LEGAL NOTICE NO. 35 OF 2024

Ozone and Non-Ozone Depleting Substances Regulations, 2024

Pursuant to section 113 of the Environment Act, 2008, I,

LETSEMA ADONTSI

Minister responsible for environment make the following regulations:

Citation and commencement

1. These Regulations may be cited as the Ozone and Non-Ozone Depleting Substances Regulations, 2024 and shall come into operation on the date of publication in the Gazette.

Interpretation

2. In these regulations, unless the context otherwise requires-

“accredited body” means -

- (a) an association or organization registered in terms of the Societies Act, 1966; and
- (b) a higher education private institution or higher education public institution registered in terms of Higher Education Act, of 2004 to deal with controlled substances in terms of these Regulations;

“Act” means the Environment Act, 2008;

“Certified Technician” means a technician who has undergone certification processes by a certified or accredited body approved by the line ministry;

“controlled substances” means Ozone Depleting Substances including respective products and Non-ozone depleting substances including respective products controlled by the Montreal Protocol as specified in Schedule I:

“consumption” means production plus imports less exports of controlled substances;

“customs official” means a person employed at any duty relating to customs and excise and sales duty and surcharge by order or with the concurrence of the Director;

“Director” means the Director of the Department responsible for environment;

“environmental inspector” means customs official, police officer or any other officer designated as such by the Minister under the Environment Act;

“essential use” means use of ozone depleting substances for medical, laboratory or analytical use;

“halons” means bromofluorocarbons halons;

“license” means a license issued in terms of these regulations;

“line ministry” means a ministry, department, parastatal or agency in which any law vests functions of the protection, conservation or any management of any segment of the environment or whose activity may have impact on the environment;

“manufacture” includes assemble;

“Non-Ozone Depleting Substance” means all hydrofluorocarbons and Ozone Depleting Substance alternatives specified in Schedule I;

“obsolete agricultural inputs” means expired or rotten or unhealthy agricultural inputs;

“Ozone Depleting Substance” means substances that have potential to deplete the ozone layer as specified in Schedule I;

“permit” means a permit issued in terms of these regulations;

“product” means any appliance, equipment and technology that contains

Ozone Depleting Substance or Non-Ozone Depleting Substances under these regulations;

“production” means amount of controlled substances produced less the amount destroyed by products to be used as feedback in the manufacture of other chemicals, but does not include the amount recycled and reused;

“refrigerant” means a substance, whether part or a mixture that is used as a coolant in a refrigerator, freeze, chiller, cold room dehumidifier, heat pump or an air conditioner;

“Tribunal” means the tribunal established under section 98 of the Act; and

“scientific method” includes a plasma or technology and or incineration method.

Importation, exportation, manufacturing, supplying, distributing and selling of controlled substances and their products

3. (1) A person shall not import, export, manufacture, supply, distribute, sell or use a controlled substance and its product as specified in Schedule I unless the person has been issued with a license or permit.

(2) A person who contravenes sub regulation (1) commits an offence and is liable on conviction to a fine not less than Five Thousand Maloti but not exceeding Fifty Thousand Maloti or imprisonment for a period not less than two years but not exceeding ten years or both.

(3) If the offence is repeated the person shall be liable on conviction to suspension of a license and black listing.

Application for import, export, manufacturing or selling of controlled substances license

4. (1) A person shall not operate a business of importing, exporting, manufacturing or selling a controlled substance and its product unless he has obtained a license for controlled substance and its product.

(2) A person who wishes to operate a business of importing, exporting, manufacturing or selling of a controlled substance and its product shall make an application, in writing to the Director, in accordance with Form A as specified in Schedule II.

(3) The Director shall, where he is satisfied that an application made pursuant to subregulation (2) meets all the prescribed requirements, as specified in Form A Schedule II, issue a license upon payment of a prescribed fee as specified in Schedule III within thirty days, in accordance with Form B of Schedule II.

(4) A license issued pursuant to subregulation (3) shall -

- (a) be valid for a period of one year from the date of issue;
- (b) not be transferable; and
- (c) be in accordance with Form B as specified in Schedule II.

(5) The Director shall, where an application does not meet the prescribed requirement, refuse to issue the license.

(6) Where the Director refuses to issue the license pursuant to subregulation (5), he shall inform the applicant, in writing, within thirty days of his refusal to issue the license, for his reasons for refusing to issue the license.

(7) An applicant may lodge an appeal to the tribunal within twenty-one days of the communication of the Director if he is not satisfied with decision of the Director.

(8) A person who contravenes subregulation (1) commits an offence and is liable on conviction to a fine not less than Five Thousand Maloti but not exceeding Fifty Thousand Maloti or imprisonment for a period not less than two years but not exceeding ten years or both.

Application for import and export permit

5. (1) A person who wishes to import or export a controlled substance and its product specified in Schedule I for essential use or business purposes

shall apply for a permit to the Director.

(2) An application made pursuant to subregulation (1) shall be in accordance with Form C Schedule II, and be accompanied by a prescribed fee in Schedule III.

(3) The Director shall -

- (a) where an application meets the requirements prescribed in Form C prescribed in Schedule II, issue a permit in a accordance with Form D prescribed in Schedule II, upon payment of a prescribed fee in Schedule III;
- (b) decline to issue a permit if it poses danger to the public health and the environment or does not meet the requirements; and
- (c) communicate his decision in writing to the applicant within thirty days.

(4) A person who contravenes subregulation (1) commits an offence and is liable on conviction to a fine not exceeding Five Thousand Maloti or imprisonment for a period not less than two years but not exceeding ten years or both.

Revocation or suspension of a license or permit

6. (1) The Director may suspend or revoke a license or permit where a licensee or permit holder has contravened the -

- (a) provisions of these regulations; or
- (b) conditions set out in the license or permit.

(2) The provisions of regulation 4(7) shall apply where the licensee or permit holder is not satisfied with the revocation or suspension of a license or permit by the Director.

Variation of a license

7. The Director may vary the conditions of a license or permit where -
- (a) an applicant requests that the conditions of the license or permit be varied; or
 - (b) new information, which may affect the conditions imposed on the license or permit becomes available.

Maintenance of Register

8. (1) The Director shall keep and maintain a register of all licenses and permits issued under these Regulations for a period of 5 years.

(2) A register referred to in subregulation (1) may include the following:

- (a) information on every application received;
- (b) a record of a decision to issue, decline, vary, suspend or revoke a license or permit;
- (c) a record of a controlled substance and its product imported, exported, manufactured, sold, disposed of or in use in the country;
- (d) a record of returns made by licensee; and
- (e) any other information that the Director may consider necessary to preserve.

(3) A licensee shall submit reports through electronic means or hand deliver to the Director every six months or as the Director may require in accordance with Schedule IV.

(4) The report shall reflect the activities undertaken by the licensee.

(5) A person who contravenes this regulation commits an offence and is liable on conviction to a fine not less than Five Thousand Maloti but not

exceeding Fifty Thousand Maloti or imprisonment for a period not less than two years but not exceeding ten years or both.

Disposal of controlled substances and products

9. (1) A licensee or permit holder shall ascertain that controlled substance has been recovered from its product before dismantling or disposing it off.

(2) A licensee or permit holder shall -

- (a) dispose of or discard a controlled substance or its product through scientific method; and
- (b) dispose of a controlled substance or its products through delivery to an authorised supplier or purchaser or an approved storage facility.

(3) Subject to subregulation (1), destruction shall be by a manner approved by the Director or in accordance with a scientific destruction method approved by the Montreal Protocol.

(4) These regulations shall not apply to a residual controlled substance and its product in a discarded household product except in a residual controlled substance and its product in a discarded vehicle air conditioning equipment.

(5) A licensee or permit holder shall conduct reclamation of a controlled substance or its product in accordance with a scientific method.

(6) A container used for reclaiming controlled substance shall -

- (a) be marked with a word “recover”;
- (b) state name of an authorised supplier; and
- (c) spell out a warning that the container shall only be used for storage and return of a particular type of a controlled substance or product.

(7) A person who contravenes this regulation commits an offence and is liable on conviction to a fine not less than Five Thousand Maloti but not exceeding Fifty Thousand Maloti or imprisonment for a period not less than two years but not exceeding ten years or both.

Storage of controlled substances and products

10. (1) A licensee or permit holder shall store a controlled substance or its product in a storage facility which -

- (a) is well-protected;
- (b) is well-ventilated;
- (c) is on a dry location;
- (d) is at least three meters from a lighting combustible material such as oil or excelsior;
- (e) has an elevator where applicable;
- (f) has stairs where applicable;
- (g) has a gangway where applicable; and
- (h) has an assigned storage space which shall be located where a cylinder shall not be knocked over or be damaged by a passing or falling object or tampered with by an authorised person.

(2) A licensee or permit holder shall -

- (a) not put a cylinder in an unventilated enclosure such as a locker or cupboard;
- (b) ensure that a cylinder always has a valve protection and a valve protection cap which is secured;
- (c) comply with a safety precaution and instruction provided by a manufacturer during storage; and

- (d) comply with a labelling requirement and instruction of a manufacture in terms of these regulations.

(3) A person who contravenes this regulation commits an offence and is liable on conviction to a fine not less than Five Thousand Maloti but not exceeding Fifty Thousand Maloti or imprisonment for a period not less than two years but not exceeding ten years or both.

Transportation of controlled substances and products

11. (1) The licensee or permit holder shall when transporting a controlled substance and its product -

- (a) secure a cradle, sling board or pallet when a cylinder is hoisted;
- (b) not hoist or transport by means of a magnet or choker sling;
- (c) move a cylinder and any other controlled substance and product by tilting and rolling it on the bottom edge;
- (d) not intentionally drop or strike a cylinder or any controlled substance in such a manner that the product strike each other;
- (e) secure a cylinder or any other controlled substance and product in a vertical position when transporting;
- (f) not use a valve protection cap for lifting a cylinder or any other substance and product from one vertical position to another;
- (g) not use bars under a valve or valve protection cap to pry a cylinder or any other controlled substance and product loose, when frozen;
- (h) use warm and not boiling water to thaw a cylinder loose or any other controlled substance and product;

-
- (i) use a suitable cylinder track, chain, or any other steady-
ing device to keep a cylinder or any other controlled sub-
stance and product from being knocked over while in
use;
 - (j) unless a cylinder is firmly, secured by a special carrier
intended for this purpose, remove a regulator and put a
valve protection cap in place before a cylinder or any
other controlled substance and product is moved;
 - (k) close a cylinder valve when work is finished or cylinder
is empty or moved;
 - (l) secure a compressed gas cylinder in an upright position
except if necessary for a short period of time while a
cylinder is hoisted or carried.
- (2) A licensee or permit holder shall comply with -
- (a) safety precaution and instruction provided for by a man-
ufacturer during transportation; and
 - (b) a labelling requirement in terms of these regulations and
instruction of a manufacturer during transportation.

(3) A person who contravenes this regulation commits an offence and is liable on conviction to a fine not less than Five Thousand Maloti but not exceeding Fifty Thousand Maloti or imprisonment for a period not less than two years but not exceeding ten years or both.

Handling of controlled substances and products

12. (1) A licensee or permit holder shall when handling a controlled substance and its product during transportation, storage and disposal -
- (a) separate a controlled gas cylinder in a storage from a fuel gas cylinder or combustible material especially oil or grease by a minimum distance of three metres or by a non-combustible barrier at least one metre high with a fire resistance rating of at least one and half hour;

- (b) store a cylinder in a well protected ventilated dry location at least three metres from a highly combustible material such as oil or gangway inside a building;
- (c) store a cylinder in a definitely assigned place away from an elevator, stairs or gangway inside a building;
- (d) locate an assigned storage in a place where a cylinder shall not be knocked over or be damaged by a passing or falling object or tempering with by an unauthorised person;
- (e) keep a cylinder in a ventilated enclosure such as a hooker or cupboard;
- (f) provide a fire-resistant shield where there is a likelihood that a spark, hot slag or flame may reach a cylinder;
- (g) place a cylinder where it shall not become part of an electrical circuit;
- (h) place a controlled gas cylinder with a valve up wherever it is in use;
- (i) place a controlled gas cylinder in a location where it shall not be subject to open, hot metal, or any other source of artificial heat;
- (j) not permit a person other than a gas supplier to mix a gas in a cylinder;
- (k) not permit a person other than an owner of a cylinder or a person authorized by an owner of a cylinder to refill the cylinder;
- (l) not use a content of a cylinder for a purpose other than that intended by a supplier;
- (m) always open a cylinder valve slowly to prevent damage to the regulator;

-
- (n) not open a valve on a fuel cylinder more than one and half turns to enable quick closing;
 - (o) not place anything on top of a fuel gas cylinder when in
 - (t) ventilate a box used for storage of a gas hose;
 - (u) inspect a torch in use at the beginning of each working shift for a leaking shut off valve, hose coupling and a tip connection;
 - (v) not use a defective torch;
 - (w) maintain a controlled pressure regulator and its related gauge; and
 - (x) comply with a safety precautions and handling instructions provided for by a manufacturer for any other controlled substance and its product.

(2) A person who contravenes this regulation commits an offence and is liable on conviction to a fine not less than Five Thousand Maloti but not exceeding Fifty Thousand Maloti or imprisonment for a period not less than two years but not exceeding ten years or both.

Servicing air conditioners

13. (1) A person shall not operate a business which deals with air conditioning and refrigeration servicing unless he is -

- (a) registered with the Director; and
- (b) a certified technician with experience and qualifications from an accredited body approved by the line ministry.

(2) A person who contravenes this regulation commits an offence and is liable on conviction to a fine not less than Five Thousand Maloti but not exceeding Fifty Thousand Maloti or imprisonment for a period not less than two years but not exceeding ten years or both.

Labelling

14. (1) An importer, exporter, seller, distributor, supplier or a manufacturer of a controlled substance and its product specified in Schedule I shall ensure that a controlled substance and its product is labelled so as to indicate its identity.

(2) A label referred to in subregulation (1) shall have the following information clearly printed on it:

- (a) common name;
- (b) trade name and names of preparations;
- (c) chemical name where applicable;
- (d) code number, chemical abstract service number;
- (e) bar code;
- (f) use or uses of chemicals;
- (g) name, address, telephonic and fax number of a supplier;
- (h) country of origin; and
- (i) volume or quantity.

(3) An environmental inspector shall confiscate a controlled substance that is not labeled or whose labelling has been tampered with.

(4) Where a controlled substance is confiscated pursuant to subregulation (3), it shall -

- (a) be destroyed at the expense of the importer, exporter or manufacturer; or
- (b) shipped back to the retailer at the expense of the importer, exporter or manufacturer.

(5) A person who contravenes subregulation (1) or (2) commits an

offence and is liable on conviction to a fine not less than Five Thousand Maloti but not exceeding Fifty Thousand Maloti or imprisonment for a period not less than two years but not exceeding ten years or both.

Duties of custom official

15. A custom and excise official shall -
- (a) once a month, submit to the Director a duplicate copy of an export permit or import permit of a controlled substance or its product;
 - (b) record a controlled substance and product export and import;
 - (c) request production of documentation from a controlled substance and product importer or exporter;
 - (d) inspect an ozone depleting substance or a controlled substance and product at the port of entry; or
 - (e) confiscate and at the expense of the importer or exporter, send back or destroy a controlled substance and product imported without a permit.

Records

16. (1) A person who manufactures, distributes, supplies or sells a controlled substance and product shall do the following:

- (a) keep a record of the declaration as specified in Schedule V; and
- (b) submit the record to the Director every six months.

(2) A person who contravenes sub regulation (1) commits an offence and is liable on conviction to a fine not less than Five Thousand Maloti but not exceeding Fifty Thousand Maloti or imprisonment for a period not less than two years but not exceeding ten years or both.

General penalty

17. A person who contravenes the provisions of these regulations, for which no penalty is provided, commits an offence and is liable on conviction to a fine not less than Five Thousand Maloti but not exceeding Fifty Thousand Maloti or imprisonment for a period not less than two years but not exceeding ten years or both.

Transitional provision

18. A person who, at the commencement date of these regulations, is holding a license to which these regulations apply shall within six months of coming into effect of these regulations, apply for a license or permit to the Director.

Repeal

19. The Ozone Depleting Substances Regulations 2012 are repealed.
