SUPPLEMENT

Act

No. 1—The Constitution (Amendment) Act, 2018.

General Notice No. 1 of 2018.

THE UGANDA NATIONAL BUREAU OF STANDARDS ACT, 1983

(Cap 327, Section 18), as amended

NOTICE FOR THE DECLARATION OF COMPULSORY STANDARDS

PRELIMINARY NOTICE

IN ACCORDANCE with Section 18 of Cap. 327 of the laws of Uganda, the National Standards Council intends to recommend to the Minister of Trade, Industry and Cooperatives and to declare the standards indicated below for compulsory application.

The National Standards Council therefore calls upon all interested persons or parties that may have any objection to declaring the compulsory application of these standards, in accordance with Section 19 of Cap. 327 of the laws of Uganda, to lodge their objections in writing to the Executive Director, UNBS Head Office, Standards House, Bweyogerere Industrial Park, Plot 2-12 Bypass Link, P.O. Box 6329, Kampala. Tel: +256-417-333250/1/2. E-mail: info@unbs.go.ug within 60 days of this notice.

Every person who has an objection to the declaration of a standard specification as compulsory shall be entitled to be heard by the National Standards Council. No standard specification shall be declared compulsory until the Council

SECTION 1

MANAGEMENT AND SERVICES' STANDARDS

1.1 Occupational health and safety management

1. US 1813:2017, Standard Guide on Playground Surfacing.

Scope: This Uganda Standard covers the selecting and specifying surface systems under and around playground equipment. This guide describes how to apply standards to evaluate the impact attenuation, accessibility characteristics and product characteristics when selecting surfacing systems for use under and around playground equipment.

2. US 1814:2017, Standard Practice for Health Requirements Relating to Occupational Exposure to Respirable Crystalline Silica.

Scope: This Uganda Standard covers a description of several actions that should be taken to reduce the risk of harmful occupational exposures to humans in environments containing respirable crystalline silica.

3. US 1815:2017, Standard Guide for Recording Occupational Injuries and Illnesses.

Scope: This Uganda Standard is intended to establish definitions and criteria for recording occupational injuries and illnesses to be used for measuring safety performance, evaluating safety program performance, and improving consistency when comparing international performance. A measurement system is desired that is precise and accurate, difficult to manipulate, significant and meaningful for safety program evaluation, and appropriate for accountability purposes in a global environment.

4. US 1816:2017, Terminology Relating to Occupational Health and Safety .

Scope: The Uganda Standard gives terms that are used in the fields of occupational health and safety. The terms are used to describe the limits of exposure under different conditions, the meanings of terms used in describing events and the types of items measured. They will commonly be used to express the effect of an event or the limit of a chemical exposure on human

5. US 1817:2017, Standard Specifications for Personal Climbing Equipment.

Scope: This Uganda Standard covers the specifications and qualification testing of the following: climbers, climber straps, climber pads, climber footplates, body belts, work positioning devices with locking snap hooks/carabiners, Wood Pole Fall Restriction Devices (WPFRD), arborist saddle, harnesses, energy absorbing lanyards.

6. US 1818:2017, Standard Guide for Disposal of Laboratory Chemicals and Samples.

Scope: This Uganda Standard is intended to provide the chemical laboratory manager, chemical laboratory safety officer, and other relevant staff with guidelines for the disposal of small quantities of laboratory wastes safely and in an environmentally sound manner.

7. US 1819:2017, Standard Guide for Air Monitoring at Waste Management Facilities for Worker Protection.

Scope: This Uganda Standard is intended to provide a standardized approach for establishing and carrying out an air monitoring program to protect workers at waste management facilities. This standard may apply to routine operations at an active treatment, storage or disposal site or the extraordinary conditions that can be encountered in opening and cleaning up a remedial action site. The user shall understand that it is impossible to predict all the issues that could arise at a waste management facility due to hazardous airborne emissions. Although air contaminant measurements obtained in accordance with this guide may indicate acceptable or tolerable levels of toxic agents are present, care and judgment must still be exercised before concluding that all atmospheric contaminants at the site are under control and that a reasonable safe work environment exists.

8. US 1820:2017, Standard Guide for Consensus-based Process for an Occupational Safety and Health Standard that Includes an Occupational Exposure Guideline.

Scope: This Uganda Standard presents a framework for a stakeholder- focused consensus-based decision-making process for occupational safety and health standard development activities that include adoption or development of occupational exposure guidelines (OEGs) as a part of Occupational Health and Safety standards.

9. US 1821:2017, Standard Guide for Personal Protective Equipment for the Handling of Flat Glass.

Scope: This Uganda Standard covers the minimum requirements for proper personal protective equipment (PPE) for the safe handling of flat glass.

Scope: This Uganda Standard covers personnel requirements, operator training, operating procedures, and recommended equipment performance/design for the proper operation of all types of pressure water-jet cleaning and cutting equipment as normally used by industries concerned with construction, maintenance, repair, cleaning, cutting, and demolition work.

11. US 1828:2017, Standard Guide for Integration of Ergonomics/Human Factors into New Occupational Systems.

Scope: This Uganda Standard is intended to assist in the integration of ergonomic principles into the design and planning of new occupational systems from the earliest design stages through implementation. Doing so may reduce or eliminate the necessity for later redesign that could have been foreseen.

12. US 1829:2017, Standard Guide for Evacuation Route Diagrams.

Scope: This Uganda Standard is intended to provide minimum guidelines for the design and placement of evacuation route diagrams (ERDs) used in buildings. It covers the evacuation of building occupants when directed by emergency response authorities in emergencies such as fire, earthquake, and bomb threat.

13. US ISO 7010:2011, Graphical symbols — Safety colours and safety signs — Registered safety signs.

Scope: This Uganda Standard prescribes safety signs for the purposes of accident prevention, fire protection, health hazard information and emergency evacuation. The shape and colour of each safety sign are according to US ISO 3864-1 and the design of the graphical symbols is according to US ISO 3864-3. This standard is applicable to all locations where safety issues related to people need to be addressed. However, it is not applicable to the signalling used for guiding rail, road, river, maritime and air traffic and, in general, to those sectors subject to a regulation which may differ with regard to certain points of this standard and of the US ISO 3864 series. This standard specifies the safety sign originals that may be scaled for reproduction and application purposes.

14. US ISO 8317:2015, Child-resistant packaging — Requirements and testing procedures for re-closable packages.

Scope: This Uganda Standard specifies performance requirements and test methods for reclosable packages designated as resistant to opening by children. Acceptance criteria are given for the packages when tested by specified methods. These methods not only provide a measure of the effectiveness of the packaging in restricting access by children, but also cover the accessibility to the contents by adults. This standard is applicable to reclosable packages for any product intended to be exposed or removed from the packaging in normal use. This standard is intended for type

15. **US ISO 13857:2008, Safety of machinery — Safety distances to prevent hazard zones being reached by upper and lower limbs.**

Scope: This Uganda Standard establishes values for safety distances in both industrial and non-industrial environments to prevent machinery hazard zones being reached. The safety distances are appropriate for protective structures. It also gives information about distances to impede free access by the lower limbs.

16. **US ISO 16069:2017, Graphical symbols — Safety signs — Safety Way Guidance Systems (SWGS).**

Scope: This Uganda Standard describes the principles governing the design and application of visual components used to create a safety way guidance system (SWGS). This standard contains general principles valid both for electrically powered and for phosphorescent components. Special information which is related to the type of component is given to assist in defining the environment of use, choice of material, layout, installation and maintenance of SWGS.

17. **US ISO/TS 16975-1:2016, Respiratory protective devices — Selection, use and maintenance — Part 1: Establishing and implementing a respiratory protective device programme.**

Scope: This Uganda Standard specifies detailed information to assist persons responsible for establishing and implementing a programme for respiratory protective devices (RPD) that meet the performance requirements of the performance standards. This part of US ISO 16975 does not apply to RPD programmes for RPD used exclusively under water, for use in aircraft, and medical life support respirators and resuscitators.

18. **US ISO/TS 16975-2:2016, Respiratory protective devices — Selection, use and maintenance — Part 2: Condensed guidance to establishing and implementing a respiratory protective device programme.**

Scope: This Uganda Standard provides brief guidance to assist persons responsible for establishing and implementing a programme for respiratory protective devices (RPD) that meet the performance requirements. There are special applications where the selection of suitable RPD using this guide is not appropriate. These are:

- a) fire fighting – structural and wild land firefighting, hazardous materials and rescue applications;
- b) CBRN (Chemical, Biological, Radiological and Nuclear agents);
- c) marine – shipboard or off-shore firefighting or hazardous materials applications;
- d) mining – underground mining or firefighting and rescue applications; and

19. **US ISO 17049:2013, Accessible design — Application of braille on signage, equipment and appliances.**

Scope: This Uganda Standard specifies the fundamental requirements for braille used on signage, equipment and appliances, including the dimensional parameters of braille and the characteristics of materials used, and the guidelines for practical implementation.

20. **US ISO 17069:2014, Accessible design — Consideration and assistive products for accessible meeting.**

Scope: This Uganda Standard specifies considerations to be taken, as well as support and assistive products that can be used when organizing a physical meeting in which older persons and persons with disabilities can actively participate. Teleconferences and web conferences are important methods that can be used to include older persons and persons with disabilities in meetings.

21. **US ISO 19026:2015, Accessible design — Shape and colour of a flushing button and a call button and their arrangement with a paper dispenser installed on the wall in public restroom.**

Scope: This Uganda Standard specifies shapes and colours of a flushing button and a call button of lavatory which are installed on the wall and their arrangement with a paper dispenser. This standard is only applicable in case of installing a flushing button and/or a call button on the wall of seat-type lavatory in public restrooms (general toilet compartments and toilet compartments with various functions) used by an unspecified large number of people, except restrooms with a big paper holder where it is difficult to place a flushing button and a call button above the holder, and Type A toilet with lateral transfer from both sides of ISO 21542.

22. **US ISO 19027:2016, Design principles for communication support board using pictorial symbols.**

Scope: This Uganda Standard specifies basic configurations for communication support boards, which are necessary to facilitate communication. A variety of communication support boards can be designed for specific communication purposes. This standard specifies basic elements common to different types of formats/media, such as simple boards, book style or digital media. This standard does not regulate any specific design or any specific pictorial symbols for communication support boards. As for design principles of pictorial symbols, this standard introduces examples of design principles applicable when designing and developing pictorial symbols.

23. **US ISO 19028:2016, Accessible design — Information content, structure and layout**

Scope: This Uganda Standard specifies information contents, figuration and display methods of tactile guide maps providing location information of buildings, including those for the general public, public transport and parks, and also the surroundings in the close vicinity, including access routes to them in order to enable persons with seeing impairment and blindness to move safely and smoothly in those facilities.

24. US ISO 19029:2016, Accessible design auditory guiding signals in public facilities.

Scope: This Uganda Standard specifies the sound characteristics of auditory guiding signals for persons with seeing impairment and blindness to provide the location and direction information of particular public facilities. The public facilities include facilities such as railway stations, airports, ports, bus terminals, government offices, libraries, community centres, parks, schools, hospitals, theatres, large supermarkets, and its toilets, stairs, etc.

1.2 Tourism, leisure and hospitality

25. US 1822:2017, Standard Practice for Design, Manufacture, Operation, and Maintenance of Inflatable Amusement Devices.

Scope: This Uganda Standard covers the design, manufacture, and operation of inflatable amusement devices and their associated operating environments. The document specifically excludes inflatable devices that are used for professional exhibition or stunt work; safety and rescue activities; aerial or aviation structures or devices; exhibit floats; or similar inflatable devices.

26. US 1823:2017, Standard Practice for Design, Manufacture, Installation, Operation, Maintenance, Inspection and Major Modification of Trampoline Courts.

Scope: The Uganda Standard guides on how to delineate requirements regarding the design, manufacture, installation, operation, maintenance, inspection and major modification of commercial or institutional trampoline courts with the primary purpose of amusement, entertainment or recreation.

27. US 1824:2017, Standard Practice for Aerial Adventure Courses.

Scope: This Uganda Standard establishes criteria for the design, manufacture, installation, operation, maintenance, auditing and major modification of aerial adventure courses which occur(s).

28. US 1825:2017, Standard Practice for Ownership, Operation, Maintenance, and Inspection of Amusement Rides and Devices.

Scope: This Uganda Standard provides guidelines for operations, maintenance, and inspection procedures for

29. US 1826:2017, Standard Practice for Operations of Amusement Railway Rides, Devices, and Facilities.

Scope: This Uganda Standard applies to operations of amusement railway ride(s) that have a track gauge greater than or equal to 12 in. (305 mm) measured between the heads of the rails. This excludes patron powered ride vehicles specifically designed for children.

30. US ISO 17842-1:2015, Safety of amusement rides and amusement devices — Part 1: Design and manufacture.

Scope: This Uganda Standard specifies the minimum requirements necessary to ensure the safe design, calculation, manufacture, and installation of the following: mobile, temporary or permanently installed machinery and structures, e.g. roundabouts, swings, boats, ferris wheels, roller coasters, chutes, grandstands, membrane or textile structures, booths, stages, side shows, and structures for artistic aerial displays. The above items, hereafter called *amusement devices* or simply "devices", are intended to be installed both repeatedly without degradation or loss of integrity, and temporarily or permanently in fairgrounds and amusement parks or any other locations. Fixed grandstands, construction site installations, scaffolding, removable agricultural structures and simple coin operated children's amusement devices intended for up to 3 children are not covered by this document.

31. US ISO 17842-3:2015, Safety of amusement rides and amusement devices — Part 3: Requirements for inspection during design, manufacture, operation and use.

Scope: This Uganda Standard defines requirements for the necessary inspections, in accordance with US ISO/IEC 17020, of amusement devices designed, manufactured, operated and used according to US ISO 17842-1 and US ISO 17842-2.

32. US ISO 17929:2014, Biomechanical effects on amusement ride passengers.

Scope: This Uganda Standard has been drawn up with the objective of ensuring the safety of amusement ride passengers, based on the international experience of manufacture and operation of such structures throughout the world gained over decades prior to its publication. It enables the identification of potential hazards and classification of biomechanical effects, including information on recommended acceleration limits, rate of their onset and their duration, to ensure acceptable degrees of biomechanical risks at the stage of amusement ride design, as well as to take such risks into account during development of operational procedures and information on use limitations for amusement ride guests. It does not cover devices used in the circus, theatre or sports, or other devices intended for use only by specially trained people. Nevertheless, it can be used in the design of any similar structural or

SECTION 2

CHEMICALS AND CONSUMER PRODUCT
STANDARDS

2.1 Chemicals and environment.

2.1.1 Cosmetics

33. US 1701:2017, Hairspray — Specification.

Scope: The Uganda Standard specifies the requirements, sampling and test methods for hair spray. This standard is applicable to both water based and oil based hair sprays delivered by the aerosol or non-aerosol system.

2.1.2 Consumer products.

34. US 762:2017, Illuminating candles — Specification.

Scope: The Uganda Standard specifies requirements, test and sampling methods for candles suitable for illuminating purposes. This Uganda Standard does not cover decorative (ornamental) candles. (*This Uganda Standard cancels and replaces US 762:2007, Illuminating candles— Specification, which has been technically revised.*)

35. US 1674:2017, Surface polish — Specification.

Scope: This Uganda Standard specifies requirements, sampling and test methods for wax-based polishes in the form of paste and liquid intended for use on surfaces like plastics, leather, rubber, finished furniture and car interiors.

2.1.3 Paints and varnishes.

36. US 1781:2017, Wall fillers — Specification.

Scope: This Uganda Standard specifies requirements, sampling and test methods for fillers in form of powder and paste used on both interior and exterior surfaces for levelling of surface imperfections, filling dents, cracks and other uneven surfaces on any wall and partitions like plaster, concrete, ceilings and building boards. The standard does not apply to sand filling and structural cracks

2.1.4 Explosives.

37. US 1756-1:2017, Commercial blasting explosives — Specification — Part 1: Emulsion explosive.

Scope: This Uganda Standard specifies requirements, sampling and test methods for emulsion explosives.

38. US 1756-2:2017, Commercial blasting explosives — Specification — Part 2: Ammonium nitrate fuel oil explosives.

Scope: This Uganda Standard specifies requirements,

39. US 1756-3:2017, Commercial blasting explosives — Specification — Part 3: Ammonium nitrate for explosives.

Scope: This Uganda Standard specifies requirements, sampling and test methods for ammonium nitrate intended primarily for use in explosives.

40. US 1776:2017, Light metal in hazardous locations at mines — Guidelines for use.

Scope: The Uganda Standard provides guidelines regarding the use of light metals in hazardous locations at mines, and gives a short description of the hazards or risks associated with such metals.

2.2 Textiles, leather and related products.

2.2.1 Textiles and related products.

41. US 1782:2017, Reusable sanitary towels — Specification.

Scope: This Uganda Standard specifies the requirements, sampling and test methods for reusable sanitary towels (including reusable panty liners) for external use. This standard does not apply to disposable sanitary towels.

42. US 1783:2017, Disposable adult absorbent (incontinence) products — Specification.

Scope: This Uganda Standard specifies requirements, sampling and test methods for disposable adult absorbent products for managing incontinence including adult diapers, adult briefs, adult under pads (inserted in pants) and others.

2.2.2 Footwear.

43. US 1688:2017, Footwear — Sports shoes — Specification.

Scope: This Uganda Standard specifies the performance, requirements, sampling and test methods of sports footwear.

2.3 Petroleum

2.3.1 Petroleum management and Health, Safety, Security and Environment (HSSE).

44. US 1662:2017, Waste management — Requirements.

Scope: This Uganda Standard specifies requirements for the management of hazardous waste and non-hazardous waste. This standard covers amongst other things, collection, storage, transportation, treatment and disposal of waste. It also includes provisions for monitoring and regulation of waste. The standard applies to a range of industry sectors whose activities generate, store, or handle any quantity of waste.

45. US ISO 17420-3:2012, Respiratory protective

Scope: This Uganda Standard is applicable to an unassisted filtering device and specifies a standard thread connection between a filter and the respiratory interface as required in US/ISO 17420-2. This part of US ISO 17420 also includes the description of test simulators that are necessary for the assessment of some of the requirements.

2.3.2 Distribution

46. US ISO 15995:2006, Gas cylinders — Specifications and testing of LPG cylinder valves — Manually operated.

Scope: This Uganda Standard specifies the requirements for design, specification and type testing of dedicated LPG manually operated cylinder valves specifically for use with transportable refillable LPG cylinders from 0,5 l up to 150 l water capacity. It includes references to associated equipment for vapour or liquid service.

SECTION 3 ENGINEERING STANDARDS

3.1 Building and construction materials.

47. US 156-1: 2017, Building limes — Part 1: Specification.

Scope: This Uganda Standard specifies requirements for building limes used for construction purposes.

3.2 Mechanical engineering and metallurgy.

3.2.1 Steel and steel products.

48. US 1566:2017, Pressed steel tanks — Specification.

Scope: This Uganda Standard specifies requirements for materials, fabrication, erection and supply of pressed steel tanks for the storage of cold and hot water and certain other liquids, under a pressure not greater than the static head corresponding to the depth of the tank.

3.2.2 Locks.

49. US 1670:2017, Padlocks — Specification.

Scope: This Uganda Standard specifies the requirements, inspection, sampling and test methods of various types and grades of padlocks.

3.3 Electrotechnology.

3.3.1 Renewable energy – Solar PV.

50. US IEC/TS 62257-9-5:2016, Recommendations for renewable energy and hybrid systems for rural electrification — Part 9-5: Integrated systems — Selection of stand-alone lighting kits for rural electrification.

Scope: This Uganda Standard applies to stand-alone rechargeable electric lighting appliances or kits that can

technician. This standard presents a quality assurance framework that includes product specifications (a framework for interpreting test results), test methods, and standardized specification sheets (templates for communicating test results).

3.3.2 LED lamps

51. US IEC 62560:2015, Self-ballasted led-lamps for general lighting services by voltage >50V — Safety specifications.

Scope: This Uganda Standard specifies the safety and interchangeability requirements, together with the test methods and conditions required to show compliance of LED-lamps with integrated means for stable operation (self-ballasted LED-lamps), intended for domestic and similar general lighting purposes, having:

- a rated wattage up to 60 W;
- a rated voltage of >50 V upto 250 V;
- caps according to Table 1.

52. US IEC 62612:2013+AMD1:2015, Self-ballasted LED lamps for general lighting services with supply voltages >50V — Performance requirements.

Scope: This Uganda Standard specifies the performance requirements, together with the test methods and conditions, required to show compliance of LED lamps with integral means for stable operation, intended for domestic and similar general lighting purposes, having:

- a rated power up to 60 W;
- a rated voltage of >50 V a.c. up to 250V a.c.
- a lamp cap as listed in IEC 62560.

3.3.3 Self-ballasted fluorescent lamps.

53. US IEC 60968:2015, Self-ballasted fluorescent lamps for general lighting services — Safety requirements (2nd edition).

Scope: This Uganda Standard specifies the safety and interchangeability requirements, together with the test methods and conditions required to show compliance of tubular fluorescent lamps with integrated means for controlling starting and stable operation (self-ballasted fluorescent lamps). (*This Uganda Standard cancels and replaces US IEC 60968:1999, Self-ballasted lamps for general lighting services — Safety requirements, which has been technically revised.*)

54. US IEC 60969:2016, Self-ballasted compact fluorescent lamps for general lighting services — Performance requirements (2nd edition).

Scope: This Uganda Standard specifies performance requirements together with test methods and conditions required to show compliance of self-ballasted compact fluorescent lamps intended for general lighting services. This standard applies to self-ballasted compact

ratings with lamp caps complying with IEC 60061-1. (This Uganda Standard cancels and replaces US IEC 60969:1999. *Self-ballasted lamps for general lighting services — Performance requirements, which has been technically revised*).

3.3.4 Prepaid electricity meters.

55. US IEC 62055-41:2014, Electricity metering — Payment systems — Part 41: Standard transfer specification (STS) — Application layer protocol for one-way token carrier systems

Scope: This Uganda Standard specifies the application layer protocol of the STS for transferring units of credit and other management information from a point of sale (POS) system to an STS-compliant payment meter in a one-way token carrier system. It is primarily intended for application with electricity payment meters without a tariff employing energy-based tokens, but may also have application with currency-based token systems and for services other than electricity. It specifies:

- A POS to token carrier interface structured with an application layer protocol and a physical layer protocol using the OSI model as reference;
- Tokens for the application layer protocol to transfer the various messages from the POS to the payment meter;
- security functions and processes in the application layer protocol such as the Standard Transfer Algorithm and the Data Encryption Algorithm, including the generation and distribution of the associated cryptographic keys;
- Security functions and processes in the application layer protocol at the payment meter such as decryption algorithms, token authentication, validation and cancellation;
- Specific requirements for the meter application process in response to tokens received;
- A scheme for dealing with payment meter functionality in the meter application process and associated companion specifications;
- Generic requirements for an STS-compliant key management system;
- Guidelines for a key management system;
- Entities and identifiers used in an STS system;
- Code of practice for the management of TID roll-

- Code of practice and maintenance support services from the STS Association.

3.5 Transport and communication

56. US 845:2017, Road vehicles — Requirements for inspection and testing of used motor vehicles for roadworthiness (2nd edition).

Scope: This Uganda Standard specifies the safety, operational and performance related characteristics of used motor vehicles and their inspection and testing for roadworthiness.

3.6 Packaging and packaging products

57. US 1664:2017, Containers for packaging of natural mineral water and packaged drinking water — Specification.

Scope: This Uganda Standard specifies the requirements for raw materials, dimensions and performance, sampling and test methods for plastic containers except flexible pouches, for packaging of natural mineral water and packaged drinking water.

58. US 1666:2017, Polystyrene — Safe use in contact with foodstuffs, pharmaceuticals and drinking water — Specification.

Scope: This Uganda Standard specifies requirements, sampling and test methods for polystyrene (crystal and high impact) materials for the manufacture of plastic items used in contact with foodstuffs, pharmaceuticals and drinking water. This standard does not cover requirements of a packaging media for a particular foodstuff and drinking water other than toxicological considerations.

59. US 1668:2017, Polyethylene — Safe use in contact with foodstuffs, pharmaceuticals and drinking water — Specification.

Scope: This Uganda Standard specifies the requirements, sampling and test methods for polyethylene plastic materials for the manufacture of plastic items used in contact with foodstuffs, pharmaceuticals and drinking water. This standard does not cover requirements of a packaging media for a particular foodstuff and drinking water other than toxicological considerations.

60. US 1679:2017, Polyvinyl chloride (PVC) — Safe use in contact with foodstuffs, pharmaceuticals and drinking water — Specification.

Scope: This Uganda Standard specifies the requirements, sampling and test methods for polyvinyl chloride (PVC) and its copolymers for the manufacture of plastic items used in contact with foodstuffs, pharmaceuticals and drinking water.

61. US 1680:2017, Polyalkylene terephthalates — Safe

Scope: This Uganda Standard specifies the requirements, sampling and test methods for polyalkylene terephthalates also known as thermoplastic saturated polyesters polymer materials for the manufacture of plastic items used in contact with foodstuffs and drinking water. This standard applies to polyethylene terephthalates (PET) and polybutylene terephthalates (PBT). This standard does not cover requirements of a packaging media for a particular foodstuff and drinking water other than toxicological considerations.

SECTION 4

FOOD AND AGRICULTURE

- 4.1 Agrochemicals and veterinary drugs.**
- 62. US 756:2017, Urea fertilizer — Specification (2nd edition).**
Scope: This Uganda Standard specifies requirements, sampling and test methods for Urea fertilizer. *(This Uganda Standard cancels and replaces US 756:2007, Urea fertilizer grade — Specification, which has been technically revised).*
- 63. US 757:2017, Ammonium sulphate nitrate fertilizer — Specification (2nd edition).**
Scope: This Uganda Standard specifies the requirements, sampling and test methods for ammonium sulphate nitrate (ASN) fertilizer. *(This Uganda Standard cancels and replaces, US 757:2007, Ammonium sulphate nitrate fertilizer — Specification, which has been technically revised).*
- 64. US 758:2017, Calcium ammonium nitrate fertilizer — Specification (2nd edition).**
Scope: This Uganda Standard specifies requirements, sampling and test methods for calcium ammonium nitrate (CAN) fertilizer. *(This Uganda Standard cancels and replaces, US 758:2007, Calcium ammonium nitrate fertilizer — Specification, which has been technically revised).*
- 65. US 759:2017, Monoammonium phosphate (MAP) and Diammonium phosphate (DAP) fertilizer — Specification (2nd edition).**
Scope: This Uganda Standard specifies requirements, sampling and test methods for Monoammonium phosphate (MAP) and Diammonium phosphate (DAP) fertilizers. *(This Uganda Standard cancels and replaces, US 759:2007, Monoammonium phosphate (MAP) and diammonium phosphate fertilizer — Specification, which has been technically revised).*
- 66. US 760:2017, Potassium chloride (muriate of potash) fertilizer — Specification (2nd edition).**
cancels and replaces, US 760:2007, Potassium chloride (muriate of potash) fertilizer grade Specification, which has been technically revised).
- 4.2 Sugar, edible starches and related confectionery products.**
- 67. US 1778:2017, Sugarcane juice — Specification.**
Scope: This Uganda Standard specifies the requirements sampling and test methods for sugarcane juice intended for direct human consumption.
- 4.3 Meat, poultry and processed products.**
- 68. US 1698:2017, Caprine (goat) meat — Carcasses and cuts — Specification.**
Scope: This Uganda Standard specifies the requirements, sampling and test methods for raw caprine (goat) meat carcasses and cuts fit for the food industry and human consumption.
- 69. US 1699:2017, Porcine (pig) meat — Carcasses and cuts — Specification.**
Scope: This Uganda Standard specifies the requirements, sampling and test methods for raw porcine (pig) meat cuts and carcasses fit for the food industries and human consumption.
- 70. US CODEX STAN 96:1981 (Revision:2015), Standard for cooked cured ham (2nd edition).**
Scope: This Uganda Standard applies to products designated as “Cooked Ham” packaged in any suitable packaging material. It does not apply to cooked ham products with compositional characteristics different from those specified. These products shall be designated with a qualifying statement which describes the true nature in such a way that it does not mislead the consumer and that it does not lead to confusion with products covered by this standard. *[This Uganda Standard cancels and replaces US CODEX STAN 96:1981 (Revision 1991), Standard for cooked cured ham, which has been technically revised].*
- 71. US CODEX STAN 97:1981 (Revision:2015), Standard for cooked cured pork shoulder (2nd edition).**
Scope: This Uganda Standard applies to products designated as “Cooked Pork Shoulder” packaged in any suitable packaging material. It does not apply to cooked pork shoulder products with compositional characteristics different from those specified. These products shall be designated with a qualifying statement which describes the true nature in such a way that it does not misled the consumer and that it does not lead to confusion with products covered by this standard. *[This Uganda Standard cancels and replaces US CODEX STAN 97:1981 (Revision 1991), Standard for*

**72. US CODEX STAN 98:1981 (Revision:2015).
Standard for cooked cured chopped meat (2nd
edition).**

Scope: This Uganda Standard applies to products designated as "Chopped Meat" which have been packed in any suitable packaging material. *[This Uganda Standard cancels and replaces US CODEX STAN 98:1981 (Revision 1991), Standard for cooked cured chopped meat, which has been technically revised].*

4.4 Food additives and contaminants.

73. US 1723: 2017, Sucralose — Specification.

Scope: This Uganda Standard specifies requirements, sampling and test methods for food grade sucralose.

74. US 1902, 2017, Baker's yeast — Specification.

Scope: This Uganda Standard specifies requirements, sampling and test methods for baker's yeast.

4.5 Dairy and dairy products.

**75. US 33:2017, Edible ices and ice mixes —
Specification (2nd Edition).**

Scope: This Uganda Standard specifies the requirements, methods of sampling and test for edible ices ready for human consumption and ice mixes in liquid or powdered/dried form *(This Uganda Standard cancels and replaces US 33:2002, Standard specification for edible ices and ice mixes, which has been technically revised).*

**76. US 1597:2017, Flavoured milk — Specification (2nd
Edition).**

Scope: This Uganda Standard specifies requirements and methods of sampling and test for flavoured milk from cow, goat, camel, buffalo, or sheep milk. This standards does not apply to raw flavoured milk. *(This Uganda Standard cancels and replaces US 1597:2015, Flavoured UHT milk — Specification, which has been technically revised).*

(Cap. 83).

NOTICE.

NOTICE IS HEREBY GIVEN that any person who has grounds to oppose the registration of any of the marks advertised herein may within sixty days from the date of this *Gazette*, lodge a Notice of opposition on Trade Mark Form No. 6 together with a fee of Shs. 4000 in case of National applicants or US\$ 250 in case of Foreign applicants. The period of lodging Notice of opposition may be extended in suitable cases by the Registrar as he thinks fit upon such terms as he may direct. Formal opposition should not be lodged until after reasonable notice has been given by letter to the applicant so that he may have an opportunity to withdraw his application before the expense of opposition proceedings is incurred. Failure to give such notice will be taken into account in considering any application by the opponent for an order for costs if the opposition is uncontested by the applicant. Representations of the marks herein advertised can be inspected at the office of the Registrar of Trade Marks, Amamu House, Plot No. 5B George Street, P.O. Box 6848, Kampala.

ADVERTISEMENTS

THE REGISTRATION OF TITLES ACT.

(Cap. 230).

NOTICE.

ISSUE OF SPECIAL CERTIFICATE OF TITLE.

Busiro Block 535, Plot No. 44, Land at Ntinda.

NOTICE IS HEREBY GIVEN that after the expiration of one month from the publication hereof, I intend to issue in the names of George Wilson Ddungu, of P.O. Box Ntinda, a Special Certificate, the Title which was originally issued having been lost.

IN THE MATTER OF CHANGE OF NAMES

DEED POLL

KNOW YE ALL MEN, that by this Deed Poll, dated 8th day of December, 2017, I, **BANZUMA JULIET**, of Kasokoso Central 1, Iganga Municipality, Iganga District, formerly known as **BANZU JULIAN MARY**, a citizen of the Republic of Uganda by descent and birth, do solemnly make this Deed Poll thus:—

For and on behalf of myself, I hereby absolutely wholly renounce, relinquish, abandon and discard the use of my former name **BANZU JULIAN MARY**, and in lieu thereof do from now and onwards assume, adopt and take on from the date hereof the name **BANZUMA JULIET**, so that I may hereinafter be called, known and distinguished not by my former names of **BANZU JULIAN MARY** but by my new name **BANZUMA JULIET**.

For the purpose of evidence of such determination, I declare that I shall at all material times hereinafter, in all records, deeds, writings, and all proceedings, dealings and transactions, Public or private, and upon all accusations whatsoever, use and sign the name **BANZUMA JULIET** as my name in place of and in substitution of the name **BANZU JULIAN MARY**.

HOWEVER, all documents, instruments or writings whatsoever preceding this DEED POLL bearing the above-mentioned former names shall remain valid. I expressly here now and henceforth authorize and request all persons at all material times to designate me to such names of **BANZUMA JULIET** accordingly.

IN WITNESS WHEREOF, I hereunto sign and substitute my former name **BANZU JULIAN MARY** for my adopted name **BANZUMA JULIET**.

SIGNED by the said **BANZUMA JULIET**, this 8th day of December, 2017.

.....
BANZUMA JULIET,
Declarant.

IN THE MATTER OF THE OATHS ACT, CAP. 19

DEED POLL

Know ye all by this Deed Poll, that I, **MUKISA MARIANNE NAOMI NASSALI**, of C/o Postal Address Box Number 7062 Kampala, Uganda, formerly known as **MUKISA MARIANNE NAOMI** and also known as **MUKISA MARY NAOMI**, being one and the same person, a citizen of the Republic of Uganda, do hereby absolutely

renounce the use of my former name and in lieu thereof assume from the 2nd day of January, 2017 the name of

And in pursuance of such change of name as aforesaid. I hereby declare that at all material times hereafter, in all records, deeds and instruments in writing, and in all dealings and transactions, upon all occasions whatsoever when my name shall be required or used, I shall sign and, style by the name **MUKISA MARIANNE NAOMI NASSALI**.

IN WITNESS WHEREOF, I have hereunder signed and subscribed my name of **MUKISA MARIANNE NAOMI NASSALI**, this 2nd day of January, 2018.

.....
MUKISA MARIANNE NAOMI NASSALI,
Renouncer.

IN THE MATTER OF THE BIRTHS AND DEATHS
REGISTRATION ACT, CAP. 309

AND

IN THE MATTER OF REGISTRATION OF
DOCUMENTS ACT, (CAP. 81)

DEED POLL

BY THIS DEED POLL, I, the undersigned **KISOMOSE AHUMMED SSEBIDDE**, of C/o. NUWAGIRA, TUSIIME Advocates, of Prism Building, 3rd Floor, P.O. Box 33921 Kampala, an adult male, citizen of Uganda, formally called **ROBERT SSEBIDDE**, DO HEREBY SOLEMNLY renounce, abandon

and discard the use of my former name **ROBERT SSEBIDDE** and in lieu thereof, from now onwards adopt and assume the name **KISOMOSE AHUMMED SSEBIDDE**, and henceforth shall be known as **KISOMOSE AHUMMED SSEBIDDE**.

AND IN PURSUANCE of the said change and my determination to effect it, I do hereby declare that I shall at all material times hereafter, in all records, deeds, writings, proceedings, dealings, transactions, as well as public, private and all occasions whatsoever, use and sign in the names of **KISOMOSE AHUMMED SSEBIDDE**, and I expressly authorize and request all persons, at all times to designate and address me by my aforesaid new official name.

IN WITNESS WHEREOF, I have hereunto subscribed my former name of **KISOMOSE AHUMMED SSEBIDDE**, and affixed my signature this 12th day of December, 2017.

SIGNED, SEALED and DELIVERED BY the above named **KISOMOSE AHUMMED SSEBIDDE** formerly **ROBERT SSEBIDDE**.

.....

IN THE MATTER OF DEED POLL ACT, CAP. 85

AND

IN THE MATTER OF A DEED POLL BY
TUKASINGURA ZACHARIA

DEED POLL

I, **TUKASINGURA ZACHARIA**, of Gogonya I. Nsambya Central, Makindye Division, Kampala District, do hereby declare and state as follows;

1. THAT I am an adult male Uganda of sound mind.
2. THAT I was born and given the names of **TUKASINGURA ZACHARIA** by my parents and I came to be known by those names for all intents and purposes.
3. THAT my National Identity Card bears the names of **TUKASINGURA ZACHARIA BAKYENGA**.
4. THAT the name **BAKYENGA** is my maternal name.
5. THAT in the instant case, I prefer to be known as **TUKASINGURA ZACHARIA** for all purposes and intents.
6. THAT I make this Deed Poll declaration to explain the discrepancies appearing in my names on my copy of National Identity Card and in support of my application to have a new National Identity card in the names of **TUKASINGURA ZACHARIA**.
7. THAT what is declared herein in paragraphs 1, 2, 3, 4, 5, and 6 is true according to my knowledge and belief.

DECLARED at Kampala, by the said **TUKASINGURA ZACHARIA**, this 2nd day of January, 2018.

Tukasingura Zacharia

DEED POLL

BY THIS DEED, I, **MUHUMUZA SARAH IRUMBA**, of P.O. Box 10814, Kampala, a citizen of Uganda, and a holder of a Ugandan Passport No. **B0747453**, and a National Identity Card No. **CF52006100RATJ**; both documents issued to me in the name of **TIMARWA SARAH MUHUMUZA IRUMBA**, DO

HEREBY RENOUNCE AND ABANDON the use of my former name of **TIMARWA SARAH MUHUMUZA IRUMBA**, and in lieu thereof do assume as from the date

I HEREBY DECLARE that I shall at all times hereafter in all records, deeds and instruments in writing, and in all actions and proceedings, and in all dealings and transactions, and upon all occasions whatsoever, use and sign the said name of **MUHUMUZA SARAH IRUMBA** as my name in lieu of the said name of **TIMARWA SARAH MUHUMUZA IRUMBA** so renounced as aforesaid.

AND I HEREBY AUTHORIZE and request all persons to designate and address me by such assumed name of **MUHUMUZA SARAH IRUMBA** only.

IN WITNESS whereof, I have hereunder signed my assumed name of **MUHUMUZA SARAH IRUMBA**, this 28th day of December, 2017.

SIGNED, SEALED and DELIVERED by the above named **MUHUMUZA SARAH IRUMBA**.

OF THE CONSTITUTION—TRANSITIONAL PROVISIONS.**

8. Replacement of article 289 of the Constitution.
9. Insertion of new article 289A.
10. Replacement of article 291 of the Constitution.

THE CONSTITUTION (AMENDMENT) ACT, 2018.

An Act to amend the Constitution of the Republic of Uganda in accordance with articles 259 and 262 of the Constitution; to provide for the time within which to hold presidential, parliamentary and local government council elections; to provide for the term of Parliament; to provide for eligibility requirements for a person to be elected as President or District Chairperson; to increase the number of days within which to file and determine a presidential election petition; to increase the number of days within which the Electoral Commission is required to hold a fresh election where a presidential election is annulled; to provide for limits on the tenure of the President; to provide transitional provisions having regard to the amendments made; and for related matters.

DATE OF ASSENT: 27th December, 2017.

Date of Commencement: 5th January, 2018.

BE IT ENACTED by Parliament as follows:

PART I—AMENDMENT OF CHAPTER FIVE OF THE CONSTITUTION—
REPRESENTATION OF THE PEOPLE.

1. Amendment of article 61 of the Constitution.

Article 61 of the Constitution is amended—

(a) by substituting for clause (2) the following—

“(2) The Electoral Commission shall hold presidential, general parliamentary and local government council elections within the first thirty days of the last one hundred and twenty two days before the expiration of the term of the President, Parliament or local government councils as the case may be.”;

(b) in clause (3), by deleting the word “presidential”, appearing immediately after the word “hold”.

2. Amendment of article 77 of the Constitution.

Article 77 of the Constitution is amended in clause (3) by substituting for the word “five” appearing immediately before the word “years” the word “seven”.

PART II—AMENDMENT OF CHAPTER SEVEN
OF THE CONSTITUTION—THE EXECUTIVE.

3. Replacement of article 102 of the Constitution.

For article 102 of the Constitution, there is substituted the following—

“102. Qualifications and disqualifications of the President.

(1) A person is qualified for election as President if that person—

- (a) is a citizen of Uganda by birth;
- (b) is a registered voter; and
- (c) has completed a minimum formal education of Advanced Level standard or its equivalent.

(2) A person is not qualified for election as President if that person—

- (a) is of unsound mind;
- (b) is holding or acting in an office the functions of which involve a responsibility for or in connection with the conduct of an election;
- (c) is a traditional or cultural leader as defined in article 246(6) of this Constitution;
- (d) has been adjudged or otherwise declared bankrupt under any law in force in Uganda and has not been discharged;
- (e) is under a sentence of death or a sentence of imprisonment exceeding nine months imposed by any competent court without the option of a fine;
- (f) has, within seven years immediately preceding the election, been convicted by a competent court of an offence involving dishonesty or moral turpitude; or
- (g) has, within seven years immediately preceding the election, been convicted by a competent court of an offence under any law relating to elections conducted by the Electoral Commission.”

4. Amendment of article 104 of the Constitution.

Article 104 of the Constitution is amended by substituting for clauses (2), (3) and (6) the following—

“(2) A petition under clause (1) of this article shall be lodged in the Supreme Court registry within fifteen days after the declaration of the election results.

(3) The Supreme Court shall inquire into and determine the petition expeditiously and shall declare its findings and reasons not later than forty five days from the date the petition is filed.

(6) Where an election is annulled, a fresh election shall be held within sixty days from the date of the annulment.”

5. Amendment of article 105 of the Constitution.

Article 105 of the Constitution is amended—

(a) by substituting for clause (2) the following—

“(2) A person shall not hold office as President for more than two terms.”;

(b) by inserting immediately after clause (2) the following—

“(2a) A bill for an Act of Parliament seeking to amend this clause and clause (2) of this article shall not be taken as passed unless—

(a) it is supported at the second and third reading in Parliament by not less than two thirds of all Members of Parliament; and

(b) has been referred to a decision of the people and approved by them in a referendum.”

PART III—AMENDMENT OF CHAPTER ELEVEN OF
THE CONSTITUTION—LOCAL GOVERNMENT.

6. Amendment of article 181 of the Constitution.

Article 181 of the Constitution is amended in clause (4), by substituting for the word “five” appearing immediately before the word “years” the word “seven”.

7. Amendment of article 183 of the Constitution.

Article 183 of the Constitution is amended in clause (2) by repealing paragraph (b).

PART IV—AMENDMENT OF CHAPTER NINETEEN
OF THE CONSTITUTION—TRANSITIONAL PROVISIONS.

8. Replacement of article 289 of the Constitution.

Article 289 of the Constitution is amended by substituting for article 289 the following—

“289. Term of current Parliament.

Notwithstanding anything in this Constitution, the term of the Parliament in existence at the time this article comes into force, shall expire after seven years of its first sitting after the general elections.”

9. Insertion of new article 289A.

There is inserted, immediately after article 289, the following new article—

“289A. Application of Clause 2 of article 105.

Clause 2 of article 105 shall come into effect upon dissolution of the Parliament in existence at the commencement of this Act.”

10. Replacement of article 291 of the Constitution.

Article 291 of the Constitution is amended by substituting for article 291 the following—

“291. Term of current local government councils.

For the avoidance of doubt, the term of seven years prescribed for local government councils by clause (4) of article 181 of this Constitution shall apply to the term of the local government councils in existence at the commencement of this Act.”
