NAMPOST TARIFF ADJUSTMENTS FOR 2007/8

Namibia Post Ltd wishes to inform you that its annual tariff adjustments will become effective on 01 October 2007, in line with the commencement of its new financial year.

During previous years, NamPost committed itself to future increases that are broadly in line with inflationary expectations (CPI) and the cost of doing business, generally, especially on business lines with an international component. The latter specifically relates to mail to and from international destinations. NamPost anticipates CPI to increase to 7.5% over the next 12 months, but with higher increases in the national transport sector as a result of higher, and ever escalating, energy costs due to the increasing oil price.

For this reason, the basis of the tariff adjustments for this year is inflationary increase. It is worth noting that the current tariffs of some items are decreased and for some other items there is no tariffs increase.

The following are the main proposed price changes in the products and services offered by NamPost for the 2007/8 financial year:
