#### EXPLANATORY NOTE

The Minerals Regulations provide for the lodging of applications for mining and prospecting land and withdrawals thereof with Residents. The posts of Residents have been abolished in the Eastern and Western Regions and it is necessary to amend the regulations to ensure a uniform procedure for the receipt of applications. As mining is a Federal subject this can best be effected by making provision for the lodging of applications and their withdrawals with officers of the Mines Division of the Ministry of Mines and Power.

2. Regulation 28 of the Minerals Regulations sets out the minimum expenditure to be incurred in prospecting under an exclusive prospecting licence. Regulation 7 of these regulations adds a proviso to the effect that expenditure incurred between the making of an application and the grant of a licence may be included in the first year's expenditure.

3. Regulation 58 of the Minerals Regulations provides that for the purpose of section 66 of the Minerals Ordinance no person shall be considered a duly authorised employee unless he is authorised in writing or is a registered tributer. Regulation 8 of these regulations introduces a reference to an authorised agent in the same context.
