Director-General.

GAZETTE NOTICE NO. 2767

THE NATIONAL CONSTRUCTION AUTHORITY ACT, 2011

NATIONAL CONSTRUCTION AUTHORITY

CODE OF CONDUCT FOR THE CONSTRUCTION INDUSTRY

Preamble

A well-coordinated and developed construction industry is one in which exists mechanisms by which factors hindering its optimal performance are identified, analysed and addressed. In cognizance of this and the continual efforts by NCA in promoting the improvement, development and expansion of the construction industry, this second edition of the Code of Conduct has been developed.

This code shall be cited as the Code of Conduct for the Construction Industry.

This Code has been developed in line with the principles of good corporate governance namely; accountability, efficiency, effectiveness, integrity, responsibility, transparency and inclusiveness of all stakeholders. All players in the construction value chain are obligated to adhere to these principles to ensure efficiency and productivity in their dealings.

The development of the construction industry will be enhanced when its stakeholders adhere to the following—

- (a) have clearly stated and enacted corporate values such as efficiency, responsibility, accountability, transparency and integrity;
- (b) recognize the legitimacy of interests of defined stakeholders and treat them in a reputable manner;
- (c) adopt agreed codes to tackle corruption and persist the enforcement thereof;
- (d) give due recognition to the respect for human rights;
- (e) respect the well-being of employees by treating them fairly and with cultural and gender sensitivity;

- (f) practice and encourage greater environmental and social responsibility;
- (g) avoid the use of harmful products and processes;
- (h) promote collaborative partnerships with communities;
- (i) work to build capacity and recognize need for profitability in the private sector to ensure a vibrant and sustainable industry;
- (j) guard against abuse of power by the stronger party in contractual relationships;
- (k) recognize the inherent risks associated with the industry and give priority to occupational health and the safety of all employees and the public;
- (l) engage with industry players and share best practices; and
- (m) encourage innovation.

1.0 LEGAL FRAMEWORK

There are various legislation and regulations that govern the conduct of various players in the construction industry. This code will apply in tandem with the existing legislations, including;

1. The Constitution of Kenya, 2010
2. The National Construction Authority Act, 2011
3. The Anti-Corruption and Economic Crimes Act, 2003
4. The Architects and Quantity Surveyors Act, Cap. 525
5. The Employment Act, 2007
6. The Energy Act, 2006
7. The Engineering Technology Act, 2016
8. The Engineers Act, 2011
9. The Environmental Management and Coordination Act, 1999
10. The Fair Administrative Action Act, 2015

11. The Kenya Roads Act, 2007
12. The Kenya Roads Board Act, 1999
13. The Occupational Safety and Health Act, 2007
14. The Physical Planning Act, 1996
15. The Proceeds of Crime and Anti-Money Laundering Act, 2009
16. The Public Procurement and Asset Disposal Act, 2015
17. The Public Health Act, Cap. 242
18. The National Museums and Heritage Act, 2006
19. The Standards Act, Cap. 496
20. The State Corporations Act, Cap 446
21. The Survey Act, Cap. 299
22. The Building Surveyors Act, 2018
23. The Water Act, 2016
24. The Witness Protection Act, 2006
25. The Work Injury Benefits Act, 2007
26. The Leadership and Integrity Act, 2012
27. The Ethics and Anti-Corruption Commission Act, 2016
28. The Public Officers Ethics Act, 2003
29. The Public Finance Management Act, 2012

2.0 PRINCIPLES GOVERNING THE CODE OF CONDUCT

This Code is established on the following guiding principles:

2.0.1 NATIONAL VALUES AND PRINCIPLES

The values and principles under this Code are as enshrined in Article 10 (2) of the Constitution of Kenya which states the national values and principles of governance as follows—

- (a) patriotism, national unity, sharing and devolution of power, the rule of law, democracy and participation of the people;
- (b) human dignity, equity, social justice, inclusiveness, equality, human rights, non-discrimination and protection of the marginalized;
- (c) good governance, integrity, transparency and accountability; and
- (d) sustainable development.

2.0.2 COMPLIANCE PRINCIPLES

In order to have a healthy industry that guarantees value to the society, the players in both the public and private construction value chain should in their dealings with each other—

- (a) behave equitably, honestly and transparently;
- (b) discharge duties and obligations in a timely manner;
- (c) avoid conflicts of interest;
- (d) avoid malicious or reckless injury to the reputation of other parties;
- (e) understand and comply with all applicable legislation and associated regulations;
- (f) keep abreast with local and international best practises in the industry;
- (g) advocate for the principles of quality construction practices;
- (h) take economic, social and environmental responsibilities associated with the construction processes;
- (i) respect and promote a multi-disciplinary, collaborative approach towards construction;
- (j) satisfy the requirements of the contract; and
- (k) act in compliance with this Code and encourage dissemination of its principles amongst players in the industry.

3.0 APPLICATION OF THE CODE OF CONDUCT

This section highlights the acceptable and unacceptable conduct of parties involved in the construction value chain. The development of best practice throughout the industry is the responsibility of all sector players who include; regulator(s), construction consultant(s), contractor(s), sub-contractor(s), employer(s), agent(s), employee(s), skilled construction worker(s), site supervisor(s), tenderer(s) and supplier(s).

This Code of Conduct serves to establish the broad framework within which a default by any party in the construction value chain may be determined.

3.1 DEFINITION OF PARTIES

3.1.1 REGULATOR

Government agency or department with statutory mandate to exercise authority over construction related activities in a regulatory and/or enforcement capacity.

3.1.2 CONSTRUCTION CONSULTANT

A person or entity possessing specialized knowledge in the construction industry and offering customized, knowledge-based services.

3.1.3 CONTRACTOR

A person or entity carrying on business, who for reward or other valuable consideration undertakes the construction, installation or erection of any structure situated below, on or above the ground, or other work connected therewith; or the execution of any alteration or otherwise to any structure or other work connected therewith, and undertakes to supply materials and/or labour necessary for the work.

3.1.4 SUB-CONTRACTOR

A contractor whose contract works form part of a main contractor's works.

3.1.5 EMPLOYER

A person or entity entering into contract with a contractor, supplier, agent, professional or any other player in the construction industry, for the provision of supplies, services or construction works.

3.1.6 EMPLOYEE

A person or entity in the employment of a construction consultant, agent, contractor, employer, sub-contractor or tenderer, for gain; and who acts on their behalf. An employee also includes an official in a public office.

3.1.7 CONSTRUCTION SITE SUPERVISOR

A person who is qualified and assigned to a construction site by a contractor to supervise construction works.

3.1.8 SKILLED CONSTRUCTION WORKER

A person who is qualified and engaged to carry out construction works.

3.1.9 AGENT

A person or entity who acts on behalf of another party in the construction value chain.

3.1.10 TENDERER

A person or entity who submits a tender, an expression of interest or a request for proposal to perform a contract in response to an invitation to bid.

3.1.11 SUPPLIER

A person or entity that is contracted by either the employer or his agent, or the contractor or his agent to provide goods and associated services.

3.2 ACCEPTABLE CONDUCT BY PARTIES

The following are the minimum standards expected of parties in the construction value chain.

3.2.1 REGULATOR

The regulator should—

- (a) protect the interest of all parties while implementing and enforcing relevant laws;

- (b) exercise their decision making independently and without bias;
- (c) perform functions as per their statutory obligations;
- (d) observe due process taking into account the legitimate and reasonable rights of all the parties;
- (e) ensure that obligations are thoroughly met on time;
- (f) foster coordinated consultative relationships between itself and the parties they oversee; and
- (g) refrain from engaging in unfair or unethical practices.

3.2.2 CONSTRUCTION CONSULTANT

The consultant should—

- (a) strictly adhere to the code of conduct laid down by the body governing the profession or trade;
- (b) act in a fair and equitable manner towards all other parties in the construction value chain;
- (c) discourage undue delays by any of the parties in the construction value chain;
- (d) observe due process in all dealings taking into account the legitimate and reasonable rights of all the parties;
- (e) refrain from gaining unjustified or unwarranted benefits from any contracting party in the construction value chain;
- (f) disclose any circumstances which may be construed as constituting a conflict of interest while discharging ones duty and disqualify oneself from deliberation on such matters; and
- (g) provide a level playing ground for all parties in the construction value chain.

3.2.3 CONTRACTOR

The contractor should—

- (a) act professionally as per the requirements of their regulating body;
- (b) satisfy the requirements of the contract and accept written instructions as per the contract without inducements of any sort;
- (c) fully meet all statutory and contractual obligations in a timely manner in relation to employment conditions, occupational health and safety, training, fiscal matters, environmental stewardship among others;
- (d) undertake continuous professional development (CPD) programs organized/accredited by their regulating bodies;
- (e) employ sub-contractors only on the basis of fair, unbiased and written contracts;
- (f) engage in fair or ethical practices in dealings with sub-contractors;
- (g) where applicable, make genuine claims for additional payment or time extensions to the contract;
- (h) seek clarification in a timely manner on any matter for which such clarification may be required to avoid unnecessary delays and cost overruns;
- (i) support the development objectives of the employer as per the contract;
- (j) abide by the scope and specifications of the contract;
- (k) avoid giving false information for purposes of securing contracts; and
- (l) always be in good standing as per the requirements of the accrediting body.

3.2.4 SUB-CONTRACTOR

The sub-contractor should—

- (a) not undermine the position of any contractor in relation to a particular contract;
- (b) support the development objectives of the contractor and or employer as per the contract;
- (c) act professionally as per the requirements of one's regulating body;
- (d) satisfy the requirements of the contract and accept written instructions as per the contract without inducements of any sort;
- (e) fully meet all statutory and contractual obligations in a timely manner in relation to employment conditions, occupational health and safety, training, fiscal matters, environmental stewardship, among others;
- (f) undertake Continuous Professional Development (CPD) programs organized/accredited by ones regulating bodies;
- (g) where applicable, make genuine claims for additional payment or time extensions to the contract;
- (h) seek clarification in a timely manner on any matter for which such clarification may be required to avoid unnecessary delays and cost overruns;
- (i) support the development objectives of the employer as per the contract;
- (j) abide by the scope and specifications of the contract;
- (k) avoid giving false information for purposes of securing contracts; and
- (l) always be in good standing as per the requirements of the accrediting body.

3.2.5 EMPLOYER

The employer, his employees, or agent should—

- (a) invite tenders with a firm intention to proceed with the construction procurement;
- (b) ensure that the basis on which tenders will be evaluated is clearly set out in the tender documents and that tenders are evaluated and awarded accordingly;
- (c) respond promptly to all requests for information and clarifications in relation to the tender;
- (d) engage parties only on the basis of fair and equitable written contracts;
- (e) ensure that all documents relevant in any stage of the construction value chain are clear and comprehensive, and set out the rights and obligations of all parties;
- (f) maintain confidentiality of information particularly on intellectual property, provided by tenderers in support of their tender submissions;
- (g) engage in fair and ethical practices while dealing with all the parties in the construction value chain;
- (h) ensure that transparency is maintained in the tendering process in accordance to prevailing construction procurement laws;
- (i) ensure that obligations in terms of contracts with all parties are scrupulously met in a timely manner;
- (j) ensure that legal requirements and principles are upheld in all stages of the construction process; and
- (k) ensure that payments are made regularly and within the agreed time schedule.

3.2.6 EMPLOYEE

The employee should—

- (a) perform duties in an unbiased and reliable manner, bearing in mind the legitimate interest of all parties in the construction value chain;

- (b) adhere to employer's code of conduct and his or her employment contract;
- (c) reject any gifts, favours or other considerations from any party that might influence the construction procurement and construction process; and
- (d) disclose any circumstances which may be construed as constituting a conflict of interest and disqualify oneself from such matters.

3.2.7 SKILLED CONSTRUCTION WORKER AND SITE SUPERVISOR

Skilled construction workers and site supervisors should—

- (a) act professionally as per the requirements of the accrediting body;
- (b) satisfy the requirements of their employment contract;
- (c) fully meet all statutory and contractual obligations in a timely manner in relation to employment conditions, occupational health and safety, training, fiscal matters, environmental stewardship among others;
- (d) undertake accredited Continuous Technical Development (CTD) programs;
- (e) seek clarification on any matter for which such clarification may be required in regard to project execution; and
- (f) always be in good standing as per the requirements of the accrediting body.

3.2.8 PROCURING AGENT

Procuring agents should—

- (a) strictly observe the relevant codes of conduct laid down by the respective employers and the provisions of all legislation and regulations governing the construction value chain;
- (b) perform their duties in an unbiased and reliable manner, bearing in mind the legitimate interest of all parties to the construction value chain and the public;
- (c) avoid being influenced in the execution of duties by any consideration other than the legitimate and reasonable interests of the respective employers;
- (d) when acting on behalf of an employer, administer contracts in a fair manner; and
- (e) disclose any circumstance which may be construed as constituting a conflict of interest and disqualify oneself from deliberations in such matters.

3.2.9 TENDERER

The tenderer should—

- (a) avoid collusion in the tendering process;
- (b) provide factual and accurate information relating to the tender;
- (c) disclose any potential and or actual conflict of interest in the tendering process;
- (d) refrain from exchange information regarding tenders with any other tenderer prior to the closing time and date for tenders;
- (e) seek clarification in a timely manner on any matter for which such clarification may be necessary to avoid errors or oversights in the tender documents which may give the tenderer an unfair advantage;
- (f) avoid influencing the tender evaluation process; and
- (g) strictly adhere to the tender requirements.

3.2.10 SUPPLIER

The supplier should—

- (a) be acquainted with all applicable laws and regulations on construction goods, associated services and works, and abide by them;

- (b) comply with all product bans and mandatory standards and specifications; and
- (c) make full disclosure on product specifications and their intended use.

3.3 GENERAL UNACCEPTABLE CONDUCT

Any action, or default, in contravention of this code, is unacceptable and includes the following—

- (a) failure to secure practicing licenses;
- (b) failure to adhere to acceptable labour relation practices;
- (c) failure to comply with the applicable codes;
- (d) failure to remit taxes, duties, levies and fines;
- (e) undertaking construction in prohibited areas;
- (f) failure to comply with the applicable occupational, health and safety legislation and regulations;
- (g) abuse of power in contractual relationships;
- (h) falsifying documents and impersonation of officers; and
- (i) accepting gifts, favours or other considerations, of anything more than token value from any party to the procurement value chain.

4.0 ENFORCEMENT OF THE CODE OF CONDUCT

This Code of Conduct encourages self-regulation by actors within the construction industry value chain. All players in the industry are therefore expected to adhere to the provisions of this Code by demonstrating commitment through attestation to Form "A". All stakeholders shall assist in the implementation of this Code.

4.0.1 HANDLING OF COMPLAINTS

Power to report:

- (a) Any person may report a violation of this code to the National Construction Authority.
- (b) Where breach of this Code involves a state or public officer, the breach shall be reported to the Ethics and Anti-Corruption Commission or other relevant law enforcement agency in accordance with the Leadership and Integrity Act, 2012 and the Regulations made thereunder.
- (c) A report under this paragraph shall be in the format provided for under the Second Schedule to this Code and shall include the following particulars—
 - (i) name and contact of the complainant (optional);
 - (ii) name of the person, company or agent involved in the alleged breach;
 - (iii) name of the procuring entity where breach has occurred or officer alleged to have committed the breach;
 - (iv) nature of the alleged breach, and
 - (v) date and location of alleged breach.

Investigation of the complaint:

- (a) Upon receipt of the report, NCA shall register, carry out investigation into the complaint, and take appropriate action including referring the matter to the relevant authorities or report to the relevant professional body for action where appropriate.
- (b) The Authority shall communicate its preliminary findings to the complainant within 60 days of filing of the complaint where complaints are provided.
- (c) Upon conclusion of the investigations the authority shall communicate the feedback to the complainant where contacts are provided.

Confidentiality of the report:

- (a) The report to the authority shall be handled with utmost confidentiality.
- (b) A person who lodges a complaint with the authority or other relevant body shall not be victimized, subjected to harassment or any other form of unfair treatment.

Quarterly publication:

The Authority shall at the end of each quarter publish a list of persons who have been sanctioned for violation of this Code.

In enforcing this Code, the Authority shall:

- (a) Exercise oversight in it, including taking remedial measures in case of breach.
- (b) On its own motion or upon receipt of a complaint, inquire into the allegation of the violation of the Code of Conduct and take appropriate action as provided in sections 22 and 23 of the NCA Act.
- (c) Establish a complaint management system for reporting and receiving of complaints on alleged violation of this Code.

A person shall not:

- (a) Obstruct or hinder an officer of the Authority or any other authorized person from carrying out a duty or function or exercising a power relating to this Code.
- (b) Knowingly or in collusion with others lie to or mislead a person carrying out a duty or function or exercising a power relating to violation of this Code.

4.0.2 DISCIPLINARY MEASURES

1. The Board shall handle disputes/complaints within the purview of the Authority, in accordance with sections 22 and 23 of the National Construction Authority Act, 2011. section 27 of the Act establishes the National Construction Appeals Board where a person aggrieved by aforementioned Board's decision can seek redress.

2. In addition, a person aggrieved by the decision of the Appeals Board can seek redress in the High Court within thirty (30) days.

3. Disputes/complaints beyond the mandate of the Authority shall be referred to a statutory body with jurisdiction over the matter.

4. Non-compliance with the Code will lead to sanctions such as—

- (a) a formal warning or reprimand;
- (b) referral of the breach to the appropriate professional association for action consistent with the relevant association's code of conduct;
- (c) issuance of fine(s) and or penalty;
- (d) disqualification from the particular procurement process;
- (e) suspension of practising licence(s);
- (f) suspension of registration;
- (g) publication of details of the breach and the identification of the party committing the breach;
- (h) deregistration of the party;
- (i) preclusion of the party from participating in all construction related procurement processes;
- (j) subjection to internal disciplinary procedures of respective employers; and
- (k) reporting of the matter to the National Police Service.

4.0.3 WHISTLE-BLOWING

Industry players and members of the public are encouraged to report incidences of suspected breach of this Code to the Authority to protect values and principles as provided in it. All such information received will be treated with utmost confidentiality.

5.0 MONITORING AND EVALUATION

Monitoring and evaluation is a strategic tool used to ensure consistency and responsiveness to existing realities. Given that the construction industry is dynamic, there is need to ensure that the Code is consistently in tandem with the ever-changing construction environment. The Authority shall therefore put in place internal mechanisms for the monitoring and evaluation of this Code. Reports generated from these activities shall form the basis for annual evaluation on the implementation of this Code. This will ensure quality control and help identify necessary amendments for purposes of review.

6.0 REVIEW OF THE CODE OF CONDUCT

The Authority in collaboration with its stakeholders shall review this Code from time to time to be in line with changes in applicable laws and regulations, or to other relevant factors, but in any case no five (5) years shall lapse before review.

7.0 FIRST SCHEDULE

DECLARATION AND COMMITMENT TO THE CODE OF CONDUCT

THE PHYSICAL AND LAND USE PLANNING ACT, 2019

THE COUNTY GOVERNMENTS ACT
 THE URBAN AREAS AND CITIES ACT
 COUNTY GOVERNMENT OF MAKUENI
 INTENTION TO PLAN KYUMANI MARKET

Notice is given to all residents and stakeholders in the Government of Makueni County that pursuant to the provisions of the Physical and Land Use Planning Act, 2019, the County Governments Act and the Urban Areas and Cities Act that the Government of Makueni County intends to prepare the local physical development and land use plan for Kyumani Market in Kibwezi East Sub-County.

The purpose of the plans is to ensure orderly, co-ordinated, harmonious and progressive development and guide the development of infrastructural facilities and services and for specific control of use and development of land for socio-economic development. The plan will be valid for an initial period of five (5) years and is subject to periodic review.

The Government of Makueni County shall hold adequate stakeholder meetings in the market before the completion of the plan. Any comments, enquiries or suggestions on the same may be done in writing to:

*County Executive Committee Member,
 Lands, Urban Development, Environment and Climate Change,
 County Government of Makueni,
 P.O. Box 78-90300,
 Wote, Makueni.*

THE ENVIRONMENTAL MANAGEMENT AND
 CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
 FOR THE PROPOSED CHEPKAITIT IRRIGATION PROJECT IN
 CHERANGANY SUB-COUNTY TRANSNZOIA COUNTY

INVITATION OF PUBLIC COMMENTS

Pursuant to Regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, County Government of Trans Nzoia proposes to develop Chepkaitit Irrigation Project is located in Kiptoi sub location, Milimani Location in Cherangani Sub-County of Trans-Nzoia County. The Irrigation Project is located 31Km to the South East of Kitale town and approximately 5km from Kachibora trading center that is the Sub-County Headquarters of Cherangani Sub-County.

The project is envisaged to directly benefit 76 households and approximately more than 1000 indirect beneficiaries through the trickle down effects as middlemen, employment (labour at farm level) and market vendors for the produce. The irrigation project will approximately cover 96.30 acres of land (16.30 acres for existing and 80.0 acres for new areas). The land is owned by 76 farmers with title deeds land covering within the coordinates 753610 mE, 110922 mN to the East: 750496 mE, 110215 mN to the West, 752268 mE, 110381 mN to the South and 752454 mE, 110924 mN to the North at Universal Transverse Mercator (UTM) coordinates system and World Geodetic System (WGS) 1984 standard.

The major project components include: Intake (WEIR): High and low flood plain water abstraction of 4.992m³/s /1.154m³/s respectively, Excavation of trenches for pipes (primary pipeline passing along the main road, secondary pipeline leading to farmers' land), purchase of pipes (main and laterals), install irrigation

infrastructure. The following are the anticipated impacts and proposed mitigation measures:

Impacts	Proposed Mitigation Measures
Interference with the physical setting	<ul style="list-style-type: none"> Formal request for permission to cross, break in and lay the water pipeline should be sought from affected farmers. Inclusion of a by-laws that address issues that may arise with interference of physical setting.
Noise	<ul style="list-style-type: none"> Employ best available work practices on-site to minimize occupational noise levels i.e. manual versus use of machinery. Restrict excavation activities to daytime hours (8.00 a.m. to 5.00 p.m.). Maintain the machinery and equipment in good working condition. In case of elevated noise; workers be provided with earmuffs. Adherence to Noise and Excessive Vibration Pollution (Control) Regulations, 2009.
Air pollution/dust emission	<ul style="list-style-type: none"> Dust masks and other PPEs to be provided to all workers. Wet all active construction areas as and when necessary to lay dust. Vehicle speeds be limited to a maximum of 30km/h. Maintain the machinery and equipment in good working condition. Compliance to Air Quality Regulations, 2014.
Health and safety concerns	<ul style="list-style-type: none"> Provision of fit to work PPEs such as safety shoes and helmets. Display at prominent places occupational health and safety rules. Test and approve equipment before use. Training workers on how to use various PPE and proper use of machinery. Availability of first Aid Kit at active construction site. Document all incidents and accidents.
Extraction and use of construction materials	<ul style="list-style-type: none"> The Contractors to source construction materials from registered and approved NEMA sites. The Contractor to only order for what will be required through accurate budgeting and estimation of actual construction requirements. Ensure that damage or loss of materials at the construction site is kept minimal through proper storage. Environmentally friendly construction material should be considered during selection of construction material.
Change in soil properties	<ul style="list-style-type: none"> Earthworks should be controlled so that land that is not required for the works is not disturbed. Excavation should be carried out during the dry spell to prevent soil from being washed away by the rain. Excavated materials and excess earth should be kept at appropriate sites approved by the construction supervisor. Areas that are cleared for excavation should be re-vegetated once the pipeline is laid.

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>	<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
Generation of wastes	<ul style="list-style-type: none"> • The proponent to carefully budget for construction materials in order to minimize leftovers. • Use of durable, long-lasting materials that will not need to be replaced often. • Contract Registered waste handler to dispose of waste and have waste destruction certificate and waste transfer notes. • Designate temporal waste/garbage holding areas at site. • Provide legible waste bins of different waste streams with covers. • Contractor should be responsible for handling and disposal of all construction wastes. • Waste disposal by burning should not be permitted and signage should be erected; • Re-use and recycling are the most desirable option for 'disposal' of any waste materials resulting from construction. 	to erosion, e.g. Steep slopes and drainage lines. These measures must include the construction of cross drains and other appropriate measures.	
Biodiversity loss	<ul style="list-style-type: none"> • Vegetation out of immediate project area should not be removed, damaged or disturbed. • The cleared or disturbed areas should be used for construction of temporary structures and stockpiling of materials. • Planting of vegetation should be undertaken after the pipes are covered with soil. • Re-vegetate using indigenous tree and grass species whenever possible. • Avoid cutting down indigenous trees. • Incorporate fish ladders in the design of the weir across the river in the water intake site. 	Conflicts with downstream users	<ul style="list-style-type: none"> • The project should only abstract authorized quantity of water from the River and abide by the requires of the Water Resources Authority(WRA); The irrigation water committee should ensure only authorized quantity of water is abstract and abide by any other conditions set by WRA. • The committee should participate in the activities of Chepkaitit irrigation project users Association to ensure successful water management, apportionment and environmental protection. • An Irrigation Water Users Association (IWUA) should be formed. The committee will be required to form strict by-laws that will guide on water usage and conflict resolution in the irrigation scheme. • Conduct training on water saving technology to ensure efficient water use. • Install master water meter at the intake. • Install water meters at farm and household level. • Use irrigation to grow water productive crops. • Develop irrigation schedules systems to aid farmers on making decision on when to irrigation and how much water to apply.
Social risks (Spread of STIs)	<ul style="list-style-type: none"> • Carry out HIV/AIDS awareness and control campaigns in the project staff. • Sensitize the migrant workers on risky sexual behaviour. • Have VCT services on site and encourage workers to undergo the same. • Provision of protective devices such as condoms. 	Increase in waterborne/ related diseases	<ul style="list-style-type: none"> • Train farmers on household water treatment to guard against raw water use. • Train farmers on proper disposal of agro-chemical used packaging materials that can breed vectors. • Incorporate drainage infrastructure and ensure that they are well maintained. Cases of waterborne diseases, water pollution and waste disposal should be adequately addressed.
Inappropriate/ inadequate disposal human waste	<ul style="list-style-type: none"> • Provide a temporary latrine on-site to be used by construction workers. • Workers sanitization of the dangers of open defecation. 	Water pollution	<ul style="list-style-type: none"> • Promote Integrated Pest Management (IPM) Practices incorporating crop management control techniques, biological control and restricted use of biocides in order to lessen the adverse effects of biocide use in line with BP OP 4.09. • The farmers should be trained on adequate amounts of fertilizers and biocides to be used for various crops and on safe use of these chemicals.
Pollution from hazardous waste	<ul style="list-style-type: none"> • Handling of the materials using the material safety data provided by the manufacturers. • Create awareness on hazardous waste handling. • Proper labeling of designated storage area for hazardous materials. • Appoint a safety officer to ensure that proper disposal guideline are observed. • Ensuring that maintenance and/or piece of work carried out on any piece of equipment or construction work is undertaken by qualified personnel. • In case of spillage emergency spillage control measures to be instituted. • Containerization of any wastes and disposal through a licensed waste handler. 	Soil erosion	<ul style="list-style-type: none"> • It is necessary that slopes be stabilized with Napier grass planted along contours before irrigation is undertaken. • Avoid encroachment to clear vegetation. • Minimize and plainly define land clearing areas. • Avoid steep slopes and level the land/terrace the slopes as much as possible. • Protect the soil against erosion by good farm management practices such as agro forestry, conservation tillage and contour farming. • Public awareness programs should be conducted during project implementation to ensure that beneficiaries, IWUA and scheme management understand and take up their role in catchment management.
Soil Erosion	<ul style="list-style-type: none"> • The contractor must implement erosion control measure to avoid erosion in areas that are prone 		

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
Labour Influx	<ul style="list-style-type: none"> Train farmers in soil and water management to avoid land degradation. Adhere to relevant labour laws. Develop Labour hiring procedure and adhere to it. Liaise with local leader during hiring of workers to limit influx. Community outreach sensitization programs, Public meetings, Media releases, Website Phone lines, radio talk shows and community announcements. Contractor to maintain a labour management plan.
Unsafe produce for human consumption	<ul style="list-style-type: none"> Proper extension service should be availed to farmers. Observe the pre harvest timeline required after spraying produce with agrochemical. Ensure proper pre-and post-harvest handling procedures for products to avoid contamination of harvested products.
Workers (or farmers) accidents	<ul style="list-style-type: none"> All farmers will be sensitized and trained on occupational safety and health issues and on how to control accidents related to project. A comprehensive contingency plan will be prepared on accident response. Accordingly, adherence to safety procedures will be enforced.
Tomato diseases	<ul style="list-style-type: none"> Blight: prevent excessive heat, moisture, and crowding helps to inhibit fungal growth. Leaf Spot: remove the affected leaves and adjust the environment to allow light penetration to help to stop the spread. Bacterial Infection: remove the infected areas as soon as you see them. Mosaic Viruses: Don't allow smoking near your garden, and wash your hands or glove them before tending tomatoes if one is a smoker.

The full report of the proposed project is available for inspection during working hours at:

- Principal Secretary, Ministry of Environment and Forestry, NHIF Building, Community, P.O. Box 30126-00100, Nairobi.
- Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- County Director of Environment, Trans Nzoia County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process regarding this plan.

MAMO B. MAMO,
Ag. Director-General,
National Environment Management Authority.

MR/07344682

GAZETTE NOTICE No. 2777

THE ENVIRONMENTAL MANAGEMENT AND
CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED RUKO ROTHSCHILD GIRAFFE
SANCTUARY AND ITS ASSOCIATED INFRASTRUCTURE IN
RUKO COMMUNITY WILDLIFE CONSERVANCY, BARINGO
COUNTY

INVITATION OF PUBLIC COMMENTS

Pursuant to Regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Northern Rangeland Trust proposes to establish a protected wildlife sanctuary in the mainland of Ruko Community Wildlife Conservancy for the translocation of six (7) endangered Rothschild Giraffes and other native wildlife currently protected at Longicharo island sanctuary within the conservancy area, the plan is to create a fenced breeding sanctuary where giraffes will be contained, secured and monitored closely with a view of providing a favourable condition for them to allow to breed.

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
Community concerns	<ul style="list-style-type: none"> Engage the community members in developing the physical plan and layout for the proposed sanctuary. Involve the local leaders in disseminating project information to the local community. Have in place a consultative grazing plan between the pastoral communities, conservancy management and the KWS.
Biodiversity loss	<ul style="list-style-type: none"> Determine and enforce carrying capacities of wildlife habitats in the sanctuary and Conservancy as a whole in order to maintain viable and representative populations of wildlife species. Sensitize staff to be cautious during site clearance works to prevent any injuries to keystone or rare species. Preliminary site inspections to be done by sanctuary rangers to ensure limited effects on biodiversity.
Habitat and wildlife disturbance	<ul style="list-style-type: none"> Retain pockets of vegetation within the site. Any nesting grounds should be retained or relocated with care. Conduct site works with precaution to prevent harming rare wildlife species in the area. Site works to be restricted only within the planned zones. Re-vegetate site after completion of construction works. Comply with the provisions of the Wildlife Conservation and Management (Conservancy and Sanctuary) Regulations, 2015 and the Wildlife Conservation and Management Act, 2013.
Disturbance of seasonal water ways (laghas)	<ul style="list-style-type: none"> No construction to be done within the 30 meters buffer zone from the highest flood point of the seasonal Oghiony and Leparklenya river tributaries (lagas) traversing the proposed sanctuary. Erosion control measures should be put in place to prevent downstream pollution. Avoid stock piling of construction debris.
Giraffe safety concerns	<ul style="list-style-type: none"> Put in place safety measures against electric hazards which may harm introduced wildlife. All giraffe introductions should be gradual, whether it is between giraffe or giraffe and

<i>Impacts</i>	<i>Proposed Mitigation Measures</i> other species.
	<ul style="list-style-type: none"> • Pre-capture monitoring to be done well before the translocation date. • Undertake broad based consultation with stakeholders including KWS, NEMA, KFS, AWF etc. • Ensure adequately qualified personnel are involved in the translocation, including experienced giraffe veterinarians, giraffe ecologists, experienced game capture pilots, medical staff etc. • Provide safe transport means (air/water/road) for the translocation of the giraffes from Longicharo Island to the proposed sanctuary. • Adhere to the guidelines provided in the Immobilization and Translocation Protocol for the Giraffe (<i>Giraffa camelopardalis</i>) in Kenya (2018) and the National Recovery and Action Plan for Giraffe (<i>Giraffa camelopardalis</i>) in Kenya (2018-2022).
Increased competition	<ul style="list-style-type: none"> • Assess baseline herbivore density before conducting re-introductions. • Establish habitat carrying capacity of the proposed sanctuary habitat prior to re-introductions. • Assess fitness of individuals to be translocated to ensure only healthy wildlife species are moved. • Consider sequential translocation of wildlife instead of a one-off option.
Blocking of wildlife migration routes and exclusion of livestock	<ul style="list-style-type: none"> • Mapping and provision of wildlife migration corridors at sections of the fence line. • Any access routes for livestock should detour the sanctuary area to only access free range areas and not traverse the protected sanctuary land. • Have in place a consultative grazing plan between the pastoral communities and the conservancy management. • Have the sanctuary boundary clearly demarcated. • Adhere to the provisions of the Community Land Act, 2016.
Impacts of rock catchments (djabia) construction	<ul style="list-style-type: none"> • Establish geological profiles in the area proposed for djabia construction and adopt appropriate strengthening measures. • Develop soil erosion management measures. • Inspection of critical work stages. • Regular collection of wastes to avoid accumulation at the site. • Ensure the rock catchment or djabia projects are registered with Water Resources Authority (WRA).
Safety and health risks	<ul style="list-style-type: none"> • Adopt adequate safety measures as guided by the Occupational Safety and Health Act, 2007.

The full report of the proposed project is available for inspection during working hours at:

- (a) Principal Secretary, Ministry of Environment and Forestry, NHIF Building, Community, P.O. Box 30126-00100, Nairobi.
- (b) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- (c) County Director of Environment, Baringo County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process regarding this plan.

MAMO B. MAMO,
Ag. Director-General,
National Environment Management Authority.

**IMPORTANT NOTICE TO SUBSCRIBERS TO
THE KENYA GAZETTE**

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the National or County Governments. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly, Senate or County Assemblies.
- (4) *Act Supplement* contains Acts passed by the National Assembly, Senate or County Assemblies.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typed with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
