Contracts less than £500 will be awarded by rotation, but those between £501 and £2,000 will be arranged by Departmental Tenders Board as in the past. Separate lists of suppliers of local materials will be kept in the Works Formations.

9. A contractor who fails to complete a contract or whose workmanship or performance during the period of the contract has been the subject of complaint by a Supervising Officer may be required to give a written explanation to the Federal Works Registration Board which will consider each case on its merits and take appropriate disciplinary action which may include the removal of the contractor's name from the Register. Contractors who on their application forms give information subsequently found to be false will be disqualified.

10. Appeals against the decision of the Federal Works Registration Board should be addressed to the Commissioner for Works and Housing through the Secretary to the Board.

(b) Separate registers are to be opened for contractors who engage in building, civil engineering, mechanical engineering and electrical installations works. Those interested in more than one trade may apply for registration in those trades.

(c) All contractors on the Federal Works Register are required to re-register under the new "Rules". The old Register remains operative until a new one is compiled and published.

(d) In contracts of large magnitude, it will henceforth be obligatory on the successful tenderers to use reliable indigenous contractors as sub-contractors, provided that this will not involve delay or increase in cost.

(e) Where competitive tendering is open to only Nigerian contractors, steps will be taken to ensure that the awards are made to truly indigenous contractors.
