

GOVERNMENT NOTICE NO. 6

METROLOGY ACT

(No. 10 OF 2016)

METROLOGY (LICENCE OF COMPETENCY) REGULATIONS, 2021

IN EXERCISE of the powers conferred by section 30 of the Metrology Act, I, ROY AKUJUWE KACHALE-BANDA, Minister of Industry, make the following Regulations—

1. These Regulations may be cited as the Metrology (Licence of Competency) Regulations, 2021. Citation

2. In these Regulations, unless the context otherwise requires—

Interpretation

“licence of competency” means a licence declaring that a person is competent to install, service or repack instruments, weights, and measures regulated under the Act or to operate public weighing instruments for a fee;

“licensee” means a person to whom a licence had been granted under regulations.

3. A person shall apply for licence of competency, in writing, to Malawi Bureau of Standards. Application

(2) The person making the application shall state the name of personnel, affiliated company and area of competence to be assessed

4.—(1) Malawi Bureau of Standards shall, upon receipt of examination fees, examine an applicant with respect to his ability to install, service or repair instruments, weights and measures or to operate public weighing instruments regarding a particular class of instruments, weights and measures for which the applicant applies for a licence of competency. Examination

(2) Malawi Bureau of Standards shall determine the manner in which the examination referred to in subregulation (1) is conducted.

5.—(1) Malawi Bureau of Standards shall issue a licence of competency to an applicant where Malawi Bureau of Standards is satisfied that the applicant has sufficient knowledge of the law relating to weights and measures and the applicant can install, repair or service instruments, weights and measures or operate public weighing instruments regulated under the Act. Issue of Licence

(2) The licence of competency may be issued for all or any particular class of weighing or measuring instruments.

(3) Malawi Bureau of Standards shall issue the licence of competency in the format contained in the First Schedule hereto.

6.—(1) A licence of competency shall be valid for twelve (12) months from the date of issue and shall be renewed each year. Duration and renewal of licence

- (2) Where a licensee applies for renewal of the licence, Malawi Bureau of Standards shall renew the licensee if it is satisfied that the work of the licensee holder is satisfactory.
- Refusal to grant or renew licence 7. Where Malawi Bureau of Standards refuses to grant or renew a licence of competency, it shall inform the applicant or licensee, as the case may be in writing, giving the reasons for the refusal.
- Withdrawal of licence 8.— (1) Malawi Bureau of Standards may at any time withdraw a licence of competency if it is satisfied that a licensee has failed to comply with any law relating to weights and measures.
- (2) Where Malawi Bureau of Standards decides to withdraw a licence of competency, Malawi Bureau of Standards shall advise the licensee in writing of the reasons for the withdrawal.
- Appeal 9. Any person aggrieved by the decision of Malawi Bureau of Standards under these Regulations may, within thirty (30) days, from the day of receipt of the decision of Malawi Bureau of Standards, appeal to the Minister.
- Fees 10. Malawi Bureau of Standards shall, from time to time, determine the fees for examination, issue and renewal of licence of competency.

IN EXERCISE of the powers conferred by section 30 of the Metrology Act, I, ROY AKUJUWE KACHALE-BANDA, Minister of Industry, make the following Regulations—

1. These Regulations may be cited as the Metrology (Sale of Articles) Regulations, 2021. Citation

2. In these Regulations, unless the context otherwise requires— Interpretation

“beer” and “cider” have the meaning ascribed to them in section 2 of the Liquor Act;

Cap. 50:07

“coke” includes any solid fuel derived from coal or of which coal or coke is a constituent;

“consumer package” means a package that is customarily produced or distributed for sale to final purchasers through retail sales agencies or other means;

“dried fish” means fish which has been sun dried or smoked;

“dried fruit” includes candied peel and crystallized or glace fruits;

“fertilizer” means any substance which is intended or offered for improving or maintaining the growth of plants or the productivity of the soil but does not include—

- (a) farmyard, stable or kraal manure;
- (b) compost;
- (c) wood ash;
- (d) gypsum; or
- (e) town refuse or night soil;

“intoxicating liquor” means spirits, beer, cider and wine;

“label” means any written, printed or graphic matter affixed to, applied to, attached to, blown into, formed or molded into, embossed on, or appearing upon a package containing any product for purposes of branding, identifying or giving any information with respect to the product or to the contents of the package; however, an inspector’s tag or other non- promotional text affixed to or appearing on a product shall not be deemed to be a label that requires the label information prescribed by these Regulations;

“meat” means the carcass, part of a carcass or offal of any animal or poultry suitable for human consumption and whether fresh, frozen, chilled, pickled, cured, salted, dried, minced, cooked or manufactured into brawn, polony or sausages;

“milk” means milk, whether pasteurized, separated, skimmed or subjected to any other process but does not include dried, evaporated or condensed milk;

“net quantity” means the quantity of the identified product in the package exclusive of wrappers and any other material packed with such product, unless specifically allowed by these requirements;

“non-consumer package” means any package intended solely for industrial or institutional use or for wholesale distribution;

“person” includes individuals, partnerships, corporations, companies, societies and associations;

“prepacked product” means any commodity that is made up as a unit or entity and for which its quantity has been determined and indicated on its label prior to being offered for sale irrespective of whether such unit or entity is enclosed in a container, wrapped in any manner or unenclosed;

“principal display panel” means the part of a package that is most likely to be displayed, presented, shown or examined under normal and customary conditions of display;

“spirituous liquor” means brandy, gin, rum, cane, vodka or whisky;

“thread” means single, multiple or cabled yarn of any fibre, natural or synthetic, other than wool, which is suitable for sewing, embroidery, crocheting or similar purpose; and

“wool” means yarns—

(a) of natural wool or synthetic fibres; or

(b) of mixtures containing natural wool and additionally or alternatively synthetic fibres, packed and intended for hand-knitting.

3. These Regulations shall apply to measurements used in trade transactions, including products sold in pre-packed form. Application

4. These Regulations cover requirements for— Scope

(a) the labeling of prepackaged products with respect to—

(i) the identification of the product;

(ii) the name and place of business of the manufacturer, packer, distributor, importer, retail; or

(iii) the net quantity of the product; and

(b) tolerances permitted for the accuracy of measurement of products made at the time of sale and when prepackaged, including the application of these tolerances.

5. Any person selling products regulated under the Act and these Regulations shall mark them in the English language. Language

6. A person offering for sale prepacked products, unless the prepacked products are subject to other specific laws or regulations, shall label the prepacked products in accordance with these Regulations. Labelling

7. (1) A person offering a pre-packed product for sell shall ensure that— Identity

(a) the principal display panel on a prepackage shall bear a specification (description) of the identity of the product unless the wrapper is transparent, thus rendering the product easily identifiable;

(b) the identity of the product shall be a conspicuous feature of the principal display panel and shall be in such font-size and so positioned as to make it easy to read and understand; and

(c) the identity of the product shall be in terms of at least one of the following designations, in order of preference—

(i) the name specified in or required by any applicable law or regulation;

(ii) the common or usual name of the product; or

(iii) the generic name or other appropriately descriptive term such as a specification which includes a statement of function.

(2) Subregulation (1) shall not apply to consumer packages which have been packed on the retail premises at which they are being sold and are displayed in such a manner that the purchaser serves himself with a sign clearly identifying the product according to subregulation (1), clearly displayed in close proximity to the packages.

Name and
place of
business of
the
manufacturer,
distributor or
importer

8.— (1) Any manufacturer, packager, distributor, packer, or importer shall mark his name and place of business as follows—

(a) the label of a prepackaged product shall specify conspicuously the name and address of business of the person responsible for any of the following: manufacturing, packing, distributing, importing or retailing the product:

Provided that where the product is not manufactured or packaged by the person whose name appears on the label, the name may be qualified by a phrase that reveals the connection the person has with the product, for example- “manufactured for”; “distributed by”; “marketed by”; “imported by ... “ or “sold by ...”;

(b) the statement of the place of business shall include a complete physical address or mailing address or both. This may be an address of a head office provided that the responsible person at such head office is able to identify the address of the packaging plant; and

(c) where a code is used to identify a packing plant, the manufacturer shall disclose the meaning of the code to any inspector requiring it.

(2) The requirements of subregulation (1) shall not apply to consumer packages that have been packed on the retail premises at which they are being sold.

Declared net
quantity of
the
prepackaged
product

9.—(1) A person offering a pre-packed product for sell shall ensure that label of a prepackaged product, except a label on a surface clearly intended as a base, bears a declaration of the net quantity of the product in a unit of measurement and according to the requirements specified in the First Schedule to these Regulations or by number, as applicable.

(2) A person offering a pre-packed product for sell shall ensure that any consumer prepackage does not bear a declaration of its gross mass inclusive of the mass of wrappers or any material packaged with the product; the net quantity is marked on the prepackages at the initial place of packaging or at importation:

Provided that—

(a) a consumer package may be marked at the place of retail sale if there is a written agreement between packer or importer and the seller that the packages shall be marked by the seller;

(b) a prepackage, contained in a correctly marked outer container which is likely to be opened in the retail for individual sale of the

prepackage therein, shall each be marked with a quantity indication according to this requirement unless exempted;

(c) a consumer package required to bear a quantity declaration, which has been packed on the retail premises at which they are being sold, need not be marked when displayed for sale in close proximity to a conspicuous notice clearly identifying the article and stating its quantity. A suitable legal measuring instrument shall be made available at such retail premises for consumers to check the quantity of such unmarked packages;

(d) where a package contains a number of items, which have themselves been prepacked according to the requirements of these Regulations, the outer container need only indicate the number of items and their individual quantity:

Provided further that where the items have different quantities, the outer container shall indicate the number of items of each quantity and their respective quantities and shall also comply with regulations 7 and 8; and

(e) a non-consumer package may be sold unmarked if a total quantity is marked on the outer packaging or is disclosed on an invoice or delivery note.

10. A person shall take note of the special requirements for products specified in the Second Schedule and of the regulations and the exemptions from quantity specified in the Fifth Schedule hereto.

Special
requirements

11. A person shall ensure that the net quantity is expressed in terms of the largest whole unit of mass, volume, length, area, or a combination of these units in accordance with First Schedule hereto:

Expression of
quantity

Provided that where the quantity is indicated on a label printed by a measuring instrument approved for trade use, the quantity may be expressed as a decimal fraction of a measuring unit.

12. A packer shall ensure that the net quantity statement for a specific product is expressed in the most appropriate measuring unit subject to the following rules or unless otherwise specified in the Fourth Schedule with respect to—

Net quantity
statement of
specific
products

(a) volume, at 20 °C where the product is liquid or viscous in its normal state of use. When packed in a consumer package, products sold by volume, such as ice cream, which require chilling to maintain their consistency or composition in which they are normally used, are marked with the volume at the temperature at which they are normally required to be kept. The reference temperature need not appear on the label;

(b) mass, where the product is solid, semi-solid or viscous, a mixture of solid and liquid, or the solid part of a mixture of a solid and liquid (drained mass);

(c) length, in micrometres when expressing thickness less than 1 mm for some products such as polyethylene films; and

(d) quantities, based firmly on established general consumer usage and trade custom, where such quantities provide accurate and adequate information to the purchaser.

Pressurized
product

13.— (1) A packer shall ensure that the statement declares the net quantity in mass or volume that will be expelled when the instructions for use are followed where a product packed in a container is designed to be delivered under pressure.

(2) A packer shall include in the quantity statement the propellant where the propellant is expelled with the product.

(3) Statements of quantity shall be the kilogram, gram or milligram, litre, centilitre or millilitre.

Size
expressed in
units of
length or area

14. A packer shall ensure that a statement of size expressed in measuring units of length or area on or in respect of any manufactured known.

Statement of
mass on sugar
or chocolate
confectionery

15. A packer may include a statement of mass with reference to a quantity of sugar or chocolate confectionery consisting of a collection of small units individually wrapped on the immediate wrappings of the units.

Sale of gas or
liquid fuel

16. A Manufacturer may mark cylinders used for the sale of a gas or liquid fuel by mass may with the maximum filling mass and where that actual net mass of the contents is not declared on a label attached to the cylinder, the contents shall, when sold, be deemed to be equivalent to the marked maximum filling mass.

Free quantity

17.—(1) Where prepackages contain a free quantity of the same type of product as an integral part of the contents, the quantity excluding the free quantity, a packer shall declare on the package the total quantity contained in each package according to requirements of these Regulations.

(2) The quantity declared in subregulation (1) shall be in the same measuring unit or multiplies or sub multiplies thereof.

(3) The total quantity contained in the package as declared in subregulation (1) shall conform to applicable requirements for accuracy of measurement.

(4) Where specific quantities are prescribed for a product in Annex IV, the packer shall indicate the prescribed quantity, excluding the free quantity.

(5) The statement of quantity on a package to which a free quantity of the product is attached as a separate component, shall indicate the quantity of such package exclusive of such free quantity.

The packer,
in the
Statement by
count

18. The packer shall express the statement of quantity in terms of count in whole numbers.

Presentation
of
information

19. A packer shall present the information in the following manner—

(a) a statement of a quantity less than a whole number may contain decimal fractions to no more than three places:

Provided the declaration complies with regulation (20) and Table B contained in the First Schedule hereto.

(b) a statement of net quantity shall appear in easily legible bold face type or print that contrast conspicuously with the background and with other information on a package:

Provided that where the value of the net quantity is blown, embossed or moulded on the surface of the prepackage it need not contrast with the background and all other required label information shall be provided conspicuously elsewhere on the surface or on the label; and

(c) a statement of net quantity shall be in letters and numerals in a minimum type size determined according to the requirements of contained in the Second Schedule hereto.

20.—(1) A packer shall ensure that the number used on a label shall be shown to not more than three figures irrespective of where the decimal indicator is placed, subject to the following exceptions—

Significance
of numbers
on labels

(a) where permitted in Table A.2, a statement of a quantity less than a whole number may contain decimal fractions up to three places, for example 0.355ml;

(b) where the quantity is indicated on a label printed by a measuring instrument approved for trade use, the quantity may have more than three figures, for example 1,355kg; and

(c) a quantity of less than a whole number permitted in Table A.2 shall be shown in the decimal system with the figure zero preceding the decimal mark;

(2) The packer shall not use statements such as “half kilogram” or common fractions.

21. A packer shall only pack certain products, if contained in a consumer package, in the sizes prescribed in the Fourth Schedule hereto except for consumer packages that have been packed on the retail premises where they are being sold.

Prescribed
quantities

22. A manufacturer, packer or seller shall ensure that a package is manufactured, constructed or displayed in such a manner that a purchaser is not reasonably misled with respect to the quantity or identity of product contained therein and—

Misleading
practices

(a) a package shall be filled in such a manner that a purchaser is not reasonably misled with respect to the quantity or identity of the product they contain, taking into consideration any recognized and accepted production practices that may be necessary for the manufacturer or packer:

Provided that where a consumer cannot fully see the product in a prepackage, it shall be considered to be filled, and shall be misleading where it contains non-functional slack fill. Slack fill is the difference between the actual capacity of the packing material and the volume of product it contains. Non-functional slack fill is the empty space in a

prepackage that is filled to less than its capacity. Slack fill may be necessary for the following reasons—

- (i) protection of the product;
 - (ii) the requirements of machines used for enclosing the contents of the prepackage;
 - (iii) unavoidable product settling during shipping and handling; or
 - (iv) the need for the prepackage to perform a specific function (for example, where packaging plays a role in the preparation or consumption of a food), where such function is inherent to the nature of the product and is clearly communicated to consumers;
- (b) a prepackage shall not have a false bottom, sidewalls, lid or covering, or be otherwise so constructed or filled, wholly or partially that may deceive the consumer;
- (c) where a prepackaged product is labelled on more than one location of its package, the quantity information on all labels shall be equivalent and in accordance with these requirements;
- (d) a prepackaged product which is permitted to be sold other than by reference to a measuring unit or number (for example, exempted from a quantity indication) shall bear no direct or indirect reference alluding to quantity in terms of any measuring unit or by number, including numbers which might be construed as such a reference, unless the indication conforms to these regulations, is unambiguous and the actual quantity conforms to any applicable tolerance requirements;
- (e) whether marked by mass or volume—
- (i) metal aerosol containers shall be filled to at least 60 % of their nominal volume with a product including propellant as stated in regulation 13 in its liquid phase; or
 - (ii) bi-compartmental aerosol containers in which the propellant is separated from the product, shall be filled to at least 50% of the available capacity with product (excluding propellant); and
- (f) meat products shall not be injected with any liquid or substance for the sole purpose of increasing the mass of the product.

Authorization
to deviate
from
Regulations

23. The Director General—

- (a) may give written permission to deviate from the requirements of these regulations as he may deem fit and under any conditions that he may deem necessary, unless the requirements of subregulation (b) apply; and
- (b) shall not give permission for the sale of any pre-packed products that are deficient of the quantity marked on the packages unless—
- (i) he receives a guarantee to the effect that the sale is to an end user and not for resale; or
 - (ii) the purchaser and seller agree to such sale.

FIRST SCHEDULE
UNITS OF MEASUREMENT AND SYMBOLS

1. A unit of measurement shall be expressed in either words or symbols as in Table A below—

Table A: Units of Measurement

Unit	Symbol
milligram	mg
gram	g
kilogram	kg
tonne	t
hectolitre	hl or hL
litre	L or l
centilitre	cL or cl
millilitre	mL or ml
micrometre	μm
millimetre	mm
centimetre	cm
decimetre	dm
metre	m
square millimetre	mm^2
square centimetre	cm^2
square metre	m^2
cubic centimetre	m^3
cubic decimetre	dm^3
cubic metre	m^3

2. A period (full stop) or the letter "s" shall not be used after any of the symbols.
3. A single space shall be used to separate the number from the unit of measurement.
4. Appropriate phrases such as "net", "net mass", "net contents" or "net quantity" may be used in connection with the net quantity declaration. Such phrases may appear either before or after the net quantity declaration.
5. The words "approximately" and "when packed" shall not be used in the declaration of net quantity unless specifically permitted for certain products.
6. A unit of measurement used shall depend on the type of measure and net quantity of the product as specified in Table B below—

2. Where the net content appears on a stick on label printed by a measuring instrument approved for use in trade, the height of the indication shall be not less than or need exceed 2 mm irrespective of the quantity of the contents.
3. Where the label in clause 2 also bears a price description, the price description shall not exceed twice the height of the net quantity indication.
4. For a prepackaged product bearing a net quantity indication in units other than those in clause 1, the minimum height of the letters and numerals used in the net quantity indication shall be based on the longest dimension of the prepackage, either diameter, height, length or width, according to Table B below, except where clause 5 applies.

Table B: Minimum height of numbers and letters

Maximum package dimension (D) in millimetres	Minimum height of numbers and letters in millimetres
$D \leq 200$	3
$200 < D \leq 300$	5
$300 < D \leq 500$	10
$500 < D$	20

5. (a) Where the net content appears on a stick on label printed by a measuring instrument

Table B: Choice of Units

Type of measure	Net quantity of product (q)	Units
Volume (liquids)	$q < 1000\text{mL}$ $1000\text{mL} \leq q < 100\text{L}$ $100\text{L} \leq q$	mL (ml) or cL (cl) L (l) or hL (hl)
volume – cubic (solids)	$q \leq 1000\text{cm}^3$ (1 dm ³) $1\text{dm}^3 < q < 1000\text{dm}^3$ $1000\text{dm}^3 \leq q$	cm ³ , mL (ml) dm ³ , L (l) m ³
mass	$q < 1\text{g}$ $1\text{g} \leq q < 1000\text{g}$ (1kg) $1\text{kg} \leq q < 1000\text{kg}$ $1000\text{kg} \leq q$	mg g kg kg or t
length	$q < 1\text{ mm}$ $1\text{mm} \leq q < 1000\text{mm}$ (100cm) $100\text{cm} \leq q$	μm or mm mm or cm m
area	$q \leq 100\text{cm}^2$ (1dm ²) $1\text{dm}^2 < q < 100\text{dm}^2$ (1m ²) $1\text{m}^2 \leq q$	mm ² or cm ² dm ² m ²

7. The decimal indicator shall be either the comma or a dot on the line.
8. A prepacked product may be marked with an equivalent quantity statement in a non SI unit provided that the equivalent statement may not be more prominent or appear more times than the required metric statement.

SECOND SCHEDULE

(reg. 10)

SIZE OF LETTERS AND NUMERALS FOR
STATEMENTS OF NET QUANTITY ON CONSUMER PACKAGES

1. For prepackaged products bearing a net quantity indication in units of mass, volume or volume in cubic measure, letters and numerals used in the net quantity indication shall have a minimum height as prescribed in Table A, except where clause 2 is applicable.

Table A: Minimum height of numbers and letters

Net contents (C)	Minimum height of numbers and letters in millimetres
$C \leq 50\text{g}$ or mL	2
50g or mL $< C \leq 200\text{g}$ or mL	3
200g or mL $< C \leq 1\text{kg}$ or L	4
1kg or L $< C$	6

3. Drained mass

- (1) Where a solid foodstuff is packed in a liquid medium, the drained net mass of the foodstuff shall be indicated on the label in addition to the total net mass. A liquid medium means the following products, possibly in mixtures and also where frozen or quick-frozen:

Provided that the liquid is merely an adjunct to the essential elements of that preparation and is thus not a decisive factor for the purchase: water, aqueous

37	Paper products: (a) tissue paper which is sold as or under the name of toilet paper or which has the appearance of toilet tissue paper when wound in the form of a roll with a width not exceeding 140 mm- (i) perforated Rolls; or (ii) unperforated Rolls; (b) sheets of paper being facial tissues, serviettes or towels whether separate or joined in the form of perforated packs or rolls; (c) paper being wrapping, drawing, reproduction and paper used for a similar purposes including facsimile paper- (i) sheets (ii) rolls	Sheet count, paper ply and length and width of individual sheets Paper ply and length and width of the roll number, provided that the ply and finished size per sheet shall also be indicated Number and sheet size provided that the thickness or density shall also be indicated where necessary to gauge suitability for a specific purpose Width and length provided that the thickness or density shall also be indicated where necessary to gauge suitability for a specific purpose	200 sheets and a multiple of 100 sheets above 200 sheets - - -
38	Peanut butter	Mass	-
39	Polishes in paste, wax or liquid form	Mass or Volume	any quantity less than 10g or mL, then in integral multiples of 5g

			or mL from 10g or mL up to and including 100g or mL, then in integral multiples of 25 or mL above 100g or mL up to and including 1kg or L and integral multiples of 250g or mL above 1kg or L
40	Polyolefin compounds in the form of coloured membrane for damp-proofing, water-proofing or agricultural use and similar polyolefin based products which have the appearance of such membranes excluding made up articles produced from such membrane	Length: provided that the width, minimum thickness and net mass shall also be indicated and provided further that no point on the surface of the membrane shall be thinner than the minimum thickness indicated	-
41	Poultry, including when processed or enhanced in any manner	Mass provided that whole birds may be packed in mass bands and marked with the lowest mass of each band. Bands shall be as follows: - Below 1.1kg in 50g bands starting with either 100g or 50g for example birds marked 900g shall weigh between 900g and 949g - 1.1kg and above in 100g bands starting from 1.1kg for example birds marked 1.2kg shall weigh between 1.2kg and 1.299kg	-
42	Rice	Mass	any quantity less than 10g, then in integral multiples of 5g from 10g up to and including 100 g, then 125g, 200g, 250g, 500g, 1kg, 2kg, 2.5kg, 4kg, 5kg, 10kg and integral multiples of 1kg above 10kg
43	Rope, cordage and twine	Mass or length	-
44	Salads	Mass provided that if sold as part of a meal salads may be sold per portion without reference to the mass	-

45	Salt	Mass	any quantity less than 10g, then in integral multiples of 5g from 10g up to and including 100g, then 125g, 200g, 250g, 500g, 750g, 1kg and integral multiples of 1kg above 1kg
