ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED ICT CENTRE, UNIVERSITY LIBRARY,
LABORATORY, LECTURE AND THEATRE ROOMS BY KISII
UNIVERSITY COLLEGE ON PLOT L.R. BLOCK 11/100 & 110,
KISII

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact
Assessment and Audit) Regulations, the National Environmental
Management Authority (NEMA) has received an Environmental

Impact Assessment Study Report for the implementation of the
proposed ICT Centre, University Library, Laboratory, Lecture and
Theatre rooms.

The university is putting up ICT Centre, university library,
laboratory, lecture and theatre rooms, and student's hostels within her
compound.

The projects are located within the Kisii University College
compound blocks 11/100 & 110. Kisii University College is a
constituent college of Egerton University located in Kisii County,
2Kms from Kisii Town Central Business District, Kisii Municipality,
off Kisii-Kilgoris Road.

The following are the anticipated impacts and proposed mitigation
measures:

<i>Environmental Impacts</i>	<i>Suggested Mitigation Measure</i>	
Soil erosion and compaction	<ul style="list-style-type: none"> The contractor will provide adequate soil conservation structures to ensure that areas prone to soil erosion are protected from runoff. Areas susceptible to erosion shall be properly sloped and compacted to reduce the effect of runoff, and shall be seeded immediately. Rehabilitation of exposed sites as soon as practicable. The site preparation activity should be scheduled. Re-plant degraded areas with local species common in the area to complement natural vegetation regeneration to improve ground cover. 	<p>management plan for minimizing the generation of noise and vibration from construction activities occurring on site and its impact on surrounding residents, businesses and workers.</p> <ul style="list-style-type: none"> All internal combustion equipment will have properly functioning silencers or mufflers. Neighbours to the site to be notified about the construction schedule and activities, including blasting, should it be required. Restriction of construction activities to daytime only.
Occupational health and safety	<ul style="list-style-type: none"> Workers will be provided with adequate Personal Protective Equipment during the construction phase, these will include safety boots, overalls, helmets, goggles and earmuffs. Workers will also be provided with safety harnesses and proper secure equipment for scaling heights. Workers will be provided with a well stocked first aid box, which will be replenished at all times and managed by trained first aiders. Sensitize workers on occupational health and safety. Adequate sanitary facilities will be provided with proper segregation for both genders where applicable. Fencing off the entire construction site. 	<p>Increase in solid waste</p> <ul style="list-style-type: none"> Proponent will use an integrated solid waste management system by source reduction, recycling, composting, reuse or sanitary land filling. The proponent will ensure that debris is collected by a NEMA approved waste handlers. There will be a central collection point for waste generated preferably with segregation of the same. The proponent will provide or construct proper waste receptacles to avoid littering.
Air and dust pollution	<ul style="list-style-type: none"> The contractor to protect stockpiles of friable material subject to wind-throw by wetting, or with barrier or windscreen. Restrict speed on loose surface roads during dry or dusty conditions; incidence Suppress dust during dry periods by use of water sprays. Maintain equipment in good running condition-no vehicle to be used that generates excessive black smoke. Enforce vehicle load restrictions to avoid excess emissions from engine overloading. The contractor shall institute appropriate measures to minimize or avoid air quality impacts. This can be achieved through formulation of air quality management plan. The contractor to minimize/control emission of dust due to traffic movement and erosion of stockpile material and exposed soil. The contractor to ensure that all equipment used and all facilities erected on site are designed and operated to control the emission of smoke, dust, fumes and any other air impurity into the atmosphere. 	<p>Effluent disposal</p> <ul style="list-style-type: none"> The proponent will connect to Gusii Water and Sanitation Company trunks passing through the campus The proponent will ensure that the materials used for construction are of the right standards as per the building code. The proponent will ensure that there are routine checks for the sewer lines to ensure that there are no leakages.
Noise pollution and excessive vibration	<ul style="list-style-type: none"> The contractor shall comply with the legal requirements for the managements of the noise impact specified in the recently gazetted noise quality regulations. The contractor shall formulate noise 	<p>Security traffic movement for construction vehicles</p> <ul style="list-style-type: none"> The proponent will ensure that guards are available and proper intrusion surveillance equipments are installed and are working all the times. The proponent will ensure that there is adequate lighting in all areas and risk assessment is done regularly to identify any new threats. The proponent will ensure the neighbours are informed through signage about irregular movements and guards to be used to direct traffic within the campus and the access road
		<p>Water resources and water quality</p> <ul style="list-style-type: none"> Measures shall be instituted to minimize erosion and sediment transport, especially during construction activities. These measures should include: limiting areas cleared of vegetation, stabilizing the soils on the sloppy areas with stone pitching and planting of grass. Remedial measures shall be implemented by the Contractor in the event of erosion resulting in the sedimentation of surrounding areas after due consideration of the costs and benefits of such removal activity Infrastructure shall be designed to ensure that contaminated run-off does not reach watercourses In the event of an oil spill the procedures contained in the emergency response plan will come into effect.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED EXPLORATORY DRILLING ON (BLOCKS
L-5, 7, L-11A, L-11B AND L-12) IN LAMU BASIN OFFSHORE,
KENYA

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed exploratory drilling on (Blocks L-5, 7, L-11A, L-11B and L-12) in Lamu basin offshore, Kenya.

The Proponent (Anadarko Kenya Company) is proposing to perform drilling to explore for commercial hydrocarbon resources in waters offshore Kenya.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Potential impact to sensitive marine fauna, fishing or tourism from accidental releases of liquid such as drilling fluid or fuel	<ul style="list-style-type: none"> Ensure drilling fluid additives and other liquids (e.g., paint and solvent) are securely stored and managed to help prevent releases into the marine environment. Be ready to implement oil spill and emergency response procedures for accidental bunkering/refueling incidents. Avoid refueling/bunkering at sea during periods of rough weather or limited visibility conditions. Adhere to standard operating procedures during refueling to minimize incidents. Ensure that refueling hoses and check valves are in a good working condition prior to usage.
Degradation of marine water quality from accidental releases of oil (loss of well control)	<ul style="list-style-type: none"> Ensure that all personnel involved in the drilling operation are highly trained and familiar with deepwater drilling operating standards, techniques, equipment operation and maintenance, testing, monitoring and other procedures recognized across the industry as necessary to manage and contain pressures within limits that ensure a safe and environmentally sound well. Tailor oil spill response preparations to

consider the results of oil spill trajectory models and sensitive areas along the shoreline that may potentially be impacted by an accidental release of oil.

- Maintain contract with Oil Spill Response Limited (OSRL) for support in responding to any potential Tier 2 and 3 spills that require outside support.
- Identify extreme weather patterns or other natural hazards that could impact the area and include planning for such events in the emergency response plan.
- Review potential spill trajectories and spill response plans with the project team and appropriate crew members prior to start-up of drilling activities.
- Notify local officials before drilling commences and maintain communication throughout the project, as appropriate.
- Communicate with local port, marine navigation and fishing authorities in advance of drilling activities to make aware of location and schedule of the proposed drilling program and to establish a reliable means of communication between the drillship captain, government marine authorities and sea users during the drilling program.
- Consider trans-boundary oil spill planning in the ERP/OSCP.
- Ensure that all personnel involved in the drilling operation are highly trained and familiar with deepwater drilling operating standards, techniques, equipment operation and maintenance, testing, monitoring and other procedures recognized across the industry as necessary to manage and contain pressures within limits that ensure a safe and environmentally sound well.

Potential impacts to marine water quality, marine fauna, coastal resources, fishing or tourism from an accidental release of oil

- Potential damage to subsea telecommunications infrastructure
- and sea users during the drilling program.
 - Consider trans-boundary oil spill planning in the ERP/OSCP.
 - Review locations of subsea cables in relation to proposed drill sites prior to Mobilization and modify well locations if needed.
 - Perform pre-drill visual inspection of seabed at proposed well sites using submersible, remotely operated vehicle (ROV).
- Potential damage to sensitive marine fauna from contact with hull or propeller
- Reduce speeds when a whale or sea turtle is sighted and alter course to maintain a 500m separation.
 - No head on approach of marine mammals within 500m.
 - Post a look out if within 500m of a whale if sighted by vessel captain or crew.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED PETROL STATION ON PLOT L.R. NO. KASPUL/KASIMBA/537 OYUGIS TOWN, HOMA BAY COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed Petrol Station on L.R. No. Kaspu/Kasimba/537 Oyugis town, Homa Bay County.

The Proponent (National Oil Corporation of Kenya Limited) of the proposed Petrol Station is proposing to carry on construction of proposed Petrol Station at Oyugis Town in Homa Bay County. The project involves the construction of Canopy over the pumps, Sales office, a store, installation of Underground fuel tanks, Compressor/generator, Tyre centre and car wash, Drive ways, walkways, acceleration and deceleration lanes, Interceptor Tank and washrooms.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Air pollution	• Control speed and operation of construction vehicles.

Noise pollution	<ul style="list-style-type: none"> • Prohibit idling of vehicles. • Spray water on excavated areas. • Maintenance of construction plant and equipment. • Sensitize construction workers. • All bare areas should be landscaped after construction. • Workers should be provided with dust masks if working in sensitive areas. • Construction should be carried out only during daytime i.e. 0800 – 1700 HRS. • Workers to wear ear muffs if working in noisy section. • Management to ensure that noise from the residents is kept within reasonable levels.
Traffic density	<ul style="list-style-type: none"> • Proper signage put in place to notify neighbours of the activity and presence of heavy vehicles and to direct traffic. • Strict adherence to traffic rules.
Soil erosion & compaction	<ul style="list-style-type: none"> • Provide soils conservation structures on the areas prone to soil erosion to reduce impact of erosion. • There should be designated pathways and driveways for movement within the compound to avoid unnecessary compaction. • All bare areas should be well landscaped after completion.
Solid waste	<ul style="list-style-type: none"> • Construction debris should be collected by a licensed private contracted waste collection company • Excavation waste should be re-used or backfilled. • Waste generated should be collected by a privately contracted waste collection company and the contractor should ensure the construction of a central waste collection point with bulk storage facilities • The site should have waste receptacles with bulk storage facilities at convenient points to prevent littering during occupation.
Oil leaks and spills	<ul style="list-style-type: none"> • Machinery should be well maintained to prevent oil leaks. • Contractor should have a designated area where maintenance is carried out and that is protected from rain water. • All oil products should be stored in a site store and handled carefully.
Security	<ul style="list-style-type: none"> • Control of secondary businesses. • Round the clock security for the facility. • Adequate lighting and an alarm system installed at strategic points. • Bushes around and within the site cleared to avoid hiding areas for thieves.
Loss of vegetation	<ul style="list-style-type: none"> • Designate access pedestrian routes and parking zones that are cabro paved • Provide signs marked do not Walk/ Park on the grass • The flora and fauna should be restored after construction by landscaping and maintaining the introduced plants.
Occupational Health and Safety	<ul style="list-style-type: none"> • Provide Personal Protective Equipment. • Train workers on personal safety and how to handle equipments and

machines.

- A well stocked first aid kit shall be maintained by a qualified personnel.
- Report any accidents / incidences and treat and compensate affected workers.
- Provide sufficient and suitable sanitary conveniences which should be kept clean.

Underground fuel storage and handling

- Make the cement screeds in all the chambers using water proof material.
- Install a monitoring well next to the tanks to check on leaks.
- Use water finding dipstick and/ or a hydrometer to check on density/ specific gravity.

Fire preparedness

- Ensuring no spills during refilling and / or when offloading the fuel.
- Fire fighting drills carried out regularly.
- Fire fighting emergency response plan.
- Ensure all firefighting equipment is regularly maintained, serviced and inspected.
- Fire hazard signs and directions to emergency exit, route to follow and assembly point in case of any fire incidence.

Water Consumption

- Promptly detect leaking taps and repair them.
- Turn off taps when not in use.
- Install water conserving taps that turn off immediately when water is not in use.
- Install a discharge water meter in the premises to check on total water use and for billing purposes.

Electricity usage

- Erect a meter in the premises to check on total kilowatts used and for billing purposes.
- Switch off light that are not in use.
- Use of energy conserving bulbs/ tubes.
- Use of natural light for lighting purposes.
- Use natural ventilation from windows and doors and avoid using Air Con that use electricity.
- Provide a standby generator in the premises in cases power goes out.

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed MDS Container Petrol Service Station on plot L.R. No. Kiine/Rukanga/1493 (part – ¼ acre) at Makutano - Mwea, in Kirinyaga County.

The Proponent (National Oil Corporation of Kenya Limited) of the proposed Petrol Service Station is proposing to carry on installation of a mobile dispensing station (MDS). The MDS comprises of inbuilt dispensing units for PMS and AGO. It will comprise of; 5 dispensing pumps (2 for PMS and 3 for AGO), underground storage tanks, a canopy, tire centre, office block (lubricants shop). The proposed project is designed in line with other similar projects (petrol stations) that have been constructed by National Oil Corporation of Kenya throughout the country.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED PETROL STATION ON PLOT L.R. NO.
KIJABE/KIJABE BLOCK 1/4919 MAI MAHIU TOWN, NAKURU
COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed Petrol Station on plot L.R. no. Kijabe/Kijabe Block 1/4919 Mai Mahiu Town, Nakuru County.

The Proponent (National Oil Corporation of Kenya Limited) of the proposed Petrol Station is proposing to carry on construction of a Canopy over the pumps, Sales office, a store, Underground fuel tanks, Compressor/generator, Tyre centre and car wash, Drive ways, walkways, acceleration and deceleration lanes, Interceptor Tank and washrooms.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Air pollution	<ul style="list-style-type: none"> Control speed and operation of construction vehicles. Prohibit idling of vehicles. Spray water on excavated areas. Maintenance of construction plant and equipment. Sensitize construction workers. All bare areas should be landscaped after construction. Workers should be provided with dust masks if working in sensitive areas.
Noise pollution	<ul style="list-style-type: none"> Construction should be carried out only during daytime i.e. 0800 – 1700 HRS. Workers to wear ear muffs if working in noisy section. Management to ensure that noise from the residents is kept within reasonable

	levels.
Traffic density	<ul style="list-style-type: none"> • Proper signage put in place to notify neighbours of the activity and presence of heavy vehicles and to direct traffic. • Strict adherence to traffic rules.
Soil erosion and compaction	<ul style="list-style-type: none"> • Provide soils conservation structures on the areas prone to soil erosion to reduce impact of erosion. • There should be designated pathways and driveways for movement within the compound to avoid unnecessary compaction. • All bare areas should be well landscaped after completion.
Solid waste	<ul style="list-style-type: none"> • Construction debris should be collected by a licensed private contracted waste collection company. • Excavation waste should be re-used or backfilled. • Waste generated should be collected by a privately contracted waste collection company and the contractor should ensure the construction of a central waste collection point with bulk storage facilities • The site should have waste receptacles with bulk storage facilities at convenient points to prevent littering during occupation.
Oil leaks and spills	<ul style="list-style-type: none"> • Machinery should be well maintained to prevent oil leaks. • Contractor should have a designated area where maintenance is carried out and that is protected from rain water. • All oil products should be stored in a site store and handled carefully.
Security	<ul style="list-style-type: none"> • Control of secondary businesses. • Round the clock security for the facility. • Adequate lighting and an alarm system installed at strategic points. • Bushes around and within the site cleared to avoid hiding areas for thieves.
Loss of vegetation	<ul style="list-style-type: none"> • Designate access pedestrian routes and parking zones that are cabro paved. • Provide signs marked do not Walk/ Park on the grass. • The flora and fauna should be restored after construction by landscaping and maintaining the introduced plants.
Occupational health and Safety	<ul style="list-style-type: none"> • Provide Personal Protective Equipment. • Train workers on personal safety and how to handle equipments and machines. • A well stocked first aid kit shall be maintained by a qualified personnel • Report any accidents/incidences and treat and compensate affected workers. • Provide sufficient and suitable sanitary conveniences which should be kept clean.
Underground fuel storage and handling	<ul style="list-style-type: none"> • Make the cement screeds in all the chambers using water proof material. • Install a monitoring well next to the tanks to check on leaks. • Use water finding dipstick and/ or a hydrometer to check on density/ specific gravity. • Ensuring no spills during refilling and / or when offloading the fuel.
Fire preparedness	<ul style="list-style-type: none"> • Fire fighting drills carried out regularly.

	<ul style="list-style-type: none"> • Fire fighting emergency response plan. • Ensure all fire fighting equipment is regularly maintained, serviced and inspected. • Fire hazard signs and directions to emergency exit, route to follow and assembly point in case of any fire incidence.
Water Consumption	<ul style="list-style-type: none"> • Promptly detect leaking taps and repair them. • Turn off taps when not in use. • Install water conserving taps that turn off immediately when water is not in use. • Install a discharge water meter in the premises to check on total water use and for billing purposes.
Electricity usage	<ul style="list-style-type: none"> • Erect a meter in the premises to check on total kilowatts used and for billing purposes. • Switch off light that are not in use. • Use of energy conserving bulbs/ tubes. • Use of natural light for lighting purposes. • Use natural ventilation from windows and doors and avoid using Air Con that use electricity. • Provide a standby generator in the premises in cases power goes out.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED DRILLING OF EIGHTY (80) GEOTHERMAL STEAM PRODUCTION WELLS FOR EXPANSION OF ELECTRICITY POWER GENERATION AT GREATER OL KARIA GEOTHERMAL FIELD IN NAIVASHA DISTRICT

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed drilling of eighty (80) geothermal steam production wells for expansion of electricity power generation at greater Olkaria geothermal field in Naivasha district.

The Proponent (Kenya Electricity Generating Company Ltd (KenGen)) is proposing to drill a total of 80 geothermal production wells in Olkaria area of Naivasha district. The objective of the

proposed project is to adequately harness steam that will be used for the generation of 560MWe of geothermal energy in line with vision 2030.

The following are the anticipated impacts and proposed mitigation measures:

<i>Possible Impact</i>	<i>Mitigation measures</i>
Land acquisition	<ul style="list-style-type: none"> Negotiate and purchase land from the affected land owners
Soil erosion	<ul style="list-style-type: none"> 3 wells are drilled on one pad to minimize area required Compact cleared areas to avoid wind erosion Rehabilitate all degraded areas Build gabions where gully's
Increase in water abstraction from Lake Naivasha	<ul style="list-style-type: none"> Geothermal fluids will be used for drilling Containment of geothermal fluids to control surface runoff getting into water ways Reinjection geothermal fluids into the wells
Air quality	<ul style="list-style-type: none"> Monitor H₂S and dust levels and sprinkle exposed earth surfaces Maintain drilling machinery, equipment and vehicles used at optimal working conditions Monitor precipitation chemistry Speed limits of 40Km/hr to be imposed and drivers sensitized
Noise	<ul style="list-style-type: none"> Maintain drilling machinery, equipment and vehicles used at optimal working conditions Monitor noise levels Sensitize staff working in areas of high noise levels Erect warning signs in areas with high noise levels Provide staff working in excessive noise (above 45dba) and visitors with appropriate PPES
Waste effluent	<ul style="list-style-type: none"> Monitor waste brine and other discharges quality Re-inject all brine discharges Contain effluents and waste brine sumps to allow see page
Accidental oil spills	<ul style="list-style-type: none"> Prepare plans and procedures for proper storage and handling of oil products Plants and equipment should be maintained in optimal working conditions to avoid leakages Bund oil and lubricants storage area and Cover outdoor storage sites Deploy drip trays while servicing machines and equipment Line oil store floors with appropriate material and any drains should go to an oil interceptor
Drilling chemicals	<ul style="list-style-type: none"> Provide and enforce strict use of procedures and material safety data sheets for handling process chemicals Formulate emergency response plans and procedures just in case of a chemical spill Chemicals should be stored in appropriate stores and with cover
Source of Construction	<ul style="list-style-type: none"> Specify required standard for all

Materials can degrade environment in other areas

materials and appliances

- Verify source of all construction materials
- Quarries for raw materials for access roads should be NEMA licensed
- Raw materials that can be supplied by locals should be contracted to locals in the area

Solid waste generation from the construction and workers

- All waste generated by the project should be disposed off as per EMCA 1999 (waste management regulations)
- Waste should be segregated, transported in permitted vehicles and disposed off in NEMA licensed sites

Biological and physical environment

- Construction waste that can be re-used for landscaping and gabions making
- Ensure only the minimal required areas are cleared of vegetation
- Only vegetation indigenous to the area should be used for rehabilitation works
- Rehabilitate all the degraded areas
- Sensitize workers against destruction of vegetation, cutting of trees and poaching

Visual intrusion and aesthetics

- Use colors that blend with the local environment for equipment and pipelines
- Re-vegetate areas that had been cleared of vegetation

Public nuisance

- Minimize air pollution with measures earlier proposed
- Notify the public through local community leaders of possible disturbance during construction
- Erect warning signs
- Create a complaints register

Occupational health and safety

- Prepare safety and emergency plans and procedures
- Test safety and emergency plans regularly
- Ensure compliance with codes of practice, ordinances, laws, regulations and union agreements
- Provide appropriate PPE'S and enforce use by workers

Public Health and Safety

- Reduce dust emission levels through regular watering of cleared areas
- Conduct awareness on sexually transmitted diseases such as HIV/AIDS
- Provide standard facilities for solid waste and sanitation
- Provide workforce with wholesome drinking water
- Monitor quality of water, air and noise levels

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed construction of petroleum services station on plot no MN/II/ 9874 and 9875, in Mishomoroni along Mwakirunge road in Mombasa County.

The Proponent (Ali M. Mbogo and Yumna F. Ahmed) of the proposed construction of petroleum services station on plot no MN/II/ 9874 and 9875, in Mishomoroni along Mwakirunge road in Mombasa County.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Soil disturbance and pollution	<ul style="list-style-type: none"> Excavation only at areas of construction and pave open spaces to reduce erosion. Ensure vehicles delivering materials and machines are in good condition- no leaks. Part of the excavation material will be used for landscaping and beautifying the project site The UST need to be pressure tested Leak detection system needs to be installed with automatic cut-off with pressure drop
Water Pollution	<ul style="list-style-type: none"> Contain packaging of building materials of new equipment installed The location and standards of the septic tanks and soak pit will conform to the requirements. Construct oil interceptor with carefully calculated volumes and established flow rates. Refrain from realising any demolition waste into the environment allocate segregated & covered garbage bins
Biodiversity	<ul style="list-style-type: none"> Use durable materials to reduce waste. Ensure that garbage bins are labeled and covered, strategically placed for ease in collection by reputable handler.
Air pollution	<ul style="list-style-type: none"> Ensure the vehicle engines are in good condition to reduce levels of exhaust gases Water sprinkling to reduce dust Vapour recovery system to be installed in the breathers to prevent discharge of fuel fumes into the environment.

- Use environmentally clean fuels.
- Construction during daylight hours
- Drive vehicles into the site without undue noise (hooting).

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED EDIBLE OIL REFINERY AND FRACTION PACKING SHORTENING AND SOAP PLANT ON LR NO 12648/8 IN ATHI RIVER, MAVOKO MUNICIPALITY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed Edible Oil Refinery and Fraction Packing Shortening and Soap Plant on LR No 12648/8 in Athi River, Mavoko Municipality.

The Proponent (Golden Africa Kenya Limited) is proposing to carry on construction of an Edible Oil Refining, fraction packing, shortening, and Soap manufacturing plant on LR No. 12648/8 in Athi River, Mavoko Municipality. The proponent is proposing to import edible oils from abroad and process them systematically. The processed oils will be fraction packed at the facility, part of which will be used in the manufacturing of soap products.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Loss of vegetation cover	<ul style="list-style-type: none"> Introduction of vegetation (trees, shrubs and grass) on open spaces and around the project site and their maintenance. Design and implement an appropriate landscaping programme to help in re-vegetation of part of the project area after construction. Limiting vehicular transport to defined roads as to prevent unnecessary injury, habitat destruction and complying with safe driving procedures; Ensure proper demarcation and delineation of the project area to be affected by construction works;
Disturbance and related impacts to Wild life	<ul style="list-style-type: none"> Design with a view to incorporating nature conservation into the

	development including appropriate friendly boundary fencing		generators and fuel tanks – and have impervious surfaces and capture facilities in place;
	<ul style="list-style-type: none"> • Retain existing habitats where possible and aim to keep natural site features in context rather than in isolated fragments. • Preserve wildlife corridors and habitat links • Integrating ecological features, for example climbing plants and bird nest boxes within any buildings or structures. • Game hunting and killing is not permitted; • Compliance with the ecological requirements and any other legal requirements with regard to waste management, environmental pollution and discharge to waters among others; • Replacement of lost habitat where possible • Ensure that landscape design reflects local ecology and uses locally sourced plants wherever possible; • Using environmentally friendly equipment with higher fuel efficiency or equipped with air pollution control devices to minimize exhaust emissions • Avoiding equipment and vehicles running unnecessarily • Watering-down dusty work areas • Establishing and enforcing appropriate speed limits over all unpaved surfaces • All personnel working on the project will be trained prior to starting construction on methods for minimizing air quality impacts during construction • Ensure construction machinery and equipment are well maintained to reduce exhaust gas emissions 		<ul style="list-style-type: none"> • Clean up spills if any with an absorbent material. Chemicals spilled near wells can move directly and rapidly into groundwater. Chemicals spilled near ditches or streams can move rapidly into surface water; • Develop a spill response and emergency response plan covering aspects of water management and conservation; • Selecting properly the location of mixing areas and loading of chemicals and other construction materials; • Ensure an appropriate storage of equipment.
Emissions of air pollutants		Energy loss, wastage and resultant pollution	<ul style="list-style-type: none"> • Efficient work scheduling and methods that minimise equipment idle time and double handling of material; • Throttling down and switching off construction equipment when not in use; • Switching off truck engines while they are waiting to access the site and while they are waiting to be loaded and unloaded; • Switching off site office equipment and lights and using optimum lighting intensity for security and safety purposes; • Careful design of temporary roads and traffic routing to reduce transportation distances; and • Regular maintenance of equipment to ensure optimum operations and fuel efficiency.
Pollution from Hazardous waste	<ul style="list-style-type: none"> • Handling of the materials in line with the material safety data provided by the manufacturers • Appoint a safety officer to ensure that proper disposal guidelines are observed • Ensuring that maintenance and/or piece of work carried out on any piece of equipment or construction work is undertaken by qualified personnel • In case of spillage emergency spillage control measures to be instituted • Containerization of any wastes and disposal through a licensed waste handler 	Traffic nuisance	<ul style="list-style-type: none"> • In consultation with neighbouring road users and the appropriate authorities identify an acceptable access to and from site into the highway; • Maintain the access service road to the standard required to carry the load and volume of traffic; • Enforce strict restrictions on the speed at which the trucks are allowed to travel and the hours of operations; • Where necessary implement stop/go zones which will allow a single truck to pass at a time; • Clear signage on the roads; • Education of staff and building contractors; • Take advantage of off-peak hours; and • Well trained and experienced drivers with documented evidence if training and refresher courses.
Increased Noise and vibrations	<ul style="list-style-type: none"> • Use of equipment designed with noise control elements will be adopted where necessary. • Trucks used at construction site shall be routed away from noise sensitive areas where feasible. • Idling time for pick-up trucks and other small equipment will be minimized. • All workers operating in noisy areas or operating noisy equipment will be provided with earpieces to protect against noise. 	Health and safety concerns	<ul style="list-style-type: none"> • Undertake Job Risk Assessment and Review of each task; • Put in place an Emergency Response Plan; • A comprehensive contingency plan will be prepared before construction begins, on accident response; • Develop and Traffic Management Plan prior to commencement of construction.
Pollution of surface and ground water	<ul style="list-style-type: none"> • Utilise sustainable waste management facilities including a packaged waste water treatment plant with the capacity to recycle all of the water utilised on site; • Identify high risk spill areas- e.g. 		<ul style="list-style-type: none"> • All employees will be required to wear protective gear when handling hazardous wastes; • All workers will be adequately insured against unforeseen accidents.

- Generation of solid waste • Wastes to be collected regularly to control air pollution and vermin infestation;
- Receptacles will be provided for waste storage prior to collection;
 - Resource recovery will be encouraged once the project takes off so as to shrink waste stream and recover non-recyclables;
 - Refuse collection vehicles will be covered to prevent scatter of wastes by wind;
 - Wastes will be collected by a licensed operator to avoid illegal final dumping at unauthorized sites;
 - All persons involved in refuse collection shall be in full protective attire; and
 - As provided for by the Building Code, a temporary latrine will be provided on site to be used by construction workers
- Waste water generation and effluents discharge • Recycle the wastewater for flushing (where practical);
- Reuse the wastewater (generally after treatment) for a beneficial purpose (either onsite or on a neighbouring property) such as dust control;
 - Treat and discharge wastewater to soakage or lined evaporation pit (where practical);
 - Treat and discharge to drains or watercourses;;
 - Implement seasonal water use limitations; and
 - Pursue options of recycling, and water harvesting.
- Extraction materials and depletion • Source building materials from local suppliers who use environmentally friendly processes in their operations and are certified;
- Ensure accurate budgeting and estimation of actual construction material requirements to ensure that the least amount of material necessary is ordered; and
 - Ensure that damage or loss of materials at the construction site is kept minimal through proper storage.
- Social impacts, welfare and increase in STI infections • Sensitization staff working on the project on dangers of free lifestyle
- HIV/AIDS awareness training for all employees and subcontractors.
 - Provide facilities including condoms and checkups for staff

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed installation of on-surface pre-fabricated 210m³ Industrial Diesel Oil (IDO) storage tanks) on Plot No. 209/8849, Lunga Lunga road industrial area next to Kenya Pipeline Corporation (KPC) depot, Nairobi County.

The Proponent (Lunga Lunga Petroleum Company Limited) of the proposed installation of on-surface pre-fabricated 210m³ Industrial Diesel Oil (IDO) storage tanks) proposing to install a three cylindrical steel tanks of 210m³ capacity for storage of Industrial Diesel Oil (IDO). The Tanks will be fabricated elsewhere and installed on site.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
General waste and solid wastes	<ul style="list-style-type: none"> • All solid waste will be collected at a central location on site and will be stored temporarily before collection by CCN trucks • No dumping within the surrounding area is to be permitted • The Station refuse areas should be secured and enclosed to minimize the risk of accidents and attracting scavengers. • Separation of the wastes on site to enable recycling and resource recovery as the 3R principles.
Site Traffic & Safety	<ul style="list-style-type: none"> • Place prominent signage alerting oncoming traffic (both human and vehicle) to the site • Provide safety visibility measures for vehicles coming out of the facility. • Train installation workers on Occupation Health and safety and basic first aid training
Waste water	<ul style="list-style-type: none"> • Periodic checks and regular maintenance should be carried out on the functioning of the wastewater system • Document volume of waste to aid in determining improvements with regard to waste management. • Timely Servicing of machineries on site to avoid cases on leaks • Install oil/ fuel leak detectors on site • Construction of gully and collector pit. • Construction of drainage lines and oil interceptor
Air quality / Dust Control	<ul style="list-style-type: none"> • Vehicles should switch off engine during while at site • Warning signs against smoking should be displayed on site

- Mitigatory measures such as wetting down, as well as the erection of shade netting screens to prevent offsite movement of dust may also be required.
 - Any construction machineries found to be emitting excessive smoke should be stopped from the operations for some mechanical attention before it could continue
 - Provision of dust masks to workers when working in dusty environment
 - Regular inspection of the drainage system and recovery of volumes during the rainy season to minimize risk of flushing.
 - Pipes carrying waste water and fuel should be repaired and maintained in case of breakages.
 - Provide first aid facility
 - Develop employee training programme on health and safety
 - Establish health safety plan frame work of procedures to protect the health and safety of all personnel during operations
 - The proponent shall prepared Method Statements covering the procedures and response plan for the main activities, which could generate emergency situations through accidents or neglect of responsibilities.
 - The proponent shall ensure that his employees are aware of the procedure for dealing with spills and leaks.
 - The proponent shall assemble and clearly list the relevant emergency telephone contact numbers
 - The proponent shall comply with all standard and legally required health and safety regulations as promulgated under the Occupational Health and Safety Act 2007 and associated regulations
 - The proponent must provide and maintain personal protective equipment and facilities to employees at all times during operation of the tanks
 - Official training in the correct fit, use, care, storage and limitations of all Personal Protective Equipment must be given to the employees
 - The proponent shall provide a standard first aid kit at the site office of each camp
 - An inventory should be kept for all fire protection measures.
 - 'No smoking' sign should be prominently displayed.
 - A supply of relevant (in case of fuel powder) First Aid cylinders should be maintained and regularly serviced.
 - Regular training of the personnel in relation to fire emergency and accidents.
 - Firefighting equipment should be kept in easily accessible places and be regularly checked.
 - Excavations should be limited to the tank plat form
 - Contingency plans should be designed for the rapid control of spilled material as near to the source as possible.
 - The site is to be cleared of all
- Runoff, Spill & Leak prevention
- Health and safety management
- Occupational health risk to workers and general public
- Fire and Accident Prevention
- Excavations /earth movements
- De-mobilization

construction materials, including litter prior to hand over

- Fences/barriers associated with the construction phase must be removed from the site
- Fences, barriers and demarcations associated with the construction phase must be removed from the site
- Rehabilitation Activities of Environmental Cases indentified must continue throughout the defect liability period

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED GAME LODGE & RESORT PROJECT IN KIMANA, LOITOKTOK DISTRICT PLOT L.R. No. LTK/KIMANA-TIKONDO/3317

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed Game Lodge & Resort project in Kimana, Loitoktok district plot L.R. No. LTK/Kimana-Tikondo/3317.

The Proponent (Kijos Holdings Limited) is proposing to construct a Game Lodge and Resort consisting of 64 guest rooms units; conference facilities; waste water treatment plant; swimming pool among other auxiliary facilities.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Vegetation clearing	<ul style="list-style-type: none"> • Ensure that any disturbance to flora and fauna is restricted to the actual project area. • Preserve individual trees within the site that do not fall on the proposed buildings and infrastructure paths. • Ensure proper demarcation and delineation of the project area to be affected by construction works. • Introduction of vegetation (especially indigenous species) on open spaces and around the project site and ensure their maintenance. • Design and implement an appropriate landscaping programme to help in re-

	vegetation of part of the project area after construction.	freeboard.
Wildlife disturbance	<ul style="list-style-type: none"> Erect necessary barriers to avoid direct human-wildlife interaction. Fence only built up areas and not the whole project plot. No hunting at or around the camp unless appropriate permits are obtained. Allow animals as much free movement as possible around the site. Identify and avoid encroaching into wildlife hide-outs, breeding areas and feeding points. 	<ul style="list-style-type: none"> Use of electrically operated construction machinery to avoid externalities produced by diesel engines. Erect dust screens/barriers where applicable.
Visual intrusion	<ul style="list-style-type: none"> Ensure all buildings blend well with existing natural environment. Practice land use that will be compatible with wildlife existence in the rest of the project land and adjacent wildlife sanctuary. Retain existing vegetation as much as possible. Re-vegetate project plot by use of indigenous species as much as possible. 	<ul style="list-style-type: none"> Solid waste management during construction and operational phases of the project must adhere to the Environmental Management and Coordination (Waste Management) Regulations, 2006. Provision of facilities for proper handling and storage of construction materials. Use of building materials that have minimal packaging to avoid the generation of excessive packaging waste. Adequate collection and storage of waste on site and safe transportation to the disposal sites and disposal methods at designated area shall be provided.
Occupational health and safety risks	<ul style="list-style-type: none"> Appropriate health and safety measures shall be implemented as per the Occupational Health and Safety Act, 2007. Provide appropriate personal protective equipment for all staff. Unattended public access to the construction site should be restricted. All necessary safety and informative signs should be erected in appropriate places. Install fire management equipment in strategic areas. 	<ul style="list-style-type: none"> Increased water demand <ul style="list-style-type: none"> Provide rain water harvesting facilities. Encourage staff to turn off taps when not being used. Quickly fix leaking taps, pipes and water tanks. Minimize water use in the gardens. Increased energy demand <ul style="list-style-type: none"> Identify and use areas/equipment/systems having minimum energy consumption. Install energy saving lights. Use alternative energy sources such as solar for water heating.
Insecurity	<ul style="list-style-type: none"> Unattended public access to the construction site shall be restricted. A daily register of all workers at the site shall be kept. Security personnel shall be posted within and around the project site. 	<p>The full report of the proposed project is available for inspection during working hours at:</p> <p>(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 30521, Nairobi.</p> <p>(c) County Director of Environment, Kajiado County.</p>
Noise and vibrations	<ul style="list-style-type: none"> Comply with maximum permissible noise levels for constructions sites. Prescribe noise reduction measures e.g. restricted working hours and transport hours and noise buffering. All construction works and delivery of materials shall be carried out during the day between 0800 Hrs and 1700 hrs. Use quiet equipment (i.e. equipment designed with noise control elements such as mufflers and silencers). Ensure use of well serviced and maintained vehicles and equipment. Install portable barriers to shield noise emitting equipment where applicable. 	
Air pollution (exhaust emissions and dust)	<ul style="list-style-type: none"> Use dust management techniques, such as water spraying to control dust. Pave, use water, or apply (non-toxic) soil stabilizers on all unpaved access roads, parking areas and staging areas at construction site. Vehicles and machineries should be switched off when not in use. Cover all trucks hauling soil, sand and other loose materials or require all trucks to maintain at least two feet of

NAIROBI COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the

proposed Office Tower on L.R. No. 209/12135 and 209/12146, along Hospital Road in Upper Hill, Nairobi County.

The Proponent (British American Insurance Company Limited) of the office tower is proposing to put up an office Tower along Hospital road in Upper Hill, which is Nairobi city's fastest growing commercial district. The design for the proposed complex provides for a 30 storey grade A office building with a detached 10 storey parkade.

The following are the anticipated impacts and proposed mitigation measures:

<i>Possible Impact</i>	<i>Mitigation measures</i>
Soil erosion	<ul style="list-style-type: none"> • Control earthworks. • Install drainage structures properly. • Ensure management of excavation activities. • Landscaping of disturbed areas.
Air pollution	<ul style="list-style-type: none"> • Stockpiles of earth should be sprayed with water or covered during dry seasons. • Provide dust masks for the personnel in dust generation areas. • Sensitize construction workers on pollution control measures.
Noise pollution	<ul style="list-style-type: none"> • Sensitize workforce including drivers of construction vehicles. • Install portable barriers to shield compressors and other small stationary equipment where necessary. • Put up signs to indicate construction activities. • Workers in the vicinity of high level noise to wear safety and protective gear.
Dust generation	<ul style="list-style-type: none"> • Spray stock piles of earth with water. • Avoid pouring dust materials from elevated areas to ground. • Cover all trucks hauling soil, sand and other loose materials. • Provide dust screen where necessary.
Exhaust emissions	<ul style="list-style-type: none"> • Vehicle idling time shall be minimized. • Alternatively fuelled construction equipment shall be used where feasible. • Equipment shall be properly tuned and maintained.
Water sources	<ul style="list-style-type: none"> • Proper Management of water usage to avoid unnecessary wastage of water. • Rain water harvesting.
Site cleanliness and sanitary facilities	<ul style="list-style-type: none"> • Special attention shall be paid to the sanitary facilities on site. • Garbage shall be disposed off periodically.
Public health and occupational safety	<ul style="list-style-type: none"> • Ensure proper solid waste disposal and collection facilities. • Ensure dustbin cubicles are protected from animals, rains and are well covered. • Proper treatment of waste water.
Vegetation disturbance	<ul style="list-style-type: none"> • Landscape the site by planting grass and trees at all disturbed areas. • Care for the trees/plants.

FOR THE PROPOSED BALAJI FLOWERS LIMITED ON L.R
NO.NYANDARUA/GILGIL WEST/931, NYANDARUA COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed Balaji Flowers limited on L.R No. Nyandarua/Gilgil West/931, Nyandarua County.

The Proponent (Balaji Flowers Limited) of the proposed Balaji Flowers limited is proposing to carry on establishment and production of cut flower production for export market. The project involves the construction of greenhouses and offices.

The following are the anticipated impacts and proposed mitigation measures:

<i>Possible Impact</i>	<i>Mitigation measures</i>
Impact on marine environment	<ul style="list-style-type: none"> • Observe the 60m riparian reserve setback as this will serve as a buffer zone. • Comply with the provisions of Legal Notice No. 19 of 2009. • Comply with the recommendations of the shoreline management strategy for Kenya for Cell 14. • Secure excavated sites to ensure that soil heaps are not eroded into the sea. • The proponent will collaborate with Kenya Wildlife Service, local BMU/Fisheries Department, Local Ocean Trust /Watamu Turtle Watch and other agencies to explore ways of supporting conservation programmes for the marine environment.
Destruction of the physical environment	<ul style="list-style-type: none"> • Following the completion of the entire development, measures will need to be undertaken to restore degraded habitats and biodiversity and curb soil erosion. • Undertake landscaping and planting of sediment binding grasses and gardening. • A key consideration will be the replacement of indigenous trees that will have been felled during the construction process. • Excavations will be limited to foundation areas only. • Ensure that any compacted areas are ripped to reduce run-off.
Impact of sourcing of raw	<ul style="list-style-type: none"> • Obtain raw materials from sources that

materials from environment	<p>are compliant with NEMA Regulations.</p> <ul style="list-style-type: none"> Procure quantities that are sufficient for the intended works only. Recycle as far as practical to stem wastage. Commit to extensive use of recycled raw materials as will be appropriate and in a manner that does not compromise the safety of the development. 	on the marine environment	<p>conservation of marine resources</p> <ul style="list-style-type: none"> Installation of mooring buoys for boats and sea craft used by the resort. The delineation of the designated mooring area shall be done in consultation with the local BMU, LOT/WTW and Kenya Wildlife Service. Initiating marine conservation programmes that tourists can participate in such as adoption of sea turtle nests to help raise awareness and funds for conservation.
Noise pollution	<ul style="list-style-type: none"> Locate concrete mixers as far as practical from neighboring properties. Inform neighbors in writing prior to commencement of the development so that they are prepared psychologically at least two weeks in advance. Employees using equipment that produce peak sounds shall be provided with earmuffs. Comply with the provisions of Noise Regulations (Legal Notice No. 61 of 2009). 	Impact of beach lighting installations and beach use on sea turtles	<ul style="list-style-type: none"> Diffuse lighting systems should be adopted for the houses facing the beach Minimize night movement on the beach on the part of visitors. Carry out daily early morning monitoring of the beach frontage for any possible sea turtle nesting activity. Maintain recommended setback lines for all activities including daily removal of sun bathing beds from the beach at night fall.
Dust generation	<ul style="list-style-type: none"> Secure the site using appropriate dust screens. Sprinkle building materials that are likely to produce dust such as ballast with water before use to suppress dust. Access road and dust surfaces at the construction site should be sprinkled with water twice a day. Employees will be provided with appropriate dust masks. 	Potential conflicts with local fishers	<ul style="list-style-type: none"> Keep records of sea turtle sightings/stranding in the area and submit them to KWS and if possible share data with Watamu Turtle Watch. Collaborate with the local BMU and Fisheries Department in decision making regarding the use of shared resources such as beach usage and access. The proponent should always endeavor to solve amicably any conflicts that may arise from the use of marine resources. Give priority to local fishermen for relevant job opportunities that may arise.
Health and safety of employees at the workplace	<ul style="list-style-type: none"> Provision of adequate and appropriate Personal Protective Equipment (PPE) including safety shoes, helmets, gloves and overalls. First aid services and an emergency vehicle to be readily available at site. Securely protect moving parts of machines and sharp surfaces with guards to avoid unnecessary contacts and injuries during construction phase. Ensure that all chemicals used in construction are appropriately labeled or marked. The construction site to be registered as a workplace with the Directorate of Occupational Health and Safety. 	Effluent generation	<ul style="list-style-type: none"> Sewage/wastewater will be managed through the construction of wastewater recycling plant. The design of the recycling plant should ensure that the quality of water discharging from it meets the standards specified under Schedule III of Legal Notice No. 120 of 2006. Regular monitoring of the quality of water discharged or recycled to ensure that it meets the standards specified under Schedule III of Legal Notice No. 120 of 2006. Kitchen sinks to be fitted with oil and grease traps. Apply for an effluent discharge licence from NEMA in compliance with Legal Notice No. 120 of 2006.
Solid waste management	<ul style="list-style-type: none"> Use of an integrated solid waste management system i.e. through a hierarchy of options: 1. Source reduction 2. Recycling 3. Reuse 4. Disposal. Transportation of wastes from the site to be done by a NEMA registered solid waste handler who will use appropriate vehicles for conveyance of wastes from site to designated sites. Comply with the Waste Management Regulations, 2006. 	Increased water demand	<ul style="list-style-type: none"> Ensure sources of water for use meets the standards specified under schedule I of Legal Notice No. 120 of 2006 (standards for domestic supply). Install self regulating water taps for sinks and basins. All water for use shall be metered to determine consumption levels and yields of the underground water sources.
Traffic management	<ul style="list-style-type: none"> Heavy commercial vehicles delivering raw materials shall observe designated speed limits for the area. Personnel shall be deployed at site entry and exit to direct traffic in and out of the site. Security personnel could double in this role. Proper signage and warnings to be placed on the access route to forewarn other motorists on the use of the road by heavy commercial vehicles. 	Possible fire hazards	<ul style="list-style-type: none"> Prepare and implement a Fire Hazard Response Plan. Only qualified personnel (electrical engineers) to install electrical systems for the resort. Engineering standards to meet provisions for adequate and safe wiring; plumbing, heating, and cooling systems will also be in conformity with
Impact of visitor pressure	<ul style="list-style-type: none"> Educating visitors on the importance of 		

acceptable building codes.

- Install fire alarm detection and notification systems.
- Install smoke and heat detectors.
- Prominently display guidelines on what guests, visitors and staff should do in the event of a fire.

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed Rose flowers expansion project on plot no. Nyandarua/Ol Joro Orok Salient/2202/3/4/8/9/10/, 2616 and 2471, Nyandarua County.

The Proponent (Primarosa Flowers Limited) of the proposed Rose Flowers expansion project is proposing to carry on establishment and production of cut flower production for export market. The project involves the construction of twenty five greenhouses, water reservoirs and administration offices.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Loss of vegetation cover.	<ul style="list-style-type: none"> • Ensure excavations cause minimum disturbance to residents, area topography, ecosystems (vegetation) and public utilities. • Maintain well-tuned and serviced machinery to minimize noise and atmospheric emissions. • Source local labour force for enhanced harmony with the neighbourhood. • Ensure minimum destruction of the trees on the site.
Noise pollution	<ul style="list-style-type: none"> • Ensure excavations cause minimum disturbance to residents, area topography, ecosystems (vegetation) and public utilities. • Maintain well-tuned and serviced

machinery to minimize noise and atmospheric emissions.

Air pollution.

- Source local labour force for enhanced harmony with the neighbourhood.
- Ensure minimum destruction of the trees on the site.
- Ensure acceptable sanitation and hygiene at contractors camp, that should also not interfere with the surroundings.
- Excess unused materials, debris and other solid wastes safely removed from site after construction.
- Source local labour force for enhanced harmony with the neighbourhood.
- Involve as much as practicable
- consultations with an environmental expert as well as health and safety specialist
- Building, civil and steel works and mechanical services and agricultural engineering/ irrigation engineers

Poor waste collection and disposal.

- Consider motivating the workers with a view to enhancing their contribution in environmental management.
- Ensure personnel protective equipments, working implements and safety gears are always available to the workers at all times.
- Institute a monitoring process for the all production system.
- Continuous assessment of the attitude of the neighbouring communities on the effects of the flowers production activities.
- Develop a database and relevant records
- on environmental performance and other monitorable parameters.
- Activate the monitoring points as designed in the premises and the surroundings.
- Periodical (preferably monthly) sampling.
- Schedules and credible analysis of wastes (solid, aerial emissions and wastewater).
- Initiate a characterization of the wastes as soon as production commences
- Initiate a monitoring schedule for trends in public health, sanitation, hygiene and behavioral changes

Environmental pollution.

- Provide a forum for human resources development on environmental conservation.
- Establish a schedule for continuous improvement of physical capacity on environmental management.
- Develop in-house guidelines on environment, health and safety management.
- Harmonize operational practices with the national environmental policies and legislation.

- Establish a legal register.
 - Institutionalise sustainable use of resources (e.g. water, energy and labour).
- Poor drainage systems.
- Control the flow of raw materials and by-products.
 - Ensure good maintenance of the drainage network.
 - Institute appropriate monitoring procedures and guidelines on environmental performance.
 - Establish and environmental audit and protocol and schedule as per the EIA/Audits regulations,
 - Encourage workers' participation in environmental conservation aspects.
 - Analyze waste water to ensure the waste discharge standards and conditions are line with environmental standards.
 - Apply for effluent discharges licence from NEMA as a requirements as per EMCA legal notice of 120 of 2006
- Fire outbreak
- Strive to have qualified operators and their supervisors.
 - Improve the general understanding of the environmental performance by all the workers.
 - Establish a system for enlightening customers on environment, health and safety.
 - Establish regular consultative in-house meetings on awareness rising.

**IMPORTANT NOTICE TO SUBSCRIBERS TO
THE KENYA GAZETTE**

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Dates must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
