THE COUNTY GOVERNMENTS ACT

(No. 17 of 2012)

NAIROBI CITY COUNTY

APPOINTMENT OF TASK FORCE FOR THE AUDIT AND EXAMINATION OF
THE DELIVERY OF LEGAL SERVICES TO THE NAIROBI CITY COUNTY
GOVERNMENT

IT IS NOTIFIED for public information that I, Evans Odhiambo Kidero, the Governor of the Nairobi City County, have appointed a Task Force with the following Terms of Reference—

- (a) To review the organizational structure and hierarchical level of the county legal unit within the county government and recommend—
 - (i) an organizational structure that will generally enable and facilitate effective overall delivery of services in the county;
 - (ii) the organisational relationship between that unit and the office of the Governor and other organs and departments of the county government that make use of legal services;
- (b) To audit all ongoing legal cases and advise the Governor on the way forward with respect to each case;
- (c) To advise the Governor with respect to the legal fees demanded by the advocates from the County Government on the respective cases;
- (d) To determine the reasons/causes for the unusual high number of cases against the defunct Nairobi City Council and recommend any change in the management of the affairs of the County Government so as to minimize litigation and /or legal disputes involving the county government and, in this regard, also develop a legal risk evaluation tool;

- (e) To peruse any past reportson the delivery of legal services to the defunct Nairobi City Council by other public and other agencies and recommend implementation strategies of their recommendations, if any;
- (f) Recommend considerations to be taken into account in the procurement of legal services so as to ensure equity to service providers, implementation of the constitutional and other government policy pronouncements on procurement and to the optimum value from service providers;
- (g) To consider any other matter related and incidental to the foregoing and make such recommendations as may be appropriate;
- (h) To report to the Governor its findings and recommendations.

The members of the Task Force shall be as follows—

Jinara Kibet, Chairperson, Advocate;
Gad Awuonda, Legal Advisor, Office of the Governor of Nairobi City County;
Charles Mutinda, Nominated by the Attorney-General;

Festo Fadama (Dr.), Secretary, Political Advisor, Office of the Governor of Nairobi City County and who will be assisted by Paul Aol.

Powers and Mode of Operation of the Task Force:

In the execution of its mandate, the Task Force may—

- (a) in the absence of the Chairperson, the members shall choose one of their own to preside;
- (b) from time to time co-opt such persons as may possess such expertise necessary for the execution of the mandate of the Task Force;
- (c) interview any person it deems necessary;
- (d) consult such sources of information as may be appropriate;
- (e) invite memorandum from relevant institutions and the public generally;
- (f) engage the services of such experts, including forensic experts and investigators to assist it in its work;
- (g) subject to the foregoing, the Task Force shall regulate its own procedure.

Duration of Assignment:

The Task Force shall, subject to any extension that the Governor may authorise, execute its mandate and submit its report to the Governor, not later than four months from the date of its commissioning.

Subject to the foregoing paragraph, the Task Force may, if it deems it expedient to do so, submit to the Governor interim reports proposing measures for immediate implementation before its final report.

The Secretarial Support and Facilitation:

The Secretarial support to the Task Force shall be provided by the office of the County Secretary and that office shall provide the necessary facilitation of the process to ensure effective and timely delivery by the Task Force on its mandate.

The members of the Task force shall be paid such sitting allowances as may be authorised by the Governor and these shall be defrayed out of the Funds of the county government.

The Director, Legal Services and every other Director/Head of Department within the county government shall avail such information as the Task Force may require for the execution of its mandate.

Dated the 17th September, 2013.

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED SUPREME FILLING STATION ON PLOT NO. 22 IN MNARANI ALONG MOMBASA-KILIFI ROAD IN KILIFI COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Francis Amiani) is proposing to construct a Filling Station comprising of: 3 Twin pumps, 3 Underground petroleum storage tanks (UPSTs), Oil Interceptor, Office and Store, Changing and Wash Room, Septic tank, Soak pit, Canopy and forecourt, Product offloading zone, a segregated drainage system for the management of storm water and potentially contaminated wastewater, Firefighting facilities and associated piping works.

The following are the anticipated impacts and proposed mitigation measures:

Impacts

Changes in hydrology/
Impended drainage

Soil erosion

Air pollution
through dust
and gaseous
emissions

Noise pollution

Oil pollution

Water resource

Contractors lay

Road safety

Mitigation

- Proper Installation of drainage structures
- Ensure efficiency of drainage structures through proper design and maintenance
- Provide gratings to the drainage channels
- Regular checks on any sludge along drainage channels
- Visual checks of oil interceptor and drainage channels for any leakage
- Control any earthworks
- Rehabilitate degraded environment to avoid siltation and wash offs.
- Compact loose soils
- Landscaping
- Ensure management of excavation activities
- Control activities especially during rainy conditions
- Provide soil erosion control and conservation structures where necessary.
- Proper disposal of excavated soil
- Prohibit idling of vehicles
- Water should be sprayed during the construction phase of excavated areas
- Regular maintenance of machinery and equipment
- Engage sensitive construction workers.
- Proper use of PPE
- Maintain machines and other equipment
- Construction activities to be restricted to daytime
- Workers in the vicinity of or involved in high level noise to wear respective safety & protective gear i.e. earplugs and earmuffs
- Appropriate selection of machinery
- Proper storage, handling and disposal of new oil and used oil and related wastes
- Maintain machines and equipment to avoid leaks
- Provide oil interceptors along the drains leading from forecourt area
- Management of water usage.
- Recycling of water at the construction phase where possible
- Use water conservation signs at the wash rooms and install water conserving taps
- Provide sanitary facilities on site for disposal of human waste.
- Dispose garbage in accordance with Kilifi County Government requirements
- Enforce speed limits for construction vehicles

Public health and Occupational safety and health	<ul style="list-style-type: none"> • Provide bill boards at the site/entrance to notify motorists about the development • Ensure proper solid waste disposal and collection facilities • Ensure effective wastewater management • Proper design of sewerage system • Provide First Aid kits on the site • Sensitize residents/workers on environmental management • Ensure there is no ponding to eliminate breeding of mosquitoes • Train workers on occupational health & safety and first Aid administration • Train staff on petroleum handling • Sensitize workers on HIV and AIDS

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED PETROL SERVICE STATION ON PLOT LR. NO. THIKA MUNICIPALITY BLOCK 2/404 OFF WHITE SISTERS ROAD, THIKA WEST DISTRICT IN KIAMBU COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Wajibu Ventures Limited) is proposing to construct a Fuel Filling Station with four pump isles, Two underground petroleum storage tanks (UPSTs), Mini market, Fast food restaurant, Car wash, Oil Interceptor, Air and water point, An administration block, Sanitary facilities, a septic tank and a soak pit, An acceleration section on White Sisters Road, compressor/ generator room, associated piping work, electrical and civil works.

Below is a summary of the anticipated impacts and the proposed mitigation measures:

<i>Impact</i>	<i>Proposed Mitigation Measures</i>
Air pollution	<ul style="list-style-type: none"> • Control speed and operation of construction vehicles. • Minimize idling of vehicles. • Spray water on excavated areas. • Proper maintenance of construction plant and equipment. • Sensitize construction workers. • All bare areas should be landscaped after construction. • Workers should be provided with dust masks if working in dusty areas.
Ecological considerations	<ul style="list-style-type: none"> • The flora and fauna should be restored after construction by landscaping. • Provide signs marked do not Walk/ Park on the grass
Traffic density	<ul style="list-style-type: none"> • Use traffic informative signage and posters. • Presence of direction signs for patrons to

	the sit.
Solid waste generation	<ul style="list-style-type: none"> • Strict adherence to traffic rules. • Provide waste receptacles on site. • Order just enough quantities of materials to prevent wastage. • Use material leftovers elsewhere. • Use of durable, long-lasting materials that will not need to be replaced as often. • Provide proper material storage to prevent damage from exposure. • Reuse materials as much as possible. • Dispose waste more responsibly by dumping at designated dumping sites only.
Noise pollution	<ul style="list-style-type: none"> • Sensitize construction vehicle drivers and machinery operators to switch off engines of vehicles or machinery not being used. • Sensitize construction drivers to avoid gunning of vehicle engines or hooting unnecessarily. • Ensure that construction machinery are kept in good condition to reduce noise. • Ensure that all generators and heavy duty equipment are insulated or placed in enclosures to minimize ambient noise levels. • Workers to wear ear muffs if working in noisy section. • Construction should be carried out only during daytime.
Depletion of energy resources	<ul style="list-style-type: none"> • Ensure electrical equipment and lights are switched off when not being used. • Install energy-saving fluorescent tubes instead of bulbs high consuming bulbs. • Ensure planning of transportation of materials to ensure that fossil fuels (diesel, petrol) are not consumed in excessive amounts. • Monitor energy use and set targets for reduction of energy use.
Exploitation of water resources	<ul style="list-style-type: none"> • Promptly detect and repair of water pipe and tank leaks. • Ensure taps are not running when not in use. • Promote recycling and reuse of water as much as possible. • Install a discharge meter at water outlets to monitor total water usage.
Occupational Health and Safety	<ul style="list-style-type: none"> • Provide Personal Protective Equipment. • Train workers on personal safety and how to handle equipment and machines. • A well-stocked first aid kit shall be maintained by a qualified personnel. • Report any accidents / incidences and treat and compensate affected workers. • Provide sufficient and suitable sanitary conveniences which should be kept clean.

Security	<ul style="list-style-type: none"> • Control of secondary businesses. • Round the clock security for the facility. • Adequate lighting and an alarm system installed at strategic points.
Oil leaks and spills	<ul style="list-style-type: none"> • Machinery should be well maintained to prevent oil leaks. • Designate a maintenance area that is protected from rain water. • Machinery should be well maintained to prevent oil leaks. • All oil products should be stored in a site store and handled carefully. • Install an oil water interceptor before draining to the storm water drainage system.
Sewage/ waste water release	<ul style="list-style-type: none"> • Waste water should empty to the septic tank via well laid sewage pipes. • Conduct inspections for sewer pipe blockages or damages and fix them. • Empty septic tank whenever its full by a licensed exhauster services. • The oil interceptor to be properly maintained to prevent blockages and overflows. • The filler point and dispensing area must be hard surfaced to prevent infiltration. • Oil contaminated water to be channeled through the oil interceptor. • Monitor effluent quality regularly to ensure that the stipulated discharge rules and standards are not violated.
Fire risk	<ul style="list-style-type: none"> • Provide adequate fire extinguishers of the right type. • Regular inspection of safety valves by qualified Personnel. • Firefighting drills to be carried out regularly. • Firefighting emergency response plan to be implemented. • Ensure all firefighting equipment is regularly maintained, serviced and inspected.

 ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
 FOR THE PROPOSED KASUTU DAM, IN KASUTU VILLAGE,
 ATHI RIVER NORTH LOCATION, KATHIANI DISTRICT,
 MACHAKOS COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Triumph Power Generating Company Limited) is proposing to abstract water from Kasutu dam. The estimated abstracted water is 1800m³ per day and will be used in the power plant for engine cooling. The project will involve extending the current dam to increase its capacity by demolishing the current retaining wall and relocating it downstream (about 10 metres away from the already existing one) and clearing the way-leave and laying of the pipeline from the dam to the power plant about 2 km away. The current water abstraction from the dam is 1000m³ and this is expected to increase to 2800m³ per day.

Below is a summary of the anticipated impacts and the proposed mitigation measures:

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
Loss of vegetation cover	<ul style="list-style-type: none"> • Ensure proper demarcation and delineation of the project area to be affected by construction works. • Introduction of vegetation (trees, shrubs and grass) on open spaces and around the project site and their maintenance. • Design and implement an appropriate landscaping programme to help in re-vegetation of parts of the project area after construction.
Air pollution by dust and VOCs generated	<ul style="list-style-type: none"> • Project personnel will be trained prior to starting construction on methods for minimizing air quality impacts during construction. • Construction heavy earth moving vehicle drivers will be under strict instructions to minimize unnecessary trips and minimize idling of engines. • Screening of construction site to contain and arrest construction-related dust. • Exposed stockpiles of e.g. dust and sand, will be enclosed, covered, and watered daily, or treated with non-toxic soil binders. • All workers will be required to wear protective gear • Ensure construction machinery and equipment are well maintained to reduce exhaust gas emission
Pollution from hazardous waste	<ul style="list-style-type: none"> • Handle the materials as per the material safety data sheets from the manufacturers. • Appoint a safety officer to ensure that proper disposal guideline are observed • Ensure that maintenance and repairs are carried out by qualified personnel • In case of spillage emergency spillage control measures to be instituted • Containerization of any wastes and disposal through a licensed waste handler.
Noise and vibration	<ul style="list-style-type: none"> • Use of equipment with noise control elements will be adopted where necessary. • Trucks shall be routed away from noise sensitive areas where feasible.

	<ul style="list-style-type: none"> • Idling time for pick-up trucks and other equipment will be minimized • All workers operating in noisy areas or operating noisy equipment will be provided with earpieces to protect against extreme noise. • Comply with L.N. 25: Noise prevention and control rules, 2005
Traffic and transport	<ul style="list-style-type: none"> • Adequate maintenance to reduce emissions. • Vehicle comply with axle load limits • Well trained and experienced drivers
Workers accidents during construction	<ul style="list-style-type: none"> • All workers will be sensitized before construction begins, on how to control accidents related to construction. • A comprehensive contingency plan will be prepared before construction begins, on accident response.
Improper human waste disposal during construction	<ul style="list-style-type: none"> • As provided for by the Building Code, a temporary latrine will be provided on site to be used by construction workers
Soil Erosion	<ul style="list-style-type: none"> • The contractor must implement erosion control measures to avoid erosion in areas that are prone to erosion, e.g. steep slopes and drainage lines. These measures must include the construction of cross drains and other appropriate measures
Change in Athi river flow regime and reduction in water flow downstream	<ul style="list-style-type: none"> • Ensure sustainable abstraction of water from Athi River
Water borne diseases	<ul style="list-style-type: none"> • Awareness creation; • Provision of mosquito nets; • Boiling and treatment of drinking water if collected from water pools. • Regular supervision of the piping in order to identify system malfunctioning early
Hydrological Situation	<ul style="list-style-type: none"> • Monitor the flow trends of Athi and Kitengela Rivers over time. • Ensure that minimum flows in Athi and Kitengela • Rivers are maintained at all times in accordance with Water Resources Management Rules.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED CONSTRUCTION OF OL JORO OROK –
DUNDORI (C83) ROAD, IN NYANDARUA COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Kenya National Highways Authority) is proposing to rehabilitate Ol Joro Orok – Dundori (C83) Road, in Nyandarua County.

The following are the anticipated impacts and proposed mitigation measures:

Environmental Impacts Mitigation Measures

Land acquisition, encroachment and road corridor	<ul style="list-style-type: none"> The land acquisition would be in accordance with the RAP and entitlement framework. All road corridor activities are to be completed before starting the construction.
Relocation of utilities and common property resources (CPR)	<ul style="list-style-type: none"> All the utilities and common property resources being impacted due to the project will have to be relocated with prior approval of the concerned Departments/Agencies before construction starts.
Debris disposal site identification	<ul style="list-style-type: none"> Selection of the disposal sites will be carried out in consultation with the relevant authorities and local community. No natural drainage, productive lands or natural habitat shall be adversely impacted due to disposal.
Establishment of plants	<ul style="list-style-type: none"> Specifications of stone crushers, hot mix plants and batching plants to be established for the project should comply with the requirements of the relevant statutory bodies.
Selection of construction vehicles, machinery and equipments	<ul style="list-style-type: none"> All the vehicles, machinery and equipments to be engaged for the construction work should be attached with the latest, advanced pollution control measures available in the country and those should conform to the relevant Kenyan standards.
Materials (sand, earth and aggregates) sourcing	<ul style="list-style-type: none"> Contractor should procure materials from licensed sources. Every detail (location, ownership, agreement, redevelopment plan) of the material sourced should be implemented and periodically inspected so that appropriate measures are implemented at site towards safe operation and minimizing impacts.
Haul roads maintenance	<ul style="list-style-type: none"> During the inception of the project, Contractor should identify the network of roads to be used for haulage of construction materials. Strategy for the maintenance of identified haul road stretches is to be prepared so that regular maintenance is carried out to those stretches by the Contractor.
Selection of Borrow areas	<ul style="list-style-type: none"> Contractor shall ensure compliance to all the Statutory requirements towards operation and environmental protection of borrow areas. RE will inspect locations intended for operation and mitigation measures will be instructed towards satisfactory redevelopment.

Stone quarries and borrow area	<ul style="list-style-type: none"> Inspection to the borrow areas will be carried out. Obtain subsequent approval from NEMA for decommissioning.
Removal of vegetation cover, Excavations of borrow pits	<ul style="list-style-type: none"> A comprehensive Quarry Management Plan shall be prepared for approval by RE and decommissioning certification by NEMA. Turfing of road embankment slopes, compensatory afforestation and borrow area rehabilitation has to be done as preventive measures for soil erosion. Further top soil from borrow areas has to be stripped to a specified depth.
Movement of Heavy Vehicles	<ul style="list-style-type: none"> Construction vehicles, machinery and equipment shall move, or be stationed in pre-identified designated areas only. If operating from temporarily hired land, it will be ensured that the topsoil for agriculture remains preserved & not get compacted.
Spillage of fuel, lubricants and hazardous chemicals	<ul style="list-style-type: none"> Vehicles and machinery are maintained and refilled in such a fashion that fuel spillage does not contaminate the soil. Fuel storage and refilling sites should be kept away from cross drainage structures and important water bodies. All spills shall be disposed off as desired and the site shall be fully cleaned before handing over. Soil quality monitoring should be conducted throughout project life.
Disposal of construction wastes	<ul style="list-style-type: none"> The construction wastes should be dumped in selected pits, developed on infertile land and approved. Acquire all applicable waste disposal licenses. Approved waste land to be preferred for construction debris disposal.
Surface runoff from the construction site, dumping of construction debris in or nearby water bodies	<ul style="list-style-type: none"> No labour camps, stone crushers, hot mix plants and other heavy machinery should be located near water bodies. No discharge from such establishments should be directed to water bodies. Dumping of debris in or nearby water bodies to be strictly avoided. Waste products must be collected, stored and taken to approved disposal sites as per prevailing regulations. Runoff from the construction site should be passed through silt traps. Pitching, stabilization of soil and slope protection measures should be taken up to reduce erosion of soils. Water quality monitoring should be conducted so that appropriate measures are taken up towards abatement of pollution.
Spillage of fuels and lubricants, spillage of hazardous chemicals	<ul style="list-style-type: none"> Appropriate drainage arrangements with catch drains and catch pits designed to safely drain out the hazardous chemicals should be provided. Vehicles and equipment shall be properly maintained and repaired. Maintenance to be carried out on impervious platforms with spill collection provisions. Surface run off from vehicle parking, washing and fueling areas and hot mix plant areas shall be passed through oil interception chambers and the oil will be disposed of

	by approved agents.		8:00 am.
Cultural Changes	<ul style="list-style-type: none"> Water quality monitoring should be conducted to detect any contamination or spillage. Strengthen the cultural organizations and encouraging competitions through organization of cultural tournaments. Ensure that the project contributes to the creation of an atmosphere that is conducive to the functioning of all social centres which are in the project zone of influence. 	Removal of trees for widening of existing road and construction of realignments	<ul style="list-style-type: none"> Small trees shall be transplanted wherever possible to minimize the impacts of loss of trees. Trees should be removed in phases. Adequate care of the afforested plants should be taken up so as to achieve optimum survival rate. Landscaping should be done with a lag of 3 to 4 months from the start of the work on any section. The section should be deemed to be complete when the landscaping is over.
HIV/AIDS	<ul style="list-style-type: none"> Sensitization and awareness campaigns should be the responsibility of the National Aids Control Councils in Kenya together with their district coordinators. Provision of condoms at strategic places in camps and trading centres. 	Poor maintenance of machines and vehicles, poor light conditions at the work place, carelessness and poor management of work	<ul style="list-style-type: none"> Lighting devices and safety signal devices shall be installed. Provide workers with helmets, masks, safety goggles etc. Regular tool talks, mock drills, training programs to be organized.
Construction of bridges across major water bodies	<ul style="list-style-type: none"> The construction of bridges across major water bodies has to be done by serving prior notice to the users. Care should be taken to avoid mixing of construction materials with water channel such that it may affect the downstream users or water supply schemes. 		<ul style="list-style-type: none"> The electrical equipment should be checked regularly to avoid risks to workers. A readily available first aid unit, a mode of transport (ambulance), and medical personnel to be provided.
Construction of embankments	<ul style="list-style-type: none"> Earth, stone or any other construction material should be properly disposed off so that the flow of water in cross drainage channels is not blocked. 	Improvement of roadside amenities	<ul style="list-style-type: none"> Restoration and improvement of bus shelters, bus bays and truck stoppage sites to be carried out as per detailed design. Road furniture like footpaths, railings, traffic signs etc. shall be erected as per design.
Dust generation due to material handling, operation of crushers and hot mix plants, movement of construction vehicles and construction activities	<ul style="list-style-type: none"> Take precautions to reduce dust emissions from the hot mix plants. The hot-mix plants should be sited at least 500 m from the nearest habitation and from major water bodies. They should be fitted with dust extraction units. Water should be sprayed on the earth and asphalt mixing sites, and service roads. During sub grade construction, sprinkling of water should be carried out at least twice a day. Special attention should be given in the sections where the alignment passes through sensitive areas such as schools, hospitals and urban areas. Use surplus earth to fill up low-lying areas. In no case, loose earth should be allowed to pile up along the alignment. Vehicles delivering material should be covered. Air quality monitoring should be conducted as per Environmental Monitoring Plan. 	Unhygienic conditions at work place and camp sites, Non-availability of good drinking water	<ul style="list-style-type: none"> Adequate drainage, sanitation and waste disposal to be provided at workplaces. First Aid facility to be made available at each work locations Periodical medical checkup facility to be provided to all the workers. At every workplace, good and sufficient water supply shall be maintained to meet the daily chore of the residing population. Measures to be implemented so that waste water is collected in septic tanks/soak pits. No surface stagnation of water will be allowed to avoid disease outbreak.
Noise generated from construction vehicles, asphalt plants and equipments	<ul style="list-style-type: none"> Construction contract should clearly specify the use of equipment emitting noise of not greater than 90 dB (A) for the eight hour operation shift. The siting of construction yards should be done leaving at least 100 m distance from any residential areas which will allow noise to attenuate. The main noise producing sources such as the concrete mixers, generators, grader etc. should be provided with noise shields around them. Earplugs shall be provided to those working close to the noise generating machinery. **IMPORTANT NOTICE TO SUBSCRIBERS TO
THE KENYA GAZETTE**

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
