1. IT IS notified for general information that pursuant to sections 9 (1) (a), (g) and 18 (1) (a) of the Competition Act, 2010, the Competition Authority of Kenya intends to undertake an inquiry to determine compliance levels with sections 21 and 22 of the Act by trade associations in the financial sector, notably insurance, commercial banks, micro-finance, forex exchange/bureau and capital markets. The inquiry will be referred to as a special compliance process ("the Process").

The process is motivated by the realization that notwithstanding the coming into force of the Competition Act, trade associations continue to have rules, practices and procedures which are likely to contravene the Act. The process is aimed at addressing possible contraventions with the core objective being compliance with the provisions of the Competition Act.

2. The Process shall be guided by the following principles—

- (a) It shall address arrangements between actual or potential competitors, being parties in a horizontal relationship and who are members of a Trade Association, where such arrangements relate to the rules, practices and procedures of the Trade Association and are likely to contravene the Act;

 - (ii) conduct by Members of a Trade Association which is not carried out under auspices of the Trade Association;
- (c) Trade Associations shall be required to fully disclose any past conduct, rules, practices, procedures including the exchange of competitively sensitive information and show evidence of how the Trade Association has rectified the same.
- (d) Where a Trade Association provides submissions in full disclosure of the possible contraventions of the Act and provides evidence of how the contraventions have been remedied to ensure compliance in future, the Authority, pursuant to the provisions of section 31 of the Act, undertakes that no investigations shall be pursued or initiated based on the information submitted.
- (e) The Authority however reserves the right to initiate an investigation on any Trade Association which fails to disclose or remedy any past or subsequent contraventions, and such an investigation can carry a risk of penalties and possible prosecution, pursuant to the provisions of section 21(9) and 22(6) of the Act.

3. Trade Associations are notified that the principles of the Process set out herein shall only apply to Trade Associations which make full disclosure to the Authority by the 30th September 2015.

4. The process seeks to remedy the following types of anti-competitive conduct, among others—

- (a) entering into agreements or any arrangements with fellow members on restrictive trade practices, including, but not limited to, agreements on minimum prices, pricing formulae and components thereof, margins, discount structures, rebates, terms of sale, transport and delivery costs, sales and production volumes;

- (c) members collusively tendering or bidding for projects, agreeing or discussing company pricing policies or any other strategic policies;
- (d) exchanging competitively sensitive information, in particular, individual member information on recent, past and future pricing, sales volumes, pricing formulae, production capacity, costs, etc.;
- (e) engaging in communications at association meetings or social events or private meetings between competitors about competitively sensitive information;
- (f) the use of unreasonable disciplinary measures to coerce members to provide information or data;
- (g) establishing arbitrary criteria for membership so as to exclude a competitor or category of competitors from membership in the association;
- (h) imposing discriminatory sanctions which do not adhere to rules with respect to competitively important considerations;
- (i) the use of rules agreed upon by members to establish prices, mandate levels or types of services, restrict advertising, or exclude viable competitors from the market; and

- (j) the use of standard-setting to artificially provide members with a competitive advantage over others, including firms with the potential to enter the market.

5. A standard template form is available on the Authority's website (www.cak.go.ke) and may also be collected at the Authority's offices. Trade Associations and their members shall in addition be required to submit the information and documents which may include but not be limited to—

- (g) the association's directive to the members on pricing of product and services or any other terms of sale;

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

NOTICE TO THE PUBLIC TO SUBMIT COMMENTS ON AN ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED OUTSOURCING OF BIOMASS FUEL SUPPLY FOR SALT REFINING PLANT AT GONGONI, MAGARINI SUB-COUNTY KILIFI COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Krystalline Salt Limited) is proposing to outsource Biomass for fuel supply to be used at Krystalline Salt Limited, at Gongoni, Magarini Sub-County Kilifi County.

The proposed project is designed to engage the local community farmers within Magarini Sub-County to plant *Casuarina equisetifolia*, *Azadirachta indica* and *cacia siamea* in their farms that they will later sell exclusively to Krystalline Salt Limited Gongoni as wood biomass under agreed terms between the farmers and Krystalline Salt Limited. The project also involves Krystalline Salt Limited supporting local community members who will be involved in the project to boost fruit trees within their farms by planting *Mangifera indica* (Mango fruit tree), *Cocos nucifera* (Coconut tree) and *Anacardium occidentale* (cashewnut) as an incentives.

The following are the anticipated impacts and their proposed mitigation measures

Environmental and Social impacts	Mitigation measure
-------------------------------------	--------------------

Food insecurity

- Ensure that any land owned by the participating farmers in the out grower program that is used for food crop farming as at the time of commencement of the proposed project should remain under food production.
- Participating farmers should maximize on the available opportunities within the out grower programme of boosting fruit trees crops by planting as many fruit trees seedling as possible as will be provided by the programme.
- There should be no felling and or replacement of any fruit trees for biomass trees at all.

Reduced community livelihoods

- Participating farmers should be advised to ensure that they continually improve on the acreage of land for crop production.
- Part of the proceeds (money) that will be received from the project (once the biomass is harvested) should be ploughed back into crop production including buying food stuffs.
- Phased payments (before harvest of the trees is done) to the participating farmers should be done to ensure that the farmers are able to meet their financial obligation while they await tree crop to mature.
- Participating farmers in the out grower programme to be encouraged to form a cooperative through which they can safe part of their earnings to increase their ability to borrow more and invest in other areas to improve their livelihoods.
- Krystalline salt limited to explore possibility of organising avoidable financings for participating farmers for them to meet their financial obligations.

Depletion of soil nutrients

- Ensure species of trees to be grown are capable of fixing atmospheric nitrogen back into the soil, this will contribute in improve local soil fertility.
- Application of appropriate fertilizers and mulching to be undertaken under the direction and advice of a qualified Forest Extension Officer.
- Krystalline salt limited to organise for appropriate extension services from qualified Foresters to the participating farmers through which they can learn on how to maintain soil fertility as they plant the trees.

Pets and diseases

- Application of appropriate pesticides and fungicides to be done under the direction and guidance of a Forest Entomologist and pathologist Officer.
- Appropriate tree silvicultural practices to be undertaken to deal with infected parts of trees.

Negation of carbon sequestration

- Practice rotational harvesting of mature stand of trees in an area to minimise clear felling that will drastically reduce local carbon sink.
- Juvenile trees in a stand due for harvest can be left to mature as mature trees are harvested.
- Ensure that replanting of harvested areas is carried out within a short duration.

Habitat loss

- Practice rotational harvesting of mature stand of trees in an area to minimise clear felling to retain sections of habitats within the planted area at any one given time.
- Avoid uprooting of stems of trees instead encourage coppicing for quick regeneration of new stands.
- Avoid clearing and removal of undergrowth including grasses, forbs and shrubs during harvesting of the trees.

Loss of biodiversity
