**NOTICE 1029 OF 2008****INTERNATIONAL TRADE ADMINISTRATION COMMISSION OF  
SOUTH AFRICA****TERMINATION OF THE INVESTIGATION INTO THE ALLEGED DUMPING  
OF EXTRUDED ALUMINIUM PROFILES ORIGINATING IN OR IMPORTED  
FROM THE PEOPLE'S REPUBLIC OF CHINA**

On 27 July 2007, the International Trade Administration Commission of South Africa (Commission) formally initiated an investigation into the alleged dumping of extruded aluminium profiles originating in or imported from the People's Republic of China (PRC). Notice of initiation of the investigation was published in Notice No.961 in Government Gazette No.30144 dated 10 August 2007.

The investigation was initiated after the Commission considered an application by the Association of Aluminium Extruders (Applicant), alleging that extruded aluminium profiles originating in or imported from the PRC were imported into the Southern African Customs Union (SACU) at dumped prices and the Commission was satisfied that there was a *prima facie* case of dumping, material injury and causal link.

Subsequent to invitation, exporters and importers questionnaires were sent to various known interested parties for completion.

After considering all information verified, the Commission made a preliminary determination that dumping of the subject product originating in or imported from the PRC was taking place, that the SACU industry was suffering material injury, but that there were other factors detracting from the causal link between the dumping of the subject products and the injury.

The Commission's preliminary report was sent to all interested parties for comments. The only comments in disagreement with the provisional findings were from the Applicant.

On 14 December 2007, the Commission decided that the information supplied by two exporters, which was regarded as deficient for the purpose of the preliminary determination, but subsequently has been rectified, should be accepted as accurate for the purpose of its final determination.

After considering the comments, the Commission, on 13 May 2008, made a determination that it is considering recommending that:

- The subject products originating in or imported from the PRC are being dumped into the SACU market by those exporters that did not cooperate in the investigation;
- The Applicant was experiencing material injury but no threat of further injury as there was no evidence of a substantial increase in the volume of imports subsequent to the period of investigation;
- There was insufficient evidence that a threat of material injury exist and that the 26% by volume of imports not verified which were allegedly dumped at a margin of 10.66%, was insufficient to cause material injury; and
- The injury experienced could not be causally linked to dumped imports as 74% of the imports from the PRC were verified and found not to be dumped.

On 16 May 2008, essential facts letters were sent to all interested parties inviting them to comment on the Commission's proposed final determination. The only comment received was from the Applicant.

On 15 July, the Commission, after considering all comments received, made a final determination to recommend to the Minister of Trade and Industry to terminate the investigation into the alleged dumping of extruded aluminium profiles originating in or imported from the PRC.

The Commission's detailed reasons for its decision are set out in Commission Report No. 278 (Final determination).

**Enquiries may be directed to the investigating officers, Mr Albert Strydom at telephone (012) 394 3597 or Mr Edwin Mkwanazi at telephone (012) 394 3742 or at fax (012) 395 0518.**

**NOTICE 1030 OF 2008****INTERNATIONAL TRADE ADMINISTRATION COMMISSION****SAFEGUARD DUTIES ON LYSINE - NOTICE OF POSSIBLE INCLUSION OF INDONESIA**

The International Trade Administration Commission of South Africa (the Commission) received an application from SA Bioproducts (Pty) Ltd, the only producer of L-Lysine HCl in SACU, requesting it to make the imports of the subject product from Indonesia subject to the safeguard duties currently in place on the subject product.

The Commission, therefore, notifies all interested parties that it is considering to recommend to the Minister of Trade and Industry to make imports of the subject product from Indonesia subject to the safeguard duty, in terms of Section 21.20 of the Amended Safeguard Regulations, as the imports from Indonesia increased to a level higher than 3 per cent of the total imports recorded for the original period of investigation.

**DESCRIPTION OF THE SUBJECT PRODUCTS UNDER INVESTIGATION**

The subject products are described as L-Lysine HCl (scientific name) or commonly known as lysine powder, classifiable under tariff subheading 2922.41, and feed supplements containing by mass 40% or more lysine, whether or not containing added antibiotics or added melengestrol acetate (scientific name) or commonly known as L-Lysine sulphate and its by-products from fermentation, or Biolys or Protein Lysine, classifiable under tariff subheading 2309.90.65.

## **CONFIDENTIAL INFORMATION**

Please note that if any information is considered to be confidential, a non-confidential version of the information must be submitted for the public file, simultaneously with the confidential version. In submitting a non-confidential version, the following rules are strictly applicable and parties must indicate:

- where confidential information has been omitted and the nature of such information;
- reasons for such confidentiality;
- a summary of the confidential information which permits a reasonable understanding of the substance of the confidential information; and
- in exceptional cases, where information is not susceptible to summary, reasons must be submitted to this effect.

This rule applies to all parties and to all correspondence with and submissions to the Commission, which unless indicated to be confidential and filed together with a non-confidential version, will be placed on the public file and be made available to other interested parties.

If a party considers that any document of another party, on which that party is submitting representations, does not comply with the above rules and that such deficiency affects that party's ability to make meaningful representation, the details of the deficiency and the reasons why that party's rights are so affected must be submitted to the Commission in writing forthwith (and at the latest 14 days prior to the date on which that party's submission is due). Failure to do so timeously will seriously hamper the proper administration of the investigation, and such party will not be able to subsequently claim an inability to make meaningful representation on the basis of the failure of such other party to meet the requirements.

Subsection 33(1) of the ITA Act provides that any person claiming confidentiality of information should identify whether such information is *confidential by nature* or is *otherwise confidential* and any such claims must be supported by a written statement, in each case, setting out how the information satisfies the requirements of the claim to confidentiality. In the alternative, a sworn statement should be made, setting out reasons why it is impossible to comply with these requirements.
