*Government Notice No. 1912***ID-EL-FITR PUBLIC HOLIDAYS FOR 1972**

In view of the variable nature of the dates on which Muslim Festivals are celebrated, it has always been difficult to fix public holidays to coincide with the exact dates. After consultations last year with the Muslim Communities all over the country, the dates to be observed as public holidays for the 1972 Id-El-Fitr were released for purpose of official calendar and almanacs as the 8th and 9th of November, 1972. As the Ramadan Fast in most parts of the Federation commenced this year on Sunday, 8th October, it is probable that Id-El-Fitr will fall on the 6th or 7th of November, 1972.

The purpose of declaring the public holidays is to enable Muslims to attend to their Religious and traditional obligations on these dates. It is therefore found necessary to alter the dates previously declared and announced.

Monday 6th and Tuesday 7th November, 1972 are now declared as public holidays throughout the country in observance of Id-El-Fitr. Wednesday 8th and Thursday 9th previously announced will no longer be observed as public holidays. Any inconvenience which this change may cause is deeply regretted.

Federal Ministry of Internal Affairs, Lagos.

*Government Notice No. 1753 (4th publication)***INCOME-TAX CAPITAL ALLOWANCE AND INDUSTRIAL INSPECTORATE DECREE NO. 53**

The attention of the Director of Industrial Inspectorate Division, Federal Ministry of Industries has been drawn to the practice by a few companies who have submitted their end of financial year's accounts for tax purposes without attaching Acceptance Certificates to substantiate their newly incurred expenditure. The public is hereby reminded that for companies' tax purposes, the granting of capital allowance on new or additional capital projects worth not less than £10,000 is subject to the presentation to the Board of Inland Revenue an Acceptance Certificate issued in respect of the value of the project by the Director, Industrial Inspectorate Division, Federal Ministry of Industries. Companies

are requested to acquaint themselves with the provisions of section 3 of the Industrial Inspectorate Decree No. 53 of 1970 and are hereby warned that the Director would not hesitate to invoke section 3 (4) of the said Decree, which provides for a fine of £500 if it is proved on investigation that he was not notified of a company's intention to incur new/ additional capital expenditure worth £10,000 and above.

*Government Notice No. 1914***BLOCKS OF OFFICES FOR FEDERAL MILITARY GOVERNMENT OF NIGERIA SECRETARIAT PROJECT, LAGOS****AIR CONDITIONING AND ELECTRICAL INSTALLATIONS**

The Federal Military Government proposes to build multi-storey blocks of offices in Ikoyi, Lagos, through international tendering procedure which allows companies/firms in Nigeria or overseas to tender for this project on a competitive bidding basis. Contractors registered in Category B of the Mechanical and Electrical Register of the Federal Works Registration Board who wish to be considered for the issue of the tender documents should indicate their interest by forwarding letters of intent clearly marked "THE SECRETARIAT PROJECT" and addressed to the Permanent Secretary, and marked for the attention of the Director of Mechanical and Electrical Services, to reach him not later than Saturday, 25th November, 1972.

2. An architect's representation of the blocks of offices may be seen at the office of the Chief Project Architect, Room 130, Federal Ministry of Works and Housing, Race Course, Lagos, during office hours.

3. Letters of intent should contain amongst other things the following details which would be used as criteria for pre-qualification of tenderers:—

(a) Experience of previous air conditioning and/or electrical installation projects of a similar nature and similar magnitude undertaken, indicating the name and address of client. A vivid description of the project(s) should be given together with photographs, if available.

(b) Executive capacity in respect of experienced and qualified personnel, equipment and plant.

(c) Financial capacity to undertake the project successfully.

4. The Federal Military Government is not bound to execute this project through the international or any other tender procedure and reserves to itself the right to execute the project in any manner which it considers most satisfactory.

Date issued.—24th August, 1972.

Closing date.—19th October, 1972.

Duty station.—Mogadiscio, Somalia.

Duration.—2 years.

Starting date.—As soon as possible.

Background.—The project is for a pilot farm of 100 ha. to prepare necessary data for the development of a further 3,000 ha. farm to be located in the Afgoi-Mordille area. The project is a follow-up of the UNDP/FAO project for Water Control and Management of the Shebelli River (SF/SOM/10), which was part of the Short-Term Development Programme of the Somali Dem. Republic. The current Development Programme lists among its objectives improvements in basic services to livestock and agriculture. The aim of the project is to provide essential information on various aspects of irrigated crop production under local conditions; the pilot project will supply ancillary information on aptitude and ability of the farmer and his family, labour inputs, timing of field operations and farm economics.

Duties.—The expert should be experienced in the practical and theoretical aspects of irrigated field crop agronomy under tropical conditions, especially with cotton, rice, groundnuts and maize. He should also have experience in the design and lay-out of an experimental field programme, both in crop

agronomy and in plant-water-soil relationships. It is desirable that he has experience with agricultural machinery for land preparation and sowing of cereal crops.

Qualifications.—University degree in Agriculture with specialization in Agronomy.

Experience.—Seven years' experience in Irrigation Agronomy.

Language.—Good knowledge of English.

Duration.—3 years.

Starting date.—1st January, 1973.

Background.—Phase II is to continue activities initiated in two-year project aimed at increasing the production of high quality forage to increase livestock production. Research programmes are reasonably well established and emphasis is being shifted to putting the results into practice through demonstration, extension programmes with direct farmer involvement and increasing supplies of improved seed and planting materials.

Duties.—Be responsible for detailed planning, administration and execution of the Project including timing and budgeting of the various elements and preparation of technical reports.

Determine training standards and guide the training of counterpart personnel including selection of fellowship candidates.

Be responsible for all material, equipment and transport and the local disbursement of any funds furnished to the Project through FAO.

Co-ordinate, as judgement indicates, the effects of project personnel with that of other agencies or projects whose activities bear on this project.

Assist Government in the technical aspects of forage production, including development of demonstration stations, extension activities, seed production and practically orientated research.

Qualifications.—University degree in agriculture, with specialization in forage and grazing management and extension practices.

Experience.—At least 10 years experience with fodder production in sub-tropical or tropical areas.

Language.—Good knowledge of English.

Other.—Experience in administration of extension, demonstration and research related to fodder production. Graduate degree to the Ph.D. is preferred.

ANNOUNCEMENT OF FIELD POST VACANCY IN THE FOOD AND AGRICULTURE ORGANIZATION OF THE UNITED NATIONS

Post title (Post No., Project).—AGRICULTURAL AGROMETEOROLOGIST Development of Oil Palm Product (MALAYSIA 29).

Vacancy announcement.—No. 879-AGP-152.

Date issued.—4th September, 1972.

Closing date.—30th October, 1972.

Duty station.—FLDA. Res. Centre, Tekam 150 miles north-east of Kuala Lumpur.

Duration.—2 years.

Starting date.—As soon as possible.

Background.—The Federal Land Development Authority plans to develop new settlements for palm oil production in some 59 acres comprising 250,000 acres throughout West Malaysia during the period 1971-1975. The location of these settlements, which will be exploited by farmers receiving 10 acres each, will be based on suitable soil and climate conditions.

Detailed studies on palm production will have to take particularly into account the influence of meteorological factors on palm behaviour as well as soil physics in relation to water and fertilizer movements; the amount of information to be gathered will require for its analysis and interpretation modern computation methods.

Duties.—The agrometeorologist to be recruited will have to act as team leader of the 3 specialists already provided by the Malaysian Government, and who work in the following disciplines:

Agricultural biometeorology;

Hydrology and soil physics;

Systems analysis and data processing.

Besides his general mission of co-ordinating the above studies, his function will be to provide climatological advice and biometeorological interpretation for use in connection with land use planning management of settlement scheme and day to day operating and marketing decisions.

This work will include the establishment of a central station and of network of substations throughout Malaysia, and the analysis of the biometeorological data in relation to palm development growth and yield.

Qualifications.—Degree in agronomy with specialisation in agricultural meteorology.

Experience.—7 years in tropical areas.
