THE ANTI-CORRUPTION AND ECONOMIC CRIMES ACT

(Cap. 65)

THE ETHICS AND ANTI-CORRUPTION COMMISSION ACT

(Cap. 65 A)

THE ETHICS AND ANTI-CORRUPTION COMMISSION

THE FOURTH QUARTERLY REPORT FOR THE YEAR 2014 COVERING THE PERIOD 1ST OCTOBER, 2014 TO 31ST DECEMBER, 2014

Preamble

The Ethics and Anti-Corruption Commission is required under section 36 of the Anti-Corruption and Economic Crimes Act, 2003, to prepare quarterly reports setting out the number of reports made to the Director of Public Prosecutions under Section 35 of the Anti-Corruption and Economic Crimes Act, 2003 as read with Section 11(1) (d) of the Ethics and Anti-Corruption Commission Act, 2011.

Section 36 provides that:

1. The Commission shall prepare quarterly reports setting out the number of reports made to the Director of Public Prosecutions under section 35 and such other statistical information relating to those reports, as the Commission considers appropriate.

2. A quarterly report shall indicate if a recommendation of the Commission to prosecute a person for corruption or economic crime was not accepted.
3. The Commission shall give a copy of each quarterly report to the Attorney General.
4. The Attorney General shall lay a copy of each quarterly report before the National Assembly.
5. The Commission shall cause each quarterly report to be published in the *Gazette*.

This report is therefore made pursuant to section 36 of the Anti-Corruption and Economic Crimes Act, 2003. The report covers the fourth Quarter of the year 2014, and is for the period commencing 1st October, 2014 to 31st December, 2014.

INVESTIGATION REPORT COVERING THE PERIOD 1ST OCTOBER TO 31ST DECEMBER, 2014

KACC/FI/INQ/25/20005

Inquiry into allegations that the Office of the President irregularly entered into a Suppliers Financing Agreement for the sum of EUROS 40,000,000 with a Corporation in the United Kingdom for the modernization of the Police Equipment and Accessories Project for the Kenya Police Department

Investigations established that whereas the GOK entered into a contract with the company in the UK, no requisition for modernization of the police equipment and accessories had been made by the Police Department. The Police who were the user Department were never involved in the preparation of specifications for the project, nor were they involved in the identification of the companies being contracted. Investigations also established that no technical specifications were provided by the Police for the project and the PS, Ministry of Internal Security unilaterally engaged the foreign company without following the laid down procurement Regulations.

Investigations further established that no due diligence was carried out in respect of the two companies contracting with the GOK. The GOK paid a sum of KSh. 120,000,000 as management fees for the contract. However, investigations established that no equipment was delivered to the Police under the contract, and thus there was no performance of the contract.

The evidence obtained established culpability in regard to the officers involved in the contract.

A Report was compiled and forwarded to the Director of Public Prosecutions on 16th October, 2014 with recommendations that the suspects culpable be charged with various offences of breach of procurement Regulations, abuse of office, conspiracy to defraud and fraudulent acquisition of public property.

The DPP advised that further investigations be carried out in the matter.

KACC/FI/INQ/19/2005

Inquiry into allegations that the Office of the President irregularly entered into a Suppliers Financing Agreement for the sum of EUROS 59,688,250 with a Swiss Company for the computerization of the Security, Law and Order Systems and Procedures for the Kenya Project Code named E-Cops.

The investigations established that the contract for the computerization of the Kenya Police systems (E-cops) was entered into after the Swiss Company submitted a technical proposal to the Office of the President. Investigations further established that the identification of the company was not done through the requisite procurement procedures. In addition, the Police Department was not involved in the preparation of the technical specifications for the project. The investigations also established that the technical, competence, capability, and financial status of the company was also not established before the office of the President entered into a contract with them. The computerization of the Police had also not been planned for nor did the project have sufficient direct budget allocations.

The evidence obtained in the investigations revealed several breaches by public officers involved during and up to the time the contract was entered into.

Formatted: Indent: Left: 0.42 cm, Hanging: 0.42 cm, Numbered + Level: 1 + Numbering Style: 1, 2, 3, ... + Start at: 1 + Alignment: Left + Aligned at: 1.9 cm + Tab after: 2.54 cm + Indent at: 2.54 cm

The evidence revealed that the contract was entered into after several breaches and irregularities.

A Report was compiled and forwarded to the Director of Public Prosecutions on 16th October, 2014, with recommendations that the suspects that the suspects culpable be charged with various offences of breach of procurement Regulations, abuse of office, conspiracy to defraud and fraudulent acquisition of public property.

The DPP advised that further investigations be carried out in the matter.

KACC/FI/INQ/29/2005

Inquiry into allegations that the Government of Kenya irregularly entered into a contract on a single sourcing basis with a foreign company for the installation of a National Early Warning (Security and Safety) System (NEWSS) for the KENYA Meteorological Department at a cost of US Dollars 35,000,000.

The investigations established that the NEWSS project for the meteorological Department was not a security project and therefore should have been subjected to competitive procurement process instead of direct procurement. Investigations further established that the project was not budgeted for by the Ministry of Transport and Communications. The technical specifications were not prepared by the user Department as required, but by the foreign company whose capacity was not known. It was also established that due diligence was not carried out in regard to the companies that the Meteorological Department was contracting with to ascertain their technical, legal, financial, competence and capability status.

Investigations further established that the GOK paid commitment fees, down payment, interest and instalments towards loan repayment, yet no loan was advanced. The project was also overpriced and the market price/value was not ascertained before the contract price was agreed upon. The investigations established culpability on the part of the officers involved in the contract and private persons who benefit from the irregular award.

A Report was compiled and forwarded to the Director of Public Prosecutions on 16th October, 2014 with recommendations that the suspects culpable be charged with various offences of breach of procurement Regulations, abuse of office and breach of trust.

The DPP advised that further investigations be carried out in the matter.

KACC/FI/INQ/33/2005

Inquiry into allegations of an irregular contract between the Government of Kenya and a private company for the supply and installation of a dedicated multi-channel security system for the Administration Police at a cost of EUROS 49,650,000.

The investigations established that the Office of the President irregularly contracted two foreign companies for the supply of and installation of a telecommunication system for the Administration Police and financing of the said project. The investigation established that no due diligence was performed in regard to the companies before being engaged to satisfy the OP on the legal, financial, competence and technical capacity of the two.

It was further established that there was non-compliance with the Procurement and financial Regulations in identifying and engaging with the two companies. Investigations further established that no budgetary allocations had been set aside for the project nor were any estimates to cater for the project approved by Parliament in the financial year that the contract was entered into. The project had also not been planned for. The investigations established culpability in respect of the officers involved in the contract.

A report was compiled and forwarded to the DPP on 16th October, 2014 with recommendations that the suspects involved in the transaction that the suspects culpable be charged with various offences of breach of procurement Regulations, abuse of office and breach of trust.

The DPP advised that further investigations be carried out in the matter.

CR.660/101/2014 MIGORI ACC. NO.690/2014

Inquiry into allegations of corruption against an Investigation Supervisor, South Nyanza Sugar Company Limited (SONY)

The investigations established that the suspect corruptly solicited for a benefit of KSh. 60,000 from the complainant as an inducement to facilitate the collection of scrap metal the complainant had purchased from Sony Sugar. The suspect also received a benefit of KSh. 30,000 from the complainant. He was arrested and arraigned before the Migori Anti- Corruption Court and charged with the offences of corruptly soliciting for and receiving a benefit contrary to section 39 (3) (a) of the Anti- Corruption and Economic Crimes Act, 2003.

A report was compiled and forwarded to the Director of Public Prosecutions on 16th December, 2014 with recommendations that the case against the suspect proceed to its logical conclusion.

On 5th January, 2015, the DPP accepted the recommendation for prosecution

CR.NO.145/215/2014 NAIROBI ACC NO. 24/2014

Inquiry into allegations of corruption against a Police Officer attached to the Railways Police Station Nairobi.

The investigations established that the suspect corruptly solicited for a benefit of KSh. 2,000 from the complainant as an inducement to facilitate the release of the complainant's husband from the police station. The suspect however did not receive the benefit that she had solicited for. She was arrested and arraigned before the Nairobi Anti- Corruption Court and charged with the offences of corruptly soliciting for a benefit contrary to section 39 (3) (a) of the Anti- Corruption and Economic Crimes Act, 2003.

A report was compiled and forwarded to the Director of Public Prosecutions on 9th December, 2014 with recommendations that the case against the suspect proceed to its logical conclusion.

On 5th January, the DPP accepted the recommendation for prosecution.

CR.145/183/2014 NAIROBI ACC. NO. 20/2014

Inquiry into allegations of corruption against a Police Officer attached to the Kibera Law Courts

The investigations established that the suspect corruptly solicited for a benefit of KSh. 15,000 from the complainant as an inducement to forbear charging him with a traffic offence. The suspect also received a benefit of KSh. 5,000 from the complainant. He was arrested and arraigned before the Nairobi Anti- Corruption Court and charged with the offences of corruptly soliciting for and receiving a benefit contrary to section 39 (3) (a) of the Anti- Corruption and Economic Crimes Act, 2003.

A report was compiled and forwarded to the Director of Public Prosecutions on 27th November, 2014 with recommendations that the case against the suspect proceed to its logical conclusion.

On 30th December, 2014, the DPP accepted the recommendation for prosecution.

CR.767/265/2014 NAKURU ACC. NO. 9/2014

Inquiry into allegations of corruption against an Operations Officer, Kenya Power and Lighting Company Limited.

The investigations established that the suspect corruptly solicited for a benefit of KSh. 20,000 from the complainant as an inducement to reconnect electricity supply to the complainant's house. The suspect also received a benefit of KSh. 15,000 from the complainant. He was arrested and arraigned before the Nakuru Anti- Corruption Court and charged with the offences of corruptly soliciting for and receiving a benefit contrary to section 39 (3) (a) of the Anti- Corruption and Economic Crimes Act, 2003.

A report was compiled and forwarded to the Director of Public Prosecutions on 24th November, 2014 with recommendations that the case against the suspect to proceed to its logical conclusion.

On 30th December, 2014 the DPP accepted the recommendation for prosecution.

CR.780/586/2014 NAKURU ACC. NO. 6/2014

Inquiry into allegations of corruption against a Police Officer attached to the Criminal Investigations Department (CID) Nakuru County

The investigations established that the suspect corruptly solicited for a benefit of KSh. 50,000 from the complainant as an inducement to drop charges of obtaining money by false pretences against the complainant. Investigations established that the suspect later reduced the benefit to KSh. 10,000. The suspect also received a benefit of KSh. 10,000 from the complainant. He was arrested and arraigned before the Nakuru Anti- Corruption Court and charged with the offences of corruptly soliciting for and receiving a benefit contrary to section 39 (3) (a) of the Anti- Corruption and Economic Crimes Act, 2003.

A report was compiled and forwarded to the Director of Public Prosecutions on 6th November, 2014 with recommendations that the case against the suspect proceed to its logical conclusion.

On 7th December, 2015, the DPP accepted the recommendation for prosecution.

CR. 627/500/2014 KAKAMEGA ACC.NO 1/2014

Inquiry into allegations of corruption against two Enforcement Officers, Vihiga County and a Police Officer attached to Luanda Police Station.

The investigations established that the suspects corruptly solicited for a benefit of KSh. 10,000 from the complainant as an inducement to release the complainant's motor vehicle which had been impounded for flouting the Vihiga County by-laws. The Police Officer received a benefit of KSh. 10,000 from the complainant for himself and on behalf of the two Enforcement officers. Investigations further established that the two county Enforcement Officers escaped when the EACC investigators went to arrest them.

The suspects were later arrested and arraigned before the Kakamega Anti- Corruption Court and charged with the offences of corruptly soliciting for and receiving a benefit contrary to section 39 (3) (a) of the Anti- Corruption and Economic Crimes Act, 2003.

A report was compiled and forwarded to the Director of Public Prosecutions on 29th October, 2014 with recommendations that the case against the suspect proceed to its logical conclusion. It was further recommended that the two County Officers be charged with the offence of obstruction contrary to section 66(1) of the Anti- Corruption and Economic Crimes Act, 2003.

On 29th January, 2015 the DPP accepted the recommendation for prosecution.

1. Inquiry into allegations of corruption against the Jomvu Ward Member of the Mombasa County Assembly

The investigations established that the suspect corruptly solicited for a benefit of KSh. 200,000 from the complainant as an inducement to forestall a planned demonstration by the residents of Jomvu Ward in connection to a factory operated by the complainant; and to stop the effecting of a Notice issued by the Mombasa County Chief Public Health Officer. The suspect also received a benefit of KSh. 100,000 from the complainant. He was arrested and arraigned before the Mombasa Anti- Corruption Court and charged with the offences of corruptly soliciting for and receiving a benefit contrary to section 39 (3) (a) of the Anti- Corruption and Economic Crimes Act, 2003.

A report was compiled and forwarded to the Director of Public Prosecutions on 24th October, 2014 with recommendations that the case against the suspect proceed to its logical conclusion.

On 24th October, 2014, the DPP accepted the recommendation for prosecution.

KACC/FV/INQ/20/2005

Inquiry into allegations of irregular single sourcing of a contract between the government of Kenya and a Corporation in the USA for the supply and installation of VSAT Equipment to the Postal Corporation of Kenya (PCK)

Investigations established that the PCK entered into a contract with a foreign company for the supply of equipment to PCK. Investigations established that due procurement procedures were not complied with and the Accounting Officer unilaterally awarded the contract to the said company. Further, the investigations established that PCK did not carry out due diligence to establish the legal, technical and financial status of the company they engaged. It was also established that project by PCK was not budgeted for nor the estimates approved by Parliament. The investigations established that the VSAT equipment was supplied and the contracted company received the contract sum.

The investigations established culpability on the part of the public officers who were involved in the contract.

A report was compiled and forwarded to the Director of Public Prosecutions 16th October, 2014 recommending that the suspects culpable be charged with various offences of breach of procurement Regulations.

The DPP advised that further investigations be carried out in the matter.

CR.735/293/2014 NAKURU ACC. NO 7/2014

Inquiry into allegations of corruption against a Primary School Teacher at the Arap Moi Primary School

The investigations established that the suspect corruptly solicited for a benefit of KSh. 2,000 from the complainant as an inducement to admit the complainant's child in the school. The suspect also received a benefit of KSh. 2,000 from the complainant. She was arrested and arraigned before the Nakuru Anti- Corruption Court and charged with the offences of corruptly soliciting for and receiving a benefit contrary to section 39 (3) (a) of the Anti- Corruption and Economic Crimes Act, 2003.

A report was compiled and forwarded to the Director of Public Prosecutions on 9th October, 2014 with recommendations that the case against the suspect proceed to its logical conclusion.

On 7th November, 2014, the DPP accepted the recommendation for prosecution.

CR.141/341/2014 NAIROBI ACC. No. 16/2014

Inquiry into allegations of corruption against two former employees of the Ethics and Anti- Corruption Commission.

The investigations established that the suspects corruptly solicited for a benefit of KSh. 180,000 from the complainant as an inducement not to disqualify her company from the list of pre-qualified suppliers for the EACC in the 2014-2015 Financial year. Investigations further established that one of the suspects received a benefit of KSh. 50,000 from the complainant through Mpesa whereas the other suspect received KSh. 100, 000 through an agent. The suspects were arrested and arraigned before the Nairobi Anti- Corruption Court and charged with the offences of corruptly soliciting for and receiving a benefit contrary to section 39 (3) (a) of the Anti- Corruption and Economic Crimes Act, 2003.

A report was compiled and forwarded to the Director of Public Prosecutions on 9th October, 2014 with recommendations that the case against the suspect proceed to its logical conclusion.

On 26th November, 2014, the DPP accepted the recommendation for prosecution.

CR. 123/426/2014 CF. NAIROBI ACC. 4367/2014

Inquiry into allegations of corruption against an employee of the Nairobi Water and Sewerage Company Limited.

The investigations established that the suspect corruptly solicited for a benefit of KSh. 25,000 from the complainant as an inducement to solve a water problem in the complainant's residence. The suspect also received a benefit of KSh. 25,000 from the complainant. He was arrested and arraigned before the Nairobi Anti- Corruption Court and charged with the offences of corruptly soliciting for and receiving a benefit contrary to section 39 (3) (a) of the Anti- Corruption and Economic Crimes Act, 2003.

A report was compiled and forwarded to the Director of Public Prosecutions on 9th October, 2014 with recommendations that the case against the suspect proceed to its logical conclusion.

The DPP accepted the recommendation for prosecution.

EACC/MSA/INQ/RP/06/2014

Inquiry into allegations of corruption against a Police Officer attached to Mombasa Central Police Station.

The investigations established that the suspect corruptly solicited for a benefit of KShs. 10,000 from the complainant as an inducement to release the complainant's relative who was held in the Police Station. The suspect also received a benefit of KShs. 10,000 from the complainant. He was arrested and arraigned before the Mombasa Anti-

THE SACCO SOCIETIES ACT

(Cap. 490B)

NON-RENEWAL/REVOCATION OF DEPOSIT-TAKING LICENSE OF SACCO SOCIETIES

(Issued pursuant to section 27(3) of the Sacco Societies Act)

NOTICE is given that in exercise of the powers conferred by section 27 and 51 of the Sacco Societies Act (Cap. 490B) as read with regulation 6 of the Sacco Societies (Deposit-taking Sacco Business) Regulations, 2010 and all other enabling provisions of the law, the Sacco Societies Regulatory Authority (hereinafter the Authority) has:

1. Revoked/not renewed, the deposit-taking Sacco business licence for the Sacco Societies appearing in the Schedule hereunder with effect from 1st January, 2015;
2. Prohibited, the said Sacco Societies appearing in the Schedule hereunder, by themselves and/or through any of their directors, employees, agents, officers and/or any other person whatsoever from undertaking deposit-taking Sacco business (popularly known as Front Office Service Activity or FOSA) in Kenya, with effect from 1st January, 2015; and
3. Directed, the immediate winding-up and/or otherwise closure of the existing or current deposit-taking business (if any), and in event within the periods prescribed.

SCHEDULE

Full Name of Sacco Society	Postal Address	Registration Number	Physical Location	County Situated
Isiolo Teachers Savings and Credit Co-operative (Sacco) Society Limited	P.O. Box 105-60300, Isiolo	CS. No. 2511	Isiolo Town	Isiolo
Ogembo Tea Sacco Society Limited	P.O. Box 88-40211, Kenya	CS. No. 6180	Kenya Town	Kisii

Consequently, members of the public, and/or other public or private entities who intend to engage in and/or undertake any form of deposit-taking Sacco (FOSA) business transactions including but not limited to operating withdrawable savings or fixed accounts, salary processing among others with the said Sacco Societies are hereby warned that the said Sacco Societies are not licensed by the Authority, and therefore not authorized to undertake any such deposit-taking Sacco (FOSA) business transactions, commercial or otherwise.

Any person or institution (private or public) who engages in deposit-taking business or transaction with the said Sacco Societies shall be doing so at their own peril and associated risks, and all such business or transactions shall be illegal, null and void.

Further attention of the public is drawn to the provisions of section 23 of the Sacco Societies Act, which provides inter alia that a person who undertakes deposit-taking Sacco business in Kenya without a valid license from the Authority commits an offence. Additional criminal proceedings may thus be instituted against any person who violates the said provisions.

Any inquiries and/or queries in this regard may be directed in writing to the Authority through its email at supervision@sasra.go.ke or info@sasra.go.ke, or otherwise to the undersigned.

Dated the 27th January, 2015.

THE WATER ACT

(No. 8 of 2002, section 107)

LAKE VICTORIA SOUTH WATER SERVICES BOARD AND THE COUNTY GOVERNMENT OF KERicho

(PUBLIC CONSULTATION OF REGULAR TARIFF REVIEW FOR KERicho WATER AND SANITATION COMPANY LIMITED (KEWASCO))

Notice is given to the general public that the County Government of Kericho in concurrence with Lake Victoria South Water Services Board (LVSWSB), which has a license to provide water services in the counties of Kericho, Bomet, Kisumu, Kisii, Nyamira, Siaya, Migori, Homa Bay, and parts of Narok and Nandi counties has applied to the Water Services Regulatory Board (WASREB) for a Regular Tariff Review for its agent, Kericho Water and Sanitation Company Limited (KEWASCO) for the period 2014/2015 to 2017/2018. Kericho Water and Sanitation Company Limited (KEWASCO) serves the areas of Ainamoi and Belgut constituencies and its environs but now has expanded mandate under the new dispensation of providing water and sanitation services in Kericho County.

Lake Victoria South Water Services Board (LVSWSB) proposes an upward Tariff Review to enable the Kericho Water and Sanitation Company Limited (KEWASCO) to attain full cost recovery, undertake minor investments and meet the conditions for improving service delivery.

Lake Victoria South Water Services Board (LVSWSB) proposes to adopt rising Block Tariffs for all the consumer categories except water kiosks.

Details of the Current Tariff and Proposed Tariff can be obtained from www.lvswaterboard.go.ke or www.kewasco.co.ke or at Kericho Water and Sanitation Company Limited (KEWASCO) Head Offices, Temple Road next to Telkom/Orange House.

Written comments on improvements on service delivery and/or justified objections to the upward Tariff Review should be addressed to the Managing Director, Kericho Water and Sanitation Company Limited (KEWASCO), P.O. Box 1379-20200, Kericho or info@kewasco.co.ke.

The closing date for such comments shall be on Saturday 14th March, 2015.

CARILUS ADEMBA,
Chief Executive Officer.

A public consultation meeting shall be held on Wednesday 4th March, 2015 at Sunshine Upper Hill Hotel grounds starting at 9:00 a.m. All members of the public within the service area of Kericho Water and Sanitation Company Limited (KEWASCO) are invited to attend.

GAZETTE NOTICE NO. 807

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED 400 KV DOUBLE CIRCUIT LINE: LAMU- NAIROBI EAST TRAVERSING FIVE COUNTIES OF LAMU, TANA RIVER, GARISSA, KITUI AND MACHAKOS INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Kenya Electricity Transmission Company – KETRACO) is proposing to set up a 400 Kv Double Circuit line traversing five Counties of Lamu, Tana River, Garisa, Kitui and Machakos.

The following are the anticipated impacts and proposed mitigation measures:

Impacts

Mitigation Measures

- | | |
|--|--|
| <p>Clearing of vegetation and loss of biodiversity</p> | <ul style="list-style-type: none"> • Compensate by planting of trees on roadsides and avenues and in other public places such as schools. • Undertake selective clearance to target only tall trees and shrubs and avoid |
|--|--|

clearance of short annual herbs.

- Adhere strictly to prescribed dimensions in clearing of vegetation.
- Monitor the biodiversity index over time in the project areas.

Hazard to fauna including bird strikes

- Desist from any form of hunting of game for trophies or food.
- Cart away any waste.
- Mark some of the wires to make them more.
- Erect perching platforms on top of pylons.
- Monitor number of electrocuted birds and those lost to collision and compare with published data to make decision on effectiveness of measures taken.

Noise and dust pollution

- Obtain necessary authorization if blasting is to take place.
- Provide appropriate PPEs to workers (dust masks and noise mufflers).
- Organize deliveries to avoid constant noise irritation and train workers on good practices of minimizing noise generation such as: turning off idle machines, avoiding hooting, gentle off-loading, use of properly maintained machines, and installation of mufflers on machinery.
- Next to settlements, restrict construction to daytime.
- Exercise discipline in areas next to schools and clinic.
- Deliver construction materials early in the morning when it is less windy and the materials are damp with dew.
- Use low speeds while delivering materials.
- In case of excessive dust, sprinkle materials and working areas with water.
- Supervise workers to ensure they work away from drifting dust.

Impeded drainage leading to soil erosion into water resources

- Plan construction to coincide with dry weather.
- Minimize use of heavy equipment by favouring human labour.
- Avoid dragging of construction material on the ground to deter creating of soil erosion channels.
- In heavily compacted areas, such as lorry tracks, offloading sites and assembling points, disturb the soil, then mulch it to encourage quick plant regeneration.
- Cut back the vegetation rather than outright clearance such that the soil is held by the stumps.
- Do not disturb river banks whatsoever.

THE ENVIRONMENTAL MANAGEMENT AND
 CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
 FOR THE PROPOSED ISINYA - NAIROBI EAST 400 KV
 TRANSMISSION LINE AND ACCOMPANYING SUBSTATIONS
 IN KAJIADO AND MACHAKOS COUNTIES

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent (Kenya Electricity Transmission Company – KETRACO) is proposing to set up a 400 KV Double Transmission Line and accompanying Substations in Kajiado and Machakos Counties.

The proposed development comprises the construction of 75km of 400kV double circuit transmission line from Isinya to Nairobi East substations. The proposed line will start at Isinya Substation (0258706, 9804081) in Kajiado County, off Namanga Road. It will run northeastwards through Kaputie plains passing through Enkirigiri area where it will make a turnoff at INE1 (0264180, 9806580). At INE1, the proposed line will turn further northwards across the expansive plains at Oluroto area. The line will maintain the same direction across the Kaputie plains up to and beyond the boundary between Kajiado and Machakos Counties. After the plains the line will cross Mombasa road at Mathatani area near Lukenya Hills where angle point INE2 (0286830, 9835250) is located.

The following are the anticipated impacts and proposed mitigation measures:

Impacts

Mitigation Measures

- Vegetation damage, habitat loss, and loss of food source for wildlife and invasion by exotic species along the ROW and access Roads
- Utilize appropriate clearing techniques (e.g. Hand clearing, as opposed to mechanized clearing) by using human labour as opposed to heavy machinery hence limiting vegetation clearing, along the construction corridor.
 - Maintain native ground cover and low growing vegetation beneath along the ROW by selective removal of tall growing tree species and allowing low-lying grasses and shrubs in transmission line rights-of-way.
 - Minimize clearing and disruption to riparian vegetation.
 - Use of discontinuous maintenance roads to reduce access to wildlands and encroachment.
 - Do not burn cleared vegetation in the

Soil erosion, water
 siltation and
 contamination

- area to avoid starting a fire in the savannah landscape.
- Loosen compacted soil to allow re-growth of vegetation.
- Soils excavated for the construction of the towers shall be used for backfilling
- Soils shall not be left exposed to wind/water for long.
- Riverine vegetation shall be minimally disturbed during the construction.
- Employ soil erosion control measures and safeguard stream / river banks.
- Use well-maintained vehicles and machinery to prevent soil contamination by fuel and oil spill.
- Apply appropriate procedures to clean-up fuel and oil spills.
- Utilize existing roads and village tracks as far as possible.
- Minimize number on new access roads
- Limit extent of construction, camp sites and storage areas to as less space as possible.
- Prohibit idle driving in the landscape
- Where applicable, restore exposed soil with native vegetation.

Impact on surface and
 groundwater

- Towers should be constructed away from dams, wells, and stream / river channels.
- A riparian distance of approx. 5m meters away from the
- River edge to be maintained to avoid pollution and enhance safety.
- Prepare temporary catch basins / sediment traps during the rainy season.
- Implement appropriate effluent, fuel and oil handling procedures.
- Store materials (e.g. cement), liquids and lubricants in closed / sealed containers to avoid leakage.
- Provide temporary sewer system for project staff.
- Regularly maintain project vehicles and machinery.
- Maintain vehicles and machinery in licensed garages, where applicable.
- Re-fuel construction equipment on sealed surfaces, in enclosed areas.
- Dispose off all waste generated e.g. fuel, oil and lubricants in designated areas.

Visual intrusion of
 landscape

- The selected route traverses an area with low human population which minimizes the perception of landscape intrusion.
- Use camouflaged structures and non-reflecting conductors in areas where visibility is not required.
- Locate TL away from wilderness view points and tourism lodges.

Air Pollution (dust and
 smoke emissions)

- Control speed of construction vehicles.
- Prohibit idling of vehicles.
- Spray water during the construction phase on excavated areas to reduce dust

	<p>emission.</p> <ul style="list-style-type: none"> • Regular maintenance of plant and equipment. • Provide dust masks for use while working- in dusty conditions. • Use serviceable vehicles and machinery to avoid excessive smoke emission. • Optimize transport management to avoid needless truck trips. • Prohibit burning of rubbish on site. 	
Noise pollution	<p>Temporary risk to road safety along the Roads</p> <ul style="list-style-type: none"> • Pre-notification on the intension to move large equipment by road observe strict code of conduct by the transported. • Electrical Materials to be transported while covered to keep away moisture. <p>Working at heights</p> <ul style="list-style-type: none"> • Use construction site barrier tapes to isolate the working area to bar access to the area in case of a dropping object. • Test structures for integrity prior to undertaking work. • Implement a fall protection program including training in climbing techniques and use of harnesses. • Inspection, maintenance, and replacement of fall protection equipment • Use helmets and other PPE to mitigate against scratches, bruises, lacerations and head injuries from dropping objects. • Provide first aid facilities at the site. 	<p>Formatted: Indent: Left: 0.01 cm, Hanging: 0.42 cm, Bulleted + Level: 1 + Aligned at: 0.63 cm + Indent at: 1.27 cm</p> <p>Formatted: Indent: Left: 0.01 cm, Hanging: 0.42 cm, Bulleted + Level: 1 + Aligned at: 0.63 cm + Indent at: 1.27 cm</p> <p>Formatted: Indent: Left: 0.01 cm, Hanging: 0.42 cm, Bulleted + Level: 1 + Aligned at: 0.63 cm + Indent at: 1.27 cm</p>
Rock Blasting	<p>Loss of Farm Land and crops</p> <ul style="list-style-type: none"> • Use of appropriate rock blasting technology. • Get approval from the Department of Mines and Geology to carry out rock blasting. • Inform the neighboring communities and organizations through notices on the intended or ongoing rock blasting exercises so they are not caught by surprise. <p>Relocation of homesteads</p> <ul style="list-style-type: none"> • Verify land tenure. • Discuss with the resident/owner. • Develop a resettlement plan. • Create awareness on land alternatives /resettlement options. 	<p>Formatted: Indent: Left: 0.01 cm, Hanging: 0.42 cm, Bulleted + Level: 1 + Aligned at: 0.63 cm + Indent at: 1.27 cm</p> <p>Formatted: Indent: Left: 0.01 cm, Hanging: 0.42 cm, Bulleted + Level: 1 + Aligned at: 0.63 cm + Indent at: 1.27 cm</p> <p>Formatted: Indent: Left: 0.01 cm, Hanging: 0.42 cm, Bulleted + Level: 1 + Aligned at: 0.63 cm + Indent at: 1.27 cm</p>
Generation of Solid Waste	<ul style="list-style-type: none"> • Provide solid waste collection facility for the temporary storage of waste prior to disposal at an appropriate and designated location. • Train project staff on procedures of appropriate solid waste disposal so that no domestic waste is disposed of at the project area. • The storage yards should be provided with solid waste disposal facilities such as waste bins/chutes. • Liaise with the local authorities on suitable dumping sites • Preferably excavate during the dry season to avoid soil erosion and siltation of river/streams. • Use of the soil to backfill. <p>Risk of fire</p> <ul style="list-style-type: none"> • Monitor the ROW vegetation that is more susceptible to fire. • No burning of any materials wherever should be permitted at the site. 	<p>Formatted: Indent: Left: 0.01 cm, Hanging: 0.42 cm, Bulleted + Level: 1 + Aligned at: 0.63 cm + Indent at: 1.27 cm</p> <p>Formatted: Indent: Left: 0.01 cm, Hanging: 0.42 cm, Bulleted + Level: 1 + Aligned at: 0.63 cm + Indent at: 1.27 cm</p> <p>Formatted: Indent: Left: 0.01 cm, Hanging: 0.42 cm, Bulleted + Level: 1 + Aligned at: 0.63 cm + Indent at: 1.27 cm</p>
Physical Body Hazards	<p>Community misconceptions</p> <ul style="list-style-type: none"> • Awareness creation amongst the community on the project facts. • Community issues responded to. • Project progress reports and monitoring reports to be prepared and recommendations implemented. • Hold a minimum of two meetings per division. <p>Increase in social vices</p> <ul style="list-style-type: none"> • Conduct Information Education and Communication (IEC) amongst the community and the project staff. • Provide condoms at village and project level. 	<p>Formatted: Indent: Left: 0.01 cm, Hanging: 0.42 cm, Bulleted + Level: 1 + Aligned at: 0.63 cm + Indent at: 1.27 cm</p> <p>Formatted: Indent: Left: 0.01 cm, Hanging: 0.42 cm, Bulleted + Level: 1 + Aligned at: 0.63 cm + Indent at: 1.27 cm</p>
Loss of land use, population relocation, Land acquisition and Resettlement	<p>Habitat loss and invasion by exotic species along the ROW and access Roads</p> <ul style="list-style-type: none"> • Utilize appropriate clearing techniques (e.g Hand clearing as opposed to mechanized clearing) by using human labour as opposed to heavy machinery. • Ground vegetation, such as grass, should be spared in order to prevent soil erosion. • Trees and shrubs shorter than 4 m should be permitted unless they are hindering maintenance activities. • Minimizing clearing and disruption to riparian vegetation. • Replant disturbed sites with native plant species. • Manage ROW to Maximize wildlife 	<p>Formatted: Indent: Left: 0.01 cm, Hanging: 0.42 cm, Bulleted + Level: 1 + Aligned at: 0.63 cm + Indent at: 1.27 cm</p> <p>Formatted: Indent: Left: 0.01 cm, Hanging: 0.42 cm, Bulleted + Level: 1 + Aligned at: 0.63 cm + Indent at: 1.27 cm</p> <p>Formatted: Indent: Left: 0.01 cm, Hanging: 0.42 cm, Bulleted + Level: 1 + Aligned at: 0.63 cm + Indent at: 1.27 cm</p>

benefits.

- Do not burn cleared vegetation in the area to avoid starting a fire in the savannah landscape.
- Ensure physical integrity of structures is maintained.
- Deactivate and ground live power distribution lines before.
- work is performed on, or in close proximity, to the lines.
- Ensuring live-wire work is done by trained worker only.
- Ensure the workers are properly isolated and insulated from any conductive object (live-line work).

Electrocution from Live Power Lines

- The transmission line route selected shall be located at a safe and acceptable distance from any airstrip or aircraft flight path.
- Conductors fitted with brightly coloured 'aviation' balls, luminescent and shiny devices in the section near the airstrip.
- Obtain KCAA approval for tower heights.

Aircraft navigation safety

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.

(c) County Director of Environment, Kajiado County.

(d) County Director of Environment, Machakos County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

Z. O. OUMA,
for Director-General,
National Environment Management Authority.

MR/6742401

GAZETTE NOTICE NO. 983

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY
ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED ESTABLISHMENT OF A 2.5 MW BIOMASS
POWER PLANT USING PROSOPIS JULIFLORA AS FEEDSTOCK
ABOUT 1 KM FROM GARISSA TOWN TOWARDS RIVER
TANAIN GARISSA COUNTY

INVITATION OF PUBLIC COMMENTS

Pursuant to Regulation 21 of the Environmental Management and Coordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Northern Energy Limited) is proposing to establish a biomass power plant to produce 2.5MW of electricity using *Prosopis juliflora* (SW) DC as a feedstock about 1 Km from Garissa Town towards River Tana in Garissa County.

The following are the anticipated impacts and proposed mitigation measures:

Impacts *Mitigation measures*

Vegetation loss and Soil • The developer will undertake grass and

erosion

flower planting to avoid the soils being washed or carried by wind. Places of least vegetation cover will be identified and only construction points will be completely cleared to ensure minimum vegetative disturbance.

- Wherever possible vegetation within the biomass plant site should be preserved and where plants must be uprooted they should be recycled into use as construction materials, firewood or converted into soil manure.
- Plant and maintain flowers and ornamental trees along the paths and around the buildings.

Soil disturbance by
vehicle movements,
digging of pits and
scooping of
Surface soil

- Movement of vehicles outside the designated areas to be minimized as much as possible.
- Alterations of soil surface should be avoided as much as possible.

Air pollution from
moving vehicles

- Spray water on paths used by vehicle to reduce dust.
- When possible vehicles should be used off the peak hours of people and livestock movement.

Noise from machineries
and movement of
Vehicles

- Use vehicle and machineries and equipment that are of good mechanical condition.
- Ensure the machines used are adequately serviced.
- Noise level should be kept within acceptable limits as stipulated in EMCA (Noise and excessive vibrations pollution)
- Workers exposed to high noise should wear PPE e.g., ear plugs.

Vibrations on the ground

- Avoid using heavy equipment that causes vibrations on the ground.
- Use mechanisms (where applicable) to reduce transmission of vibrations to the ground.
- There should be no vibrations at night when people and most of animals are asleep.

Dust

- Trucks to avoid driving off road and to spray water on the road during dry seasons to reduce dust.

Flooding

- Drainage of surface water must be done to avoid water collecting on the surface.
- Drainage channels should lead the water to River Tana.

Contamination of water
resources

- Water collected from roof catchments and gutters will be treated control growth contaminant organisms.
- Storage tanks will be supplied to trap water and use it for irrigating planted vegetation.

Solid wastes during
construction

- All solid waste must be collected into waste bins and sorted out before taken to landfills.
- Wastes should be sorted, re used, and recycled as much as possible.
- All wastes to be handled by qualified water handlers and be disposed in official designated areas.

Liquid wastes during

- All liquid waste must be disposed to pits

construction	for evaporation.
	<ul style="list-style-type: none"> All wastes to be handled by qualified waster handlers and be disposed in official designated areas.
Sanitation	<ul style="list-style-type: none"> All workers must have access to toilets, hand washing stations at all times Mobile toilets if provided should serviced accordingly.
Cultural conflicts between locals and the incoming workers	<ul style="list-style-type: none"> The incoming workers of different cultural backgrounds should not interfere with the local cultures. Incoming workers should be instructed to respect the local cultural values.
Soil disturbance Interference with visual aesthetics	<ul style="list-style-type: none"> The stripped top soils from the site leveling and clearing will be used to build and strengthen the perimeter wall if needed. Care will be taken not to interfere with the course of the seasonal streams, by leaving clearance of at least 30m from the operations points. This is in keeping with the Legal Notice 120 – Water Quality Regulations 2006.
Emission of hazardous materials	<ul style="list-style-type: none"> All hazardous materials generated and emitted from the plant must be handled by a competent and licensed handler. Emissions to be monitored on the types and amounts of gases being emitted to make sure they are within acceptable limits as per regulations.
Loss of plant life and associated bio-communities	<ul style="list-style-type: none"> Although plant diversity is low at the proposed site, the proponent will incorporate greater species diversity in their rehabilitation and landscaping programmes. Services of knowledgeable curator/botanist will be employed to implement this feature. Close collaboration and assistance will be sought and built with the Kenya Forest Service and for supply of appropriate forbs seeds and establishing tree nurseries in the rehabilitation programme.
Increased surface runoff and soil erosion	<ul style="list-style-type: none"> Will construct surface rainwater trap pits and cut-off drains to check occasional runoff. Roof catchment gutters connected to tanks will harvest excess rainwater in the site. The water would also be used for irrigating planted vegetation, outdoor cleaning such as of vehicles and toilet cleaning, thereby reducing demand on water supply.
Air pollution from dust and engine exhaust gases	<ul style="list-style-type: none"> Prompt compaction of loose soils and aggressive grass replanting will be implemented. Water will be sprinkled onto the disturbed soil to reduce flying dust. Employees/ workers will be provided with personal protective equipment (PPE), to reduce possible dust and noxious gas inhalation.
Disposal of Waste into the Environment including solid wastes	<ul style="list-style-type: none"> The construction site will be equipped with toilet and washing facilities fully connected to septic tanks. Enlisting of a licensed private company

	specialized in handling oils and solid wastes.
	<ul style="list-style-type: none"> Biodegradable organic wastes will be composted on site for tree planting manure. A Good housekeeping as part of the company policy will be implemented at the facility.
Fire hazards in the power plant	<ul style="list-style-type: none"> Fire fighting equipments must be installed in all buildings and placed at strategic places within the power plant site. First aid kits installed should have first aid medicines to treat burns.
Dangers of exposed live electricity wires	<ul style="list-style-type: none"> The site engineer should make sure there are no un insulated live electricity wires that may affect people, livestock and wildlife. Proper signage to warn public on dangerous areas within the plant.
Health deterioration of facility workers	<ul style="list-style-type: none"> Dust containment and suction systems will be installed on the plant site. Use of PPEs will be strictly enforced. Welders will be provided with respirators, eye protection equipment and dustcoats to minimize inhalations. Regular medical checks will be done and records maintained of the employees. Staff working at the plant will have medical cover. Sanitation related education and practice would form part of the facility's regular routine, to avoid incidences of infections such as cholera, bilharzias and malaria. Swapping of work stations for staff will reduce levels of exposure.
Bodily injuries and accidents	<ul style="list-style-type: none"> The contractor will ensure supervision of work and handling of equipment is restricted to only skilled and experience personnel to prevent accidents. Debriefing on safety procedure for site workers will precede any such works. Both the contractor and proponent will observe work ethics and worker's compensation in case of injury or loss. PPE like helmets, overalls, nose and eyes protection hand gloves and boots, all of suitable quality will be used. Use of PPE like earmuffs will be enforced.

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.

(c) County Director of Environment, Garissa County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED HOUSING SCHEME ON L.R. NO. 209/19715
AT IMARA DAIMA IN NAIROBI COUNTY.

INVITATION OF PUBLIC COMMENTS

Pursuant to Regulation 21 of the Environmental Management and Coordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Bangal Trading Company Limited) is proposing to construct a Housing Scheme located off Tegla Lorupe road on L.R. No. 209/19715 at Imara Daima in Nairobi County. The proposed project will entail the construction in phases of 4 blocks containing 167 one Bedroom units, 6 Blocks containing 160 Two Bedroom units, Kindergarten and Commercial Centre with shops, and a restaurant with parking spaces for residents and visitors on the ground floors.

The following are the anticipated impacts and proposed mitigation measures:

Impact	Proposed Mitigation Measures
Vegetation Clearing	<ul style="list-style-type: none"> Minimal clearing of vegetation. Removal of vegetation to take place only within demarcated construction site. Non-essential removal of vegetation to be avoided. No development on slopes with a gradient > 16%. Re-vegetation should incorporate natural vegetation.
Solid wastes	<ul style="list-style-type: none"> Efficient use of materials to minimise on solid waste. Housekeeping to ensure no littering from packaging materials. Separation of plastic and paper waste before appropriate disposal. Paper and glass to be sent for reuse/ recycling. Disposal of solid waste in accordance with NEMA solid waste disposal regulations.
Liquid Wastes	<ul style="list-style-type: none"> Concrete batching and mixing should occur at one particular point and the site should be paved and drains provided to ensure polluted water is drained at a particular point. Prudent use of water to reduce liquid waste volumes.
Noise pollution and visual intrusion	<ul style="list-style-type: none"> Schedule noisy activities during the normal working hours of between 8am to 5pm. No work should be undertaken at night or very early in the morning. Put off machines and equipments when not in use. Ensure machinery is well maintained to reduce noise emitted. The contractor should adhere to the provision in the Environmental Management and Coordination (Noise and Excessive Vibration pollution) (control) regulations, 2009. Provide worker with appropriate PPEs when working under noisy environment e.g ear plugs. Ensure site is maintained in a cleanly fashion. Construction completed on time.

Air/Dust Pollution

- Site vegetation correctly according to rehabilitation guidelines stated in the EMP; and
- Construction waste is not to enter the biophysical or socio-economic environment. Contractors to produce waste management plans to mitigate potential impacts.
- Practice dust management techniques, including watering spraying to suppress dust;
- Move earth and sand in covered vehicles/ transport to avoid it being blown by wind increasing suspended particulate in the atmosphere;
- All plant to be of good condition with acceptable smoke emissions;
- Practice selective clearing of vegetation;
- Set up dust barriers/ screens at strategic locations;
- Provide and enforce the appropriate use of Personal Protective Equipment (PPE) against dust such as dust masks.

Soil Erosion and Sedimentation

- Practice selective vegetation clearing where necessary;
- Install adequate storm water management measures;
- Replant cleared vegetation as soon as possible;
- Avoid vegetation clearing during the rainy season;
- Schedule earth moving activities during the dry season.

Increased water demand due to construction works

- The contractor should sensitize construction workers on the importance of proper water management through clerks of works by having talks with them when doing their rounds around the site;
- Replace or repair leaking pipes supplying water to the construction sites to minimized wastage;
- The Contractor should ensure provision of adequate water storage facilities on the construction site to meet project needs during periods of high demand externally and refill of storage tanks during periods of low demand.

Occupational Health & Safety

- Contractor should ensure registration of all construction works by the Director, Directorate of Occupational Health and Safety Services (DOHSS) in compliance with the Buildings and Works of Construction Engineering Rules, 1984;
- Contractor should contract a qualified Health and Safety advisor to conduct training and monitoring of construction works;
- The contractor should construct a temporary clinic on site to be run by a qualified nurse who will treat opportunistic ailments and injuries such as cold, malaria etc
- Contractor should provide a standard First Aid Kit on site;
- The Contractor should train several workers in First Aid depending on the number of workers on site as stipulated

in the First Aid Rules 1977 through DOSHS certified First Training institution e.g. Red Cross, St. John Ambulance

- Dangerous works should be protected, fenced, demarcated or cordoned off;
- Workers should be inducted with training on health and safety by DOSHS certified health and safety advisor so as to enable ensure machinery safety, construction safety, fire safety and electrical safety as well as workplace inspection technique;
- Provide and enforce the use of Personal Protective Equipment (PPE) to workers as appropriate such as overalls, safety boots, hand gloves;
- The contractor should provide and install firefighting equipment such as fire extinguishers to fight different classes of fire (Class A, B, and C, D).
- The Contractor should erect safety and informative signage for hazardous is taking place such deep excavations, electrical hazard, signage for personal protective equipment such as helmets, hand gloves and boots and prohibited activities such as smoking;
- The contractor should ensure that all plants to be used during construction such as pressure vessels, lifting machines and cylinders for compressed gas to be examined and inspected by an approved inspector before starting using them to ensure safe usage;
- The contractor should develop site Health and Safety guidelines which are to be adhered to by construction workers and visitors to the construction site;
- Only allow trained and certified workers to handle delicate equipment;
- Maintain an incident/ accident register, in accordance with the Occupational Safety and Health Act, 2007, and report incidences to DOHSS

Fire Risks/ Management

- Place portable fire extinguishers at suitable locations;
- Train and induct workers on the use of fire extinguishers and other fire fighting equipments;
- Train all staff on fire safety and procedures;
- Allocate a fire assembly point;
- Ensure safety warnings are prominently displayed at appropriate locations where fires are likely to occur;
- Provide and enforce the use of Personal Protective Equipment (PPE);
- Develop a Fire Safety Plan through a qualified specialist and implement the provision of the plan at the workplace.

Ground and surface water quality

- No water abstraction for construction from streams or river;
- No mixing of concrete to occur on bare ground. Concrete mixing should be done bunded surface to avoid soil pollution and contaminating the ground and surface water;

- Appropriate containment structures to be provided to store contaminated water from the construction site. The contractor should ensure these waters are properly disposed and not allowed to be drained on site;
- No construction activities to occur in any wetlands;
- No concrete batching to occur directly on the ground. Concrete batching area should be bunded to prevent contamination of soils and surface water features;
- All fuel storage to be appropriately bunded and provided with a canopy ;
- Plant to have drip trays to contain any potential leakages of fuels and oils; and
- Ablutions for construction workers to enable proper disposal of fecal matter and avoid contamination of surface water features which could be a cause of waterborne diseases.

Loss of Biodiversity

- vegetation within the drainage lines is not to be cleared;
- modifications to the design of the development to ensure spaces are left to allow for regeneration of loss biodiversity;
- Post project restoration of loss habitat through vegetation of affected areas
- Compensation by the relocation of important grassland habitats from the development site to another area identified as suitable (using techniques such as soil or turf transfer), or the creation of new habitats.

Material management

- To minimize impact of material and waste disposal during the delivery on site the following mitigation measure has been proposed;
- Avoid overloading trucks and cover trucks to minimize dust and loss of load from trucks during transportation;
- For aggregate and sand, use water sprays or covered chutes to reduce dust emission during loading and unloading of materials from barges;
- Maintain mixing plants in good working condition so as to reduce emission from the plant;
- As far as possible, plan truck trips to material source and to the sites during low traffic hours; and
- Implement safety procedures to reduce the potential for road accidents in village or urban areas.

Solid Wastes Management

- Prudent use of materials to reduce solid waste volumes;
- Waste separation to encourage reuse and recycling e.g. plastic and glass bottle;
- Sewage from the different houses on site could provide substrate for biogas production which can be utilised by the dwellers for cooking therefore reducing the cost of energy, quantity of waste to be disposed and methane which as a green house gas;
- Provision of waste collecting bins to households which will then be collected for proper disposal by a

- NEMA licensed waste handler.
- Fire Risk/Management
- Place portable fire extinguishers at suitable locations;
 - Induct all the occupants on the fire safety procedures and the use of fire fighting equipments such as fire extinguishers;
 - Allocate a fire assembly point;
 - Ensure safety warnings are prominently displayed at appropriate locations;
- Increased pressure on existing utilities
- Recycling of waste water from the different houses and the recycled water used for irrigation of lawn and flushing of toilets;
 - Installation of solar panels on each structure to provide alternative source of power for household use;
- Noise and vibration
- Scheduling all the decommissioning works within the normal working hours of between 8am and 5pm;
 - Adherence to the Environmental Management and Coordination (Noise and Excessive Vibration Pollution) (Control) Regulations, 2009.
- Air pollution
- Water spraying to suppress dust especially where dust activities are taking place;
 - Cordoning the site using meshed cloth to capture particulates during demolition of the structures;
 - Providing workers involved with appropriate protective personal equipments such as dust masks or respirators;

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.

(c) County Director of Environment, Nairobi County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

Z. O. OUMA,

IMPORTANT NOTICE

PRINTED AND PUBLISHED BY THE GOVERNMENT PRINTER, NAIROBI

THE KENYA GAZETTE

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement, etc.*:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.

- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the *Gazette*.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
