THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED G20 AMBOSELI GOLF RESORT, HOTEL AND SPA ON LR NO. KAJIADO/KAPUTIEI SOUTH 2694

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed G20 Amboseli Golf Resort, Hotel and SPA.

The proposed development will include putting up a Golf Resort and SPA. Upon completion, the Golf Resort and Spa will comprise of 100 rooms Golf hotel, 300pax conference facility, a Spa, shareholders' cottage, club house, water pans/small dams and staff quarters. The proposed Golf Resort and SPA project will be on land parcel number Kajiado/Kaputiei South/2694.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Air quality	<ul style="list-style-type: none"> • Ensure that all material (sand and aggregate) stockpiled on the site to be used in construction activities are regularly sprayed to reduce the effects of wind whipping. • Ensure that all trucks carrying aggregate and sand are covered during delivery to the site. • Ensure that all machinery and vehicles used in the maintenance of the golf course are regularly maintained. • Implement a traffic system that involves appropriate signals and signs to ensure the smooth flow of traffic must be implemented.
Vegetation disturbance	<ul style="list-style-type: none"> • Only clear vegetation that is absolutely necessary for the construction activities. • Retain all mature trees (> 25 cm diameter at breast height (DBH)) during this phase of the development. • Determine access roads which are to be used by machinery. • Reduce edge effect and habitat loss by physically delimit the remaining neighbouring forests. • Establish 'no-spray' zones throughout the golf course, especially in the remaining vegetated areas of the golf course.
Occupational safety and health	<ul style="list-style-type: none"> • Workers on site must be provided with appropriate PPE. • Appropriate signs must be erected on the site to warn workers and visitors. • There should be safety policy clearly displayed on the site. • Machines should be properly maintained. • A first aid kit should be provided and a trained first aider should always be on site.
Dust emission	<ul style="list-style-type: none"> • Ensure strict enforcement of on-site

speed limit regulations.

- Avoid excavation works in extremely dry weathers.
- Sprinkle water on graded access routes.
- Personal Protective equipment to be worn.

Noise and vibration

Machinery, vehicles and instruments that emit high levels of noise e.g. drills; graders and cement mixers should be used on a phased basis to reduce the overall impact.

- Workers, especially those working with machinery, vehicles and instruments that emit high levels of noise should be supplied with ear plugs and ear muffs.
- Temporary barriers such as earth bumps, zinc fencing and sound dampening fencing such as acoustic screens should be employed.
- Construction hours should be limited to the hours of 8:00 a.m. and 6:00 p.m. daily.

Soils and geology

- Areas storing hazardous substances such as diesel must be properly contained in a bunded area.
- Ensure that general refuse is collected regularly and is transported and disposed of appropriately at the designated disposal site.
- Develop and follow an Integrated Pest Management Guidelines.
- Prevent the contamination of soils by the designation of a maintenance area for the maintenance of vehicles and other equipment.

Water resources

- Irrigation systems must be regularly checked.
- Reduce the level of irrigation on all unused or minimally used areas of the property.
- Ensure that all areas of the golf course are lined with geotextile material to prevent the contamination of ground water in the area.
- Maintain a vegetation buffer around natural environments to reduce the nutrient loading to these waterways.

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839 - 00200, Nairobi.

(b) Permanent Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi

(c) Provincial Director of Environment, Rift Valley Province.

(d) District Environmental Officer, Kajiado North District.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED CONSTRUCTION AND OPERATIONS OF CARNEVAL VILLAGE APARTMENTS, ALONG TUDOR CREEK ON PLOT NO. MN/I/7664 KISAUNI DISTRICT, MOMBASA COUNTY

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed construction and operations of carnival village apartments.

The proposed development will include construction and availing luxurious residential houses in the environs of Tudor creek in Mombasa. The project will involve the construction of six (6) floor flat house at the Tudor creek on a plot measuring 0.1598 hectares. It will further involve an excavation to create three lower ground floors. The proposed luxurious residential houses will be on land parcel L.R. No. MN/I/7664 Kisauni District, Mombasa County.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Damage to features and materials of archeological importance	<ul style="list-style-type: none"> • Secure sites of archeological value and contact the National Museums of Kenya immediately if any is damaged.
Destruction of biodiversity	<ul style="list-style-type: none"> • Construction activities should be controlled to minimize the damage. • Use friendly technology both in the construction and operational phases of the project.
Pollution of the Creek	<ul style="list-style-type: none"> • All wastes from excavations will not be allowed into the sea. • Frequent repairs of boats to make sure that there are no leakages of fuel to the Creek. • The proponent will direct his wastes into the Mombasa Municipal Council sewer and not the creek water
Occupational Safety and Health	<ul style="list-style-type: none"> • Post warning signs near loading points • Contactor to wear personal protective equipment like nose masks and goggles where appropriate. • Workers who are exposed to noise should work in shifts of 6 hours each to limit duration of exposure. • A first Aid Box must be kept at loading site with a designated First Aid trained person • Acquire the noise permit. • The area should be guarded, fenced and warning signs erected.
Increased waste generation	<ul style="list-style-type: none"> • Recycle and reuse waste including water. • Exercising appropriate waste handling and good housekeeping practices and procedures.
Noise and vibration	<ul style="list-style-type: none"> • All Lorries transporting materials shall switch off engines while at the site. • Hours of transporting material to site is shall be 6:00 AM to 6:00 PM • Material transport lorries shall be well maintained so as not to emit excessive noise. • All construction work to be carried out

- during the day.
- Damage to soil texture
- Ensure that all scooped areas are landscaped to take the flow of previous natural land form.
- Damage to the access network
- Raw materials transport Lorries to use designated access roads when going to collect the materials to the sites.
 - Access road maintenance shall be an ongoing concern
- Contamination of water resources
- Proper waste management tools to be employed during construction and operational phases of the project.

The full report of the proposed project is available for inspection during working hours at:

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED MARAGUA DAM - MURANGA COUNTY

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed Maragua dam.

The proposed dam is an embankment dam with a maximum height of 100m. The reservoir is projected to cover an area of 4km² and will impound 100hm³ at its Normal Water Level (NWL). In addition to storing flood flow from the Maragua and Gikigie Rivers, a transfer tunnel has been proposed to transfer water from South Mathioya River to the dam. The length of this tunnel is approximately 3km.

The proposed Maragua Dam is located about 200km North of Nairobi the Capital City of Kenya. The study area administratively falls within the Muranga County and the dam site is approximately 1668m above sea level. The proposed project is likely to affect three Districts namely Kahuro, Kangema and Kigumo. In Kahuro District the affected location is Kionjoini and particularly Gatarasub location while in Kangema District the affected locations are Kiruri and Ichichi, mainly Karura and Ichichi sub locations and a few plots in Kiruri sublocation. In Kigumo District the affected location is Kinyona particularly in Gacharage sub location.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Noise and vibration	<ul style="list-style-type: none"> • Notification of the residents on unusual noise and vibration levels during construction. • Construction need to be limited during

the daytime only.

Air pollution

- Maintain vehicles and equipments well to avoid unnecessary noise and vibration.
- Construction of perimeter wall around dam construction and excavation site to reduce noise emitted.
- Workers to be provided with safety clothing capable of absorbing noise and excessive vibrations.
- Use of improved equipments that emits less noise and vibration.
- Construction need to be limited during the daytime only.
- Ensure dump conditions as much as possible during excavations and earth moving.
- Construction materials be maintained covered whenever possible.
- Local communities shall be informed on anticipated emissions for preparedness.
- Planting of vegetation around the dam to reduce CO₂ produce from decomposition of organic matter in the dam.
- The workers shall be provided by protective clothing like masks and goggles.

Water pollution

- Ensure appropriate waste water discharge from construction site and worker's camps.
- Remove logs and plants before operation.
- The hygiene and sanitation standards within the construction site shall be improved and maintained.
- Public awareness and capacity building among workers and local community in regard to personal hygiene practice.
- Planting of vegetation around the dam and increased soil conservation/integrated farming methods by the communities.

Waste generation

- Contractor will be required to provide an adequate waste management mechanism to construction sites and worker's camps.
- Categorize wastes into inert materials and others for safe disposal. Inert materials (concrete residuals & earth) may be used on local access roads.
- Other waste materials to be disposed off into the approved disposal site.
- Most waste materials shall be reused if necessary.
- Apply the silt from the silt trap dam at the eroded sections of the dam downstream, and
- Encourage appropriate and guided use of the silt by the farmers in reconditioning their farms.
- Ensure compliance to EMCA (waste Management) Regulations, 2008.

Psychological stress

- Ensure that family ties are respected

during resettlement process including relocation of graves and any other cultural items.

- Enhance public consultation and awareness of the project activities and counseling where need be with the project affected persons.
- Provision of alternative livelihoods to those resettled or affected by the project.
- Maintain public notices before commencement of any public nuisance activities.

Soil contamination

- Appropriate maintenance of machines to avoid spillage.
- Proper drainage in the construction site to remove waste water.
- Proper waste management in the construction site.
- Ensure proper disposal of sludge.

Offensive odour

- Ensure that the contractor appropriately manages waste water and waste in the construction site and camp sites in accordance to EMCA (waste Management) Regulations, 2008.

Water-borne diseases

- Enhance local people's public awareness and education in sanitation and personal hygiene.
- Provide adequate and clean drinking water to the workers and local communities and other domestic use.

Vector-borne diseases

- The dam edges shall be deep enough to reduce vector breeding areas.
- Clearance of bushes around the dam and water weeds to discourage breeding areas.
- Avoidance of pool areas /flooding areas around the dam.
- Encourage high speed flow for any outlet from the dam to kill or discourage vector breeding.
- Enhance local people's public awareness and education on vector borne diseases and personal safety.
- Proper drainage at construction sites to avoid waste water stagnation.

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839 - 00200, Nairobi.

(b) Permanent Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi

(c) Provincial Director of Environment, Central Province.

(d) District Environmental Officer, Muranga South District.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED 100MW WIND ENERGY PROJECT AT ESILANKE AREA, OLOYANGANI (KIPETO) SUB-LOCATION, SOUTH KEEKONYOKEI LOCATION IN KISERIAN, KAJIADO DISTRICT

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed 100MW wind energy project.

The primary components of the proposed project will include the construction of a wind energy facility including up to sixty seven (67) wind turbines, one on-site sub-station, underground electrical cabling between turbines and the sub-station, internal access roads and an office/maintenance building on the facility site. Each turbine will be 1.6MW in capacity. The proposed project will be on a land area of about 70km² within the Esilanke area, Oloyangani (Kipeto) sub-location, south Keekonyokei location in Kiserian, Kajiado District.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Archeology and cultural heritage	<ul style="list-style-type: none"> • Consider engaging an archeologist during the construction phase to monitor excavated areas for potential archeological finds around each wind turbine location.
Terrestrial ecology	<ul style="list-style-type: none"> • Where possible avoid destruction of trees. • Use dust suppression methods such as watering down excavated areas during dry periods to avoid dust generation impacts on ecology. • Livestock and wild-herbivores should be allowed to graze/browse over most of the landscape to sustain dispersal and spatial recruitment of plant species. • Micro-siting of the turbines should be done away from riverine areas which support habitats. • No construction activities shall occur within a radius of 500m from priority plant species such as <i>Osyris Lanceolata</i> trees.
Surface water and groundwater	<ul style="list-style-type: none"> • Stockpiles of excavated soil should be banded to prevent erosion and sedimentation which would lead to silt laden run-off. • Silt laden run-off should be directed to settlement/silt ponds to remove suspended solids prior to discharge to nearby watercourses. • Any on-site refueling operations of construction plant and equipment shall be carried out in banded areas. • Construction plant and equipment will be maintained in a good state of repair with minimal leaks. • Storage of hydrocarbons and chemicals on site shall be in banded areas of sufficient capacity to prevent surface water and groundwater contamination.
Noise	<ul style="list-style-type: none"> • The Proponent to ensure that all construction and operational phase activities comply with the requirements of L.N. 25: Factories and Other Places of Work (Noise Prevention and Control)

- Regulations, 2005 and L.N. 61: (Environment Management and Coordination) (Noise and Excessive Vibration Pollution) Regulations, 2009
- Ensure that a 500m buffer zone is maintained between a wind turbine and the nearest household.
- Ornithology (avifauna)
- Critical devices such as the rotor, generator, gearbox and cooling system should be equipped with protection systems to ensure safe and proper shutdown of equipment in sensitive periods and avoid bird collisions.
 - Tree clearing (bird habitats) should be minimized by siting access tracks to the wind turbines away from the natural habitats such as woodlands.
 - Tree clearing should be completed prior to or after the core bird breeding season for woodland and grassland birds.
 - Ensure that good site practices (waste disposal of litter, dust control, stabilization of disturbed areas, etc.) and procedures are used to reduce adverse environmental effects on avifauna
- Socio-economic
- Give priority to youths from the area in jobs to be created during the construction and operational phase of the project.
 - Endeavor to use locally available construction materials and suppliers for the project construction activities.
 - Engage the local community and acquire approval from relevant lead agencies prior to upgrading the existing E407 road and new access tracks to each wind turbine.
 - Provide prudent advice to the community trust fund on types of projects community should engage in to uplift their livelihood.
- Transport
- Ensure that all wind turbine components are transported in accordance with axle load limits.
 - Ensure that relevant lead agencies and Kenya Police are involved for the safe transportation of abnormal loads from Mombasa to the project site.
 - All construction related plant and equipment should adhere to stipulated speed limits during the construction and operational phases respectively.
- Visual impact
- Maintain uniform size and design of wind turbines (hub height, rotor diameter, etc.)
 - Paint turbines a uniform, matt non-reflective color while observing air navigation marking regulations
- Shadow flicker
- Ensure that shadow flicker does not exceed international guidelines of either 30 hours per year or 30 minutes day at the households within the project footprint area.
- Health and safety
- Proponent to comply with the OSHA, 2007 and relevant subsidiary legislation throughout the construction and operational phase of the project.
 - Contractor to undertake appropriate health and safety risk assessments and produce a safety method statement for the construction of the project.

- Provide health and safety induction and ongoing refresher training during the construction phase of the project.

The full report of the proposed project is available for inspection during working hours at:

- (a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839 - 00200, Nairobi.
- (b) Permanent Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi
- (c) Provincial Director of Environment, Rift Valley Province.
- (d) District Environmental Officer, Kajiado District.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

**IMPORTANT NOTICE TO SUBSCRIBERS TO
THE KENYA GAZETTE**

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Dates must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
