14th September, 1977

UNESCO

UNITED NATIONS DEVELOPMENT PROGRAMME
APPOINTMENT*

1. *Title of post:* Expert in the Development of a Media Resources Centre for Technical Education (P. 4/P. 5).

2. *Location:* School of Technology, Kwara State College of Technology, Ilorin, Nigeria.

3. *Background*

The School of Technology of the Kwara State College of Technology was established in 1974 in response to a perceived need for high quality technicians and technologists in Nigerian industry and for the extensive infrastructure required to support Nigeria's development. During the first year (1974-75) it offered three training courses: during the current year (1977-78) it will offer eleven. The student body has expanded from 68 to over 700.

The courses of the School of Technology are innovative and distinctive in several respects:

(a) The School of Technology has developed a "sandwich" course structure involving extensive exposure to and participation of students in industrial activities for two periods of six months each interspersed among seven terms of on-campus training during a three-year ordinary diploma course. This course structure has been enthusiastically received by employers, but each course must be perfected in terms of curriculum and content together with the corresponding programme of workshop and laboratory practice.

(b) The School of Technology is committed to a philosophy of formally instilling an entrepreneurial spirit into the minds of its students technicians and technologists. The object is to motivate them to establish co-operative industrial ventures. Consequently, and in a radical departure from convention, the School is establishing commercially operated and viable Industrial Units within the College so that students can be taught in a production atmosphere, where they are exposed to all facets of commercial operations while at the same time undergoing formal theoretical and practical training. Three such units are being established now, namely the Automotive Service Unit, the Electronics Industrial Unit, and the Furniture Industrial Unit, while five additional units are to be established by the end of the 1978-79 session.

Another distinctive feature of the training scheme is the establishment of strong links with various industries in order to afford the College the opportunity of continuously monitoring their needs and the relevance of training schemes to those needs. These contacts also give these industries access to the consultancy services of the Industrial Units, and short term training programmes to be organized periodically by the School.

The designs for the permanent buildings have been completed and construction is expected to commence in May, 1977, with progressive occupation from the beginning of the 1978/79 session. Workshop and laboratory layouts will be formulated, equipment specifications will be established, and equipment will be purchased and installed.

An overall staff development programme is an essential activity of the project. The establishment of a Media Resource Centre is seen as an important facility in the development of the teaching at technician level, particularly of the laboratory and practical work. The Centre will have overall responsibility for media resources, pedagogical training and staff development.

The UNDP/UNESCO technical assistance in the second phase will have a duration of 3-1/4 years starting September 1977. Four experts, one in Mechanical Technology, one in Electrical Technology (also Chief Technical Adviser), one in Civil Construction Technology and one in Technical Education/Media Resource Centre Development will serve during this period. A total of 49 man-months of consultancy services and 96 man-months of fellowship will complete the UNDP/UNESCO assistance.

4. *Functions*

Under the general guidance of the Chief Technical Adviser, and in close collaboration with the Director of the School

of Technology and with national counterpart(s), the expert will assist in:

- (a) the development of the Media Resource Centre;
- (b) the development of programmes and resources for the training of the teaching staff of the school of Technology, including the conduct of special programmes on teaching methods, the production and utilization of media resources, etc.;
- (c) the preparation of equipment list;
- (d) the installation of equipment and putting it into operation;
- (e) the organization of appropriate training programmes for national counterpart (s) and
- (f) prepare such reports and undertake such additional duties in keeping with his qualification as may be required by the Organization.

5. *Qualifications*

- (a) A university degree or the equivalent in educational technology;
- (b) a diploma or experience in one of the technical fields of the project: electrical and electronic, or mechanical, or civil technologies (and preferably the latter);
- (c) experience in educational technology applied to technical education with emphasis on the training of technical teachers and in the use of modern learning and teaching methods;
- (d) experience in the development of media resource centres including administration, installation, training of personnel etc.;

(N.B.) The credentials in (a) and (b) may be reversed; in other words the applicant may offer a university degree or the equivalent; in one of the technical fields of the project, preferably civil engineering; and a diploma in educational technology supported by the experience of (c). (d)

6. *Language qualifications:* English.

7. *Duration of appointment*

One year starting as soon as possible, with the possibility of renewal

8. *International salary and allowances (P. 4/P. 5):*

(Net of national income tax—25% payable in the currency of the duty station and the rest in a currency of the staff member's choice).

(Net base salary per annum: the equivalent of \$21,756/26,299 \$20,209/24,298 if without dependants).

Post adjustment (cost of living, subject to change without notice), as of 1st January, 1977 the local equivalent of plus \$3,062 3,661 (\$2,845/3,382 if without dependants).

Assignment allowance: the local equivalent of \$2,000/2,400 (\$1,600/1,900 if without dependants).

Family allowances: each dependent child \$450 (if there is no dependent spouse, this indemnity is not payable in respect of the first dependent child).

Travel is provided for the staff member and his family (spouse and recognized dependants). In addition, UNESCO contributes towards the cost of installation at the duty station and to the education of dependent children. On separation from UNESCO, a repatriation grant is paid.

Closing Date

Applications should reach UNESCO, 7 Place de Fontenoy, 75700 Paris, France, no later than 30th November, 1977. They should be addressed to the Bureau of Personnel which will transmit them to the Field Staff Recruitment and Administration Division (CPX/RAD) to which all ensuing correspondence concerning this post should be sent. Candidates applying for this vacancy should forward a curriculum vitae filled out in English.

Applications should be made on UNESCO Curriculum Vitae forms obtainable from the Secretary, Sierra Leone National Commission for UNESCO, Ministry of Education, New England, Freetown.

Completed applications should be forwarded through the Secretary, Sierra Leone National Commission for UNESCO and should reach him not later than 25th November, 1977.

UNITED NATIONS DEVELOPMENT
PROGRAMME APPOINTMENT

1. *Title of post:* Specialist in Mechanical Engineering, (P. 4/ P. 5)
2. *Location:* Derrick Technical Institute, Suva, Fiji.
3. *Background*

The Derrick Technical Institute was opened in 1963 and was expanded in 1968. In 1966 two-year, full-time courses were started for technicians in electrical engineering and building/civil engineering. In view of the increasing demand for technicians it has now been decided to expand the range of courses offered and to re-design them to meet the specific requirements of Fiji's growing industries. At the same time additional emphasis will be placed on practical orientation of the courses, with at least 50% of the students' time being spent in workshops and laboratories.

The Government of Fiji is at present implementing an expansion programme, the buildings and equipment being estimated to cost \$2,815,000. The extensions to be completed in phases from 1974 to 1977.

An extensive programme of staff development is to be implemented covering both academic and practical training in order to ensure an adequate supply of locally trained personnel to operate the courses.

4. *Functions*

Under the overall guidance of the Principal of the Derrick Technical Institute and the general supervision of the UNESCO Team Leader, the incumbent will collaborate closely with the Head of School of Mechanical and Electrical Engineering and carry out the following activities:

- (a) assist in assessing the needs for mechanical engineering technicians and tradesmen throughout the public and private sectors in Fiji;
- (b) advise on and assist in the development of curricula, syllabi and training programmes in his field, including integrated practical and in-service industrial training, and in discussing them with the employers;
- (c) advise on and assist in strengthening the teaching of the courses giving particular attention to the practical work and undertaking teaching required and to the extent made possible by his other duties;
- (d) advise on and assist in the preparation and implementation of the staff development programme including academic pedagogical and practical training for in-service and pre-service teachers;
- (e) assist in the preparation of appropriate equipment lists for the workshops and laboratories, in installation plans for such equipment and in the checking and commissioning of incoming equipment;
- (f) assist in the further development of liaison with industry and the practical training of students in industry including proper supervision of such training;
- (g) advise on the design of appropriate certification schemes for Fiji;
- (h) participate in the development of student assessment schemes including examinations, tests and courses;
- (i) assist in the selection of fellows and the drawing up of their study programmes;

- (j) supervise and guide the work of any associated expert who may be appointed in fields related to the expert's speciality;
- (k) report on the development of the project in his speciality to the UNESCO Secretariat through the UNESCO Team Leader.

Qualifications

- (a) Professional qualifications in Mechanical engineering and extensive practical experience in industry;
- (b) several years teaching experience in an institution of comparable level to the Derrick Technical Institute including responsibilities for the development of technicians and trade training programmes in co-operation with industry;
- (c) experience in these fields in a developing country including staff development activities will be an asset.

UNITED NATIONS DEVELOPMENT PROGRAMME
APPOINTMENT

1. *Title of post:* Expert in Home Economics (specialized in clothing construction and textiles), (P.4).
2. *Location:* Faculty of Education for Women, Doha, State of Qatar.
3. *Background*

The pattern of education in the State of Qatar consists of primary education (6 years), preparatory (3 years), and secondary (3 years). At the present time there are two teacher training institutes, one for men and the other for women who have completed the three-year secondary school course and who are preparing to teach in primary schools. The annual output of these two institutes is approximately one hundred teachers. Almost all teachers in the preparatory and secondary schools are expatriates. The Government's policy is to staff these schools with national teachers and at the same time to improve the quality of teaching at all levels. Furthermore, the Government intends to upgrade the qualifications and update the academic and professional background of serving school teachers and administrators through the introduction of new in-service training programmes.

The Government has requested, through UNESCO, the assistance of UNDP to establish two higher teacher training colleges for men and women to prepare national teachers for the preparatory and secondary schools, and to improve the quality of teachers in service. UNESCO, the Executing Agency, will provide an international team of specialists in teacher education, implement a training programme for the counterpart staff over a period of five years, and supply essential equipment.

4. *Functions*

Under the supervision of the Project Manager, the specialist is expected to perform the following functions:

- (a) teach courses and conduct seminars in clothing construction and textiles;
- (b) assist in planning, organizing and carrying out in-service training programmes for school teachers in the field of clothing construction and textiles;
- (c) assist in supervision of student teaching in the field of clothing construction and textiles;
- (d) assist in organizing courses on clothing construction and textiles for adults in the community.

The specialist will also be expected to:

- (e) prepare the reports required by UNESCO and the UNDP;
- (f) prepare lists of specialized equipment, books or materials and submit them to the Chief Technical Adviser, who will review them with the Deans, and governmental services concerned;
- (g) carry out such duties as may be assigned on an *ad hoc* basis, by the Secretariat and the Chief Technical Adviser, which are considered necessary for the execution of the project.

5. *Qualifications*

- (a) University degree in Home Economics (specializing in clothing construction and textiles);

(b) experience in teaching Home Economics at the university level.

6. *Language qualifications*: Good knowledge of English and/or Arabic required.

7. *Duration of appointment*: One year starting February, 1978.

8. *International salary and allowances*: (P.4)

(Net of national income tax—25% payable in the currency of the duty station and the rest in a currency of the staff member's choice.)

Net base salary per annum: the equivalent of \$12,756 (\$20,209 if without dependents).

Post adjustment (cost of living, subject to change without notice), as of 1st September, 1977 no adjustment.

Assignment allowance: the local equivalent of \$2,000 (\$1,600 if without dependants).

Family allowances: each dependent child \$450 (if there is no dependent spouse this indemnity is not payable in respect of the first dependent child).

Travel is provided for the staff member and his family (spouse and recognized dependants). In addition, Unesco contributes towards the cost of installation at the duty station and to the education of dependent children. On separation from UNESCO, a repatriation grant is paid.

UNESCO

REGULAR PROGRAMME APPOINTMENT* REGIONAL

1. *Title of post*: Expert in Educational Research and Evaluation, (P.4).

2. *Location*: UNRWA/UNESCO institute of Education, Beirut, Lebanon, (temporarily located in Amman, Jordan).

3. *Background*

The education programme for the Arab refugees from Palestine is sponsored jointly by UNESCO and the United Nations Relief and Works Agency (UNRWA). It is a comprehensive programme which comprises a primary and preparatory (lower-secondary) school system, upper-secondary and university education, (the latter two through a system of grants and scholarships), pre-service and in-service teacher education, and vocational and technical training. General education (primary and preparatory) for the refugees is now provided in more than 600 schools in the Arab host countries and the occupied territories of the Gaza Strip and Jordan's West Bank, with a total enrolment of around 300,000 pupils and a teaching staff of over 7,600 teachers. Educational Development centres are being established in two of the fields of UNRWA operations, Jordan (East Bank) and Gaza.

The UNRWA/UNESCO Institute of Education, which was established in 1964, is one of the four divisions of the UNRWA/UNESCO Department of Education in Beirut. Its main task is to improve the quality of education in UNRWA/UNESCO

schools by a variety of ways, mainly through the organization of in-service courses for unqualified and under-qualified teachers. The present training capacity of the Institute is about 1,500 teachers per year with an annual turnover of about 750 teachers. The in-service training methods applied by the Institute combine indirect teaching (through mass communication media such as correspondence instruction, audio-visual aids and programmed instruction) and some form of direct teaching (carried out through seminars conducted by the Institute representatives in the field and through vacation courses).

4. *Function*

Under the general guidance of the Director of the UNRWA/UNESCO Department of Education and the overall supervision of the Director of the UNRWA/UNESCO Institute of Education, and in close collaboration with the other senior members of the Institute's team and with the senior staff of the Educational Development Centres, the expert will:

- (a) plan and carry out research projects for the evaluation of the Institute's in-service training programme and its impact on the UNRWA/UNESCO school system;
- (b) advise on and assist in planning and carrying out research projects related to educational activities in pre-service teacher training and school education within the UNRWA/UNESCO education programme;
- (c) undertake the development of appropriate evaluation devices and research methods in relation to (a) and (b) above;
- (d) participate, in collaboration with the other experts concerned, in carrying out experiments and projects in new methods and techniques of teaching and learning;
- (e) advise on the dissemination of information on the findings of educational research of interest to the department's activities;
- (f) plan, organize and supervise the training of educational workers involved in functional educational research, including in-service courses within his area of specialization.

5. *Qualifications*

- (a) Advanced university degree in education or education psychology with wide experience in educational research and evaluation;
- (b) knowledge of modern education systems, especially in the field of teacher education, including a knowledge of modern educational methods and techniques;
- (c) a knowledge of Arab educational systems is desirable

6. *Language Qualifications*

Good knowledge of English; a knowledge of Arabic is desirable.

7. *Duration of Appointment*

Initial period of one year, starting as soon as possible after expiry of the closing date for receipt of applications.

8. *International salary and allowances* (P. 4).

UNESCO

REGULAR PROGRAMME APPOINTMENT* REGIONAL

1. *Title of post:* Chief, UNRWA/UNESCO Education Development Centre, (P.5).

2. *Location:* UNRWA Field Office, Gaza (with possible travel to the other UNRWA host countries—Lebanon, Syria and Jordan).

3. Background

The Educational programme for registered Arab refugees from Palestine in the Middle East—now numbering nearly 1,700,000—is sponsored jointly by UNESCO and UNRWA (United Nations Relief and Works Agency for Palestine Refugees). The education services provided for these refugees are comparable to a national system of education and comprise primary education, general secondary education (divided into two cycles—preparatory and upper), vocational training, technical education, teacher training and higher education. General education is available in 600 UNRWA/UNESCO schools operating at the primary and preparatory levels, with a total enrolment of some 360,000 and a teaching staff of over 7,600. Refugee students sponsored by UNRWA in Government and private schools number around 70,000. Scholarships for first degree level university training are also awarded to nearly 300 refugee students, while 8 centres provide training facilities in teaching and various technical pursuits for a total enrolment of 3,500 students.

The technical responsibility for guiding this programme is assumed by UNESCO, which provides a team of international specialists on secondment to UNRWA, headed by the Director of the UNRWA/UNESCO Department of Education. The Director of Education is assisted by Division Chiefs in charge of (a) school education, (b) higher education, (c) vocational and technical education, (d) the Institute of education which is responsible for in-service teacher training, and by a Chief Education Officer.

Within the framework of this education programme, an Education Development Centre has been established in the Gaza Strip attached, administratively to the UNRWA Field Office in Gaza. The Centre is to provide suitable facilities at field level for the planning, co-ordination and implementation of developmental activities aimed at improving the quality of education in the UNRWA/UNESCO schools and centres.

The main functions of the Centre, which are undertaken in co-operation with the Divisions of the UNRWA/UNESCO Department of Education (including the Institute of Education) and the Gaza Field Department of Education, are as follows:

- (a) preparing plans for the qualitative development of the UNRWA/UNESCO education programme in the Gaza Strip, including (i) in-service training of education personnel, (ii) curriculum enrichment within the framework of the Government prescribed curricula, and (iii) improvement of testing and examination practices;
- (b) undertaking action research with a view to identifying weakness in the education system and proposing remedial measures;
- (c) providing library and documentation services for UNRWA/UNESCO personnel.

4. Functions

Under the direction and supervision of the Director of the UNRWA/UNESCO Department of Education, the Chief of the Centre will be required to assume the following duties and responsibilities:

- (a) Planning the work of the Education Development Centre;
- (b) supervising the implementation of the programme of the Centre;

(c) providing professional assistance in the developmental activities of the UNRWA/UNESCO education programme including the preparation of experimental teaching materials the organization and conduct of in-service seminars, workshops and summer courses;

(d) undertaking the administration of the Centre and directing and supervising the work of its staff;

(e) co-ordinating the work of the visiting specialist and associate specialist;

(f) establishing technical co-operation and exchanges with appropriate educational institutions;

(g) carrying out such other duties as may be assigned to him by the Director of the UNRWA/UNESCO Department of Education.

5. Qualifications

(a) University degree in education or in a major subject of the school curriculum, in the latter case with a diploma or similar qualification in education; post-graduate qualifications would be an advantage;

(b) considerable experience in teacher education, including in-service teacher training and/or curriculum development.

6. *Language qualifications:* Excellent knowledge of English; Arabic desirable.

7. Duration of appointment

One year, renewable, commencing as soon as possible after expiry of closing date.

8. International salary and allowances (P.5).

(Net of national income tax—25% payable in the currency of the duty station and the rest in a currency of the staff member's choice).

Net base salary per annum: the equivalent of \$26,299 (\$24,298 if without dependants).

Post adjustment (cost of living, subject to change without notice), as of 1st September, 1977 the local equivalent of plus \$5,949 (\$5,496 if without dependants).

Assignment allowances: the local equivalent of \$2,400 (\$1,900 if without dependants).

Family allowances: each dependent child \$450 (if there is no dependent spouse, this indemnity is not payable in respect of the first dependent child).

Travel is provided for the staff member and his family (spouse and recognized dependants). In addition, UNESCO contributes towards the cost of installation at the duty station and to the education of dependent children. On separation from UNESCO a repatriation grant is paid.

UNITED NATIONS DEVELOPMENT PROGRAMME
APPOINTMENT

1. *Title of post:* Specialist in Educational Technology, (P. 4/ P. 5).
2. *Location:* Educational Development Centre, Uyo, Cross River State, Nigeria.
3. *Background*

The Cross River State Government is committed to the improvement of education in the State, particularly through teacher education and curricula development. The first stage of the project 1974 to 1976, was mainly devoted to the development of the educational systems at primary level through in-service teacher training and curriculum work. Under the same phase, assistance was also provided in setting up the Educational Development Centre.

To follow through on these early activities and benefit from the revised school curricula and the services of the teachers trained in the use of various instructional aids, the Government has decided to strengthen the Instructional Materials Unit of the Educational Development Centre at Uyo. The Centre will play an important role in the Universal Primary Education scheme.

The expert in instructional technology will be attached to the Ministry of Education of the Cross River State. The site of work of the expert is the Instructional Materials Unit of the Educational Development Centre at Uyo, which was established in 1975. The Centre consist of three units: Instructional Materials, Library and Science Equipment. Each section is headed by a unit chief and supporting staff. Under the direction of the Permanent Secretary, the Chief Inspector of Education has the overall responsibility of educational matters in the State and will be closely associated with the newly established Educational Development Centre.

4. *Functions*

Under the general authority of the Director of the Educational Development Centre and in collaboration with counterpart staff, including the teacher training unit in the Ministry of Education, the specialist will assist the Cross River State in improving its educational system through the use of educational technology adapted to its needs. The capacity of the Centre's Educational Materials Unit will be strengthened through the following activities;

- (a) planning and production of educational materials of different levels;
- (b) establishment of a system to acquaint schools with the use of materials, assist with in-service training courses, seminars, written guidelines, etc.;
- (c) evaluation and improvement of instructional aids and techniques;
- (d) training of national counterparts, to take over the expert's duties;
- (e) establishment and maintenance of liaison with national agencies and institutions involved in similar activities, in particular the College of Education, Uyo;
- (f) the specialist will prepare the technical and administrative reports as may be required by UNESCO/UNDP and carry out any other duties falling within his field of competence as required.

5. *Qualifications*

- (a) Advanced degree in Educational Technology;
- (b) proven experience in the production and utilization of educational materials and in teacher training;
- (c) experience in developing countries, preferably in Africa.

6. *Language qualifications:* Excellent knowledge of English.

7. *Duration of appointment*

One year, starting January, 1978.

8. *International salary and allowances (P. 4/P. 5).*

(Net of national income tax—25% payable in the currency of the duty station and the rest in a currency of the staff member's choice).

Net base salary per annum; the equivalent of P.4 \$21,756 P.5 \$26,299 (\$20,209/24,298 if without dependants).

Post adjustment (cost of living, subject to change without notice), as of 1st September, 1977 the local equivalent of plus \$3,828 4,576 (\$3,556/4,228 if without dependants).

Assignment allowances: the local equivalent of \$2,000 2,400 (\$1,600/1,900 if without dependants).

Family allowances: each dependent child \$450 (if there is no dependent spouse, this indemnity is not payable in respect of the first dependent child).

Travel is provided for the staff member and his family (spouse and recognized dependants). In addition, UNESCO contributes towards the cost of installation at the duty station and to the education of dependent children. On separation from UNESCO, a repatriation grant is paid.

MINISTRY OF DEVELOPMENT AND ECONOMIC PLANNING

CENTRAL STATISTICS OFFICE

CONSUMER PRICE INDEX FOR MINeworkERS—2ND QUARTER, 1967

The 2nd quarter 1977 Consumer Price Index for Mineworkers of the Diamond Mining Areas (Yengema and Tongo Field) was 202.8 as compared with 199.3 for the 1st Quarter 1977. This shows an increase of 3.5 points or 1.8 per cent over the previous quarter's Index.

The most important increase among the major group items were for "clothing" and "miscellaneous" items. The former increased by 13.4 points or 7.9 per cent while the latter increased by 2.9 points or 1.9 per cent. There was a decline of 3.3 per cent in the Housing Index. The Index (1961=100) indicates the average movement of retail prices of selected items known as "Market basket". This market basket represents the purchases of the low income earning African families in the Mining Areas of Yengema and Tongo Field. The temporary closure of the Sierra Leone Development Company Mines at Marampa has however made it impossible for the compilation of indices for that area. Separate indices are computed for the Diamond Mining Areas (Yengema and Tongo Field). These are combined into a single index weighted in proportion to the number of workers employed in each area.

Food and Drinks—The index for this group rose by almost one per cent over the previous quarter, as a result of substantial rise in the prices of beef, tinned sardines, small pepper and coffee. These were partially offset by a sharp decline in the price of onions and slight drop in the prices of potato leaves, cassava leaves, and cassava.

Housing—The housing index decreased by 7.1 points or 3.3 per cent over the previous quarter. Glass tumblers, kettles (buckets) and firewood were among items which had price decreases. There was a rise in the price of touch light batteries while the prices of most items in this group remained constant.

Clothing—There was a price increase of 7.9 per cent compared with the previous quarter. Towel (cotton), shirting, ladies slippers, men's sleeveless vests, men's sandals and tailoring charges were some of the items that accounted for this increase. Two items that remained constant were lappas and men's cotton shirt.

Miscellaneous—There was an increase of 2.9 points or 1.9 per cent over the last quarter. Personal care items were responsible for this price increase. Most items remained constant among which were cough and headache medicines.

Office

French Section, Language Branch, Bureau of Administration and Services, Headquarters, Montreal.

Qualifications

1. *Education*—University degree, or equivalent academic qualifications, preferably with emphasis on modern languages, or on technical or scientific studies.

2. *Experience*—Extensive experience, at a responsible level, in the language services of an international or national administration, or a large-scale private organization. Sound experience in the planning, co-ordination and supervision of translation services. Demonstrated ability to translate and revise.
3. *Language*—A complete command of French as the mother tongue, or the language used for the purpose of education, including an intimate knowledge of its syntax and stylistics. A profound knowledge of English is essential. A working knowledge of Russian or Spanish is particularly desirable.
4. *General*—A broad cultural background is essential to meet the varying requirements of the language activity. An exacting sense to expression and style is required as well as an understanding of technological trends in aviation. Familiarity with the objectives and procedures of international organizations functioning at government level, and particularly of ICAO, desirable. Ability to plan and implement effective and efficient use of staff resources and work procedures. Ability to prepare concise and accurate reports and documentation. Qualities of leadership, initiative, maturity of judgement, discretion and ability to maintain harmonious working relationship.

Occupant responsible to: Chief, Language Branch.

Duties

1. Direct and plan the work of the French Section to ensure provision of adequate and timely translation. Supervise activities of staff and assign work priorities. In consultation with the Chief of the Interpretation, Terminology and Reference Section, arrange for the release of language officers assigned to interpretation work.
2. Produce revised translation of documentation, correspondence and other material frequently involving the use of technical and scientific terminology, and assume responsibility for the release of such material.
3. Assist in keeping current a multi-language lexicon of aviation terminology.
4. Assist in the recruitment of French Section staff.
5. Assist in organizing, holding and assessing language examinations.
6. Arrange for and participate in the training and guidance of French Section staff.
7. Undertake supervisory assignments in language services at meetings away from Headquarters.
8. Advise on French language matters.
9. Perform other related duties as assigned.

Term of appointment

The appointment may be offered initially for a period of two years on a renewable basis intended to lead to a permanent career or on a non-renewable non-career basis for a period of up to three years (in the latter case the incumbent may, however, apply for reappointment when the vacancy in the post is announced on expiry of his term appointment). Applicants should state their preference, but if their preference is for a career appointment, they should indicate also whether they would be prepared to accept a non-career appointment. As the statutory retirement age for the ICAO Secretariat staff is 60, only applicant who are expected to complete a regular term of appointment will normally be considered.

Applications must be made on the ICAO Application for Employment form in strict accordance with all instructions on the form. The form, if not available locally, may be obtained by writing to the address below. When completed it should be sent to:

(i) A number of workpeople who registered for employment are known to be "not unemployed". They register with the hope of obtaining more regular or more remunerative employment.

(ii) Maritime Pool:—Number awaiting sea-going employment = 8,653; this figure consists of the following:—

(a) Persons who have been unemployed for over three weeks.

(b) Persons who have recently returned from a voyage and who should rest for three weeks before being eligible for another voyage. These unemployed workers are usually engaged on casual jobs as stevedores while awaiting sea-going employment.

(iii) Articled Seamen's Pool:—Number awaiting sea-going employment = 650; this figure consists of persons who were unemployed at the date referred to above.

(iv) With effect from January, 1973, this table has been revised by classifying the occupations for which people registered in accordance with the International Standard Classification of Occupations. The figure for Apprentices who normally are classified under a separate Group has been shown in this table under the occupational group for which they registered but separately. The figure for 'Boys' in previous statistics has been included in the figure for 'male' in the current statistics.
