't be recycled
- Diligence on the part of the Contractors during construction activities will minimize the amount of debris, and also will ensure that debris is disposed of in a sensible manner, at a specified and approved dump.
- All solid waste generated during construction and operation should be carefully monitored, collected, stored, and taken out of the site for disposal.
- Waste generated during the operation of the facility must be segregated at source, inventorised and appropriate methods of disposal determined.
- The development and rehabilitation of spoil areas shall include the following activities:
- Stripping and stockpiling of topsoil;

Spread of the phenomenon of adultery

Land capability and potential

Solid waste generation

Geology and Topography	<ul style="list-style-type: none"> <li>• Removal (to a nominal depth of 500mm) and stockpiling of subsoil;</li> <li>• Placement of spoil material;</li> <li>• Contouring of spoil site to approximate natural topography and drainage and/or reduce erosion impacts on the site;</li> <li>• Placement of excavated subsoil and then topsoil over spoil material;</li> <li>• Contouring and re-vegetation;</li> <li>• The Contractor shall ensure that the placement of spoil is done in such a manner to minimize the spread of materials and the impact on surrounding vegetation and that no materials 'creep' into 'no-go' areas.</li> <li>• The Contractor shall ensure that appropriate pre blast monitoring records are in place (i.e. photographic and inspection records of structures in close proximity to the blast area);</li> <li>• The Contractor shall ensure that emergency services are notified, in writing, a minimum of 24 hours prior to any blasting activities commencing on site;</li> <li>• The Contractor shall take necessary precautions to prevent damage to special features and the general environment, which includes the removal of fly-rock. Environmental damage caused by blasting/drilling shall be repaired at the Contractor's expense;</li> <li>• The Contractor shall ensure that adequate warning is provided to the local communities immediately prior to all blasting. ### Handling of environmentally hazardous chemicals

- The contractor will have to prepare a Waste Management Plan before start of construction activities;
- During operations all the hazardous waste from all Departments must be incinerated as proposed in the Design.

The full report of the proposed project is available for inspection during working hours at:

- (a) Director-General, the National Environment Management Authority (NEMA), Kapiti Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- (b) Permanent Secretary, Ministry of Environment and Mineral Resources, N.H.I.F. Community, P.O. Box 30521, Nairobi.
- (c) Provincial Director of Environment, Rift Valley Province.
- (d) District Environment Officer, Kajido North District.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the approval process of the project.

### THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

### THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

#### ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED FILLING STATION ON L.R NO KERICHO/CHESINENDE/234 IN KIPKERION DIVISION, KERICHO DISTRICT

Pursuant to regulation 21 of Environmental (Impact Assessment and Audit) regulations, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment study report for the implementation of the proposed filling station.

The project will involve the construction of a filling station comprising of: 3 dispensing pumps (1 for petrol, 1 for diesel and 1 for kerosene), 3 underground storage tanks, a canopy, tire centre, office block (lubricants shop, reception, office and toilets).

The proposed project will be located along Nakuru -Kericho Highway at a place called Chesinende on Lr no kericho/chesinende/234 in kipkerion division, kericho district

The following are the anticipated impacts and proposed mitigation measures;

#### Potential Impact Mitigation measures

- |                               |   |
|-------------------------------|---|
| Waste generation and disposal | <ul style="list-style-type: none"> <li>• Solid waste should be managed according to the waste management regulations.</li> <li>• The proponent should contract a licensed waste collector.</li> </ul>   |
| Air and Noise pollution       | <ul style="list-style-type: none"> <li>• Contractor will give prior notice of activities and time durations to neighboring building occupants.</li> <li>• Dust masks should be provided to workers to limit inhalation of the dust.</li> <li>• Switch off engines when not being used</li> <li>• Most of the construction work to be done manually to reduce noise impact</li> <li>• Fencing the site to avoid spread of dust</li> <li>• Employees likely to be exposed to high noise levels to be provided with ear protectors</li> <li>• The contractor should obtain a noise permit</li> </ul> |

from NEMA.

- Measures will be put in place to ensure use of serviced and greased equipment and earmuffs by operators

- Sprinkle water on dusty surfaces

- Place the concrete in well ventilated area

- Ensure the workers wear proper PPEs (including dust masks)

#### Accidents

- Workers should be provided with the necessary PPEs such as helmets
- Warning signs should be provided at the site warning people of potential/possible accidents.

- Materials like iron bars should be properly lowered and not thrown or shot down from heights liable to cause damage, harm or injury to workers or passers-by.

#### Blockage of storm drainage system

- Ensure that storm drainage system remains clear during construction
- Soil from the site which is not in use should be properly disposed

#### Noise and vibrations

- Construction activities must be carried between 0800hrs and 1700hrs.
- Use light vibrators
- Regular servicing of machines and equipment
- Lubrication of machines
- Compliance with noise and Vibration regulations

#### Occupational health and safety

- Provision of PPEs to workers during construction time
- The PPEs should include Overalls/Aprons, helmet, dust masks, welding shield/goggles, ear muffs or plugs (where necessary), and appropriate footwear
- Provide first aid facilities emergency plan at the site
- Fencing off the developing project to avoid risks to the general public

#### Fire risks

- Supervision of the project should be done throughout the project implementation period
- Install fire extinguishers at the filling station
- Clearly mark fire exit points and the fire assembly area
- Provide sand buckets at strategic locations
- Workers should be trained on fire fighting skills by a qualified trainer
- Fire drills should be conducted at least once a year
- A fire fighting team should be established
- Warning and informational signs should be displayed appropriately
- Conduct fire audit once a year
- Formulate and bring to the notice of all workers and clients fire safety policy and rules
- Regular testing and servicing of fire-fighting equipment and appliances.
- Full compliance with the Fire Risk reduction

## Rules, 2007

## Oil spills

- Pumps should be inspected regularly
- Pump valves should be well fitted
- Dispenser pipes and underground tanks should be of approved quality standard
- Regular monitoring to detect leakages from tanks and pipes
- Install an oil interceptor in the drainage system
- Recovery of waste oil for proper disposal by authorized agent
- Use oil absorbent material to clean oil spills especially at the service bay
- Regular checking/monitoring of the drainage lines, interceptor and the water pump to ensure that are working effectively without any overflow or failures.
- Ensure that the underground tanks are compliant with Kenya standards (KS2000:2002)
- Conduct pressure tests before commissioning of the station to ensure that the product lines (pipe works) comply with KS 1969:2006, KS 1967: 2006 and 1968:2006.

## Solid waste management

- Provision of rubbish bins
- Segregation of wastes at the source
- Waste should be disposed at the designated site
- Solid waste should be managed according to the waste management regulations.
- The proponent should contract a licensed waste collector.

## Liquid waste management

- Maintain cess pit; dispose of sludge by NEMA licensed companies.
- Ensure manhole lid is always closed.
- Conduct careful analysis of soils and subsurface geology and incorporate correct placement to avoid ground water contamination
- provision of a reliable water supply

The full report of the proposed project is available for inspection during working hours at:

- Director-General, the National Environment Management Authority (NEMA), Kapiti Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- Permanent Secretary, Ministry of Environment and Mineral Resources, N.H.I.F. Community, P.O. Box 30521, Nairobi.
- Provincial Director of Environment, Rift Valley Province.
- District Environment Officer, Kericho District.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the approval process of the project.

**IMPORTANT NOTICE TO SUBSCRIBERS TO  
THE KENYA GAZETTE**

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette*, *Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Dates must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

*Kenya Gazette*

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
