Zambia Electricity Supply Corporation Limited**Tender: ZESCO/033/2016: Expression of Interest for Modelling and Testing of Four Generating Units for Grid Compliance, Tuning of Power System Stabiliser and Building Capacity for Performing Tests on the Units in Future.***Introduction*

THE Government of the Republic of Zambia issued Statutory Instrument 79 of 2013, called the electricity Grid Code whose objective is to regulate participants in the generation, transmission, bulk supply and operation and maintenance of Interconnected Power System through the Energy Regulation Board. ZESCO Limited is among these participants to be regulated and is therefore obligated to adhere to the provisions of the Statutory Instrument.

Scope

ZESCO wishes to engage a qualified Consultant to provide services in testing models for three generators and at the same time build capacity amongst power station and system operations engineers to carry out this work for the rest of the units. The full scope of work entails provision of the following services:

Measuring and testing of three hydro generating units i.e. one at Kafue Gorge Power Station and two at Kariba North Bank Power Station for Zambian Grid Code compliance;

Using the developed models and the Southern African Power Pool Network Models, determine suitable Power System Stabiliser setting for the hydro generating units at Kafue Gorge Power Station and Kariba North Bank Station and implement the setting to ensure adequate damping of low frequency power oscillations as well as correct operation during transient response of the excitation system and governors. The Consultant shall also be expected to develop criteria for PSS monitoring and review;

off site and on-site training of four engineers in grid code compliance testing, system dynamic modeling and validation; as well as power system stabiliser tuning; and

Supply of all the relevant test equipment to be used on this project.

Expected Benefits of Modelling and Testing of Generating Units for Grid Code Compliance

The following benefits are expected from the implementation of this project:

- (a) Compliance to Zambian Grid Code;
- (b) Development of the governor and excitation system models for use in dynamic (Steady state and transient) system studies;
- (c) Determination of suitable PSS setting for the hydro generating units at Kafue Gorge Power Station and Kariba North Bank Power Station and subsequent implementation to ensure adequate damping of low frequency power oscillations as well as correct operation during transient response of the excitation system and governors;
- (d) Development of in-house capacity to conduct Grid Code compliance tests and PSS tuning of Units; and
- (e) Acquisition of all the relevant test equipment and software to be used for conducting Grid Code compliance test and PSS tuning.

Terms of Reference for the Assignment

In delivering the assignment, Consultant shall as a minimum be required to:

- (a) Perform a site visit for technical data collection and verification as well as to set in place arrangement for measurement and testing;

(b) Prepare and submit for approval a detailed measurement and testing plan for this project. Note that unit outages will need to be kept to a minimal and therefore, the Consultant is requested to ensure that work cluster are created wherever possible to minimize any given unit outage. No site measurement and tests shall be carried out without an approved specific site test plan;

(c) Provide a minimum of two weeks off-site training for five engineers in grid code compliance test, system dynamic modeling and validation as well as PSS training and in two weeks on-site training for up to a minimum of ten engineers. The training shall be done prior to the commencement of the site measurement and testing as well as model development. The Consultant shall be required to submit a comprehensive (sufficient to build capacity for ZESCO engineers to continue carrying out such tests on ZESCO equipment) training program and content for approval by ZESCO;

(d) Conduct site measurement and tests;

(e) Derive the governor and excitation system models;

(f) Modeling of Zambian power plants within SAPP system model;

(g) Conduct simulation test to validate the models. The Consultant shall be required to provide the list of tests to be performed for validation of the models for approval by ZESCO prior to commencement or works;

(h) Determine appropriate PSS setting and implement the settings after approval by the ZESCO and

(i) Test the units for Zambian Grid Code Compliance.

Qualifications and Experience of Consultants

The Consultants shall:

- (a) Demonstrable experience in Testing Hydro-generators for Grid Code Compliance;
- (b) Demonstrable experience in Governor and AVR modeling;
- (c) Demonstrable experience in power System Stabiliser Studies and PSS Tuning;
- (d) A thorough knowledge of the SAPP interconnected system and possession of region experience will be added advantage; and
- (e) The team leader shall have a minimum qualification of a Master Degree in Electrical power Systems or equivalent a minimum of 10 years work experience

The Expression of Interest clearly marked "Expression of Interest for Modeling and Testing of Four Generating Units for grid Compliance, Tuning of Power System Stabilisation and building capacity for performing Tests on the Units in future—Tender number: " ZESCO /033/2016 " may be deposited in the tender box situated at the ZESCO Procurement Offices, Ground Floor, Regional Control Centre Building, Stand No 6949, Great East Road, Lusaka on or before Friday, 13th May, 2016 at 1030 hours local time.
