THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED INSTALLATION OF A 2 TONNE
LIQUEFIED PETROLEUM GAS STORAGE TANK AND FILLING
POINT ON L.R. NO. 209/7139, OFF LIKONI ROAD IN
INDUSTRIAL AREA, NAIROBI COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Total Kenya Limited) is proposing to a 2tonne Liquefied Petroleum Gas Storage Tank and Filling Point on L.R. No. 209/7139, off Likoni Road in Industrial Area, Nairobi County.

The proposed project includes; installation of a 2tonne LPG tank with a diameter of 1.5m and a length of 3.03 m, construction of a cylinder filling station, pipe works, paint works, water sprinkler system and construction of a perimeter fence and gate.

The following are the anticipated impacts and proposed mitigation measures:

<i>Impact</i>	<i>Proposed Mitigation Measure</i>
Air Quality	<ul style="list-style-type: none"> • Relevant legislative and Kenya Standard design requirements will be adhered to where appropriate. • Vehicles and machinery will be regularly maintained. • Maintenance activities requiring purging of gas will be minimized and conducted under favorable meteorological conditions (to facilitate rapid atmospheric dispersion). • Install standard leak detectors for hazardous area installations. • Any detected leaks will be repaired as a high priority. • Best practice measures are implemented to minimize the potential for dust to be generated and escape off-site.
Noise Quality	<ul style="list-style-type: none"> • Construction activities near sensitive places shall be restricted to normal working hours (typically 7.00 am to 6:30 pm, 7 days a week) unless otherwise agreed with the potentially affected stakeholder(s). • Relevant legislative and Kenya Standard design requirements will be adhered to where appropriate.

Waste Management

- Adequate community notice of any scheduled, atypical noise events will be provided.
- Equipment will be fitted with noise control devices where possible and appropriate
- Develop strategies (waste management plan) for management of specific waste streams prior to construction phase.
- Stockpile and salvage reusable and recyclable wastes, such as timber skids, fibre/nylon rope spacers, pallets, drums and scrap metals.
- Store hazardous wastes in banded areas away from watercourses.
- Collect and remove (via NEMA approved waste handler) waste from site for recycling, reuse or disposal at facility licensed to accept such wastes.
- All personnel will be instructed in project waste management practices as a component of the environmental induction process
- Where practical, wastes (e.g., scrap metal) will be segregated and reused/recycled.
- All litter and general waste disposal will be at a local municipal landfill utilizing an approved waste contractor.

Soil Quality

- Records of all controlled wastes stored, and removed from site will be maintained.
- Safety and response training will be provided for all personnel.
- Minimizing the areas to be excavated
- Re-vegetating disturbed areas once construction and demolition works are completed; during construction and decommissioning phases respectively;
- Ensuring that vehicles/equipment used during construction and decommissioning phases are serviced regularly.

Water Quality

- Develop strategies for management of water resources.
- Regular checking and maintenance of all plant and machinery to minimize the risk of fuel or lubricant leakages
- Storing hydrocarbons, fuels, lubricants and chemicals to be used in banded and lockable oil storage tanks, with hoses and gauges kept within the bund.
- Leaving vegetation *in situ* wherever possible, and re-vegetation of bare soil before the next rainy season.
- Exposed ground and stockpiles will be minimized to reduce silty runoff, and if necessary measures such as geotextiles will be used to shield spoil mounds.
- Preventing wet concrete and cement from entering watercourse
- Stockpiles to be kept away from watercourses

Occupational health and safety

- Development and implementation of occupational health and safety plan. The Plan will cover on the following:
- Formulation of EHS Management system
- Development of health and safety programme

- Risk assessment and health monitoring for workers
- Contractor selection criteria in relation to health and safety
- Job description to include health and safety requirements

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30126-00100, Nairobi.

(c) County Director of Environment, Nairobi County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED CONSTRUCTION OF TALEK GREEN CENTRE (BIOTISHO CENTRE), NAROK COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Base Camp Foundation Kenya) proposes to put up The Talek Green Centre (Biotishu Centre), a community centre, which means 'good place' for the Maasai, where they can come and achieve a higher level of wellness and wellbeing. The proposed site is located 800m from Base camp Maasai Mara (BCMM) and approximately 200m from Talek Health Centre. It is lying on a privately owned land title number CIS MARA/TALEK/ 128. Neighbouring facilities include Talek Mixed Primary School approximately 100m away and the Talek Town which is approx. 500m. This is on coordinates 1°26'44'' S and 35°13'21'' E.

The Proposed Talek Green Centre shall consist of the following components: Renewable energy sales office, Community meeting space, Volunteer centre and office, Special school with up to 40 students, Computer training centre, Project exhibition and office space, Mini-grid PV space and a Waste management area

The following are the anticipated impacts and proposed mitigation measures:

Anticipated Impacts Mitigation Measures

- | | |
|-----------------|---|
| Soil Excavation | <ul style="list-style-type: none"> • The Contractor understands the preferred construction process by ensuring that the existing features that are supposed to be incorporated in the construction are not excavated or removed. |
|-----------------|---|

- | | |
|---|---|
| Potential risk of accidents and occupational risks | <ul style="list-style-type: none"> • The site preparation process is done with utmost care to ensure that excavation is done systematically & carefully without raising dust and creating unpleasant heaps of soils. • The Contractor undertakes to rehabilitate any degraded environment especially the reconstructed/redeveloped part of the area. • The degraded environment especially excavated areas prone to soil erosion will be rehabilitated <i>in-situ</i> (as the construction progresses) to avoid soil being washed down gradient into the nearest water body. • Any loose soils are compacted to avoid any wash offs. • All disturbed areas are well landscaped to improve on visual intrusion. • The implementation of safety measures and emergency plans to contain accident risks associated with vehicle transport, operation of any sophisticated machinery and other related activities. • Emergency response plans/procedures including details(phone numbers and location) of the Talek Health Centre, hospitals and the proponents site representative will be provided to the Site Foreman / Site Manager for action in case of any accidents during construction. • All staff is trained on the use of any unfamiliar machinery and equipment that may pose danger to the user before they are allowed to use them. Particularly important is the provision of protective clothing, helmets, nose masks etc. • Liaise with the Directorate of Occupational Health and Safety Department to provide for appropriate induction training and regular updating of worker skill on occupational health and safety matters. • Provide for appropriate signage, warnings and emergency contacts at work sites. • Provide appropriate personal protective equipment (PPE) to workers and any visitors. • Provide for First Aid facilities as per the Occupational Safety and Health Act, 2007. • Implement a detailed and site specific Emergency Response Plan. • Have a contingency plan for handling accidents. |
| Risk of workers falling sick during construction and operation phases | <ul style="list-style-type: none"> • Attention will be paid to the sanitation at the site by providing clean water and proper housekeeping. Effective wastewater management. • Provision & use of mosquito repellent nets. • Conducting HIV Aids awareness campaigns among employees regularly • Over the counter medicine for use in case of sickness to staff and volunteers • Emergency response plans/procedures including details (phone numbers and location) of the nearest dispensaries, hospitals to be provided to the Green Centre manager. |

Solid and liquid waste generation	<ul style="list-style-type: none"> Non-usable solid waste materials generated during the construction shall be transported for appropriate disposal either in Narok or use of composite.
Noise Generation and Air Pollution	<ul style="list-style-type: none"> Construction Supervisors shall be encouraged to sensitise construction workers to switch off engines of vehicles or machinery not being used Sensitise vehicle drivers to avoid hooting or raving of engines. Ensure construction machinery is kept in good working condition. Spraying of water during construction to reduce dust emission. Solar power will be harnessed for use in the facility to reduce fossil fuel emission. Energy source from the generator will only be limited to backup when the principle energy source fails. Most of the cooking shall be done using LPG. Ensure that the emergency generator is muffled to minimize noise pollution. Quiet Energy sources like solar power will be preferred over the use of generators that cause air pollution & produce excess noise which is not favorable for the park environment. Drivers entering the facility area shall be expected to control the speed of their vehicles (approx. 30km/hr) to reduce dust emission and other risks including the risk of knocking wild. animals. They will also be encouraged not to drive off the road. Drivers will need to be instructed to desist from hooting unnecessarily. The Proponent shall be required to put up sign posts within The Green Centre area instructing drivers speed control and unnecessary noise generation from vehicles.
Security and fire	<ul style="list-style-type: none"> Install and maintain firefighting equipment and machinery. Sensitise the workers on fire risks & use fireproof materials. Provide emergency numbers at strategic points. Potable firefighting equipment are located at strategic points. Provision of security from wildlife during the construction & operation phases. Ensure that all workers have access to communication facilities for quick emergency response. Overall security within the Mara area shall be provided by Narok County Government.
Presence of Talek Green Centre near the game reserve	<ul style="list-style-type: none"> The Proponent shall be expected to provide dim lighting to avoid creating unnecessary attraction to game animals during the night. Turning off all unnecessary lights at night to avoid unnecessary attraction to wild animals during the night.
Vehicle & Human Presence	<ul style="list-style-type: none"> All drivers comply with traffic regulation such as speed limits (30km/hr or less) during construction and operation.

- Workers and residents are well informed about the danger of straying beyond The Green Centre area as there is risk of encountering wild animals.

The full report of the proposed project is available for inspection during working hours at:

- Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30126-00100, Nairobi.
- County Director of Environment, Narok County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED REHABILITATION OF THE MALINDI- MOMBASA-LIKONI-LUNGALUNGA ROAD IN MALINDI COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Kenya National Highway Authority) proposes to rehabilitate the Malindi-Mombasa-Likoni-Lungalunga Road in Malindi County. The project shall involve rehabilitating the existing bituminous Malindi-Mombasa (Nyali Bridge) and the Mombasa (Likoni)-Lunga Lunga Road, totalling 234 km.

The following are the anticipated impacts and proposed mitigation measures:

<i>Impacts</i>	<i>Mitigation Measures</i>
Soil and water pollution	<ul style="list-style-type: none"> Minimize risks of accidental spillage and clear area immediately it occurs. Practice Good housekeeping. Use silt fences and hay bales to remove suspended solids from surface water runoff. Use silt curtains to minimize sediment suspension and transport while working near water crossings. Discharged waste water into the environment should meet recommended standards. Avoid use of heavy machines and equipments at river riparian. Provide solid waste / garbage collection containers and sanitation facilities. Garbage should be segregated, biodegradable composted or sold to locals and others collected in containers and disposed off periodically. Avoid burying non-biodegradable waste and dump at designated sites/incinerate at.

- Increased Spread of HIV/AIDS
 - Safety, Health and Environment (SHE) induction course.
 - Support HIV/AIDS campaigns as required by the Strategic Plan by involving the local NGOs and government agencies already active in the project area in awareness creation and educating the local communities on HIV/AIDS and STIs prevention.
- Safety and health risks
 - Comply with the Occupation Health and Safety Act (2007) by provision of safety gears, equipments and clothing.
 - Adequate signage and availability of First Aid Kit.
 - Ensure hygiene and sanitation is maintained at the labour camps.
 - The management and use of blasting materials should be done by Contractor registered by the Mines and Geology department in strict conformity with the safety requirements for public security as stipulated in the legislations.
- Air pollution
 - Water palliation on road section near human settlements and farms.
 - Proper choice of equipment with environmental management systems such as mixing plants with dust precipitators, efficient combustion engines.
 - Use clean fuels and energy.
 - Use enclosed processing and transportation equipments.
 - Undertake continuous maintenance of machines and equipments to reduce pollutants.
- Vibrations
 - Provide advance notice to local communities when activities likely to cause vibration are to be undertaken.
 - Locate vibration sources such as of quarry sites far from settlements (recommended at least 2km as per the regulations).
 - Measure vibration levels.
 - Acquire license from the Mines and Geology department for use of explosives.
- Increased Road accidents
 - Capacity building of traffic police officer on traffic management during construction.
 - Enforcement of traffic laws Installation of proper road signs and regular inspections for their presence.
 - Installation of speed control devices like humps.
 - Installation of pedestrian lanes at human settlement crossings.
- Interference with local hydrology
 - Good design and engineering practice.
 - Efficient drainage system Selection of proper outfall point so as to avoid flooding at the discharge point.
 - Avoid pollution of water bodies.

FOR THE PROPOSED CONSTRUCTION OF ENGEN MUGUGA
SERVICE STATION AT MUGUGA ALONG THE NAIROBI –
NAKURU HIGHWAY ON PLOT NUMBER
MUGUGA/MUGUGA/3179, KIAMBU COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Engen (K) Limited) is proposing to develop a Service Station at Muguga along Nairobi – Nakuru Highway on Plot Number Muguga/Muguga/3179 Kiambu County.

The development will comprise: underground storage tanks, product pipe work, dispensing pumps, station canopy, office block, tyre centre, service bay, firefighting system, electrical works and other station operations support facilities including generators and compressors.

The following are the anticipated impacts and proposed mitigation measures:

<i>Impacts</i>	<i>Mitigation measures</i>
Changes in hydrology/ impended drainage	<ul style="list-style-type: none"> • Proper Installation of drainage structures. • Ensure efficiency of drainage structures through proper design and maintenance. • Provide gratings to the drainage channels. • Regular checks on any sludge along drainage channels. • Visual checks of oil interceptor and drainage channels for any leakage.
Soil erosion	<ul style="list-style-type: none"> • Control any earthworks. • Rehabilitate degraded environment to avoid siltation and wash offs. • Compact loose soils. • Landscaping. • Ensure management of excavation activities. • Control activities especially during rainy conditions. • Provide soil erosion control and conservation structures where necessary. • Proper disposal of excavated soil.
Air pollution	<ul style="list-style-type: none"> • Prohibit idling of vehicles. • Spray water during the construction phase on the excavated areas. • Regular maintenance of construction plant and equipment. • Engage sensitive construction workers. • Proper use of PPE.

Noise pollution	<ul style="list-style-type: none"> • Maintain construction equipment. • Construction activities to be restricted to daytime. • Workers in the vicinity of or involved in high-level noise to wear respective safety & protective gear i.e. earplugs & earmuffs. • Appropriate selection of machinery.
Oil pollution	<ul style="list-style-type: none"> • Proper storage, handling and disposal of new oil and used oil and related wastes. • Maintain equipment to avoid leaks. • Provide oil interceptors along the drains leading from the station forecourt and offloading area.
Water resource	<ul style="list-style-type: none"> • Management of water usage. • Recycling of water at the construction phase where possible. • Use of water conservation signs at the wash rooms and install water conserving taps. • Recycling water from car wash.
Occupational Health safety	<ul style="list-style-type: none"> • Ensure proper solid waste disposal and collection facilities. • Ensure effective wastewater management. • Proper design of sewerage system. • Provide First Aid kits on the site. • Sensitize residents/workers on environmental management. • Ensure there is no ponding to eliminate breeding of mosquitoes during construction. • Workers should be trained on occupational health & safety and first Aid administration. • Train staff on Petroleum products handling. • Sensitize workers on HIV and AIDS.
Fire outbreak	<ul style="list-style-type: none"> • Install fire-fighting equipment as provided by OSH Act. • Sensitize the residents on fire risks i.e. conduct regular fire drills. • Adapt effective emergency response plans. • Provide emergency contact numbers and contacts of mutual aid at strategic points.
Security	<ul style="list-style-type: none"> • Provide security guards and facilities during construction and operation phase. • Security guards should always be available to alleviate cases of arson, robbery or trespass.

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED OIL EXPLORATORY DRILLING AROUND
THE BORDER OF LAGHBOGOL AND KORICH LOCATIONS IN
BLOCK 2B IN WAJIR COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Lion Petroleum Corporation) is proposing drill oil and gas around the border of Laghbogol and Korich locations in Block 2B Wajir County.

The proposed project will include: storage fabricated containers and tents, air conditioned containers to be used as administration block and offices, air conditioned tents to use for the staff accommodation, specially fabricated air conditioned containers to be used as toilet, washing room and laundry, tented workshops for use as garage, cable and mechanic repairs, fuel storage facilities will be erected at the camp as guided by the petroleum act, a borehole will be drilled to supply water to the Campsite, leveled parking for the motor vehicles, equipment and machinery, a drilling rig will be constructed within the camp site boundaries and an oil exploration well will be drilled within the campsite boundaries.

The following are the anticipated impacts and proposed mitigation measures:

Impact	Mitigation Measure
Vegetation loss and Soil erosion	<ul style="list-style-type: none"> • The developer will undertake grass planting as the construction progresses to avoid the soil being washed or carried by wind. • Places of least vegetation cover will be identified for the campsite and only construction points will be completely cleared to ensure minimum vegetative disturbance. • Proper roof catches and gutters will be put in place to control the possible increased runoff. • Temporary storage tanks will be supplied to trap this water for irrigating planted vegetation. • Wherever possible vegetation within the should be preserved and where plants must be uprooted they should be recycled into use as construction materials, firewood or converted into soil manure
Air pollution	<ul style="list-style-type: none"> • Pour water on vehicle paths to reduce dust • When possible vehicles should when most people and livestock are indoors
Waste Management	<ul style="list-style-type: none"> • The Campsite will be equipped with toilet and washing facilities fully connected to licensed septic tanks as witnessed in the previous camp in the same block. • Appropriate sized portable toilets will be availed to the field staff during their working hours and to keep with the movement of operations. • The proponent will ensure that it enlists a licensed private company specialized in the handling oil and solid waste. Biodegradable kitchen waste will be composted on site for tree planting manure.

Ground Water Contamination	<ul style="list-style-type: none"> • A Good housekeeping as part of the company policy will be implemented at the facility. • The drilling project area does not have permanent Surface River with flowing water or stream. • The seasonal streams on site are dry beds only holding water occasionally during the wet rainy season. • The drilling operations may have to stop temporarily during the very wet season when working in the area becomes difficult. • The project will have an adequate drainage on site containment to minimize uncontrolled storm water. • Well documented procedures for maintenance of the drainage system will be implemented and staff will be trained accordingly. • Oil waste will never be allowed into the environment; proper containment and accidental spill absorption regime will be implemented at all times. 	Occupational Health and safety	<ul style="list-style-type: none"> • Dust containment and suction systems will be installed on the campsite. • Use of PPEs will be strictly enforced. Welders will be provided with respirators, eye protections and dustcoats to minimize inhalations. • Regular medical checks will be done and records maintained of the employees. • Staff working at the plant will have medical cover. Sanitation related education and practice would form part of the facility's regular routine, to avoid incidences of infections such as cholera, bilharzias and malaria. • Swapping of work stations for staff will reduce level exposure.
Traffic congestion and accidents	<ul style="list-style-type: none"> • The earth road network is not a busy one. Logistical procedures will ensure ease of movement. • Materials will be packed properly in specialized carriers to reduce chances of falls on the road. • Assistance will be sought from Traffic Department where necessary 	<p>The full report of the proposed project is available for inspection during working hours at:</p> <p>(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. (5) Message from the Board

The Statement of Net Assets, Statement of Changes in Net Assets and Cashflows are extracts from the Fund's Financial Statements approved by the Board on 23 September, 2013. The Financial Statements have been audited by the Auditor General in accordance with the provisions of the Public Audit Act, 2003. A full set of these Financial Statements is available at NSSF Head Office, Bishops Road, and on the Fund's official website: www.nssfkenya.co.ke

OUTLOOK FOR 2015

The NSST Act No 45 of 2013 received presidential assent in December 2013 and became law on 10th Jan. 2014. The Act has introduced significant reforms among them the change from providing benefits on a provident basis to pension basis and strengthens the governance framework.

In the last year, the Fund has successfully implemented SAP-ERP platform to support back office operations and Social Security and Pension Administration System (SSPAS) for front office operations.

To drive implementation of the Act, the Board of Trustees has formulated the 2014-2019 strategic plan to focus resources on the growth of the pension scheme.

The Act can be downloaded from the National Social Security Fund official website: www.nssfkenya.co.ke

IMPORTANT NOTICE TO SUBSCRIBERS TO THE KENYA GAZETTE

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
