GOVERNMENT GAZETTE

Conditions of Acceptance of Copy

FAILURE to comply with any of the following conditions will result in the rejection of copy, and no responsibility can be accepted if such rejection should affect any date contained in such copy or any requirement of publication on a specific date.

Persons drafting any kind of notices are strongly advised to follow the guidance offered in—

- (a) the Instructions Relating to the Drafting and Typing of Legislation (Attorney-General's Circular 1 of 1978); and
- (b) the Manual of Style for the Drafting and Preparation of copy published by Printflow (Private) Limited;

which two booklets are intended for complementary use.

In these conditions, other than where a particular kind of copy is specified, "copy" means copy for all matter contained in the *Gazette* itself and for subsidiary legislation issued as supplements to the *Gazette*.

1. (1) Other than by prior arrangements, only original typing is accepted.

(2) Carbon-copies are not normally acceptable, other than in cases where the original typing has to be legally retained, elsewhere, as, for example, in the case of a proclamation.

(3) Computer print-outs are not accepted automatically, as discussion may be necessary with regard to the extra time and costs involved.

2. (1) All copy must be clear and legible, and there must be double or one and a half spacing between the lines.

(2) Any corrections or alterations made by the originator, must be clearly effected in blue or black ink, using editorial marks—not proof-reader's marks:

Provided that any copy containing extensive alterations will be rejected.

3. (1) Copy must appear on one side only of each sheet of paper.

(2) Except as is provided in subsection (2) of section 8, paper must not exceed 210 millimetres in width.

(3) If copy comprises two or more sheets of paper, all sheets must be numbered consecutively, in arabic figures, preferably in the top right-hand corner.

(4) Where any matter is added after the copy has been prepared, and such additional matter results in one or more sheets being inserted between those already numbered, all sheets must be renumbered from there onwards—not, for instance 7,7b, 8, *et cetera*.

4. Photographic copy or copy produced on a duplicating machine may be accepted if it is abundantly clear.

5. (1) Should any copy—

(a) exceed 10 pages of double-spaced typing on size A4 paper; or

(b) contain tabular or other matter which involves complicated setting; it will be classed as "lengthy" copy, and will be required to be submitted not less than 21 days before the date of closing for the *Gazette* in which it is to be published.

(2) Lengthy copy may be accepted at less than 21 days' notice if—

(a) the work involved is of a straight forward and non-tabular nature; and

(b) the total volume of work on hand for the time being permits its acceptance.

6. Notwithstanding anything to the contrary contained in these conditions, any copy—

(a) which is of national importance, and which is originated as a matter of urgent necessity, may, by prior arrangement, be accepted late for the current week;

(b) may, due to shortage of staff or to technical considerations, be delayed until conditions permit its processing.

7. Copy must not be submitted as part of a letter or a requisition. It must appear on a separate sheet of paper, on which there is no instruction or other extraneous matter.

8. (1) Incases where notices have to be published in tabular form, copy must be drafted exactly as it is to appear. If printed forms for any such notices are unavailable, advertisers must prepare their own forms. While it is not necessary to include the preamble, the box-headings must be there, and, where applicable, the number of the form; for example, "Insolvency Regulations—Form 3".

(2) In the case of copy for tabular notices, the provision of subsection (2) of section 3 does not apply.

9. Copy for all advertisements, whether sent by post or delivered by hand, must be accompanied by a requisition or a letter which clearly sets out—

(a) the name and address of the advertiser; and

(b) the debtor's code number, if any; and

(c) the required date or dates of publication.

10. If a typographical error occurs in the *Gazette*, it is rectified as soon as possible by a correcting notice without charge to the ministry or department concerned, subject to the following conditions—

- (a) that such error is reported to the editor within three months from the date of publication; and
- (b) that the relevant copy, upon re-examination, is proved to be abundantly clear; and
- (c) that the correction of such error is legally necessary.

(2) If a drafting error is not detected before publication, the originating ministry or department is required to draft its own correcting notice, take it to the Attorney-General for vetting and pay for such notice to be published.

(3) For the removal of doubt—

- (a) a typographical error is made by a typographer;
- (b) a typist's error is classed as a drafting error by reason of the fact that the officer responsible for drafting failed to check the typist's work.

GOVERNMENT GAZETTE

Submission of Copy for Government *Gazette* Statutory
Instruments and Notices

IT is hereby notified, for general information, that it is necessary to draw attention to the "Conditions for Acceptance of Copy", which appears in every issue of the *Gazette*, and particularly the need to

submit lengthy copy, in the case of Statutory Instruments, at least 21 days before the date of closing for the *Gazette* in which the notice is to be published.

During the past few months or so there have been many cases where urgent copy for subsidiary legislation, which requires the signature of the President or a minister to give it effect, and which is of national importance, has been sent in for publication in the *Gazette* after closing-time. Whilst I acknowledge that it is the duty of Printflow (Private) Limited to give certain notices special treatment, I am, however, of the view that a *Gazette* Extraordinary has tended to be a must rather than a matter of priority in respect of unwarranted delays of urgent copy.

While every effort will continue to be made to publish Extraordinaries on the required dates, copy must be submitted timeously so that it can be programmed into the printing-work-flow as soon as it is available.

H. MATINGWINA,
Gazette Editor.

17 Guarantee against expropriation

- (1) No—
- (a) investment shall be nationalised or expropriated; and
 - (b) investor shall be compelled to cede an investment to another person, either directly or indirectly through measures having an effect equivalent to nationalisation or expropriation;

except for a public purpose, in accordance with due process of law, in a non-discriminatory manner and on payment of prompt, adequate and effective compensation.

(2) The compensation referred to in subsection (1) shall be equivalent to the fair market value of the expropriated investment immediately before the expropriation took place (the date of expropriation) or, where the value of the property was negatively impacted by notice of imminent expropriation, immediately before such notice. Valuation criteria shall include going concern value, asset value including declared tax value of tangible property, and other criteria, as appropriate, to determine the fair market value.

- (3) Compensation referred to in subsection (1) shall—
- (a) be paid without delay and shall be fully realisable and freely transferable; and
 - (b) be payable in a freely convertible currency and shall include interest at a commercially reasonable rate for that currency from the date of expropriation until the date of payment.

(4) The affected investor shall have a right, under the law of Zimbabwe, to prompt review, by a judicial or other independent authority, of its case and of the valuation of its investment in accordance with the principles set out in this section.

(5) For purposes of this section, indirect expropriation occurs if a measure or series of measures of the Government has an effect equivalent to direct expropriation, in that it substantially deprives the investor of the fundamental attributes of property in its investment, including the right to use, enjoy and dispose of its investment, without formal transfer of title or outright seizure.

(6) The determination of whether a measure or series of measures, in a specific fact situation, constitutes an indirect expropriation requires a case-by-case, fact-based inquiry that takes into consideration, among other factors —

- (a) the economic impact of the measure or series of measures, although the sole fact that a measure or series of measures has an adverse effect on the economic value of an investment does not establish that an indirect expropriation has occurred; and
- (b) the duration of the measure or series of measures; and
- (c) the extent to which the measure or series of measures interferes with distinct, reasonable investment-backed expectations; and
- (d) the character of the measure or series of measures, notably their object, context and intent.

(7) Non-discriminatory measures that are designed and applied to protect legitimate public welfare objectives, such as health, safety and the environment, do not constitute indirect expropriations, except in the rare circumstance when the impact of a measure or series of measures is so severe in light of its purpose that it appears manifestly excessive.

18 Transparency

(1) All laws, regulations, procedures, and administrative rulings that affect or pertain to investments or investors shall be promptly made publicly available.

(2) Policies that affect investments or pertain to investors which are not expressed in laws and regulations, as well as adjudicatory decisions in respect to any matter covered by the Act, shall be made publicly available in a timely manner.

(3) Notwithstanding subsections (1) and (2), this section does not require disclosure of any confidential or proprietary information, including information concerning particular investors or investments, or investment disputes, the disclosure of which would—

- (a) impede law enforcement or national security; or
- (b) be contrary to laws protecting confidentiality or to the public interest; or
- (c) prejudice the legitimate commercial interests of a particular public or private entity.

19 Transfer of funds

(1) With respect to investments made under this Act, investors may without restriction or delay in a freely convertible currency transfer the following funds into and out of Zimbabwe —

- (a) contributions to capital, such as principal and additional funds to maintain, develop or increase the investment; and
- (b) proceeds, profits from the asset, dividends, royalties, patent fees, licence fees, technical assistance and management fees, shares and other current income resulting from any investment under this Act; and
- (c) proceeds from the sale or liquidation of the whole or part of an investment or property owned by an investment; and
- (d) payments made under a contract entered into by the investor or investment, including payments made pursuant to a loan agreement; and
- (e) payments resulting from any settlement of investment disputes pursuant to section 38; and
- (f) earnings and other remuneration of foreign personnel legally employed in Zimbabwe in connection with an investment.

(2) Any transfer of funds shall be allowed only after paying all tax obligations imposed on the amount to be transferred in accordance with the stipulated tax laws.

(3) The Government may, in an equitable and non-discriminatory manner, prevent or delay a transfer of funds relating to any of the following circumstances —

- (a) bankruptcy, insolvency or the protection of the rights of creditors; or
- (b) criminal or penal offences; or
- (c) financial reporting or record keeping of transfers when necessary to assist law enforcement or financial regulatory authorities; or
- (d) ensuring compliance with orders or judgments in judicial or administrative proceedings.

(4) Notwithstanding subsections (1) and (2), in the event of serious balance - of-payments or external financial difficulties, the Government may temporarily restrict payments or transfers related to investments, provided that such restrictions are imposed on a non-discriminatory and good faith basis.

A contractual arrangement whereby a counterparty undertakes the construction, including financing, of a given infrastructure facility, and the operation and maintenance thereof. The counterparty operates the facility over a fixed term during which the

counter-party is allowed to collect user levies, fees, rentals and other charges not exceeding those proposed in the bid or as negotiated and incorporated in the agreement or regulations to enable the recovery of the investment in the project. The counterparty transfers the project to the Government or the contracting authority concerned at the end of the fixed term that shall be specified in the agreement. This includes a supply and operate situation which is a contractual arrangement whereby the supplier of equipment and machinery for a given project, if the interest of the Government or the contracting Authority so requires, operates the facility, providing in the process technology transfer and training to Government, a regulatory authority, the contracting Authority or nominated individuals.

4. Build, Own and Operate (BOO)

A contractual arrangement whereby a counterparty is authorised to finance, construct, own, operate and maintain a project from which the counterparty is allowed to recover its total investment by collecting user levies. Under the project, the counterparty owns the assets of the project and may choose to assign its operation and maintenance to a project operator. The transfer of the project to the Government or the contracting Authority is not envisaged in this structure. However, the Government or contracting Authority may terminate its obligations after a specified time period.

5. Build, Own, Operate and Transfer (BOOT)

A contractual arrangement whereby a counterparty is authorised to finance, construct, maintain and operate a project and whereby the project is to vest in the counterparty for a specific period. During the operation period, the counterparty will be permitted to charge user levies specified in the agreement, in order to recover the investment made in the project. The counterparty is liable to transfer the project to the Government or the contracting Authority after the expiry of the specified period of operation.

6. Build, Transfer and Operate (BTO)

A contractual arrangement whereby the Government or a contracting Authority contracts out a project to a counterparty to construct the facility on a turnkey basis, assuming costs overruns, delays and other specified performance risks. Once the facility is commissioned satisfactorily, the counterparty is given the right to operate the project and collect user levies under an agreement. The title of the project always vests with the Government or the contracting authority in this arrangement.

7. Contract, Add and Operate (CAO)

A contractual arrangement whereby the counterparty adds to an existing project which it rents from the Government or a contracting authority and operates the expanded project and collects user levies, to recover the investment over an agreed franchise period. There may or may not be a transfer arrangement with regard to the added facility provided by the counterparty.

8. Develop, Operate and Transfer (DOT)

A contractual arrangement whereby favourable conditions external to a new project which is to be built by a counterparty are integrated into the BOT arrangement by giving the counterparty the right to develop adjoining property and thus enjoy some of the benefits the investment creates such as higher property or rent values.

9. Rehabilitate, Operate and Transfer (ROT)

A contractual arrangement whereby an existing facility is handed over to a counterparty to refurbish, operate and collect user levies in the operation period to recover the investment and maintain for a franchise period, at the expiry of which the facility is turned over to the Government or a contracting authority. The term is also used to describe the purchase of an existing facility from abroad, and importing, refurbishing, erecting and consuming it within the host country.

10. Rehabilitate, Own and Operate

A contractual arrangement whereby an existing facility is handed over to the counterparty to refurbish and operate with no time limitation imposed on ownership. As long as the counterparty is not in violation of its franchise, it can continue to operate the facility and collect user levies in perpetuity.

11. Build, Own, Operate and Maintain Contract

A contractual arrangement whereby a counterparty undertakes to finance, construct, operate and maintain a project and whereby such project is to vest in the counterparty for a specified period. During the period of operation of the project, the counterparty may be permitted to charge user levies as specified.

12. Lease Management Contract

A contractual arrangement whereby the Government or a contracting authority leases a project owned by the Government to the person who is permitted to operate and maintain the project for the period specified in the agreement and to charge user levies therefor.

13. Management Contract

A contractual arrangement whereby the Government or a contracting authority entrusts the operation and management of a project to a person for the period specified in the agreement on payment of specified consideration. In such agreement, the Government or the contracting Authority may charge the user levies and collect the same either itself or entrust the collection, for consideration, to any person who shall after collecting the user levies pay the same to the Government or the contracting authority.

14. Service Contract

A contractual arrangement whereby an existing project vested in a counterparty to renovate, operate and maintain. The counterparty shall be permitted to charge levies as specified in the agreement.

15. Contract for Services

A contractual arrangement whereby a counterparty undertakes to provide services to the Government or contracting authority for a period. The Government or the contracting Authority shall pay the counterparty an amount according to the agreed schedule.

16. Supply, Operate and Transfer

A contractual arrangement whereby a counterparty supplies to the Government or a contracting authority the equipment and machinery for a project and undertakes to operate the project for a period and consideration specified in the agreement.
