- (2) A State officer shall not participate in a public collection of funds in a way that reflects adversely on that State officer's integrity, impartiality or interferes with the performance of the official duties.
- 19. (1) Subject to Article 76(2) of the Constitution or any other written law, a State officer shall not open or continue to operate a bank account outside Kenya without the approval of the Commission.
- (2) A State officer who has reasonable grounds for opening or operating a bank account outside Kenya shall apply to the Commission for approval to open or operate a bank account.
- (3) A State officer who operates or controls the operation of a bank account outside Kenya shall submit statements of the account annually to the Commission and authorize the Commission to verify the statements and any other relevant information from the foreign financial institution in which the account is held.
- (4) Subject to subparagraphs (1) and (2), a person who is appointed as a State officer in the Ministry and has a bank account outside Kenya shall, upon such appointment, close the bank account within six (6) months.
- (5) Subject to subparagraph (4), a State officer may open or continue to operate a bank account outside Kenya as may be authorized by the Commission, in writing.
- 20. (1) A State officer shall not be an agent of, or further the interests of a foreign government, organization or individual in a manner that may be detrimental to the security interests of Kenya, except when acting in the course of official duty.
 - (2) For the purposes of this paragraph-
 - (a) an individual is a foreigner if the individual is not a citizen of Kenya; and
 - (b) an organization is foreign if it is established outside Kenya or

- is owned or controlled by a foreign government, organization or individual.
- 21. (1) A State officer shall take all reasonable steps to ensure that public property in the officer's custody, possession or control is taken care of and is in good repair and condition.
- (2) A State officer shall not use public property, funds or services that are acquired in the course of or as a result of the official duties, for activities that are not related to the official work of the State officer
- (3) A State officer shall return to the Ministry all the public property in his or her custody, possession or control at the end of the appointment term.
- (4) A State officer who contravenes subparagraphs (2) or (3) shall, in addition to any other penalties provided for under the Constitution, the Act or any other law, be personally liable for any loss or damage to the public property.
- 22. (1) A State officer shall not directly or indirectly use or allow any person under the officer's authority to use any information obtained through or in connection with the office, which is not available in the public domain, for the furthering of any private interest, whether financial or otherwise.
- (2) A State officer shall not be deemed to have violated the requirements of subparagraph (1), if the information is to be used for the purposes of—
 - (a) furthering the interests of the Act;
 - (b) educational, research, literary, scientific or other purposes not prohibited by law.
- 23. A State officer, other than a Cabinet Secretary, shall not, in the performance of his or her duties -
 - (a) act as an agent for, or further the interests of a political party or candidate in an election; or
 - (b) manifest support for or opposition to any political party or candidate in an election.
- 24. A State officer shall, at all times, carry out the duties of the office with impartiality and objectivity in accordance with principles and values set out in Articles 10, 27, 73(2)(b) and 232 of the Constitution and shall not practice favouritism, nepotism, tribalism, cronyism, religious bias or engage in corrupt or unethical practices.
- 25. A State officer who has a duty to give advice shall give honest, accurate and impartial advice without fear or favour.
- 26. (1) Subject to subparagraph (2), a full time State officer shall not participate in any other gainful employment.
- (2) For the purposes of subparagraph (1), "gainful employment" means work that a person can pursue and perform for money or other form of compensation or remuneration which is inherently incompatible with the responsibilities of the State office or which results in the impairment of the judgement of the State officer in the execution of the functions of the State office or results in a conflict of interest.
- 27. (1) A State officer shall not allow himself or herself to be influenced in the performance of his or her duties by plans or expectations for or offers of future employment or benefits.
- (2) A State officer shall disclose, in writing, to the Ministry and Commission, all offers of future employment or benefits that could place the State officer in a situation of conflict of interest.
- 28. A former State officer shall not be engaged by the Ministry in a matter in which the State officer was originally engaged in as a State officer, for at least two years after leaving the Ministry.
- A State officer shall not knowingly give false or misleading information to any person.
- 30. A State officer shall not falsify any records or misrepresent information to the public.
- 31. A State officer shall conduct their private affairs in a manner that maintains public confidence in the integrity of the office.
- 32. (1) A State officer shall not bully another State officer, a member of statf or any other person.
- (2) For purposes of subparagraph (1), "bullying" includes repeated offensive behavior which is vindictive, cruel, malicious or humiliating whether or not is intended to undermine a person.

- 33. (1) A State officer shall not -
- (a) cause anything to be done through another person that would constitute a contravention of this Code, the Constitution or any other law if done by the State officer; or
- (b) allow or direct a person under their supervision or control to do anything that is in contravention of this Code, the Constitution or any other law.
- (2) Subparagraph (1)(b) shall not apply where anything is done without the State officer's knowledge or consent or if the State officer has taken reasonable steps to prevent it.
- (3) A State officer who acts under an unlawful direction shall be responsible for his or her actions.
- 34. (1) If a State officer considers that anything required of him or her is in contravention of the Code or is otherwise improper or unethical, the State officer shall report the matter to the Commission.
- (2) The Commission shall investigate the report and take appropriate action within ninety (90) days of receiving the report.
- 35. Subject to Article 35 of the Constitution and any other relevant law, a State Officer shall not disclose or cause to be disclosed any information in his or her custody to any unauthorized person.
- 36. A State officer who believes or has reason to believe that a corrupt act or unethical malpractice has occurred or is about to occur in the Ministry shall take all necessary measures to prevent it from continuing or materializing in addition to any other appropriate action.
- 37. State officers in the Ministry shall collectively and individually take measures to ensure that staff of the Office uphold and practice the highest attainable degree of integrity in the performance of their duties.
- 38. A State officer shall maintain appropriate standard of dress and personal hygiene at all times.

PART III-ENFORCEMENT OF THE CODE

- 39. The Cabinet Secretary shall be responsible for ensuring full implementation of this Code.
- 40. (1) Breach of this Code amounts to misconduct for which the State officer may be subjected to disciplinary proceedings including removal from office.
- (2) Where a breach of this Code amounts to a violation of the Constitution, the State Officer may be removed from office in accordance with Articles 132(2) (a) or 132(2)(d) of the Constitution.
- (4) A person alleging a breach of this Code may submit a petition setting out the grounds and facts of the alleged violation, to the Commission, in case the allegation is against the Cabinet Secretary, and to the Cabinet Secretary, in case the allegation is made against any other State officer in the Ministry, in respect of whom this Code applies.
- (5) Upon receipt of the complaint, the Commission or the Cabinet Secretary, shall register and carry out investigations into the complaint, in accordance with the provisions of section 42 of the Act.
- (6) Subject to the constitutional, the Act or any other written law, a State Officer who is under investigations for the breach of the Code shall be suspended from office until such investigations are completed.
- (7) If upon investigation into the alleged breach of the Code, the Commission or the Cabinet Secretary is of the opinion that civil or criminal proceedings ought to be preferred against the respective State officer, it shall refer the matter to—
 - (a) the Commission, in case of the Cabinet Secretary with respect to civil matters,
 - (b) the Director of Public Prosecutions, with respect to criminal matters; or
 - (c) any other appropriate authority.
- (8) Once a reference has been made in accordance with paragraph (7) of this Code, the entity to whom the matter is referred shall dispose of the same in accordance with the relevant provisions of the Act.
- 41. This Code may be reviewed at such intervals as the Ministry may determine or as may be advised by the commission from time to time.

THE COUNTY GOVERNMENT OF BUSIA COUNTY PUBLIC SERVICE BOARD

PERFORMANCE PROGRESS REPORT 2015

Executive Summary

This report is made pursuant to and in accordance with the provisions of section 59 (5) of the County Governments Act, 2012. It gives an account of the performance of the Busia County Public Service Board during the year 2015. The Report is structured into ten (10) sections. Section one (1) introduces the constitutional basis and functions of County Public Service Boards. Sections 2, 3 and 4 provides account of the decisions made by the Board with regard to appointments made in various departments, deployment of defunct Local Authority staff and promotions of officers in the Department of Health and Sanitation. Section five (5) covers training and capacity building for staff in Busia County public service, while in Section six (6) we list documents developed/ being developed during this reporting period. Section seven (7) is the advice given to the County Government on Pension / Gratuity for its employees, while Section eight (8) reports on the initiatives the Board has made to promote national values and principles of public service in the county. Lastly, section ten (10) covers challenges encountered, and the way forward into the year 2016.

During the current reporting period, the Board made several milestones towards the execution of its mandate that was accomplished through exemplary team work, foresight and commitment by the Board Members

1.0 Introduction

Article 1 of the Constitution of Kenya, 2010, provides that all sovereign power in Kenya belongs to the people of Kenya and is exercised at two levels, the national and county levels of government. Further, Article 6 (1) divides the territory of Kenya into forty-seven counties at which the sovereign power is exercised at the county level. Pursuant to and in accordance with Article 176, each county shall have a county government consisting of a county executive and a County Assembly. The functions of the two levels of government are specified and spelt out under Articles 186 and 187 as read together with the Fourth Schedule of the Constitution.

In order that a county government is able to carry out its functions and perform its responsibilities, Article 235 (1) of the Constitution

empowers and confers on County governments responsibility, within a framework of uniform norms and standards prescribed by an Act of Parliament, for establishing and abolishing offices in its public service, appointing persons to hold or act in those offices, confirming appointments and excising disciplinary control over such persons. This framework is contained in the County Governments Act, 2012, which, under section 57, establishes a County Public Service Board for each county.

Busia County Public Service Board

Busia County Public Service Board (CPSB) is constituted in accordance with section 57 of the County Governments Act, 2012. In accordance with that section, BCPSB is a body corporate with perpetual succession and seal and is capable of suing and being sued in its corporate name.

1.11 Composition of Busia County Public Service Board

The members of the Board were nominated and, with the approval of the County Assembly, appointed by the Governor in accordance with Section 58 of the County Governments Act. The members are:

Mrs. Agneta S. B. Akhaabi, HSC	Chairperson;
Mr. Lawrence Emong'ole Akijakin	Vice-Chairperson
Ms. Susan Masake Kapule	Member
Ms. Praxedes Otieno	Member
Mr. Josiah Wanyama	Member
Mr. Patrick Afwande	Member
Rev. Charles Victor Orodi	Secretary/CEO

Mr. Lawrence Emong'ole Akijakin and Mr. Patrick Afwande assumed office in June 2015 following the passing on of Hon Pacreas Otwani and resignation of Dr. Francis Nang'ayo in December 2014 and January, 2015, respectively. In the interim period before the appointment of the two (2) Board members, the normal operations of the Board had been greatly hampered leading to a backlog that the Board has had to address to date.

1.2 Functions of County Public Service Board

Broadly, a County Public Service Board is, responsible for-

- (a) establishing and abolishing offices in the county public service;
- (b) appointing persons to hold or act in those offices, and confirming appointments;
- (c) providing for the organization, staffing and functioning of the county public service in ways that ensure efficient, quality and productive services for the people of the county;
- (d) advising the county government on human resource development and management and utilization that best enhances service delivery by county public service institutions:
- (e) providing for human resource management and career development practices to address staff shortages and barriers to staff mobility;
- facilitating the development of coherent, integrated human resource planning and budgeting for personnel emoluments in counties;
- (g) making recommendations to the Salaries and Remuneration Commission, on behalf of the county governments, on the remuneration, pensions and gratuities for county public service employees; and
- (h) exercising disciplinary control over and removing persons holding or acting in those offices;

In addition, under section 59 (1) (e) of the County Governments Act, it is the responsibility of the CPSBs to promote, in the county public service, the values and principles set out in Articles 10 and 232 of the Constitution. In accordance with section 59 (1) (f) of the County Government Act, the CPSB is required to evaluate and report to the County Assembly the extent to which the values and principles are complied with by the county public service.

The CPSB is required to provide standards to promote ethical conduct and professionalism in county public service and advise the County Government on implementation and monitoring of the county performance management systems. The CPSB is further required, to

prepare regular reports for submission to the county Assembly on the execution of its functions.

Under section 59 (5) (1) of the County Government Act, CPSB reports shall—

- (a) be delivered each December to the County Assembly;
- (b) include all the steps taken and decision made by the board
- (c) include specific recommendations that require to be implemented in the promotion and protection of values and principles;
- (d) Include specific decisions on particular persons or public body who have violated the values and principles, including action taken or recommended against them
- (e) Include any impediments in the promotion of the values and principles; and
- (f) include the programmes the board is undertaking or planned to undertake in the medium term towards the promotion of the values and principles

1.3 Board Committees

- · Compliance and Audit.
- · Recruitment and Discipline.
- Human Resource Planning, training and Capacity Development.
- · Administration and Finance Management.

2.0. Decisions Taken By The Board

2.1 Advertisements of Positions in Various Departments

Responding to the staffing needs and requests by various departments, the Board in the period under review advertised and recruited as per the laid down regulations. Pursuant to this, the Board advertised in the widely read daily papers, on the County Government website and copies of advertisements made and circulated to Sub-County offices. These measures were aimed at according equal opportunity for people to apply.

2.2 Recruitment and Appointment

The Board presided over competitive recruitment and eventual appointment of various cadres of staff in the county public service to provide essential operational services. Recruitment and appointment of staff to fill the vacant positions were effected in the following departments;

- · Health and Sanitation.
- · Environment and Natural Resources.
- · Education and Vocational Training.
- Agriculture and Animal Resources.
- · Trade, Cooperative, Tourism and Industrialization.
- Community Development, Sports, Culture and Social Services.
- Public Service, Labour and Information Communication Technology (ICT), Publicity and Communication.
- Public Works, Roads, Transport, Energy and Disaster Management.

Those whose appointment is not within the mandate of the Board such as the policing Authority, and County Secretary were submitted to the relevant Authority after interview for appointment

It is important to emphasize-that recruitment to fill the positions in the said departments was carried out transparently and competitively, taking into account to the extent possible, gender, diversity, youth and persons with disabilities.

GAZETTE NOTICE No. 678

THE COMPETITION ACT

(No. 12 of 2010)

PROPOSED MARKET INQUIRY AND SECTOR STUDY ON THE KENYA BANKING SECTOR-PHASE II BY COMPETITION AUTHORITY OF KENYA

IT IS notified for general information of the public that pursuant to section 18(1) (a) the Competition Act, 2010, the Competition Authority intends to carry out the second phase of the market inquiry into the banking sector.

A consultant has been identified to carry out the second phase of the inquiry.

- The Terms of Reference of the market inquiry shall be as follows—
 - (1) Demand side analysis
 - (a) understand and document the end-to-end banking customer journey and identify triggers that prompt the decision of customers to switch providers;
 - (b) explore and establish if there are any barriers to bank customers switching providers, including, but not limited to, lack of awareness of alternatives, the ability to access and assess relevant information and eventually act on this information to switch, costs of switching, account closure practices and any behavioural biases that may lead to consumer inertia to switch;
 - (c) determine how the barriers identified impact on market development and customer choice;
 - (d) uncover the extent to which the barriers, if any, identified above relate to competition in the banking sector and the extent to which they could be addressed by regulatory action by the Authority and other government agencies; and
 - (e) explore alternate consumer focused measures beyond the Authority's regulatory action that can address the switching barriers identified including strengthening consumer awareness and assess their potential impacts.
 - (2) Price transparency
 - (a) explore and document the evidence on any deficiencies that exist in disclosure and sales practices by provider segments including deficiencies that are as a result of not presenting product information in the way that consumers want;
 - (b) identify how both transparency and suitability can be improved to address these issues including regulatory action by the Authority and other government agencies; and
 - (c) assess the adequacy of disclosing P2P, bill pay and loan costs to consumers when transacting on digital channels.
 - (3) Consumer protection
 - (a) identify any outstanding consumer protection concerns that arise as a result of the analysis undertaken under the demand side and price transparency analysis in (1) and (2) above;
 - (b) assess the level and current practices around consumer control over their transactional data and how this is sold or accessed by third parties such as the usage of mobile credit data to score and award credit offers without consumer consent;

- (c) assess the level of equal compliance with Credit Bureau reporting by digital credit providers and if they report both positive and negative borrower data as required by law and if there exists disparate treatments that gives them anticompetitive advantage and inhibits consumers' ability to take advantage of their own data for financial access; and
- (d) assess if there exists restrictions on consumers' use of their own digital transactional data and provision of the same to third parties for commercial use.
- 2. In the performance of its functions, the Consultant-
 - (a) shall hold such number of meetings in such places and at such times as it may, in consultation with the Authority, consider necessary for the proper discharge of its functions;
 - (b) may use official reports of any previous investigations, policies and legislation relevant to this study; and
 - (c) may receive views from members of the public and receive oral and written submissions from any person with relevant information.
- Members of the public, with relevant information, may submit oral or written submissions to the Secretariat of the consultant within twenty one days of the publication of this notice.
- The Secretariat of the Consultant shall be based at the Authority's
 offices located at Kenya Railways Staff Retirement Benefit
 Scheme Block "D", 1st Floor, Haile Selassie Avenue P.O. Box
 36265-00200, Nairobi. E-mail info@cak.go.ke

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED DEVELOPMENT OF FERTILIZER PLANT ON PLOT L.R NO. CHEPTIRET/CHEPLASKEI BLOCK 1 (CHESEGEM)/73 AT NGERIA AREA OF UASIN GISHU COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Toyota Tsusho East Africa Limited, has proposed the development of a fertilizer plant which will involve the construction and installation of dry blending fertilizer plant. The blending process is a straight forward mechanical process that involves mixing of mineral feedstock fertilizer and primary/secondary nutrients so as to produce soil and crop specific fertilizers. This is not a chemical process and does not involve any chemical reaction or produce emission. The proposed site on land parcel L.R. No. Cheptiret/Cheplaskei Block 1 (Chesegem)/73 at Ngeria area of Uasin Gishu County is located on about 2 acre parcel of land and it is roughly 12 km. before Eldoret on Nakuru Eldoret Road just past Ngeria Shopping Centre.

The following are the anticipated impacts and proposed mitigation measures:

Environmnetal Issue

Mitigation Measures

Extraction site impacts and demand of raw materials in construction

- Source building materials from suppliers who use environmentally friendly processes in their operations.
- Ensure accurate budgeting and estimation of actual construction material requirements to ensure that the least amount of material necessary is ordered.
- Ensure that damage or loss of materials at the construction site are kept minimal through proper storage.
- Use at least 5%-10% recycled, refurbished or salvaged materials to reduce the use of raw materials and divert material from landfills.

Increased runoff and soil • erosion

- Create storm water management practices, such as piping systems or retention ponds or tanks, which can be carried over after the building is complete.
- Apply soil erosion control measures such as levelling of the project site to reduce run-off velocity and increase infiltration of storm water into the soil.
- Ensure that construction vehicles are restricted to existing graded roads to avoid soil compaction within the project site.
- Create storm water management practices, such as piping systems or retention ponds or tanks, which can be carried over after the building is complete.

Waste generation and ensure efficient solid waste management during construction Through accurate estimation of the sizes and quantities of materials required, order materials in the sizes and quantities they will be needed, rather than cutting them to size, or having large quantities of residual materials.

- Ensure that construction materials left over at the end of construction will be used in other projects rather than being disposed of.
- Donate recyclable/reusable or residual materials to local community groups, institutions and individual local residents or home owners.
- Use of durable, long-lasting materials that will not need to be replaced as often, thereby reducing the amount of construction waste generated over time.

Dust emissions

- Ensure strict enforcement of on-site speed limit regulations.
- Avoid excavation works in extremely dry weathers.
- Ensure strict enforcement of on-site speed limit regulations.
- Avoid excavation works in extremely dry weathers.

Exhaust emissions

- Ensure proper planning of transportation of materials to ensure that vehicle fills are increased in order to reduce the number of trips done per vehicle or the number of vehicles on the road.
- Sensitise truck drivers to avoid unnecessary racing of vehicle engines at loading/offloading points and parking areas, and to switch off or keep vehicle engines at these points.

Noise and vibration

- Sensitise construction vehicle drivers and machinery operators to switch off engines of vehicles or machinery not being used.
- Sensitise construction drivers to avoid gunning of vehicle engines or hooting especially when passing through sensitive areas such as churches, commercial areas and hospitals.
- Ensure that all generators and heavy duty equipment are insulated or placed in enclosures to minimize ambient noise levels.

Increased energy consumption

- Install energy saving fluorescent tubes at all lighting points instead of bulbs which consume higher electric energy.
- Ensure planning of transportation of materials to ensure that fossil fuels (diesel, petrol) are not consumed in excessive amounts.
- Monitor energy use during construction and set targets for reduction of energy use.

Increased water consumption

- Promptly detect and repair of water pipe and tank leaks.
- Sensitise staff to conserve water by avoiding unnecessary toilet flushing etc.
- Promote recycling and reuse of water as much as possible.

Liquid effluent

Provide means for handling sewage generated by construction workers

Conduct regular checks for sewage pipe blockages or damages since such vices can lead to release of the effluent into the land and water bodies

Minimization of solid waste generation and ensuring more efficient solid waste management

- Provide solid waste handling facilities such as waste bins and skips.
- Ensure that solid waste generated at the development is regularly disposed of appropriately at authorised dumping sites.
- Ensure that employees manage waste efficiently through recycling, reuse and proper disposal procedures.
- Donate redundant but serviceable equipment to charities and institutions.
- Provide solid waste handling facilities such as waste bins and skips.

Minimise risks of sewage • release into environment

- Provide adequate and safe means of handling sewage generated at the factory.
- Conduct regular inspections for sewage pipe blockages or damages and fix appropriately.
- Ensure regular monitoring of the sewage discharged from the project to that the stipulated ensure sewage/effluent discharge rules and standards are not violated.

Minimize energy consumption

- Install occupation sensing lighting at various locations such as storage areas which are not in use all the time.
- Install energy saving fluorescent tubes at all lighting points within the fruit factory instead of bulbs which consume higher electric energy.
- Monitor energy use during the operation of the project and set targets for efficient energy use.
- Sensitise apartment occupants to use energy efficiently.

Minimize water consumption and ensure more efficient and safe water use

- Promptly detect and repair of water pipe and tank leaks.
- Residents to conserve water e.g. by avoiding unnecessary toilet flushing.
- Ensure taps are not running when not in
- Install a discharge meter at water outlets to determine and monitor total water usage.

The full report of the proposed project is available for inspection during working hours at:

- (a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- (b) Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30126-00100, Nairobi.
- (c) County Director of Environment, Uasin Gishu County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

GAZETTE NOTICE No. 686

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

NOTICE TO THE PUBLIC TO SUBMIT COMMENTS ON AN ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED CONSTRUCTION OF MODERN MIXED USE COMMERCIAL OFFICE/HOTEL COMPLEX ON L.R. NO. 209/64/11 MUTHITHI ROAD-WESTLANDS, NAIROBI CITY COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Westlands Skye Development Limited has proposed a state of the art premium offices and an internationally styled business hotel housed in an 18 storied office block consisting of two towers-wing A and B. The building will have at least three (3) basements that will serve as the parking area for tenant cars having a total of 40 vehicle parking spaces each. The building will also be serviced with four (4) lifts, have fibre cable serving all the floors. The project is located on plot No L.R. No. 209/64/11 on Muthithi Road, Westlands, Nairobi City County.

The following are the anticipated impacts and proposed mitigation measures:

Likely Impact

Mitigation Measures

Loss of flora and faunal . habitats

- Landscaping with indigenous species on completion of construction.
- Maintaining of landscaped gardens, terraces, conservation and management of the vegetation and gardens.
- Clearing vegetation only in construction areas and demarcating areas where no clearing will happen.

Changes in surface and sub-surface hydrology

- During construction, the design (of the drainage system) should ensure that surface flow is drained suitably into the public drains provided to control flooding within the site.
- Drainage channels should be installed in all areas that generate or receive surface water such as car parking, driveways and along the building block-edges of the roofs.
- The channels should be covered with gratings or other suitable and approved materials to prevent occurrence of accidents and entry dirt that would compromise flow of run-off.
- The channels should be designed with regards to the peak volumes such as periods or seasons when there is high intensity of rainfall which is also not common in the project area but just in case such an event occurs. They should never at any time be full due to the resulting heavy downpours.
- The drainage channels should ensure the safe final disposal of run-off /surface water and should be self-cleaning which means it should have a suitable gradient.
- Storm water generated from roof catchments should be harvested, stored and made use in various household activities such as general cleaning. This will reduce run-off reaching the drainage channels.

Changes in soil characteristics

- Paving of the side walkways, driveways and other open areas should be done using pervious materials such as cabro to encourage water recharge and reduce run-off volume.
- Sprinkling water on the soil to prevent dust from rising.
- · Creating specific paths for the trucks.
- Ensuring there is enough space for normal percolation of water.
- Preventing pollution from construction wastes by having specific sites for collection, sorting and transport of wastes.
- Proper installation and configuration of drainage structures to ensure their efficiency.
- Installing cascades to break the impact of water flowing into the drains.
- Controlling the earthworks and ensuring the management of excavation activities.
- Compacting areas with loose soil.
- · Landscaping.
- Providing soil erosion control structures on the steeper areas of the site & controlling activities during the rainy season.

Emissions of air pollutants

- Sprinkling water on soil before excavation and periodically when operations are under way to prevent raising of dusts.
- Enclosing the structures under construction with dust proof nets.
- Using efficient machines with low emission technologies for the ones that burn fossil fuels.
- Controlling the speed and operation of construction vehicles.
- Regular maintenance and services of machines and engines.
- Use of clean fuels e.g. unleaded and desulphurized fuels.
- Educate and raise awareness of construction workers on emission reduction techniques.
- Install scrubbers in the exhausts of motor vehicles to filter the toxic fumes
- Use of clean fuels such as solar and wind energy sources.
- Use of de -sulphurized and unleaded fuels in vehicles.
- Banning the burning of wastes and other materials at the site.
- Using efficient equipment, machines and engines that emit less pollutants.

Increased pressure on utilities

- Employing water conservation techniques and only using the required amounts of water to prevent wastage.
- Employing power saving techniques such as switching off equipment when not in use, using natural light whenever possible.
- Using machines with power saving technologies i.e. high efficiency equipment.
- Providing proper sanitary facilities for construction workers.
- · Inspecting the drainage facilities

regularly to ensure they are free of debris that may reduce their efficiency.

Sociocultural impacts

- Integrating Equal Opportunity Principles in Procurement and human resource policies.
- Promoting social cohesion and integration among people in the area.
- Creating awareness towards the diversity of cultures and different economic background of the people in the project staff and residents through sensitization.
- Allowing the residents and businesses to form social groups and networks that build social capital.
- Targeting social investment programs towards the local communities and region.

Increased traffic

- Placing signs around the site notifying other vehicles about the heavy traffic and to set the speed limit around the site.
- Ensuring all drivers for the project comply to speed regulations.
- Making sure the construction doesn't occupy the road reserves and complying to traffic and land demarcation obligations.
- Ensuring all vehicles used for the project are in good working condition both legally and commensurate to their intended use.
- Ensuring all drivers for the project comply to traffic regulations
- Making sure the construction doesn't occupy the road reserves and complying to traffic and land demarcation obligations.
- Ensuring all vehicles used for the project are in good working condition both legally and commensurate to their intended use.

Generation of waste

- Developing and implementing a waste management plan.
- Following EMCA regulations on Waste Management, Legal Notice 121.
- Using waste minimization techniques such as buying in bulk, buying preprocessed foods in the restaurants etc.
- Allocating responsibilities for waste management and identifying all sources of wastes, and ensuring wastes are handled by personnel licensed to do so.
- Making available suitable facilities for the collection, segregation and safe disposal of the wastes.
- Creating waste collection areas with clearly marked facilities such as colour coded bins and providing equipment for handling the wastes. The bins should be coded for plastics, rubber, organics, glass, paper, electrical equipment etc.
- Ensuring all wastes are dumped in their designated areas and through legally acceptable methods and that the bins are regularly cleaned and disinfected.
- Assessing and creating opportunities for Regulation, Reducing, Reusing, Recycling, Recovering, Rethinking and Renovation.

- Creating adequate facilities for the storage of materials and chemicals and controlling access to these facilities.
- Ensuring bins are protected from rain and animals.

OSH risks

- · Employing and EHS/OSH plan.
- Provision of PPEs to all personnel working in potentially hazardous areas or with potentially hazardous equipment, and replacing the PPEs on wear and tear
- Placing readable signs alerting people of hazardous such as for slippery floors.
- Servicing equipment and machine to ensure efficiency.
- Providing fire fighting equipment and maintaining them to ensure they are fully functional.
- Delineating fire and emergency assembly points and creating awareness to ensure all people at site are aware of them, e.g. through the use maps on elevators, staircases etc.
- Putting in place and ERP and ensuring all people in the project are aware of it and the procedures to follow commensurate to the level of emergency.
- Providing adequate storage for hazardous and flammable substances and controlling access to them.
- Monitoring the movement, handling and management of wastes to ensure they safely managed and don't present any EHS risks.
- Working state agencies in the management of emergencies and disasters to ensure multilateral and intersectoral approaches to this management.
- Performing emergency drills on a frequent basis, setting benchmarks for response and evaluating performance to ensure continuous improvement of response and preparedness.

Generation of noise

- Erecting signs and notifying other users of noisy activities.
- Conducting all noisy activities during the day when permissible levels are higher.
- Provision of PPEs such as ear plugs for employees working in noisy conditions or with noisy equipment.
- Using equipment with low noise ratings or noise reduction technologies such as for the generators.
- Carrying out the decommissioning works only during the specified time from 0800 hrs. to 1700 hrs. where permissible levels of noise are high and acceptable.
- Machineries should be maintained regularly to reduce noise resulting from friction.
- Providing workers with Personal Protective Equipment such as earmuffs when operating noisy machinery and when in a noisy environment.
- Provision of bill boards at the construction site gates notifying people of the activities and timings.

 Shielding the area to reduce noise propagation.

The full report of the proposed project is available for inspection during working hours at:

GAZETTE NOTICE No. 687

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

NOTICE TO THE PUBLIC TO SUBMIT COMMENTS ON AN ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED ELDORET BY-PASS ROAD PROJECT IN UASIN GISHU COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Kenya National Highway, is proposing Eldoret By-Pass Road Project in Uasin Gishu County. The proposed by-pass will commence at Cheplaskei Trading Centre located about 20 km. from the town centre along A104, passes through Kapseret Trading Centre on the Eldoret –Kapsabet–Kisumu Road and ends at Leserunear Maili Tisa (junction with A104 road and Eldoret–Kitale Road). The project road stretches for about 31 km. and is only motorable on a few sections hence very low traffic. The by-pass corridor road traverses 2No. districts, namely Wareng and Eldoret West districts. The proposed road alignment necessitates the acquisition of land through the farmlands while the sections that will not be affected by the construction will be retained for frontage access to the individual properties along the alignment.

The following are the anticipated impacts and proposed mitigation measures:

Environmental and Social Issue

Mitigation Measures

Land degradation and soil loss

- Comprehensive environment impact assessment study shall be undertaken for all construction camp sites and approved by NEMA before commencement.
- Construction wastes (including spoil earth, oils/grease, vegetation and other materials) be disposed off in approved dumping areas.
- Prepare a management and rehabilitation plan for construction camp sites as well as the materials extraction sites.
- Construction camps and materials sites be restored back to their original conditions upon project completion.
- Avoid alignments/deep cuts susceptible to soil erosion.

Air quality

- Minimize disturbance of the wetland vegetation during bridge construction.
- constant watering construction sections and dry materials piles to keep dust low throughout the project areas.
- Similar measures will be necessary at the material sites as well as the access road for the delivery trucks.
- Maintain construction machinery and vehicles at reasonable state of service to minimize unnecessary exhaust emission into the atmosphere.

Noise and vibrations

- Potential disturbance to residential, commercial and institutional premises along the proposed corridor.
- Noise and vibrations caused by heavy construction machinery could potentially cause damage to buildings along the construction areas and materials sites.
- Non-compliance with the elevated noise and vibrations regulations is a likely health risk to the immediate residents or business communities
- Non-observance with the occupational health and safety to the construction

Drainage

- Integrate drainage system in the overall bypass road planning and construction such as to discharge into the nearest natural water courses.
- Harmonize drainage with all point sources of surface runoff.
- All culverts be designed on the basis of hydrological studies such to carry peak
- Drainage outfalls should not be directed into private plots or premises
- Ensure protection of soil adjacent to the side drains and the constructed drainage outfalls.
- Maintain the natural flow patterns of water across the landscape with minimal concentration of water flows

Topography and physiology

- Material sites should be rehabilitated and restored to near the original status as soon as they are exhausted to restore the micro-topographical outlook.
- Road sections with significant cuttings should be done such as not to lose compatibility with the adjoining land areas.
- raised structures should be Anv attractive and easy to use by the road users, e.g. foot bridges.

Material sites

- Environmental impact assessments (EIA) to be undertaken prior to extraction of materials from identified sites and approved by NEMA.
- Operations of the materials sites to be guided by respective management plans established and approved under the ESIA.
- Material extractions and delivery should only be done during the day.
- If borrow pits and quarries are operated, they be fenced off for safety of the neighbouring residents.
- Rehabilitation of materials sites to take

place upon exhaustion (Contractors will provide appropriate rehabilitation plans for each material site and will not restoration demobilize until complete).

- Material extraction should be done in dump conditions to keep dust low, especially if it is located within settled
- Consider establishment of boreholes to provide construction water as opposed to abstraction from the constraint surface water sources.
- Oil storage areas should be slabbed and provided with oil interceptors and clean exit drains from the camp sites and oil storage yards.
- Obtain water permits for the identified abstraction point for the construction water.
- Ensure adequate provision of personal protective equipment (dust mask, ear

plugs) and sensitization on use.

- Appropriate and adequate awareness creation and social engineering to all stakeholders, especially residents will need to be undertaken.
- Information signage and information will need to be erected during construction.
- There should be continuous watering of the road during construction to control
- Dust masks and first aid kits should be provided to the construction workers.
- Provide motor able deviation routes that are accessible and usable during construction by the residents.
- Provide alternative accesses across the construction areas to social facilities.
- There should be public announcements as to when and where public amenities are to be affected.
- In addition, the relocation of public amenities and services along the road corridors need to be done timely and speedily
- Local community should be given first priority when recruiting road casual labourers and consider all genders.
- Maintain all construction road sections dump to prevent dust emissions.
- Facilitate flow of surface runoff along the project roads to avoid unnecessary flooding.
- Ensure driving discipline among the drivers and other construction workers with respect to the public safety.
- Enhance information and appropriate signage at all time along deviations and work areas.
- Ensure Occupational Health and Safety (OHS) requirements are observed at all times during the construction.
- Identify appropriate locations for installation of cattle and pedestrian crossings as part of the road project (footbridges, underpasses, crossing rumps, etc.).
- Provision of fences around the quarry and camp site areas, areas especially at the camp site.

Safety

Social impacts

Traffic management including traffic deviations

- Avoid to the extent possible deviating traffic into the private land to minimize conflicts (confine deviations within the acquired corridor).
- Where necessary, the affected deviation roads should be maintained well for the period of construction.
- Appropriate signage and information will be provided at all the deviations (beginning and end points).
- Ensure all deviations are maintained for smooth flow of traffic.
- Information on the intention any sections of the abutting passages early to prepare the residents.

Waste management

- Spoil generated be disposed off on preidentified and approved locations (impact assessment should be completed for the locations).
- Involve the local residents on the removal and disposal of the spoil and solid wastes to approved dumping areas.
- Camp sites shall be provided with appropriate solid waste holding receptacles to be regularly emptied for disposal.
- Construction camp management to provide an inventory of waste and an acceptable waste management plan.

Displacement issues

- Complete the RAP report and verify provisions therein in collaboration with key stakeholders.
- Undertake comprehensive compensation process and ensure compensation before commencement of the project works.
- Ensure livelihoods restorations where disrupted
- Institute legal provisions for acquisition of encroached road reserve.

Road safety and public health

- Provide speed controls (speed bumps and information) at high population areas
- Ensure pedestrian foot-paths are secure and clear at times.
- Provide foot bridges OR underpasses at high population areas as appropriate.
- Display appropriate road signage/information and enforce compliance with requirements.
- Enhance compliance plans for public transport vehicles plying the routes.
- Encourage road safety campaigns to create awareness on road safety.
- Sensitize landowners on appropriate land use practices and compatible development structures.
- Integrate compliance in vehicular maintenance into the national regulations.

Land use changes

- Involve the County Government and the Physical Planning Departments in appropriate land use planning regulations along the corridors.
- Influence appropriate land use planning in view of future traffic management aspects.

Drainage management

- Ensure no drainage outfall leads into private property.
- Develop a policy for the roads regard drainage outfall management, e.g. acquisition of the outfalls.

- KeNHA to develop policy guidance for the project on securing natural drainage outfalls without significant land use conflicts.
- The road surface shall discharge surface runoff such as to avoid roadside flooding or discharges into adjacent residential plots.
- Consider imposing heavy penalties to truck drivers and operators found washing trucks and other vehicles along the road reserve and other undesignated sections of the road.
- Provide adequate drainage system at the truck parking yards to cater for washing water.

The full report of the proposed project is available for inspection during working hours at:

IMPORTANT NOTICE TO SUBSCRIBERS TO THE KENYA GAZETTE

THE following notes are for the guidance of persons submitting "copy" for inclusion in the Kenya Gazette, Supplement, etc.:

- The Kenya Gazette contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) Legislative Supplement contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- Bill Supplement contains Bills which are for introduction in the National Assembly.
- (4) Act Supplement contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D-

Kenya Gazette

- "D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.
- (2) Ministries will be required to pay for the Kenya Gazette and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
