ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED DIAMOND BEACH RESORT ON L.R. NO.
KILIFI/JIMBA/1125 IN WATAMU AREA OF KILIFI COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed Diamond Beach Resort on L.R. No. Kilifi/Jimba/1125 in Watamu area of Kilifi County.

The Proponent (Seven Islands Watamu Limited) of the proposed Diamond Beach Resort is proposing to carry on construction of a beach resort at watamu. The project will comprise of 91 hotel rooms, 22 apartments, 3 swimming pools, beach volley ball court, lawn tennis court, commercial zone and business centre among other facilities.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact

Mitigation measures

Impact on marine environment

- Observe the 60m riparian reserve setback as this will serve as a buffer zone.
- Comply with the provisions of Legal Notice No. 19 of 2009.
- Comply with the recommendations of the shoreline management strategy for Kenya for Cell 14.
- Secure excavated sites to ensure that soil heaps are not eroded into the sea.
- The proponent will collaborate with Kenya Wildlife Service, local BMU/Fisheries Department, Local Ocean Trust /Watamu Turtle Watch and other agencies to explore ways of supporting conservation programmes for the marine environment.

Destruction of the physical environment

- Following the completion of the entire development, measures will need to be undertaken to restore degraded habitats and biodiversity and curb soil erosion.
- Undertake landscaping and planting of sediment binding grasses and gardening.
- A key consideration will be the replacement of indigenous trees that will have been felled during the construction process.
- Excavations will be limited to foundation areas only.
- Ensure that any compacted areas are ripped to reduce run-off.

Impact of sourcing of raw materials from environment

- Obtain raw materials from sources that are compliant with NEMA Regulations.
- Procure quantities that are sufficient for the intended works only.
- Recycle as far as practical to stem wastage.
- Commit to extensive use of recycled raw materials as will be appropriate and in a manner that does not compromise the safety of the development.

Noise pollution

- Locate concrete mixers as far as practical from neighboring properties.
- Inform neighbors in writing prior to commencement of the development so that they are prepared psychologically at least two weeks in advance.
- Employees using equipment that produce peak sounds shall be provided with earmuffs.
- Comply with the provisions of Noise Regulations (Legal Notice No. 61 of 2009).

Dust generation

- Secure the site using appropriate dust screens.
- Sprinkle building materials that are likely to produce dust such as ballast with water before use to suppress dust.
- Access road and dust surfaces at the construction site should be sprinkled with water twice a day.
- Employees will be provided with appropriate dust masks.

Health and safety of employees at the workplace

- Provision of adequate and appropriate Personal Protective Equipment (PPE) including safety shoes, helmets, gloves and overalls.

	<ul style="list-style-type: none"> • First aid services and an emergency vehicle to be readily available at site. • Securely protect moving parts of machines and sharp surfaces with guards to avoid unnecessary contacts and injuries during construction phase. • Ensure that all chemicals used in construction are appropriately labeled or marked. • The construction site to be registered as a workplace with the Directorate of Occupational Health and Safety. 		
Solid waste management	<ul style="list-style-type: none"> • Use of an integrated solid waste management system i.e. through a hierarchy of options: 1. Source reduction 2. Recycling 3. Reuse 4. Disposal. • Transportation of wastes from the site to be done by a NEMA registered solid waste handler who will use appropriate vehicles for conveyance of wastes from site to designated sites. • Comply with the Waste Management Regulations, 2006. 		
Traffic management	<ul style="list-style-type: none"> • Heavy commercial vehicles delivering raw materials shall observe designated speed limits for the area. • Personnel shall be deployed at site entry and exit to direct traffic in and out of the site. Security personnel could double in this role. • Proper signage and warnings to be placed on the access route to forewarn other motorists on the use of the road by heavy commercial vehicles. 		
Impact of visitor pressure on the marine environment	<ul style="list-style-type: none"> • Educating visitors on the importance of conservation of marine resources. • Installation of mooring buoys for boats and sea craft used by the resort. The delineation of the designated mooring area shall be done in consultation with the local BMU, LOT/WTW and Kenya Wildlife Service. • Initiating marine conservation programmes that tourists can participate in such as adoption of sea turtle nests to help raise awareness and funds for conservation. 		
Impact of beach lighting installations and beach use on sea turtles	<ul style="list-style-type: none"> • Diffuse lighting systems should be adopted for the houses facing the beach. • Minimize night movement on the beach on the part of visitors. • Carry out daily early morning monitoring of the beach frontage for any possible sea turtle nesting activity. • Maintain recommended setback lines for all activities including daily removal of sun bathing beds from the beach at night fall. • Keep records of sea turtle sightings/stranding in the area and submit them to KWS and if possible share data with Watamu Turtle Watch. 		
Potential conflicts with local fishers	<ul style="list-style-type: none"> • Collaborate with the local BMU and Fisheries Department in decision making regarding the use of shared resources such as beach usage and 		
		access.	
		<ul style="list-style-type: none"> • The proponent should always endeavor to solve amicably any conflicts that may arise from the use of marine resources. • Give priority to local fishermen for relevant job opportunities that may arise. 	
	Effluent generation	<ul style="list-style-type: none"> • Sewage/wastewater will be managed through the construction of wastewater recycling plant. • The design of the recycling plant should ensure that the quality of water discharging from it meets the standards specified under Schedule III of Legal Notice No. 120 of 2006. • Regular monitoring of the quality of water discharged or recycled to ensure that it meets the standards specified under Schedule III of Legal Notice No. 120 of 2006. • Kitchen sinks to be fitted with oil and grease traps. • Apply for an effluent discharge licence from NEMA in compliance with Legal Notice No. 120 of 2006 	
	Increased water demand	<ul style="list-style-type: none"> • Ensure sources of water for use meets the standards specified under schedule I of Legal Notice No. 120 of 2006 (standards for domestic supply) . • Install self regulating water taps for sinks and basins. • All water for use shall be metered to determine consumption levels and yields of the underground water sources. 	
	Possible fire hazards	<ul style="list-style-type: none"> • Prepare and implement a Fire Hazard Response Plan • Only qualified personnel (electrical engineers) to install electrical systems for the resort. • Engineering standards to meet provisions for adequate and safe wiring; plumbing, heating, and cooling systems will also be in conformity with acceptable building codes. • Install fire alarm detection and notification systems. • Install smoke and heat detectors. • Prominently display guidelines on what guests, visitors and staff should do in the event of a fire.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED WASTE TO ENERGY FACILITY AT DEL
MONTE FARM ON PLOT L.R. NO. 13289, THIKA, KENYA

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed waste to energy facility at Del Monte farm on plot L.R. No. 13289, Thika.

The Proponent (Pinepower Limited) of the proposed waste to energy facility at Del Monte farm is proposing to substitute the existing poorly managed, aerobic wastewater treatment system by an anaerobic treatment system with biogas recovery equipment which consist of: 1 acidification tank of 4,000 m³, 2 up-flow anaerobic sludge bed reactors (UASB) of 6,000 m³ in total, 4 high concentrated solid reactors (HCSR) of 10,000 m³ in total, 1 hydrolyzing chamber of 2,000 m³, Buffer pond and a Post treatment pond.

The following are the anticipated impacts and proposed mitigation measures:

Possible impact	Mitigation measures
Geology and soils	<ul style="list-style-type: none"> All quarry sites shall be clearly indicated on the plan and approved by the local authority for use. To prevent erosion all non-built up areas should be landscaped. Vehicles used on the site should be refueled offsite. In the exceptional cases, a mobile fuel bowser should only take place at a designated, bunded area.
Surface water	<ul style="list-style-type: none"> If possible initial construction activities should be undertaken during the dry season to prevent water/soil run-off especially on side slopes. Water should also be diverted away from the project footprint areas through property constructed drainage channels. Ensure that spills emanating from construction plant and equipment are cleaned immediately before release to the environment. Contractor to adhere to construction HSE management plan during the construction phase.
Ground water	<ul style="list-style-type: none"> Vehicles used in site should be refueled offsite. In the exceptional cases, a mobile fuel bowser should only take place at a designated, bunded area. Contractor to adhere to construction HSE.
Ecology	<ul style="list-style-type: none"> Set up measures to ensure that during Pre-construction and construction, impacts on sensitive ecological areas are minimized and that good management is exercised during operation to prevent ecological impacts.
Air quality	<ul style="list-style-type: none"> Develop and implement effective measures for minimization of dust followed by rehabilitation in a timely manner. Contractor to ensure that

construction plant and equipment is in a good state of repair at all times to prevent adverse exhaust air emissions.

Noise and vibration	<ul style="list-style-type: none"> Contractor's plant and equipment should comply as a minimum with requirements of L.N. 25: Noise Prevention and Control Rules, 2005 The power plant will be designed to maintain noise levels at 70dB (A) at the fence line. The Proponent will develop, rollout and implement a written hearing conservation program for those employees that may be exposed to noise environments exceeding 90 dB (A) over an 8-hour time weighted average period or 85 dB (A) continuous noise. This is in accordance with L.N.25 Noise Prevention and Control Rule 2005.
Socio-economic	<ul style="list-style-type: none"> Implement where feasible measures to employ local community members. Implement measures to manage expectations about job creation. Develop and put into practice strategies to minimize crime, to include effective communication with landowners to inform them about the movement of work teams, and codes of conduct for contractors and employees. Ensure effective communication with communities to limit expectations of employment creation. Develop and implement a HSE program for employees. Implement measures to ensure that traffic and road safety hazards are minimized.
Traffic	<ul style="list-style-type: none"> Develop and implement a traffic management plan to take advantage of off-peak hours for delivery of construction materials and abnormal loads.
Health and safety	<ul style="list-style-type: none"> Develop and implement contractor safety rules which include the relevant provisions of OSHA, WIBA and their respective subsidiary legislation. Specifically ensure that the contraction complies with L.N 40: Building Operations and Work of Engineering Construction Rules, 1984.

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Permanent Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 3052, Nairobi.

(c) County Director of Environment, Kiambu County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED INFRASTRUCTURAL SERVICES IN ATHI
RIVER EXPORT PROCESSING ZONE-PHASE II ATHI RIVER
ALONG VIWANDA ROAD OFF ATHI RIVER – NAMANGA
HIGHWAY, MAVOKO MUNICIPAL COUNCIL, MACHAKOS
COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed development of Export Processing Zones Authority on L.R. No. 18474/1-215 and L.R. No. 18474/217, Mavoko Municipal Council, Machakos County.

The Proponent (Export Processing Zones Authority) of the proposed development has proposed to carry out construction of infrastructural services including road works, water reticulation, sewerage works, storm water drainage works and street lighting.

The following are the anticipated impacts and proposed mitigation measures:

<i>Possible Impact</i>	<i>Mitigation measures</i>
Material management	<ul style="list-style-type: none"> • Emphasize use of environment friendly services and goods by ensuring all suppliers/contractors are evaluated through environmental performance questionnaires. • Monitor and enforce compliance with environmental legal requirements. • Monitor and protect the environment against negative impacts resulting from the goods and services.
Increased storm water runoff from new impervious areas	<ul style="list-style-type: none"> • Install drainage structures properly. • Efficiency of drainage structures. • Side drains and mitre drains design. • Direct all surface runoff into existing natural drains. • Culverts and drains to accommodate peak runoff from catchment.
Soil erosion	<ul style="list-style-type: none"> • Install drainage structures properly. • Install erosion control measures. • Landscape embankments and re-vegetate gravel sites. • Management of excavation activities. • Damaged drainage systems should be rebuilt or rehabilitated by suitable methods. • Efficiency of erosion control measures.
Noise pollution & increased vibration	<ul style="list-style-type: none"> • Workers in the vicinity of high level noises to wear safety & protective gear. • Impose speed limits for all vehicles, especially at the towns and settlements. • Sensitise motorists/road users. • Use quiet equipment (i.e. equipment designed with noise control elements). • Limit vehicles to a minimum idling time. • All equipment and machinery to be used must be tested to verify if they are compliant with Kenya and the internationally acceptable standards of

Air pollution

noise.

- Control speed of construction vehicles.
- During construction, any stockpiles of earth should be enclosed / covered / watered during dry or windy conditions to reduce dust emissions.
- Construction trucks removing soil from the site, delivering sand and cement to the site should be covered to prevent material dust into the surrounding areas.
- During construction, where water is available, sprinkle the construction area with water to keep dust levels down.
- Masks should be provided to all personnel in areas prone to dust emissions throughout the period of construction.
- Supervise drivers of construction vehicles.
- Maintain all machinery and equipment in good working order to ensure minimum emissions.
- No burning of any waste materials.

Material sites

- Inform people living at/near the sites that the pits have been selected for exploitation.
- Maintain haulage routes for material sources.
- borrow pits to be within 6km haul distances.
- Landscape gravel pits.
- Terracing and replacement of fencing.
- Landowners must be informed of the environmental implications of the excavation works at the time of identification of the gravel sites.
- Plan access to gravel sites.
- Control and restrict access to gravel sites (e.g. by fencing).
- Control earthworks
- Proper management of excavation activities.
- Rehabilitate (Landscape, water pans, terracing, and grass sites) old and new gravel pits.
- Compensate owners as required.
- Progress of rehabilitated gravel sites (use of site, established vegetation).

Increased water demand

- Management of water usage.
- Plan for harvesting and storage of water during rains for use later.
- Plan works schedule according to water availability.
- Abstraction from rivers and streams are not to be done during low flow.
- A 6000m³ reinforced concrete tank is proposed.
- A 600mm GI Epoxy Coated pipe is proposed.
- Water augmentation in form of dam, boreholes and roof harvesting is recommended.

Increase in energy consumption

- Street lights to be automatically controlled by use of time switch/photo

cell and should have the ON and OFF switching operations, so that the lights come on/go off between 6.45 p.m. and 6.45 a.m.

- Choice energy saving/long life lamps.
- Solid waste generation**
 - Contractor should develop a solid waste disposal plan.
 - Solid wastes segregation and labeled to separate hazardous from non-hazardous waste.
 - Investment within EPZ should be provided with an inbuilt solid waste collection bin with compartments for recyclable materials, biodegradable materials and hazardous materials.
 - Warning signs against littering and dumping wastes in wrong places within the project site should be erected.
 - Carry out solid waste audit.
 - Install incinerator within the Zone. This will be used to incinerate solid waste.
- Workers accidents and hazards**
 - Use of PPEs by workers.
 - Restricted 'ENTRY' signs should be installed to keep away unauthorized persons from access to restricted areas.
 - Machines and Equipment must be operated only by qualified staff.
 - The contractor to develop a workplace Safety and Health Policy Manual.
 - The contractor to develop a Response Plan for handling any emergencies arising thereof during the construction.
 - A well-equipped first aid kit and a person who has been trained in first aid should always be available at the site.
- Fire outbreaks**
 - Have appropriate and adequate firefighting equipment of recommended standards and in key strategic points.
 - A fire alarm system should be installed in the project area.
 - A fire evacuation plan must be posted in various points of the project site including procedures to take when a fire is reported.
 - All workers must be trained on fire management and fire drills undertaken regularly.
 - A fire assembly point must be identified and labeled accordingly.
 - Develop emergency response plan

The full report of the proposed project is available for inspection during working hours at:

- (a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- (b) Permanent Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.
- (c) County Director of Environment, Machakos County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED MAZERAS GULF ENERGY SERVICE STATION ON PLOT L.R NO. MAZERAS/1137 ALONG MOMBASA-NAIROBI HIGHWAY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed Mazeras Gulf Energy Service Station on plot L.R No. Mazeras/1137 along Mombasa-Nairobi Highway.

The Proponent (Gulf Energy Limited) of the proposed Mazeras Gulf Energy Service Station proposing to construct a fully equipped service station with fuel reception bay for offloading purposes, underground fuel storage tanks, LPG storage room, lubes store, generator and compressor rooms, pump dispensers and a restaurant.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Dust and gaseous emissions	<ul style="list-style-type: none"> • Watering should be done where appropriate during construction. • Control speed and operation of vehicle on site. • Use environmentally clean fuels for the vehicles coming onsite.
Solid waste generation	<ul style="list-style-type: none"> • A reputable solid waste handler will be contracted to regularly collect solid waste. • There will be adequate provision of strategically placed waste bins at the facility to ensure that there is no idle litter. • Use durable long lasting materials that shall not need to be replaced as often thereby reducing the amount of construction wastes generated over time.
Loss of top soil cover	<ul style="list-style-type: none"> • Avoid unnecessary movement and disturbance of soil surface. • Apply soil erosion control measures such as the leveling of project site to reduce runoff, velocity and increase infiltration of storm water into the soil.
Surface drainage system	<ul style="list-style-type: none"> • Drainage channels should be installed in all areas that generate or receive surface water such as car parking and driveways. • Drainage channels should be covered with gratings to prevent occurrence of accidents and entry dirt that would compromise flow of run-off. • The channels should be designed with regards to the peak volumes such as periods or seasons when there is high intensity of rainfall for avoid overflow. • The drainage channels should be self-cleaning which means it should have a suitable gradient. • Maintain existing drainage channels to avoid blockages.
Increased energy demand	<ul style="list-style-type: none"> • Switch off all electrical appliances when not in use.

- Accidents and occupational risks
- Put off all lights immediately when not in use/required or are not needed.
 - Use energy conserving electric lamps for general lighting.
 - Implementation of safety measures and emergency plans to contain accident risks associated with the product being handled.
 - A fully equipped first aid kit.
 - The contractor should have workmen's compensation cover.
 - Adequate clean sanitary facilities shall be provided.
- Noise
- Workers should be provided with Personal Protective Equipment such as earmuffs when operating noisy operations.
 - There should not be unnecessary honking of the trucks at the site.
 - Noisy operations should be done during the day.
- Leaks from installations
- Regularly tests to ensure integrity of the installations such as air separators, valves, couplings, dispensing hoses and storage tanks.
 - Inventory management / stock reconciliation shall be done daily to ensure no leakages and to monitor available stocks.
 - Installations shall be made of strong material such as steel to ensure no leaks.
- Cross contamination
- Use color codes for product storage tank identification.
 - Offload one product at a time.
 - Carry out density tests to confirm the quality of the product being offloaded.
- Accidental spills
- sound engineering must be put in place.
 - reliable operations and effective written operating procedures.
 - good preventive and predictive maintenance techniques.
 - Oil interceptors should be provided.
- Risk of fire
- Install smoke detectors at strategic locations in the site.
 - Install gas detection system in a strategic location.
 - Install fire alarms.
 - Install and maintain firefighting equipment located at strategic points.
 - Sensitize the workers on fire risks and use firefighting equipment.
 - Sand buckets shall be easily accessible, full and ready to use.
 - Observe safety precautions during loading and offloading of trucks.
 - "No Smoking" rule shall be observed and all signs displayed, clean and easily legible to the customer.
 - Engines shall not be running while the vehicle is at the loading bay.
 - No use of mobile phones at the forecourt.
 - All cables serving the pumps shall be well-insulated and in sealed conduits.
- Emergency response plan
- Provision of security throughout the project implementation.

- Provide emergency numbers at strategic points.
 - Ensure that all workers have access to communication facilities (phones etc.) for quick emergency response.
 - Install emergency Stop Buttons.
 - Install water tank with large volume of water.
- Traffic flow management
- Ensure sufficient parking space.
 - Avoid unnecessary delays at the loading bay.
 - One staff should be assigned the role of traffic management.

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED PETROLEUM DEPOT ON PLOT NO. 209/7402/4, ALONG OL KALOU ROAD OFF NANYUKI ROAD, INDUSTRIAL AREA, NAIROBI COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed Petroleum depot on Plot No. 209/7402/4, along Ol kalou road off Nanyuki road, Industrial area, Nairobi County.

The Proponent (Midax Petroleum Limited) of the proposed Petroleum depot on Plot No. 209/7402/4, along Ol kalou road off Nanyuki road, Industrial area, Nairobi County has proposed to carry on construction of a petroleum depot facility for automotive diesel, premium gasoline and kerosene.

The following are the anticipated impacts and proposed mitigation measures:

- | Possible Impact | Mitigation measures |
|---------------------|---|
| Disturbance of soil | <ul style="list-style-type: none"> • Alignment of the station so that it respects the integrity of the existing topography. • Soil mounds should be flattened to avoid flooding of water and potential mosquitoes breeding sites as well as rehabilitating the open drain channel. • Trench refilling and leveling should be done to ensure flooding of the area is eliminated once the slab is constructed. • Grasses and trees should be planted after landscaping to hold the soil together after refilling. |

- Fuel leakages and fire break ups
 - The correct ratio should be observed during the mixing of sand, ballast, water and cement for construction use.
 - Installation of fire extinguishers, fire and smoke detectors.
 - Install sprinkler system at loading gantry and tank farm.
 - Install an automatic booster Pump.
 - Regular fire and spill safety training and drills.
 - Provide guards.
 - Signage at appropriate record keeping as well as internal; audit.
 - Proper waste disposal mechanism put in place.
 - Drainage and oil interceptors.
 - Regular skimming of interceptors.
- Air pollution by dust
 - Mixing should not be done on windy location.
 - Excavate only the area where construction will take place
 - Use of protective equipments for against dust and watering of dust surfaces to minimise dust generation.
- Noise and vibration by construction activities.
 - Ensure use of serviceable vehicles
 - Excavate only the area where construction will take place
 - Use of man power to excavate
 - Provision of safely gear to workers
 - Provide adequate traffic warning signs and ensure compliance to minimum operation speed by drivers.
 - Use of protective equipments for against dust and watering of dust surfaces to minimise dust generation.
- Workers accidents and hazards
 - Protective equipments and the right tools should be provided to workers.
 - Recommended curing period of the building masonry wall should be observed.
 - Provide site workers with sanitary facility and safe drinking water
 - Protective gears should be provided by the workers.
 - Counseling of the workers.
 - Use of protective equipments for against dust and watering of dust surfaces to minimise dust generation.
 - Ensure use of Ear protection by workers and use well maintained vehicles.
 - Provide adequate traffic warning signs and ensure compliance to minimum operation speed by drivers.
- Generation of solid waste
 - Segregation of solid waste and collection into bins should be observed.
 - Disposal of waste should be done through the laid down council procedure.
 - No waste should be left on the site.
- Increased surface water run-off
 - Improve slope protection measures.
 - Reclaim and replant vegetation.
 - Salvage soils for use in reclamation.
 - Carry out landscaping before replanting.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED UPGRADING OF EMBU AIRSTRIP, CENTRAL DIVISION OF EMBU WEST DISTRICT

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed development of Embu airstrip.

The project will involve Runway expansion, construction of apron, terminal building and parking area, aircraft hanger, watch/control tower, staff houses and taxiway. Other facilities include construction of main access and other roads, drainage and ancillary works. The proposed airstrip, code HKEM is located some 7.1 km south east of Embu town at the border of Embu and Mbeere Districts.

The following are the anticipated impacts and proposed mitigation measures:

<i>Environmental issue</i>	<i>Mitigation Measures</i>
Waste management	<ul style="list-style-type: none"> • Centralize responsibility for waste management and develop a solid waste management programme. • Carry out waste audits and ensure that airport users are compliant with the projected waste reduction, reuse and recycling plans. • Track all waste generated and disposed. • Isolate waste by containment to prevent the mixing of hazardous and non hazardous wastes or incompatible materials to enable reuse and avoid adverse reactions and emissions. • Dispose construction waste at sites approved by the Nakuru Municipal Council. • Install an incinerator within the site to manage hazardous waste.
Energy use and conservation	<ul style="list-style-type: none"> • Consider the possibility of using alternative sources of energy especially renewable sources such as solar. • Implement energy efficient measures i.e. pay close attention to the location of lighting fixtures and operate them on the basis of time, ambient light levels and occupancy etc.
Solid waste management	<ul style="list-style-type: none"> • Collect and sort out of waste.

	<ul style="list-style-type: none"> Contract a private waste handler. 		
Accidents due to unsafe practices during construction and operation	<ul style="list-style-type: none"> Engage an EHS consultant to develop an Environment Health and Safety (EHS) plan during the construction period. Prepare an EHS manual for use during construction. 		<ul style="list-style-type: none"> Regular inspection and servicing of the extinguishers will be undertaken by a reputable service provider and records of such inspections maintained. Signs such as no smoking must be prominently displayed within the premises especially in places where inflammatory materials are handled e.g. hanger.
Increased water consumption	<ul style="list-style-type: none"> Put in place measures for quick detection and repair of pipes, valves and tank leaks. Sensitize staff and airport users on water conservation. Establish proper housekeeping regulations to minimize unnecessary use of water i.e. ensure taps are not running when not in use. Adopt sound water conservation measures. Recycle water at the implementation phase where possible. 	Bird Strike menace	<ul style="list-style-type: none"> Conduct a bird species and habitat preference study on the facility and surrounding habitat. Establish a bird strike control committee that is properly trained on implementing, reporting and managing bird strike hazards. Ensure that the bird control committee is well equipped and funded. Identify and minimize all bird attraction sites in the airfield and surrounding areas. Grass at the airfield should be cut regularly to a maximum height of between 25 and 30 cm.
Wastewater management	<ul style="list-style-type: none"> Establish a regular monitoring programme at outfalls. Connect to the Septic system or treatment works. 	Land use planning and management	<ul style="list-style-type: none"> KAA shall liaise with the local authority to establish land use criteria around the airport. Limit encroachment of incompatible developments in sensitive noise corridor.
Air pollution	<ul style="list-style-type: none"> Avoid dust generation by spraying water where necessary. Control speed of construction vehicles and switch off machines when not in use. Use water bowsers to minimize dust pollution. 	Electrical safety	<ul style="list-style-type: none"> Circuits may not be overloaded. Distribution board switches must be clearly marked to indicate respective circuits. Electrical fittings near all potential sources of ignition shall be flame proof. All emergency exits shall open outwards and be marked in RED and isles shall be clear of slips, trip and fall hazards.
Increased noise pollution	<ul style="list-style-type: none"> Establish noise management committee to receive complaints from the public and device appropriate noise mitigation measures. Provide workers with ear muffs and nose masks. Workers in the vicinity of or involved in high noise areas to wear safety protective gear. 	Public health and occupational safety	<ul style="list-style-type: none"> Suitable personal protective equipment shall be made available and the staff shall be trained on their proper use. Train staff on occupational health and safety. Provide full protective gear in addition to the right tools and operational instruction manuals.
Incidents, accidents and dangerous occurrences	<ul style="list-style-type: none"> Provision of procedures for reporting incidents, accidents and dangerous occurrences shall be put in place. This shall be done in prescribed forms obtainable from the occupational health and safety office. 	<p>The full report of the proposed project is available for inspection during working hours at:</p> <p>(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 30521, Nairobi.</p> <p>(c) County Director of Environment, Embu County.</p>	
Emergency and hazard response preparedness plan	<ul style="list-style-type: none"> There shall be well designed and documented emergency preparedness plans including fire emergency rescue procedures. An accessible and well stocked first aid box shall be provided within the premises. The proponent shall train personnel in first aid and certificates issued by a recognized body. The most current emergency telephone numbers shall be prominently displayed within the premises. Review emergency and contingency plans periodically. 	<p>The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.</p>	
Fire Protection	<ul style="list-style-type: none"> Firefighting equipment such as extinguishers and hydrants shall be provided at strategic locations. 	<p>Z. O. OUMA, for Director-General, National Environment Management Authority.</p>

THE NATIONAL ENVIRONMENT MANAGEMENT
AUTHORITYENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED UPGRADING OF TAVETA-MWATATE
ROAD PROJECT (A23)

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed upgrading of Taveta-Mwatate road project (A23).

The Proponent (Kenya National Highways Authority) is proposing to construct an all-weather bitumen road that will promote economic development in the country's coastal region.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Air pollution	<ul style="list-style-type: none"> The removal of vegetation shall be avoided until such time as clearance is required and exposed surfaces shall be re-vegetated or stabilized as soon as practically possible. Water sprays shall be used on all earthworks areas and transport routes. Vehicles delivering soil materials shall be covered to reduce spills and windblown dust. Any complaints received by the Contractor regarding dust will be recorded and communicated to the RE and ESO. Comply with all legal and statutory requirements. Project-specific design improvements to limit motor vehicle air pollution impacts.
Noise pollution	<ul style="list-style-type: none"> The Contractor shall keep noise level within acceptable limits and construction activities shall, where possible, be confined to normal working hours in the residential areas. Noise sensitive areas shall be notified by the Contractor at least 5 days before construction is due to commence in their vicinity. Construction workers will be required to use PPEs appropriately. Equipment should be maintained regularly to reduce noise resulting from friction.
Vegetation loss	<ul style="list-style-type: none"> Except to the extent necessary for establishing the construction site and carrying out the construction works, vegetation shall not be removed, damaged or disturbed nor should any unauthorized planting of vegetation take place. Clearing and removal of vegetation, especially at borrow sites must be carried out in such a way that damage to adjacent areas is prevented or minimized. Areas with dense indigenous vegetation are not to be disturbed unless required for construction purposes, nor shall new

Impacts on soils and
drainage including
landslides

- access routes be cut through such areas.
- Trees should be trimmed rather than removed wherever possible.
- The Contractor should plant indigenous and native trees along the project road.
- As far as possible earthworks should be carried out during the dry season to prevent soil erosion and landslides.
- Excavated materials and excess earth should be kept at appropriate sites approved by the Supervising Engineer.
- Wherever possible, the earth dumping sites will be designed in such a manner as to facilitate natural water discharge.
- The contractor should adhere to specified cut and fill gradients and planting embankments with shrubs and grass to reduce erosion.
- The Contractor shall protect areas susceptible to erosion by installing necessary temporary and permanent drainage works.

Water resources

- Areas affected by construction related activities and/or susceptible to erosion or landslides must be monitored regularly.
- The contractor should consult the community on location of boreholes.
- The Contractor must adhere to water quality regulations described in Legal Notice No. 120 of the Kenya Gazette Supplement No. 68 of September 2006.
- Abstractions from natural, municipal and / or private water resources (e.g. rivers, boreholes and springs) for potable water and construction water shall be approved by the Water Resources Management Authority.

Sanitation

- The Contractor shall comply to laws and by-laws relating to public health and sanitation.
- All toilets shall be maintained by the Contractor in a clean sanitary condition.
- Ensure that solid/liquid exhausts are disposed by licensed agents.

Solid wastes

- The contractor should develop a waste management plan.
- All personnel shall be instructed to dispose of all waste in a proper manner
- Contractor shall provide litter collection facilities.
- The final disposal of the site waste shall be done by approved waste disposal agents.
- Wherever possible, materials used or generated by construction shall be recycled.

Liquid wastes

- Provision for responsible management of any hazardous waste generated.
- No grey water runoff or uncontrolled discharges from the site/working areas.
- Water containing such pollutants as cements, concrete, lime, chemicals and fuels shall be discharged into a conservancy tank for removal from site.
- Potential pollutants of any kind and in any form shall be kept, stored and used in such a manner that any escape can be contained and the water table not endangered.

- Fuels, oils, hazardous substances and other liquid pollutants
- The Contractor shall notify the RE of any pollution incidents on site.
 - Hazardous materials shall be stored above flood level and at least 20 metres from any watercourse.
 - Areas for the storage of fuel and other flammable materials shall comply with standard fire safety regulation.
 - Chemicals and fuel shall be stored in storage tanks within a secure compound. All chemicals and fuels shall be stored in accordance with their MSDS.
 - Storage areas or secondary containment shall be constructed of waterproof reinforced concrete or approved equivalent, which is not adversely affected by contact with chemicals captured within them.
 - Fence of the tank compound with locks or other adequate security controls at the site.
 - Appropriate training for the handling and use of fuels and hazardous material is to be provided by the Contractor as necessary. This includes providing spill response and contingency plans.
 - All chemicals stored within the bunded areas shall be clearly labeled detailing the nature and quantity of chemicals within individual containers.
 - Any chemical or fuel spills shall be cleaned up immediately. The spilt liquid and clean-up material shall be removed, treated and transported to an appropriate site licensed for its disposal.
 - Storm water shall be diverted away from the fuel handling and storage areas. An oil water interceptor shall be provided to treat any rainwater from fuel storage and handling areas.
- Diversion and access roads
- The Contractor shall adhere to the road reserve as much as possible in locating the diversion if required. If diversion routes go beyond the road reserve, necessary permission should be sought.
 - The Contractor shall comply with all applicable laws and by-laws in Kenya with regard to road safety and transport.
 - Access to the construction site and works area shall utilize existing roads and tracks where possible.
- Relocation of public utilities
- Undertake inventory of existing utilities in the project area before beginning construction.
 - Notice should be given to the utility users prior to any interruption in supply.
 - Liaise with relevant parties which include Water Service Company and KPLC.
- Delays in transportation
- Plan itineraries for site traffic on a daily basis. Traffic management and control is mandatory throughout the project
 - Temporary road signs that are visible both during the day and at night indicating road works and restrictions will be required.
 - The contractor should also set aside footpaths, cycle lanes and parking bays for heavy goods vehicles and public transport vehicles.
- Occupational Health and Safety
- The Contractor shall comply with all standard and legally required health and safety regulations as promulgated by

Factories and Other Places of Work Act and also the ILO Guidelines on Safety and Public Health in the construction activities.

Fire Prevention and Control

- The Contractor shall take all reasonable and precautionary steps to ensure that fires are not started as a consequence of his activities on site.
- The Contractor shall ensure that there is basic fire-fighting equipment available on site.
- Flammable materials should be stored under conditions that will limit the potential for ignition and the spread of fires.

The full report of the proposed project is available for inspection during working hours at:

- (a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- (b) Permanent Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.
- (c) County Director of Environment, Taita Taveta County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

**IMPORTANT NOTICE TO SUBSCRIBERS TO
THE KENYA GAZETTE**

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Dates must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
