GAZETTE NOTICE NO. 1254

THE WATER ACT

(No. 8 of 2002)

APPLICATION FOR LICENCE

NOTICE is given to the general public in the area of jurisdiction of Lake Victoria North Water Services Board (LVNWSB) that pursuant to the provisions of sections 53 (2), 57 and 107 of the Water Act, 2002 and the Constitution of Kenya, Articles 189; Fourth Schedule Part 1:19; 22c; 32, LVNWSB intends to apply for a renewal/extension of licence from the Water Services Regulatory Board (WASREB) for development of national public works—water services infrastructure, provision of technical services and capacity building to the county governments and their water service providers within area of its jurisdiction under the Water Act, 2002.

LVNWSB is a state parastatal established through the Gazette Notice No. 1717 of 2004 to operate in the water basin area where the counties of Kakamega, Vihiga, Busia, Bungoma, Trans Nzoia, Uasin Gishu and Marakwet Sub-County of Elgeyo Marakwet and Nandi North part of Nandi County are located.

Details of all the projects and programmes implemented by LVNWSB and future plans can be obtained from LVNWSB website: www.lvnwsb.go.ke or at the Board's offices at Kefinco House, off Kakamega Kisumu Road, Kakamega.

Any interested person who wishes to make comments and/or objections to the application should do so in writing to the:

Chief Executive Officer, Water Services Regulatory Board, P.O. Box 41621-00100, Nairobi or through email to: info@wasreb.go.ke.

With a copy of the comments/objections to the Chief Executive Officer, Lake Victoria North Water Services Board, P.O. Box 673-50100 or email info@lvnwsb.go.ke.

The closing date for receiving any comments/objections shall be on 27th March, 2017.

A Public consultation meeting shall be held on 30th March, 2017 at Bishop Stam Pastoral Centre, Kakamega starting from 9.00 a.m. All members of the public from the area of jurisdiction of LVNWSB are invited to attend.

Dated the 24th February, 2017.

ANTHONY KISAKA,
Ag. Chief Executive Officer,
Lake Victoria North Water Services Board.

Approved:

ROBERT GAKUBIA,
Chief Executive Officer,
Water Services Regulatory Board.

THE CO-OPERATIVE SOCIETIES ACT

(Cap. 490)

APPOINTMENT OF LIQUIDATOR

(Variation Order)

WHEREAS Obed Mbae Nairobi, County Director of Audit, Isiolo County, was appointed liquidator of Chuka Farmers Co-operative Limited (CS/245) (in liquidation), and whereas the said Obed Mbae Nairobi, is unable to act as liquidator.

Now therefore, I, appoint Micheni Kibati Samson, Chief Co-operative Officer, Meru County, to be liquidator in the matter of the said society for a period of not exceeding one (1) year and authorize him to take into his custody all the property of the said society including such books and documents as are deemed necessary for completion of the liquidation.

Dated the 30th November, 2016.

P. N. GICHUKI,

MR/3034374 Ag. Commissioner for Co-operative Development.

GAZETTE NOTICE NO. 1256

THE ENERGY ACT

(No. 12 of 2006)

DECISION ON THE OBJECTION BY SAVE LAMU NATURAL JUSTICE TO THE ISSUANCE OF AN ELECTRIC POWER GENERATION LICENCE TO AMU POWER COMPANY LIMITED

PURSUANT to the provisions of section 28 (4), (5) and (6) of the Energy Act, the Energy Regulatory Commission notifies the general public that it has received an objection from Save Lamu Natural Justice to the issuance of an electric generation licence to Amu Power Company Limited. The Commission heard the objection on 6th December, 2016 in Lamu in and after reviewing the views of stakeholders orders that:

1. Environmental concerns

- (i) The project affected persons (PAPs) did not object to the power plant being licensed. Their only concern was a fair relocation and compensation which is being undertaken by the Government in liaison with the PAPs.
- (ii) All environmental issues were addressed in the Environmental Social Impact Assessment (issued by the National Environment and Management Authority) and effective mitigation measures proposed. When implemented, the concerns of the objector will be addressed.

2. Technical issues

- (i) The concern on the demand has been addressed by the Government in the Least Cost Power Development Plan (LCPDP) and by the developer through the identified technology of the plant.

- (ii) There is need for the country to diversify its sources of energy in order to have energy security and competitive energy prices.
- (iii) The location of the plant is appropriate. The power plant will supply the Coast region with sufficient power and it will minimise the cost of transmission and significantly lower technical losses.

3. Economic issues

- (i) The fuel price has been addressed in the power purchase agreement and the issue of livelihoods of the people of Lamu has been addressed in the environmental social impact assessment.
- (ii) The cost of the project will be recovered through the tariff as contained in the power purchase agreement.

Taking the above reasons into account, the Commission disallowed the objection. The above decision is based on the objects and mandate of the Commission envisaged under section 5 (a) and powers under section 6 (c) and (e).

Dated the 13th February, 2017.

PAVEL ROBERT OIMEKE,
Ag. Director General.

R. K. RUTTO,
for Director of Physical Planning.

GAZETTE NOTICE NO. 1261

THE PHYSICAL PLANNING ACT

(Cap. 286)

COMPLETION OF PART DEVELOPMENT PLANS

- (A) PDP No. KAJ/166/2011/9-Existing Site for Catholic Church and
(B) PDP No. KAJ/166/2011/3-Existing Site for Township Primary School, Kajiado Township

NOTICE is given that the above-mentioned part development plans have been completed.

The part development plans relate to land situated within Kajiado Township.

Copies of the part development plans have been deposited for public inspection at the offices of the Governor, Kajiado, County Commissioner, Kajiado, County Executive Member for Lands, Physical Planning, Housing, Environment and Wildlife, and office of the County Physical Planning Officer, Kajiado.

The copies so deposited are available for inspection free of charge by all persons interested at the offices of the Governor, Kajiado, County Commissioner, Kajiado, County Executive Member for Lands, Physical Planning, Housing, Environment and Wildlife, and office of the County Physical Planning Officer, Kajiado, between the hours of 8.00 a.m. to 5.00 p.m., Monday to Friday.

Any interested person who wishes to make any representation in connection with or objection to the above-named part development plans may send such representations or objections in writing to be received by the County Physical Planning Officer, P.O. Box 11-01100, Kajiado, within sixty (60) days from the date of publication of this notice and such representation or objection shall state the grounds on which it is made.

Dated the 9th February, 2017.

MR/2580934

FRED SWALAH,
for Director of Physical Planning.

THE PHYSICAL PLANNING ACT

(Cap. 286)

COMPLETION OF PART DEVELOPMENT PLANS

- PDP No. KAJ/719/2017/1-(A) Existing Residential Plot No. 470 and
(B) Existing Residential Plot No. 684, Noonkopirr Township

NOTICE is given that the above-mentioned part development plans have been completed.

The part development plans relate to land situated within Noonkopirr Township.

Copies of the part development plans have been deposited for public inspection at the offices of the Governor, Kajiado, County Commissioner, Kajiado, County Executive Member for Lands, Physical Planning, Housing, Environment and Wildlife, and office of the County Physical Planning Officer, Kajiado.

The copies so deposited are available for inspection free of charge by all persons interested at the offices of the Governor, Kajiado, County Commissioner, Kajiado, County Executive Member for Lands, Physical Planning, Housing, Environment and Wildlife, and office of

the County Physical Planning Officer, Kajiado, between the hours of 8.00 a.m. to 5.00 p.m., Monday to Friday.

Any interested person who wishes to make any representation in connection with or objection to the above-named part development plans may send such representations or objections in writing to be received by the County Physical Planning Officer, P.O. Box 11-01100, Kajiado, within sixty (60) days from the date of publication of this notice and such representation or objection shall state the grounds on which it is made.

Dated the 16th February, 2017.

MR/3034353

THE PHYSICAL PLANNING ACT

(Cap. 286)

COMPLETION OF PART DEVELOPMENT PLAN

PDP No. CGS/321/2017/01 for Proposed Site for Green Point Offices, NEMA Siaya.

NOTICE is given that the above-mentioned part development plan was on 14th February, 2017, completed.

The part development plan relates to land situated within Siaya Town, Siaya County.

Copies of the part development plan have been deposited for public inspection at the County Director of Physical Planning, Sub-County Administrator, Alego Usonga and Deputy County Commissioner, Alego Usonga.

The copies so deposited are available for inspection free of charge by all persons interested at the County Director of Physical Planning, Sub-County Administrator, Alego Usonga and Deputy County Commissioner, Alego Usonga, between the hours of 8.00 a.m. to 5.00 p.m., Monday to Friday.

Any interested person who wishes to make any representation in connection with or objection to the above-named part development plan may send such representations or objections in writing to be received by the County Director of Physical Planning, P.O. Box 803-40600, Siaya, within sixty (60) days from the date of publication of this notice and such representation or objection shall state the grounds on which it is made.

Dated the 14th February, 2017.

THE ENVIRONMENTAL MANAGEMENT AND
CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT
AUTHORITYENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED ISIOLO – MARALAL TRANSMISSION
LINE PROJECT IN SAMBURU AND ISIOLO COUNTIES

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Kenya Electricity Transmission Company is proposing the construction of a 220kV double circuit transmission line from Isiolo to Maralal. The project will comprise of the transmission line from Isiolo – Maralal 220 KV D/C line (165km) and with two Substation extensions at Isiolo and Maralal.

The following are the anticipated impacts and proposed mitigation measures:

<i>Impacts</i>	<i>Mitigation Measures</i>
Noise and vibration	<ul style="list-style-type: none"> Sensitize construction vehicle drivers and machinery operators to switch off engines of vehicles or machinery not being used. Sensitize construction drivers to avoid running of vehicle engines or hooting. Regular servicing of engines and machine parts to reduce noise generation. Ensure that all generators and heavy duty equipment are insulated or placed in enclosures (containers) to minimize ambient noise levels. Trees to be planted around the site to provide some buffer against noise propagation. The noisy construction works will entirely be planned to be during day time when most of the neighbours will be at work. Provide necessary PPE to workers who may be exposed to high levels of noise and ensure proper and constant use. All construction equipment and machinery to be used must be tested to verify if they are compliant with Kenya and the internationally acceptable standards of noise.
Dust and exhaust emission	<ul style="list-style-type: none"> Ensure strict enforcement of on-site speed limit regulations. Avoid excavation works in extremely dry weather. Sprinkle water on graded access routes when necessary to reduce dust generation by construction and vehicles. Stockpiles of earth should be enclosed / covered / watered during dry or windy conditions to reduce dust emissions. PPE to be provided to employees and ensure proper and constant use. Sensitize truck drivers and machine operators to switch off engines when not in use.
Increased solid waste generation	<ul style="list-style-type: none"> Use of an integrated solid waste management system i.e. the 3 R's: 1. Reduction at source 2. Reuse 3. Recycle.
Generation of wastewater	<ul style="list-style-type: none"> Provide means for handling sewage generated at the construction site. Conduct regular checks for sewage pipe blockages or damages since such vices can lead to release of the effluent into the land and water bodies. Monitor effluent quality regularly to ensure that the stipulated discharge rules and standards are not violated.
Oil spills hazards	<ul style="list-style-type: none"> Install oil trapping equipment in areas where there is a likelihood of oil spillage e.g. during maintenance of vehicles. Storage and liquid impoundment areas for fuels, raw and in-process material solvents, wastes and finished products should be designed with secondary containment to prevent spills and the contamination of soil, ground and surface water. Collected used oils should be re-used, disposed of appropriately by licensed waste handlers, or be sold for reuse to licensed firms.
Destruction of existing vegetation and habitat	<ul style="list-style-type: none"> Conduct selective clearing of vegetation on the way-leave corridor. Avoid unnecessary vegetation clearing; only tall trees that pose a danger to the transmission line and vegetation on the foot plinth of the tower to be removed. Ensure proper demarcation and delineation of the project area to be affected by construction works. Specify locations for trailers and equipment, and areas of the site which should be kept free of traffic, equipment, and storage. Designate access routes and parking within the site. With Assistant from community, KWS and KFS, initiate a tree planting exercise.
Disturbance on wildlife	<ul style="list-style-type: none"> Ensure no worker engage in acts of poaching. Restrict construction to day time. Observe applicable Game Reserve regulations.

- Accurate estimation of the dimensions and quantities of materials required.
- Use of durable, long-lasting materials that will not need to be replaced as often, thereby reducing the amount of construction waste generated over time.
- Provide facilities for proper handling and storage of construction materials to reduce the amount of waste caused by damage.
- Use building materials that have minimal or no packaging to avoid the generation of excessive packaging waste.
- Reuse packaging materials such as Removed wooden poles, cartons, cement bags, empty metal and plastic containers to reduce waste at site.
- Waste collection bins to be provided at designated points on site.
- Dispose waste more responsibly by contracting a registered waste handler who will dispose the waste at designated sites or landfills only and in accordance with the existing laws.

- Bush clearing to be selective. Only tall trees on the wayleave corridor or vegetation on the footprints of the towers to be removed.
- Consult the local KWS officer and conservancy owners to advice on construction timings to avoid disturbing wildlife.
- Ensure strict compliance with the Occupational Safety and Health Act (OSHA) 2007.
- Prohibit access by unauthorized personnel into the construction site.
- Train all employees and regularly sensitize them on safe working procedures.
- Periodic community sensitization of the dangers posed by the project.
- Place warning signs where necessary.
- Provide necessary PPEs to workers.
- Erect a perimeter fence to enclose the substations.
- Extensive public consultation during project planning.
- Structures at the site should be designed in such a way that they will improve the beauty of the surroundings.
- Restore site area through backfilling, landscaping and planting of trees, shrubs and grass on the open spaces to re-introduce visual barriers.
- Design and implement an appropriate landscaping programme.
- Periodic sensitization forums for employees on ethics, morals; general good behaviour and the need for the project to co-exist with the neighbours.
- Guidance and counselling on HIV/AIDS and other STDs to employees.
- Provision of condoms.
- Contractor to have a strong policy on sexual harassment and abuse of office guided by proponent's policy on the same.
- Upon discovery of a heritage site or an Archaeological find, the construction site will be stopped, the site if possible will be restricted using tapes or local materials, and relevant authorities including local administration officers and the museums of Kenya informed for further instructions.
- Conduct consultation meetings with project affected persons and ensure timely compensation for loss of property and land use. Ensure adherence to country legal legislations and World Bank Safeguard Policy 4.12 on Involuntary Resettlement.

Impacts on workers' and community health and safety

Visual and aesthetic impacts

Increase in social vices including HIV/AIDS

Cultural heritage and archaeological finds

Resettlement and loss of use

The full report of the proposed project is available for inspection during working hours at:

- (a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- (b) Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30126-00100, Nairobi.
- (c) County Director of Environment, Isiolo County.
- (d) County Director of Environment, Samburu County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

GEOFFREY WAHUNGU,

Director-General,

MR/3034068

National Environment Management Authority.

GAZETTE NOTICE No. 1266

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED TURKWEL – LODWAR – LOKICHOGIO TRANSMISSION LINE IN TURKANA COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Kenya Electricity Transmission Company is proposing the construction of a 220kV double circuit transmission line from Turkwel Power Generating Substation through Lokichar, to Lodwar and further to Kakuma and terminate in Lokichoggio with substations at Lodwar, Lokichar and Lokichoggio. The project will comprise of the installation of: Transmission line from Turkwel – Lodwar 220kV D/c line with ACSR Lynx Conductor (140km), Lodwar – Lokichoggio 220kV D/c line with ACSR Lynx Conductor (190 km), Substation extensions of 220kV substation at Turkwel, New 220/33kV substation at Lokichar, new 220/33kV substation at Lodwar and New 220/33kV substation at Lokichoggio.

The following are the anticipated impacts and proposed mitigation measures:

Impacts	Mitigation Measures
Noise and vibration	<ul style="list-style-type: none"> • Sensitize construction vehicle drivers and machinery operators to switch off engines of vehicles or machinery not being used. • Sensitize construction drivers to avoid running of vehicle engines or hooting. • Regular servicing of engines and machine parts to reduce noise generation. • Ensure that all generators and heavy duty equipment are insulated or placed in enclosures (containers) to minimize ambient noise levels. • Trees to be planted around the site to provide some buffer against noise propagation. • The noisy construction works will entirely be planned to be during day time when most of the neighbors will be at work. • Provide necessary PPE to workers who may be exposed to high levels of noise and ensure proper and constant use. • All construction equipment and machinery to be used must be tested to verify if they are compliant with Kenya and the internationally acceptable standards noise.
Dust and exhaust emission	<ul style="list-style-type: none"> • Ensure strict enforcement of on-site speed limit regulations. • Avoid excavation works in extremely dry weather.

	<ul style="list-style-type: none"> • Sprinkle water on graded access routes when necessary to reduce dust generation by construction and vehicles. • Stockpiles of earth should be enclosed / covered / watered during dry or windy conditions to reduce dust emissions. • PPE to be provided to employees and ensure proper and constant use. • Sensitize truck drivers and machine operators to switch off engines when not in use. • Regular servicing of engines and machine parts to reduce exhaust emission generation. • Alternative non-fuel construction equipment shall be used where feasible. 	
Increased solid waste generation	<ul style="list-style-type: none"> • Use of an integrated solid waste management system i.e. the 3 R's: 1. Reduction at source 2. Reuse 3. Recycle. • Accurate estimation of the dimensions and quantities of materials required. • Provide facilities for proper handling and storage of construction materials to reduce the amount of waste caused by damage. • Use building materials that have minimal or no packaging to avoid the generation of excessive packaging waste. • Dispose waste more responsibly by contracting a registered waste handler who will dispose the waste at designated sites or landfills only and in accordance with the existing laws. 	
Generation of wastewater	<ul style="list-style-type: none"> • Provide means for handling sewage generated at the construction site. • Conduct regular checks for sewage pipe blockages or damages since such vices can lead to release of the effluent into the land and water bodies. • Monitor effluent quality regularly to ensure that the stipulated discharge rules and standards are not violated. 	
Oil spills hazards	<ul style="list-style-type: none"> • Install oil trapping equipment in areas where there is a likelihood of oil spillage e.g. during maintenance of vehicles. • In case of an oil spill, immediate clean up measures will be instituted. • Storage and liquid impoundment areas for fuels, raw and in-process material solvents, wastes and finished products should be designed with secondary containment to prevent spills and the contamination of soil, ground and surface water. • Collected used oils should be re-used, disposed of appropriately by licensed waste handlers, or be sold for reuse to licensed firms. 	
Destruction of existing vegetation and habitat	<ul style="list-style-type: none"> • Conduct selective clearing of vegetation on the way-leave corridor. Avoid unnecessary vegetation clearing; only tall trees that pose a danger to the transmission line and vegetation on the foot plinth of the tower to be removed. • Ensure proper demarcation and delineation of the project area to be affected by construction works. • Specify locations for trailers and equipment, and areas of the site which should be kept free of traffic, equipment and storage. 	<ul style="list-style-type: none"> • Designate access routes and parking within the site. • With assistant from community, KWS and KFS, initiate a tree planting exercise.

National Environment Management Authority.

GAZETTE NOTICE No. 1267

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED GAS EXPLORATORY DRILLING AT BLOCKS L4 AND L13 IN LAMU COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Zarara Oil and Gas Limited is proposing to undertake a hydrocarbon exploration drilling programme on Blocks L4 and L13 in Lamu County, with specific focus on Pate Island. Exploratory drilling is a temporary and short duration activity and includes site preparation, equipment assemblage, well site and drilling pad construction, erection of the rig, drilling, testing and restoration of the well site. In the event that potentially commercial volumes of hydrocarbons are discovered additional exploration wells and/or appraisal wells are likely to be drilled in the future to provide greater information on the likely nature and scale of the hydrocarbon resources.

The following are the anticipated impacts and proposed mitigation measures:

Impacts

Mitigation Measures

- | | |
|--|---|
| <p>Biodiversity (flora, fauna, soil characteristics)</p> | <ul style="list-style-type: none"> • Rapid regeneration of plant cover must be encouraged by setting aside topsoil during earthmoving and replacing onto areas where the re-establishment of plant cover is desirable to prevent erosion if it was necessary. • Implement a tree planting program within the well site boundary to offset loss of trees due to the construction phase. • Work areas should be clearly defined and demarcated, where necessary to avoid unnecessary disturbance on areas outside the development footprint. • Ensure protection of important resources by establishing protective buffers to exclude unintentional disturbance. • Providing soil erosion control structures on the steeper areas of the site and controlling activities during the rainy season. • Manage storm and flood flash water effectively to avoid movement of loss soils. |
|--|---|

- Vehicles coming into the site must use designated roads.
- Education on the importance of flora and fauna in the areas, including the appropriate regulatory requirements.
- Develop a plan for control of noxious weeds and invasive plants that could occur as a result of new surface disturbance activities at the site. The plan should address monitoring, weed identification, the manner in which weeds spread, and methods for treating infestations.

Water

Water consumption

- There are several options in sourcing freshwater to reduce impact of sourcing freshwater in the island:
 - Filling barges with water from water stations or rivers on the main land (e.g. Tana River), Malindi or Mombasa; and transporting to Pate Island.
 - Building a storage pit which can be filled with freshwater before commencement of the project, which can act as an available reserve to minimize possible over abstraction with the local supply.
 - Drilling a bore hole to tap in to aquifer of Vumbe wells in the mainland.
 - Locating a local source that is acceptable with the local community.
 - Treating sea water through a reverse osmosis process.

Waste water

- Wastewater can be recycled and used in the drilling process, domestic effluent can also be treated and recycled and sludge from site for safe disposal at a designated disposal site.
- Where possible rain water can be used in the drilling process. If pit water is deemed uncontaminated it can be pumped offsite or reused as irrigation water for restoration of the site perimeters.

Waste generation

- Training of site personnel in proper waste management and chemical handling procedures.
- Provision of suitable facilities for the collection, segregation and safe disposal of the wastes. Waste should be segregated in terms of recyclable, reusable, biodegradable, non-biodegradable and providing equipment for handling waste.
- Regular cleaning and maintenance programme for drainage systems, sumps and oil interceptors.

Air quality

- Sprinkling water periodically when operations are under way to prevent raising of dusts.
- Impose and enforce speed limits and provide driving guidelines for vehicle operators.
- Educate and raise awareness to construction workers on emission reduction and emissions that are likely to occur.

- Noise and vibration
- Provide workers with appropriate Personal Protective Equipment (PPE) such as dust masks.
 - Machinery should be maintained regularly to reduce noise resulting from friction during operations.
 - Locate all stationary construction equipment (i.e. compressors and generators) and exploratory wells as far as practicable from nearby residences and other sensitive receptors.
 - Provision of warning signs should be made at the gate warning of construction activity and heavy machinery turning.
- Occupational, health and safety
- Provide workers with appropriate PPE such as goggles, gloves, hard hats, overalls, ear muffs, dust mask among others.
 - Placing signs around where there are risks. Signs should meet international standards and should be in English and Kiswahili for easy understanding.
 - The well pad should be cordoned off and there be security in and around the site to control the movement of unauthorized personnel and thereby protect the general public from dangers associated with the operations.
 - Providing firefighting equipment, in easily accessible areas and ensuring site personnel are well trained to use them as well as maintaining them regularly.
 - Raising awareness, educating workers on risks and use of equipment; animal species and habitats found in the area and their risks; first aid training.
 - Providing safe and secure storage for equipment and materials in the site and maintaining Material Safety Data Sheets (MSDSs).
 - Establishing emergency procedures against hazards and ensuring the workers stay aware/educated on following them and commensurate to the magnitude and type of emergency, by conducting regular drills and involving the neighbours.
- Social impacts
- Grievance mechanism will be in place to resolve any employment and local supplier-related grievances.
 - Where feasible look into vocational training programs for the local workforce to promote development of skills required by the oil and gas industry.
 - Develop and implement a Health Risk Assessment and a workforce management plan for the local workforce.
- Visual impact
- Consider site-specific landscaping in selected area to provide screening for resident whose property abuts the project.
 - Ensure good housekeeping of the site in order to create a positive image in the eyes of the public.
 - External lighting shall be as unobtrusive as possible and shall be shielded and directed downwards to prevent side spill. The use of tall mast lights shall be carefully assessed before being used due to proximity of fauna and residential areas.

Chemical, waste or oil spill

- Consider site-specific landscaping in selected area to provide screening for resident whose property abuts the project.
- Requirements of oil spill and emergency plans must be met before operations commence.
- Apply spill prevention practices and response actions in refuelling and vehicle use areas to minimize accidental contamination of habitats and soil.
- Address spills immediately per the appropriate spill management plan, and initiate soil clean-up and soil removal if needed.
- Containerize spent oils and lubes for appropriate disposal or recycling.
- Containerize contaminated soils that cannot be treated in situ and remove offsite for treatment.

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30126-00100, Nairobi.

(c) County Director of Environment, Lamu County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED CONSTRUCTION OF KENYA WOMEN AND CHILDREN WELLNESS CENTRE ON PLOT L.R. NO. 25302/2 AT MAROROI AREA OFF NORTHERN BY-PASS, NAIROBI CITY COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, James Jordan Foundation International is proposing to construct Kenya Women and Children Wellness Centre on Plot L.R. No. 25302/2 at Maroroi area off Northern By-pass, Nairobi City County. The project components includes: a 184 bed inpatient, women and children outpatient clinics, gender violence recovery centre, research and training centre, pediatric care, HIV/AIDS outpatient clinic, burn unit and a forensic laboratory

The following are the anticipated impacts and proposed mitigation measures:

Impacts

Effluent treatment

Proposed mitigation measures

- Treatment of operation process of water before being channeled into the Nairobi sewage system.
- The effluent discharged to the sewer system should be treated in regard to (water quality) Regulations, 2006.

- Water utilization**
- Implement water saving devices for domestic water use eg. Dual flush toilets.
 - Cleaning methods used for general cleaning should aim to minimize water use.
 - Harvesting of rain water during the rain season.
 - Always check water leakages to avoid wastage.
 - Regularly test the water through accredited laboratories to ensure the biological and chemical components are as per the EMCA (water quality) Regulations, 2006.
- Occupational health, safety and fire hazards**
- Regular supervision of works to ensure that safety conditions are met in the hospital during operational phase.
 - Develop evacuation procedures to handle emergency situations.
 - Have controlled entry and exit from the hospital premises.
 - Always post signage to inform of safety hazards and controls.
 - Provision of appropriate personal protective gears and enforce the use.
 - Always have fire extinguishers on convenient positions in the premises.
 - Adhere to provision of OSHA, 2007
- Control the spread of diseases in hospital wards**
- Provide the staff with personal protective equipment (PPE) during working hours.
 - Ensure no open burning of solid wastes within the hospital.
 - Properly manage machine with exhaust emissions.
 - Haulage trucks to be covered or the aggregates sprayed with water before loading.
 - The project area will be condoned off during construction to avoid incidents and accidents especially during construction.
- Noise pollution**
- Construction to be done only during day-time.
 - Ensure that noise and excessive vibration during construction are within permissible levels as per the provision of the environmental management and coordination, Noise and Excessive Vibration Pollution Regulations, 2009.
 - Use modern construction equipment that are not very noisy.
- Manage traffic on the bridge and the Northern By-pass**
- Transportation of materials from and to be done during day time, during the construction phase.
 - To post warning signs to provide notify other road users of heavy trucks turning to and from the site during construction since the project is located near the bridge.
 - Traffic control should be ensured when service vehicles are entering the main road, the Northern By-pass.
 - Adhere to Nairobi City County Government traffic by-laws and national traffic laws.
 - Designation of vehicle registration and checkpoint inside the premise to avert unnecessary traffic.

- Soil and water pollution**
- During excavation oil spillage should be avoided as much as possible.
 - Proper waste management and disposal according to EMCA Waste Management Regulations, 2006.
 - Ensure no construction materials are washed to the neighbors.
 - Cover construction materials in the site during the rain season to avoid being washed away.
 - To fence the site with concrete if possible to washing away of soil especially during construction phase because the area is slopy.
 - Proper management of machinery, vehicle and equipment that use oil.

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30126-00100, Nairobi.

(c) County Director of Environment, Nairobi City County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED DAYSTAR DAM PROJECT ON PLOT L.R. NO. 19031, MAVOKO SUB-COUNTY, MACHAKOS COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Daystar University Kenya is proposing to construct a dam on Plot L.R. No. 19031, Mavoko Sub-County, Machakos County. The proposed project will entail construction of a concrete gravity dam for domestic purposes only and is expected to supply water to a population of 8000 students. The dam has been designed to have full reservoir storage of 160,000m³ and a live storage of 155,000m³.

The following are the anticipated impacts and proposed mitigation measures:

<i>Impacts</i>	<i>Mitigation Measures</i>
Soil erosion	<ul style="list-style-type: none"> • Re-vegetation/ Conserve the vegetation along water bodies and near wetlands. • Carry out the construction works in the dry season. • Limit the circulation of heavy machinery to minimal areas. • Stabilize the soil in order to reduce potential erosion. • At the end of construction works, level off the soils and facilitate vegetation re-generation.

Water quality	<ul style="list-style-type: none"> Plan and set up on-site sanitary facilities for the disposal of waste water. Regular and continuous water quality water table monitoring. Take all precautions during the refueling of vehicles and machinery, and forbid the refueling near water bodies. Comply with the Water Quality Regulations of 2006.
Air and noise pollution	<ul style="list-style-type: none"> Use appropriate means for minimizing dust dispersion during construction. Maintain vehicles and machinery in good condition in order to minimize gas noise and dust emissions. Use dust and noise attenuators, such as vegetation edges along transport corridors in order to minimize noise and aerial transport of dust. Construction during day time.
Biodiversity	<ul style="list-style-type: none"> Ensure the plantation of indigenous species. Protect trees from machinery along right-of-way. Restore the vegetation in cleared areas. Promote the development of community nurseries.
Occupational safety and health	<ul style="list-style-type: none"> Use of protective clothing, where necessary. Erecting hazards warning signs. Contracting a security firm and fencing the dam. Adherence to the provisions of OSHA 2007.

The full report of the proposed project is available for inspection during working hours at:

- Director-General; NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30126-00100, Nairobi.
- County Director of Environment, Machakos County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

GEOFFREY WAHUNGU,
Director-General,

MR/3034051

National Environment Management Authority.

GAZETTE NOTICE NO. 1270

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED KENYA MARITIME AUTHORITY OFFICE BLOCK ON PLOT L.R. NO. MOMBASA/BLOCK XLVIII/128, ALONG MBARAKI ROAD AT MBARAKI AREA IN MOMBASA COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Kenya Maritime Authority is proposing to construct an Office Block on Plot L.R. No. Mombasa/Block XLVIII/128, along Mbaraki Road at Mbaraki Area in Mombasa County. The building shall consist of 3 basement floors, ground floor, 1st to 15th Floors, an observatory level and a roof level featuring a helipad. Other key components of the building will include basement parking; backup power generator, an auditorium, lettable office spaces, a restaurant, prayer room, sanitary facilities and waste management chutes. External component will include a bio-digester, parking, entry and exit gates with sentry box and an enclosing boundary wall.

The following are the anticipated impacts and proposed mitigation measures:

Impacts

Proposed mitigation measures

Sourcing of raw materials	<ul style="list-style-type: none"> The contractor will obtain raw materials for the construction from sources that are compliant with NEMA Regulations. The contractor will procure quantities that are sufficient for the intended works only and recycle as far as practical to curtail wastage. The contractor will commit to extensive use of recycled raw materials as will be appropriate and in a manner that does not compromise the safety of the development.
Destruction of the physical environment	<ul style="list-style-type: none"> Compacted areas to be ripped to prevent erosion. Restore degraded areas through landscaping using trees and sediment binding grasses. Control earthworks to prevent compaction of the loose soils. Obtain a permit to fell trees from KFS.
Occupational health and safety of workers	<ul style="list-style-type: none"> Provide adequate and appropriate Personal Protective Equipment (PPE) including safety shoes, helmets, gloves, overalls etc. Employees to be given the correct tools and equipment for the jobs assigned and trained on their use. First aid services and an emergency vehicle to be readily available at site. Moving parts of machines and sharp surfaces to be securely protected with guards to avoid unnecessary contacts and injuries during construction phase. The contractor to implement the provisions of the Occupational Safety and Health Act, No. 15 of 2007. First aid services and an emergency vehicle to be readily available at site.
Air pollution	<ul style="list-style-type: none"> Contractor to deploy fine dust screens at the site during construction. Sprinkle dust producing materials such as ballast with water during offloading on site. Retain vegetation as much as possible to reduce bare areas exposed to wind. Use low Sulphur fuels to power delivery vehicles and site machinery. Provided employees with dust masks and goggles.

- | | |
|----------------------------|--|
| Solid wastes | <ul style="list-style-type: none"> • Installation of litter bins and a receptacle that encourage separation of wastes at source to promote re-use and re-cycling. • Procure the services of a NEMA licensed waste handler to manage solid wastes from the construction site. • All recyclable materials should be collected and sent to NEMA licensed recyclers. |
| Noise pollution | <ul style="list-style-type: none"> • Deploy compact machinery and fit them with mufflers. • Personnel working at the site will be provided with Personnel Protective Equipment (PPE) such as earmuffs. • Deploy acoustic screens around noisy working areas to contain noises. • Limit construction works to daytime on weekdays only. |
| Traffic management | <ul style="list-style-type: none"> • The contractor will ensure that the vehicles delivering materials do not block the road and accommodated within the site. • Heavy commercial vehicles delivering raw materials shall observe designated speed limits for the area. • Proper signage and warnings to be placed along Mbaraki Road to forewarn other motorists on the use of the road by heavy commercial vehicles • Deploy flagmen to guide traffic along the road during construction works adjacent to the road. |
| Workforce sanitation | <ul style="list-style-type: none"> • The contractor will deploy temporary sanitary units (Mobile toilets) as the construction phase. • The mobile units should be emptied by NEMA licensed effluent handlers. |
| Increased demand for water | <ul style="list-style-type: none"> • The contractor to ensure prudent use of water resources during construction by avoiding wastage such as running pipes and taps. • The proponent should obtain a water abstraction permit from WRMA and install a meter to monitor the water yields from the borehole. |

The full report of the proposed project is available for inspection during working hours at:

- (a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- (b) Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30126-00100, Nairobi.
- (c) County Director of Environment, Mombasa County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

GEOFFREY WAHUNGU,
Director-General,
National Environment Management Authority.

MR/3034179

GAZETTE NOTICE No. 1271

**THE ENVIRONMENTAL MANAGEMENT AND
CO-ORDINATION ACT**

(No. 8 of 1999)

**THE NATIONAL ENVIRONMENT MANAGEMENT
AUTHORITY**

**ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED INTEGRATED MIXED USE
DEVELOPMENT ON PLOT L.R. NO. 28223/3, OFF KIAMBU
ROAD, ALONG THE NORTHERN BY-PASS AT RIDGEWAYS IN
NAIROBI CITY COUNTY**

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Cytonn Investment Partners Eleven LLP is proposing to construct an integrated mixed used development comprising 692No. residential apartments, 90No. serviced apartments, and convenient retail stores on L.R. No. 28223/3, off Kiambu Road, along the Northern By-pass in Ridgeways, Nairobi City County. The residential development consists of 1, 2 and 3 bedroom apartments. There are also 2 options of 3 bedrooms with a domestic servant quarter, standard and premium, and penthouses that occupy the topmost floor. The development has lots of green spaces, outdoor sitting spaces and recreational facilities including swimming pools, children's playgrounds, landscaped courtyards and a health club. The development offers world class serviced apartments for both short stay and long stay residents. In addition, the proposed development offers convenience with over 20,000 square feet of retail and office space consisting of a mini-mart, convenience stores, salon and laundry among others. The proposed development will have a secure gated community with 24-hour CCTV surveillance and ample parking spaces.

The following are the anticipated impacts and proposed mitigation measures:

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
Air pollution	<ul style="list-style-type: none"> • Building materials that are likely to produce dust such as ballast should be sprinkled with water before use. • Access road and dust surfaces at the construction site should be sprinkled with water twice a day. • Employees will be provided with appropriate dust masks.
Noise pollution	<ul style="list-style-type: none"> • Construction work and delivery of raw materials will be limited to day time hours only. • Delivery of raw materials will exclude weekends. • Concrete mixers will be located as far as practical from neighboring properties. • Employees using equipment that produce peak sounds shall be provided with earmuffs. • The contractor will endeavor to comply with Noise Regulations (Legal Notice No. 61 of 2009). • The contractor will register the site as a workplace with the Directorate of Occupational Safety and Health Services (DOSHS). • The contractor will use equipment's with silencers so as to minimize noise emission.
Occupational health and safety	<ul style="list-style-type: none"> • Provision of adequate and appropriate Personal Protective Equipment (PPE) including safety shoes, helmets, gloves and overalls.

- Solid waste**
- Employees to be given the correct tools and equipment for the jobs assigned.
 - Employees to be trained in the use of all equipment that they will be required to operate.
 - Rest times and breaks will be strictly observed.
 - First aid services and an emergency vehicle to be readily available at site.
 - Moving parts of machines and sharp surfaces to be securely protected with guards to avoid unnecessary contacts and injuries during construction phase.
 - The contractor to implement the provisions of the Occupational Safety and Health Act, No. 15 of 2007.
 - Wastes emanating from construction activities shall be disposed off at the designated dumpsites.
 - Transportation of wastes from the site shall be done by a NEMA registered solid waste handler who will use appropriate vehicles for conveyance of wastes from site to designated sites.
 - The reusable/ recyclable waste components will be sold out/ given out to willing buyers.
 - Comply with the Waste Management Regulations, 2006.
- Traffic management**
- Heavy commercial vehicles delivering raw materials shall observe designated speed limits for the area.
 - Proper signage and warnings shall be placed on the access route to forewarn other motorists on the use of the road by heavy commercial vehicles.

Waste water

- Delivery of raw materials for the construction shall only be undertaken during weekdays.
- All materials will be offloaded on the site and not on the road reserves.
- The proponent will provide proper de-acceleration cum acceleration lane for vehicles delivering raw materials.
- Sufficient parking for heavy commercial vehicles is available on site.
- The contractor will make a temporary access road on site to aid in traffic flow in and out of the Northern By-pass.
- The contractor will ensure water conservation in all construction activities.
- Water will be recycled as far as is practice without compromising on quality and health.
- The proponent will supplement the reticulated supply by use of bowzers and from an existing borehole on site.

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30126-00100, Nairobi.

(c) County Director of Environment, Nairobi City County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

GAZETTE NOTICE NO. 1272

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

DRAFT REPORT FOR THE STRATEGIC ENVIRONMENTAL ASSESSMENT (SEA) FOR THE LAPSET CORRIDOR INFRASTRUCTURE DEVELOPMENT PROJECT, KENYA

INVITATION OF PUBLIC COMMENTS

IN LIGHT of the provisions of section 57 A of the Environment Management and Co-ordination Act (EMCA) (Cap. 387), regulation 42 and 43 of Environmental (Impact Assessment and Audit) Regulations (Legal Notice No. 101 of 2003), the National Environmental Management Authority (NEMA) has received a Draft SEA Report for the Strategic Environmental Assessment (SEA) for the LAPSET Corridor Infrastructure Development Project (LCIDP), Kenya. The SEA findings and recommendations are also expected to be integrated into the existing sectoral Policies, Plans and Programs (PPPs) of the infrastructure sector in the country in the context of sustainable development.

The LAPSET Corridor Development Authority-LCDA is the PPP owner. The LAPSET SEA Report is an Infrastructure Corridor Project conceived to improve access and connectivity between Kenya, Southern Sudan and Ethiopia and eventually forming a land bridge across the entire Great Lakes region from Eastern Coast of Africa (Lamu) to Western Coast (Douala) Cameroon.

In line with such economic transformation goals, specific objectives of the SEA for LAPSET have been identified as follows—

- (a) to identify key strategic resources and linkages between environmental protection and economic growth in areas to be influenced by LCIDP;
- (b) to assess likely significant effects of LCIDP development on such resources;
- (c) to formulate a set of measures to address these priority concerns and to take advantage of opportunities that will emerge from LCIDP, considering institutional and financial conditions needed for implementing such proposal; and
- (d) to recommend mechanisms for reducing environmental and social costs associated with achievement of the economic goals of LCIDP including measures that will enable future adjustments to maintain and promote sustainable and equitable growth in response to anticipated development of the LCIDP inclusive of the Economic Corridor.

The key existing concerns/potential impacts, policy gaps and key recommendations are highlighted below:

Concern	Level of Mitigation	Proposed Mitigation	Responsibility for Mitigation
Observed prevalence of very high levels of poverty and inequality within Counties traversed by LAPSET on account of vulnerability to drought	Policy	GoK to continue with affirmative action as charted out in the Vision 2030 Strategy Paper for Northern Kenya, National Policy for the Sustainable Development of Northern Kenya and other Arid Lands-Releasing Our Full Potential, alongside implementation of other strategies, LAPSET included.	GoK, all stakeholders.
Observed accelerated degradation (soil erosion) of pastoral grazing lands	Policy level	Appreciate ASAL degradation as a growing national disaster.	All.
		The State Department of Livestock Production to fast track release of the Draft National Land Use Policy.	State Department of Livestock Production.
	Legislative level	Provide legal framework for grazing land management control to peg stocking levels to carrying capacity.	County governments/ National Government.
		Statutory requirement for approved land management plans (similar to EIA) for all land parcels which will be subjected to statutory annual audit.	State Department for Livestock production / County governments.
		County Assemblies can gazette regulations for grazing land management aimed at curbing over stocking.	County governments and County Assemblies.
		Legal recourse in case of default in land conservation.	County governments.
		Legal incentive for individuals to invest in conservation of communally owned land.	NLC.
	Strategic level	County governments to guide implementation of Grazing Land Management Plans through: <ul style="list-style-type: none"> Awareness creation. Issuance of guidelines for Land Management Planning. Technical Assistance in Site suitability matching. Enforcement of carrying capacity. Restocking programme to rebuild pastoral resilience. 	All County governments.
		LCDA to mainstream pastoral production into LAPSET	LCDA.
		LCDA to forge closer collaboration with County Governments.	LCDA.
Marginalization of pastoralists through LCIDP-driven realignment in land-use	Policy level	Policy intervention to provide for development control and zoning along LCIDP traverse.	State Department of Physical Planning.
		Clear identification of pastoral grazing territories inclusive of dry season and wet season grazing and watering grounds.	County governments.
	Legislative level	Legal framework to allow for protection of pastoral grazing resources.	County governments to legislate rules through County Assemblies.
	Strategic level	Development control in the LCIDP Traverse as part of the County Spatial Plans.	
	LCDA level	Develop working mechanism with respective county governments.	LCDA.
Possible marginalization of fishing based livelihoods at Lamu	Strategic level	LAPSET to adopt policy of developing fishing industry at Lamu.	National government/ LCDA.
		LCDA to fast-track development of proposed Fishing Port within the Lamu Port Complex to create a stable market for the local fishing industry.	National Government /LCDA, Lamu County Government.
		LCDA to facilitate capacity building for exploitation of Exclusive Economic Zone by local fishermen.	National Government /LCDA/ Lamu County Government and Kenya Ports Authority.
		Provision of secure navigation passage (e.g. ferry service) in the Faza waterway.	National Government /LCDA/ Lamu County Government.
Possible over exploitation of Lake Turkana Fisheries	Strategic level	Capacity building for commercial fishing at Lake Turkana.	National Government/Turkana County Government.
Reported drying of the Ewaso Ngiro North River	Strategic level	Peg any new investment to available water by enforcing articles 12 and 20 of the Water Act, 2016.	WRMA and Ewaso Ngiro North Development Authority.
		Legal action to release water upstream for downstream users through enforcement of articles 12 and 20 of Water Act, 2016.	WRMA.
		Legal protection of agricultural catchments through enforcement of articles 22, 27 and 28 of the Water Act, 2016.	WRMA.

Concern	Level of Mitigation	Proposed Mitigation	Responsibility for Mitigation
		Legal enforcement of rainwater harvesting: Article 32 of the Water Act, 2016.	Proposed Water Harvesting Authority (WHA) / WRMA.
		NWMP 2030 should be subjected to a SEA process to allow for public scrutiny of all proposals.	WRMA.
Potential for LAPSET to induce increased water demand to the detriment of pastoralists, wildlife, nature and other users	Legislative level	Peg any new investment to available water by enforcing articles 12 and 20 of Water Act, 2016.	
Ecological costs of reduced delivery of flood waters to Lorian Swamp as a result of flood harnessing works	Strategic level	Flood modelling at Lorian swamp to precede all dam design to determine contribution from other sources and ensure that enough floods are available to recharge both the swamp and aquifer.	WRMA/ENNDA.
Hydrological costs of reduced delivery of flood waters to Merti Aquifer as a result of flood harnessing works		Reservoir design to allow for release of both floods and Q80 ensure continued flow to support downstream processes.	WRMA.
Threat of reservoir siltation and associated imbalance in water supply		Dam development to be preceded by intensive catchment conservation and legal protection of agricultural catchments through enforcement of articles 22, 27 and 28 of the Water Act, 2016.	WRMA/ ENNDA/County Governments.
Possible drawdown on aquifers		Enforce articles 10,12, 20,21, 23, 28 of the Water Act, 2016 to ensure that withdrawal does not exceed recharge potential.	WRMA.
Observed trend of severe decline in wildlife population in Kenya	Policy level	Appreciate wildlife loss as a national disaster.	All stakeholders.
		Review policy strategies in wildlife management to:-	KWS.
		Allow for land owners to benefit from wildlife conservation.	KWS.
		Review land policy to allow for flexibility in wildlife movement.	NLC.
	Legislative level	Legal incentive to invest in wildlife conservation Provide for wildlife cropping and trophy hunting under licence.	KWS
		E Zoning of land to identify and secure game migratory corridors ensure pastoral resources are protected in the national and County Spatial Plans.	County governments/KWS.
	LCDA level	LCDA to initiate discussion at appropriate levels of GOK based on the validated SEA Report.	LCDA.
	Strategic level	Zoning of land to isolate and gazette game migratory corridors within traverse.	National Government/ County governments.
Potential fragmentation of wildlife habitat by the LAPSET induced development		Ensure that game migratory routes enjoy legal recognition.	KWS.
		Adopt phased approach to minimize environmental and socio-economic shocks in port and corridor development.	LCDA.
		Realign LCIDP between Hindi and Benane to maintain at least 10 Km buffer with Arawale and Rahole National Reserves to avoid habitat fragmentation.	National Government/ KWS/LCDA.
		Realign LCIDP to avoid game migratory corridors in the Waso Ecosystem by:	KWS/LCDA/County governments.
		<ul style="list-style-type: none"> Rerouting corridor to Archer's Post from Kula Mawe and locate main Dry Port, Oil Storage etc at Kula Mawe and Archer's Post. Relocating Resort City from Kipsing to West Gate, Kalama or Kinna areas. Disaggregating Corridor to avoid road traverse through Kipsing and Laikipia in favour of Samburu. 	
Potential for LAPSET to escalate conflict	Operating level	Conflict hotspots have been mapped as part of this SEA Study. LCDA to pursue partiality in distributing opportunities associated with the LCIDP.	National Government/LCIDP/ LCDA/ County governments and other Stakeholders.
Potential loss of cultural heritage	Operating level	Lamu Island has been zoned out for exclusion from LAPSET. Respective County Governments and NMK to zone out all cultural resources that require preservation.	National Government/County governments/ NMK/ LCDA.

The full Draft Strategic Environmental Assessment for the LAPSET Corridor Infrastructure Development Project, Kenya is available for inspection during working hours at:

(a) Cabinet Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30126-00100, Nairobi.

(b) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

- (c) County Director of Environment, Lamu County.
- (d) County Director of Environment, Garissa County.
- (e) County Director of Environment, Meru County.
- (f) County Director of Environment, Isiolo County.
- (g) County Director of Environment, Laikipia County.
- (h) County Director of Environment, Samburu County.
- (i) County Director of Environment, Marsabit County.
- (j) County Director of Environment, Baringo County.
- (k) County Director of Environment, Turkana County.

A copy of the Draft SEA report can be downloaded from www.nema.go.ke (SEA/037).

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process regarding this SEA. Comments can also be emailed to dg@nema.go.ke

GEOFFREY WAHUNGU,
Director-General,
National Environment Management Authority.

**IMPORTANT NOTICE TO SUBSCRIBERS TO
THE KENYA GAZETTE**

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34 (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the *Gazette*.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
