Increased water demand

- Installation of flush toilets with low volume cisterns and high pressure.
- Waste water recycling and rain water harvesting.
- Immediate repair of water pipe and tank leaks.
- Install water conserving taps that turn-off automatically when water is not being used.

- Provide facilities for proper handling and storage of construction materials to reduce the amount of waste caused by damage or exposure to the elements.
- Reuse materials such as cartons, cement bags, steel metals, and plastic containers to reduce waste.
- Dispose the excess excavated soil and any other waste by use of a licensed waste hauling company.
